NOTE duration:"00:02:08.7250000"

NOTE language:en-us

NOTE Confidence: 0.852742850780487

00:00:00.000 --> 00:00:02.775 Cervical cancer is a gynaecologic

NOTE Confidence: 0.852742850780487

00:00:02.775 --> 00:00:06.126 malignancy where women are affected by

NOTE Confidence: 0.852742850780487

00:00:06.126 --> 00:00:09.072 a cancerous growth on their service

NOTE Confidence: 0.852742850780487

00:00:09.072 --> 00:00:11.608 and it's unfortunately the third

NOTE Confidence: 0.852742850780487

00:00:11.608 --> 00:00:13.572 most common gynaecologic malignancy

NOTE Confidence: 0.852742850780487

00:00:13.572 --> 00:00:16.970 that we see and trade in the

NOTE Confidence: 0.842312422665683

00:00:16.970 --> 00:00:20.140 United States. Women who have

NOTE Confidence: 0.842312422665683

00:00:20.140 --> 00:00:23.830 multiple sexual partners and who have

NOTE Confidence: 0.839994549751282

00:00:23.830 --> 00:00:27.586 more exposure to HPV virus are

NOTE Confidence: 0.839994549751282

00:00:27.586 --> 00:00:31.010 higher risk for cervical cancer.

NOTE Confidence: 0.839994549751282

00:00:31.010 --> 00:00:34.395 Also, the women with less

NOTE Confidence: 0.839994549751282

00:00:34.395 --> 00:00:37.103 health compliance and health

NOTE Confidence: 0.839994549751282

00:00:37.103 --> 00:00:40.148 literacy are at increased risk

NOTE Confidence: 0.846502661705017

00:00:40.150 --> 00:00:43.170 for cervical cancer. The solution

NOTE Confidence: 0.846502661705017
00:00:43.170 --> 00:00:45.586 to preventing cervical cancer
NOTE Confidence: 0.849756717681885
00:00:45.590 --> 00:00:46.979 comes from health
NOTE Confidence: 0.849756717681885
00:00:46.980 --> 00:00:48.952 compliance and cervical screening,
NOTE Confidence: 0.849756717681885
00:00:48.952 --> 00:00:52.980 which might be employed in one or many ways.
NOTE Confidence: 0.849756717681885
00:00:52.980 --> 00:00:56.301 The most common way that we do use in
NOTE Confidence: 0.849756717681885
00:00:56.301 --> 00:00:59.910 the United States is cervical cytology,
NOTE Confidence: 0.849756717681885
00:00:59.910 --> 00:01:02.145 meaning cervical pap smears when
NOTE Confidence: 0.849756717681885
00:01:02.145 --> 00:01:04.380 women present to their annual
NOTE Confidence: 0.849756717681885
00:01:04.458 --> 00:01:06.838 exams to see their gynecologists.
NOTE Confidence: 0.849756717681885
00:01:06.840 --> 00:01:10.536 They get the pop smear from the cervix,
NOTE Confidence: 0.849756717681885
00:01:10.540 --> 00:01:12.825 which can detect precancerous cells
NOTE Confidence: 0.849756717681885
00:01:12.825 --> 00:01:16.130 and give give us a latency or.
NOTE Confidence: 0.849756717681885
00:01:16.130 --> 00:01:19.077 You know window where we can intervene
NOTE Confidence: 0.846786886453629
00:01:19.080 --> 00:01:20.964 and prevent these cancers?
NOTE Confidence: 0.846786886453629
00:01:20.964 --> 00:01:22.848 There are many advances,
NOTE Confidence: 0.846786886453629

00:01:22.850 --> 00:01:25.430 both prevention and therapedic phases

NOTE Confidence: 0.841642618179321

00:01:25.430 --> 00:01:26.834 of cervical cancer.

NOTE Confidence: 0.841642618179321

00:01:26.834 --> 00:01:30.840 The one that we are most excited about

NOTE Confidence: 0.841642618179321

00:01:30.840 --> 00:01:34.626 as far as Preventionist concern is

NOTE Confidence: 0.841642618179321

00:01:34.626 --> 00:01:37.044 the prophylactic vaccinations that

NOTE Confidence: 0.841642618179321

00:01:37.044 --> 00:01:40.068 we have been fortunate enough to use

NOTE Confidence: 0.841642618179321

00:01:40.068 --> 00:01:44.559 in the US for a decade or over now,

NOTE Confidence: 0.841642618179321

00:01:44.560 --> 00:01:47.120 and these vaccinations are extremely

NOTE Confidence: 0.841642618179321

00:01:47.120 --> 00:01:50.275 efficacious since they give the human

NOTE Confidence: 0.841642618179321

00:01:50.275 --> 00:01:52.850 immunity against the most commonly.

NOTE Confidence: 0.841642618179321

00:01:52.850 --> 00:01:56.665 Seen HPV virus types and therefore we

NOTE Confidence: 0.841642618179321

00:01:56.665 --> 00:02:00.480 can easily prevent this cancer in young

NOTE Confidence: 0.77857106924057

00:02:00.480 --> 00:02:02.660 women by oxygenating them.
