

WEBVTT

NOTE duration:"01:13:16.5220000"

NOTE language:en-us

NOTE Confidence: 0.8525388

00:00:04.420 --> 00:00:08.578 Well it's 702 and why don't we get started?

NOTE Confidence: 0.8525388

00:00:08.580 --> 00:00:11.280 I want to welcome everyone to

NOTE Confidence: 0.8525388

00:00:11.280 --> 00:00:13.660 our Smilow Patient Family Forum,

NOTE Confidence: 0.8525388

00:00:13.660 --> 00:00:16.532 as many of you know this has been

NOTE Confidence: 0.8525388

00:00:16.532 --> 00:00:20.159 an event that we have been holding

NOTE Confidence: 0.8525388

00:00:20.159 --> 00:00:22.415 electronically through zoom really

NOTE Confidence: 0.8525388

00:00:22.415 --> 00:00:25.291 since the beginning of the pandemic

NOTE Confidence: 0.8525388

00:00:25.291 --> 00:00:29.323 early last year and we we do this

NOTE Confidence: 0.8525388

00:00:29.323 --> 00:00:32.328 really because we know that.

NOTE Confidence: 0.8525388

00:00:32.330 --> 00:00:34.586 People want to be informed and

NOTE Confidence: 0.8525388

00:00:34.586 --> 00:00:36.090 know what's going on,

NOTE Confidence: 0.8525388

00:00:36.090 --> 00:00:38.770 and it is our goal at Smilow Cancer

NOTE Confidence: 0.8525388

00:00:38.770 --> 00:00:41.297 Hospital in the old Cancer Center to

NOTE Confidence: 0.8525388

00:00:41.297 --> 00:00:43.579 keep our patients and our families

NOTE Confidence: 0.8525388

00:00:43.579 --> 00:00:46.105 informed and know what we're doing

NOTE Confidence: 0.8525388

00:00:46.105 --> 00:00:48.534 to address this public health crisis,

NOTE Confidence: 0.8525388

00:00:48.534 --> 00:00:51.250 what we're doing to ensure that the

NOTE Confidence: 0.8525388

00:00:51.320 --> 00:00:53.938 care of patients is attended to with

NOTE Confidence: 0.8525388

00:00:53.938 --> 00:00:56.020 the same attention we do always,

NOTE Confidence: 0.8525388

00:00:56.020 --> 00:00:59.660 and also how we do it in a way that

NOTE Confidence: 0.8525388

00:00:59.771 --> 00:01:03.208 keeps you and all our staff safe.

NOTE Confidence: 0.8525388

00:01:03.210 --> 00:01:03.700 Um?

NOTE Confidence: 0.8525388

00:01:03.700 --> 00:01:06.640 This has been obviously a very

NOTE Confidence: 0.8525388

00:01:06.640 --> 00:01:09.099 challenging time for all of us,

NOTE Confidence: 0.8525388

00:01:09.100 --> 00:01:11.535 and we really appreciate everything

NOTE Confidence: 0.8525388

00:01:11.535 --> 00:01:14.741 you're doing to work with us on

NOTE Confidence: 0.8525388

00:01:14.741 --> 00:01:17.142 this and and obviously we are here

NOTE Confidence: 0.8525388

00:01:17.142 --> 00:01:19.330 to answer your questions.

NOTE Confidence: 0.8525388

00:01:19.330 --> 00:01:19.699 Unfortunately,

NOTE Confidence: 0.8525388

00:01:19.699 --> 00:01:22.282 today joined by a number of our
NOTE Confidence: 0.8525388

00:01:22.282 --> 00:01:24.261 leaders at our cancer hospital
NOTE Confidence: 0.8525388

00:01:24.261 --> 00:01:25.817 and our health system,
NOTE Confidence: 0.8525388

00:01:25.820 --> 00:01:28.226 and I'll just call out their
NOTE Confidence: 0.8525388

00:01:28.226 --> 00:01:31.324 names and ask them to just wave so
NOTE Confidence: 0.8525388

00:01:31.324 --> 00:01:33.079 we know who they are.
NOTE Confidence: 0.8525388

00:01:33.080 --> 00:01:35.366 So joined today by Kim Slusser,
NOTE Confidence: 0.8525388

00:01:35.370 --> 00:01:37.596 who is Vice president for patient
NOTE Confidence: 0.8525388

00:01:37.596 --> 00:01:39.637 services and our Chief Nursing
NOTE Confidence: 0.8525388

00:01:39.637 --> 00:01:42.067 Officer for Smaller Cancer Hospital.
NOTE Confidence: 0.8525388

00:01:42.070 --> 00:01:43.339 Doctor Kevin Billinsley,
NOTE Confidence: 0.8525388

00:01:43.339 --> 00:01:45.454 who's our Chief Medical Officer
NOTE Confidence: 0.8525388

00:01:45.454 --> 00:01:48.357 and a professor of surgery at Yale.
NOTE Confidence: 0.8525388

00:01:48.360 --> 00:01:49.515 Doctor Om Desponding,
NOTE Confidence: 0.8525388

00:01:49.515 --> 00:01:51.440 who is the executive Director
NOTE Confidence: 0.8525388

00:01:51.440 --> 00:01:53.500 of Clinical Operations for Yale,

NOTE Confidence: 0.8525388

00:01:53.500 --> 00:01:55.600 New Haven Health System.

NOTE Confidence: 0.8525388

00:01:55.600 --> 00:01:57.700 A doctor Tarin Edelson,

NOTE Confidence: 0.8525388

00:01:57.700 --> 00:02:00.717 who is the chief quality officer and

NOTE Confidence: 0.8525388

00:02:00.717 --> 00:02:03.528 Deputy Chief medical officer for Smilow,

NOTE Confidence: 0.8525388

00:02:03.530 --> 00:02:06.182 an medical oncologist in the breast

NOTE Confidence: 0.8525388

00:02:06.182 --> 00:02:08.470 program and Doctor Terra staff,

NOTE Confidence: 0.8525388

00:02:08.470 --> 00:02:10.840 who is the chief Patient experience

NOTE Confidence: 0.8525388

00:02:10.840 --> 00:02:13.859 officer and as well medical oncologist.

NOTE Confidence: 0.8525388

00:02:13.860 --> 00:02:16.668 In our press program.

NOTE Confidence: 0.8525388

00:02:16.670 --> 00:02:19.659 In our goal today is is really

NOTE Confidence: 0.8525388

00:02:19.659 --> 00:02:22.649 to share updates to discuss the

NOTE Confidence: 0.8525388

00:02:22.649 --> 00:02:24.797 the opportunities of vaccinations

NOTE Confidence: 0.8525388

00:02:24.797 --> 00:02:28.407 as well as with Doctor Sam Self.

NOTE Confidence: 0.8525388

00:02:28.410 --> 00:02:31.994 Also think about what we can do in

NOTE Confidence: 0.8525388

00:02:31.994 --> 00:02:36.226 terms of the well being of our patients.

NOTE Confidence: 0.8535988

00:02:38.820 --> 00:02:40.105 So I'm just gonna I'm
NOTE Confidence: 0.8535988

00:02:40.105 --> 00:02:41.390 gonna show a few slides.
NOTE Confidence: 0.8535988

00:02:41.390 --> 00:02:44.100 This is showing up, yes.
NOTE Confidence: 0.8535988

00:02:44.100 --> 00:02:47.138 Good, so um the agenda is first,
NOTE Confidence: 0.8535988

00:02:47.140 --> 00:02:50.430 we'll hear some updates from Tim Schlosser
NOTE Confidence: 0.8535988

00:02:50.430 --> 00:02:52.699 and Kevin Billingsley about what's
NOTE Confidence: 0.8535988

00:02:52.699 --> 00:02:55.811 going on at smilow during all this time,
NOTE Confidence: 0.8535988

00:02:55.820 --> 00:02:58.496 Doctor Despond he will share with
NOTE Confidence: 0.8535988

00:02:58.496 --> 00:03:01.220 us information about the vaccine and
NOTE Confidence: 0.8535988

00:03:01.220 --> 00:03:03.800 the planning that the health system
NOTE Confidence: 0.8535988

00:03:03.800 --> 00:03:06.666 is doing for our patients as well.
NOTE Confidence: 0.8535988

00:03:06.670 --> 00:03:09.274 Doctor Edelson who is our chief
NOTE Confidence: 0.8535988

00:03:09.274 --> 00:03:11.010 quality officers I mentioned,
NOTE Confidence: 0.8535988

00:03:11.010 --> 00:03:13.842 has been working with the National
NOTE Confidence: 0.8535988

00:03:13.842 --> 00:03:15.730 Comprehensive Cancer Center Network.
NOTE Confidence: 0.8535988

00:03:15.730 --> 00:03:18.400 Which is a consortium of National

NOTE Confidence: 0.8535988

00:03:18.400 --> 00:03:20.180 Cancer Institute designated Cancer

NOTE Confidence: 0.8535988

00:03:20.247 --> 00:03:22.077 centers of which we are one,

NOTE Confidence: 0.8535988

00:03:22.080 --> 00:03:24.628 and we are the Cancer Center for

NOTE Confidence: 0.8535988

00:03:24.628 --> 00:03:26.593 Connecticut to address how we

NOTE Confidence: 0.8535988

00:03:26.593 --> 00:03:28.205 work through vaccinations for

NOTE Confidence: 0.8535988

00:03:28.205 --> 00:03:30.420 cancer patients and then finally,

NOTE Confidence: 0.8535988

00:03:30.420 --> 00:03:31.545 as I mentioned,

NOTE Confidence: 0.8535988

00:03:31.545 --> 00:03:34.626 Doctor Sam is going to talk to all

NOTE Confidence: 0.8535988

00:03:34.626 --> 00:03:37.195 of us about how we support each

NOTE Confidence: 0.8535988

00:03:37.195 --> 00:03:39.940 other and maintain Wellness through

NOTE Confidence: 0.8535988

00:03:39.940 --> 00:03:42.504 these very challenging times.

NOTE Confidence: 0.8535988

00:03:42.510 --> 00:03:45.246 You know from the very start,

NOTE Confidence: 0.8535988

00:03:45.250 --> 00:03:48.001 and I know I speak for everyone

NOTE Confidence: 0.8535988

00:03:48.001 --> 00:03:50.360 in the internal Cancer Hospital

NOTE Confidence: 0.8535988

00:03:50.360 --> 00:03:52.536 and Yale Cancer Center.

NOTE Confidence: 0.8535988

00:03:52.540 --> 00:03:55.360 We have worked assiduously to address
NOTE Confidence: 0.8535988

00:03:55.360 --> 00:03:58.617 this crisis and sort of keep our
NOTE Confidence: 0.8535988

00:03:58.617 --> 00:04:01.209 patients getting the care they need,
NOTE Confidence: 0.8535988

00:04:01.210 --> 00:04:04.143 and so the principles we laid out
NOTE Confidence: 0.8535988

00:04:04.143 --> 00:04:06.874 when this crisis began in February
NOTE Confidence: 0.8535988

00:04:06.874 --> 00:04:10.101 and March of last year was absolutely
NOTE Confidence: 0.8535988

00:04:10.192 --> 00:04:13.968 remain steadfast to the care of our patients.
NOTE Confidence: 0.8535988

00:04:13.970 --> 00:04:14.906 Continuing compassionate.
NOTE Confidence: 0.8535988

00:04:14.906 --> 00:04:18.650 Expert care for all of our cancer patients.
NOTE Confidence: 0.8535988

00:04:18.650 --> 00:04:21.122 To ensure the safety of cancer
NOTE Confidence: 0.8535988

00:04:21.122 --> 00:04:22.770 patients recognizing that cancer
NOTE Confidence: 0.8535988

00:04:22.840 --> 00:04:24.644 patients are vulnerable population
NOTE Confidence: 0.8535988

00:04:24.644 --> 00:04:26.899 with respect to this virus.
NOTE Confidence: 0.8535988

00:04:26.900 --> 00:04:30.412 To protect our staff and also to engage
NOTE Confidence: 0.8535988

00:04:30.412 --> 00:04:32.999 our research community to help us
NOTE Confidence: 0.8535988

00:04:32.999 --> 00:04:36.450 come up with ways to combat this virus.

NOTE Confidence: 0.8535988

00:04:36.450 --> 00:04:40.300 And I want to say on this last point I'm

NOTE Confidence: 0.8535988

00:04:40.403 --> 00:04:44.259 just so proud of all of our researchers,

NOTE Confidence: 0.8535988

00:04:44.260 --> 00:04:44.738 scientists,

NOTE Confidence: 0.8535988

00:04:44.738 --> 00:04:47.128 people working in population science.

NOTE Confidence: 0.8535988

00:04:47.130 --> 00:04:50.250 Who have beyond continuing the important

NOTE Confidence: 0.8535988

00:04:50.250 --> 00:04:53.360 work in cancer prevention and therapy,

NOTE Confidence: 0.8535988

00:04:53.360 --> 00:04:57.170 have also put considerable time into

NOTE Confidence: 0.8535988

00:04:57.170 --> 00:05:00.287 defining a better understanding this

NOTE Confidence: 0.8535988

00:05:00.287 --> 00:05:03.640 virus and how we ultimately beat it.

NOTE Confidence: 0.8535988

00:05:03.640 --> 00:05:06.070 So it's been a challenging year

NOTE Confidence: 0.8535988

00:05:06.070 --> 00:05:09.425 and I think we're all excited and

NOTE Confidence: 0.8535988

00:05:09.425 --> 00:05:12.165 anticipating the rollout of vaccines,

NOTE Confidence: 0.8535988

00:05:12.170 --> 00:05:14.696 the development of a vaccine in

NOTE Confidence: 0.8535988

00:05:14.696 --> 00:05:17.567 the course of 2020 is frankly

NOTE Confidence: 0.8535988

00:05:17.567 --> 00:05:19.759 unprecedented in the health.

NOTE Confidence: 0.8535988

00:05:19.760 --> 00:05:20.764 You know,
NOTE Confidence: 0.8535988
00:05:20.764 --> 00:05:22.772 developments of medicinal chemistry
NOTE Confidence: 0.8535988
00:05:22.772 --> 00:05:25.277 and health and drug development
NOTE Confidence: 0.8535988
00:05:25.277 --> 00:05:27.337 in the in the world.
NOTE Confidence: 0.8535988
00:05:27.340 --> 00:05:30.886 And we're just so pleased to
NOTE Confidence: 0.8535988
00:05:30.886 --> 00:05:33.790 actually have these things now.
NOTE Confidence: 0.8535988
00:05:33.790 --> 00:05:36.520 Want to just share with you some
NOTE Confidence: 0.8535988
00:05:36.520 --> 00:05:38.812 background because we have a lot
NOTE Confidence: 0.8535988
00:05:38.812 --> 00:05:40.894 of questions and my colleagues on
NOTE Confidence: 0.8535988
00:05:40.894 --> 00:05:42.937 the panel will answer questions
NOTE Confidence: 0.8535988
00:05:42.937 --> 00:05:45.756 but just want to review what we
NOTE Confidence: 0.8535988
00:05:45.756 --> 00:05:47.686 know about these vaccines now.
NOTE Confidence: 0.8535988
00:05:47.690 --> 00:05:49.730 There are two 2 vaccines RNA
NOTE Confidence: 0.8535988
00:05:49.730 --> 00:05:52.459 vaccines that are now approved an in
NOTE Confidence: 0.8535988
00:05:52.459 --> 00:05:54.624 practice one manufactured by Pfizer,
NOTE Confidence: 0.8535988
00:05:54.630 --> 00:05:56.560 the other one by Moderna,

NOTE Confidence: 0.8535988

00:05:56.560 --> 00:05:58.876 which I'm sure you've heard of.

NOTE Confidence: 0.8535988

00:05:58.880 --> 00:06:00.864 How does that work?

NOTE Confidence: 0.8535988

00:06:00.864 --> 00:06:02.848 Well there RNA vaccines.

NOTE Confidence: 0.8535988

00:06:02.850 --> 00:06:05.454 RNA is part of sort of the

NOTE Confidence: 0.8535988

00:06:05.454 --> 00:06:07.931 approach of the building blocks

NOTE Confidence: 0.8535988

00:06:07.931 --> 00:06:11.096 of ourselves that encode proteins.

NOTE Confidence: 0.8535988

00:06:11.100 --> 00:06:14.010 Their short lived RNA is not

NOTE Confidence: 0.8535988

00:06:14.010 --> 00:06:15.950 a permanent lasting molecule.

NOTE Confidence: 0.8535988

00:06:15.950 --> 00:06:18.370 It's a molecule that actually

NOTE Confidence: 0.8535988

00:06:18.370 --> 00:06:20.306 only exists temporarily encodes

NOTE Confidence: 0.8535988

00:06:20.306 --> 00:06:22.250 a protein for cells,

NOTE Confidence: 0.8535988

00:06:22.250 --> 00:06:24.965 and what the scientists at

NOTE Confidence: 0.8535988

00:06:24.965 --> 00:06:27.680 Pfizer Moderna did is they

NOTE Confidence: 0.8180842

00:06:27.792 --> 00:06:30.809 figured out a way to put that

NOTE Confidence: 0.8180842

00:06:30.809 --> 00:06:34.357 piece of RNA and this RNA encodes.

NOTE Confidence: 0.8180842

00:06:34.360 --> 00:06:39.538 Apes, the spike protein on COVID-19.
NOTE Confidence: 0.8180842

00:06:39.540 --> 00:06:45.030 Put that RNA into a lipid or fat particle.
NOTE Confidence: 0.8180842

00:06:45.030 --> 00:06:48.118 Then put that into the context of a
NOTE Confidence: 0.8180842

00:06:48.118 --> 00:06:50.636 vaccine which gets injected into your
NOTE Confidence: 0.8180842

00:06:50.636 --> 00:06:53.773 upper arm and appan that that lipid
NOTE Confidence: 0.8180842

00:06:53.773 --> 00:06:56.528 particle then enters into ourselves,
NOTE Confidence: 0.8180842

00:06:56.530 --> 00:06:59.826 where that RNA can then make the protein,
NOTE Confidence: 0.8180842

00:06:59.830 --> 00:07:01.478 specifically the spike protein.
NOTE Confidence: 0.8180842

00:07:01.478 --> 00:07:04.790 To be clear, it is not the virus,
NOTE Confidence: 0.8180842

00:07:04.790 --> 00:07:07.262 it is not capable of causing
NOTE Confidence: 0.8180842

00:07:07.262 --> 00:07:08.498 a viral reaction,
NOTE Confidence: 0.8180842

00:07:08.500 --> 00:07:11.293 but it simply elicits that one protein
NOTE Confidence: 0.8180842

00:07:11.293 --> 00:07:14.450 and what is that for the presence
NOTE Confidence: 0.8180842

00:07:14.450 --> 00:07:16.800 of that protein do temporarily.
NOTE Confidence: 0.8180842

00:07:16.800 --> 00:07:19.656 Is it prompts an immune response both the
NOTE Confidence: 0.8180842

00:07:19.656 --> 00:07:22.680 making of antibodies that fight infection?

NOTE Confidence: 0.8180842

00:07:22.680 --> 00:07:25.768 As well as other immune cells that fight

NOTE Confidence: 0.8180842

00:07:25.768 --> 00:07:28.398 infection and by virtue of having that,

NOTE Confidence: 0.8180842

00:07:28.400 --> 00:07:30.764 you then develop an immunity towards

NOTE Confidence: 0.8180842

00:07:30.764 --> 00:07:34.166 the virus so that if you were to be

NOTE Confidence: 0.8180842

00:07:34.166 --> 00:07:36.376 exposed in principle your body would

NOTE Confidence: 0.8180842

00:07:36.376 --> 00:07:39.057 be able to fight off that infection,

NOTE Confidence: 0.8180842

00:07:39.060 --> 00:07:40.588 fight off the virus.

NOTE Confidence: 0.8180842

00:07:40.588 --> 00:07:42.538 Anne, frankly, prevent an infection

NOTE Confidence: 0.8180842

00:07:42.538 --> 00:07:45.160 and that is the theory behind it.

NOTE Confidence: 0.8180842

00:07:45.160 --> 00:07:46.225 To be clear,

NOTE Confidence: 0.8180842

00:07:46.225 --> 00:07:48.355 people ask well RNA that sounds

NOTE Confidence: 0.8180842

00:07:48.355 --> 00:07:49.729 like genetic code.

NOTE Confidence: 0.8180842

00:07:49.730 --> 00:07:52.016 Am I at risk at that?

NOTE Confidence: 0.8180842

00:07:52.020 --> 00:07:54.185 No, the RNA is actually

NOTE Confidence: 0.8180842

00:07:54.185 --> 00:07:55.484 destroyed relatively quickly.

NOTE Confidence: 0.8180842

00:07:55.490 --> 00:07:57.180 Overtime after the injection so
NOTE Confidence: 0.8180842

00:07:57.180 --> 00:07:59.240 it doesn't last in your body.
NOTE Confidence: 0.8180842

00:07:59.240 --> 00:08:02.187 There's no alteration to your DNA or
NOTE Confidence: 0.8180842

00:08:02.187 --> 00:08:05.558 genetic code by virtue of this injection.
NOTE Confidence: 0.8180842

00:08:05.560 --> 00:08:08.164 A second vaccine is under development
NOTE Confidence: 0.8180842

00:08:08.164 --> 00:08:10.810 and we anticipate that that vaccine
NOTE Confidence: 0.8180842

00:08:10.810 --> 00:08:13.324 will likely have data from its
NOTE Confidence: 0.8180842

00:08:13.324 --> 00:08:15.470 clinical trial in several weeks.
NOTE Confidence: 0.8180842

00:08:15.470 --> 00:08:17.630 Manufactured by Johnson and Johnson,
NOTE Confidence: 0.8180842

00:08:17.630 --> 00:08:20.216 that vaccine is a more classical
NOTE Confidence: 0.8180842

00:08:20.216 --> 00:08:22.700 vaccine design. What do they do?
NOTE Confidence: 0.8180842

00:08:22.700 --> 00:08:24.725 They actually take that same
NOTE Confidence: 0.8180842

00:08:24.725 --> 00:08:26.250 spike protein gene,
NOTE Confidence: 0.8180842

00:08:26.250 --> 00:08:29.267 but they put it into a virus.
NOTE Confidence: 0.8180842

00:08:29.270 --> 00:08:33.140 But a virus that is not harmful to humans,
NOTE Confidence: 0.8180842

00:08:33.140 --> 00:08:36.026 it's it's basically inert inert virus.

NOTE Confidence: 0.8180842
00:08:36.030 --> 00:08:37.890 A virus that can't replicate
NOTE Confidence: 0.8180842
00:08:37.890 --> 00:08:39.006 it can't reproduce,
NOTE Confidence: 0.8180842
00:08:39.010 --> 00:08:42.306 but it carries that spike protein and by
NOTE Confidence: 0.8180842
00:08:42.306 --> 00:08:45.548 virtue again of being injected in your arm.
NOTE Confidence: 0.8180842
00:08:45.550 --> 00:08:48.364 That virus then inserts the spike
NOTE Confidence: 0.8180842
00:08:48.364 --> 00:08:50.750 protein gene into your cell,
NOTE Confidence: 0.8180842
00:08:50.750 --> 00:08:53.624 which is again only a temporary
NOTE Confidence: 0.8180842
00:08:53.624 --> 00:08:56.717 situation where it too will produce
NOTE Confidence: 0.8180842
00:08:56.717 --> 00:08:59.975 proteins on the surface that elicit.
NOTE Confidence: 0.8180842
00:08:59.980 --> 00:09:02.458 Antibodies and immune response and in
NOTE Confidence: 0.8180842
00:09:02.458 --> 00:09:05.610 theory will give you the same protection.
NOTE Confidence: 0.8180842
00:09:05.610 --> 00:09:08.319 As you, many of you may know,
NOTE Confidence: 0.8180842
00:09:08.320 --> 00:09:10.255 the Moderna an Pfizer vaccines
NOTE Confidence: 0.8180842
00:09:10.255 --> 00:09:11.416 require two injections,
NOTE Confidence: 0.8180842
00:09:11.420 --> 00:09:14.030 three to four weeks apart.
NOTE Confidence: 0.8180842

00:09:14.030 --> 00:09:15.968 The Johnson and Johnson design is
NOTE Confidence: 0.8180842

00:09:15.968 --> 00:09:18.572 only one injection, but to be clear.
NOTE Confidence: 0.8180842

00:09:18.572 --> 00:09:21.020 As I'll show in a moment,
NOTE Confidence: 0.8180842

00:09:21.020 --> 00:09:23.162 we have data from the Pfizer
NOTE Confidence: 0.8180842

00:09:23.162 --> 00:09:24.233 and Moderna vaccines.
NOTE Confidence: 0.8180842

00:09:24.240 --> 00:09:26.676 We don't yet have data from
NOTE Confidence: 0.8180842

00:09:26.676 --> 00:09:29.158 Johnson and Johnson that we await
NOTE Confidence: 0.8180842

00:09:29.158 --> 00:09:31.108 at some point in February.
NOTE Confidence: 0.8180842

00:09:31.110 --> 00:09:35.295 And I just want to show the exciting results.
NOTE Confidence: 0.8180842

00:09:35.300 --> 00:09:37.910 Both the Pfizer and Moderna RNA
NOTE Confidence: 0.8180842

00:09:37.910 --> 00:09:40.524 vaccines have a similar result and
NOTE Confidence: 0.8180842

00:09:40.524 --> 00:09:42.894 this was the Pfizer vaccine was
NOTE Confidence: 0.8180842

00:09:42.894 --> 00:09:45.537 a study of approximately 40,000
NOTE Confidence: 0.8180842

00:09:45.537 --> 00:09:47.889 individuals who were tested,
NOTE Confidence: 0.8180842

00:09:47.890 --> 00:09:50.680 half of whom got the vaccine.
NOTE Confidence: 0.8180842

00:09:50.680 --> 00:09:53.608 In this case is known as B and

NOTE Confidence: 0.8180842

00:09:53.608 --> 00:09:56.702 T162B2 or a pussybow just saltwater

NOTE Confidence: 0.8180842

00:09:56.702 --> 00:10:00.104 injection and what we're looking at.

NOTE Confidence: 0.8180842

00:10:00.110 --> 00:10:02.355 Here is the likelihood of

NOTE Confidence: 0.8180842

00:10:02.355 --> 00:10:04.600 developing infection up here on

NOTE Confidence: 0.8815344

00:10:04.685 --> 00:10:07.901 the Y axis and time since that first

NOTE Confidence: 0.8815344

00:10:07.901 --> 00:10:10.598 injection here on the horizontal axis.

NOTE Confidence: 0.8815344

00:10:10.600 --> 00:10:14.088 And as you can see in the blue,

NOTE Confidence: 0.8815344

00:10:14.090 --> 00:10:16.806 the people who got the placebo did

NOTE Confidence: 0.8815344

00:10:16.806 --> 00:10:19.130 have development of a COVID-19

NOTE Confidence: 0.8815344

00:10:19.130 --> 00:10:21.524 infection overtime, but in contrast,

NOTE Confidence: 0.8815344

00:10:21.524 --> 00:10:24.152 you'll see there's a slight uptick

NOTE Confidence: 0.8815344

00:10:24.152 --> 00:10:27.200 in the people who got the vaccine,

NOTE Confidence: 0.8815344

00:10:27.200 --> 00:10:30.752 but by day 12 this is blowing up

NOTE Confidence: 0.8815344

00:10:30.752 --> 00:10:33.857 this little section of the graph.

NOTE Confidence: 0.8815344

00:10:33.860 --> 00:10:35.875 It's flat, there really are

NOTE Confidence: 0.8815344

00:10:35.875 --> 00:10:38.970 no new and no new infections.

NOTE Confidence: 0.8815344

00:10:38.970 --> 00:10:41.436 Meaning that it is profound protection

NOTE Confidence: 0.8815344

00:10:41.436 --> 00:10:44.367 between this blue line and this red line.

NOTE Confidence: 0.8815344

00:10:44.370 --> 00:10:46.686 And if you look more at

NOTE Confidence: 0.8815344

00:10:46.686 --> 00:10:47.844 the statistical results,

NOTE Confidence: 0.8815344

00:10:47.850 --> 00:10:49.780 you can see several findings,

NOTE Confidence: 0.8815344

00:10:49.780 --> 00:10:52.070 namely for those people who

NOTE Confidence: 0.8815344

00:10:52.070 --> 00:10:54.913 were more than seven days after

NOTE Confidence: 0.8815344

00:10:54.913 --> 00:10:57.655 the second dose of the vaccine.

NOTE Confidence: 0.8815344

00:10:57.660 --> 00:10:58.606 95% protection.

NOTE Confidence: 0.8815344

00:10:58.606 --> 00:11:01.917 Meaning that if you compare the rate

NOTE Confidence: 0.8815344

00:11:01.917 --> 00:11:05.420 of infection for the people who had

NOTE Confidence: 0.8815344

00:11:05.420 --> 00:11:08.850 placebo versus those who got the vaccine,

NOTE Confidence: 0.8815344

00:11:08.850 --> 00:11:10.362 there's a 95% reduction.

NOTE Confidence: 0.8815344

00:11:10.362 --> 00:11:13.666 Now, to be clear, we were hoping that

NOTE Confidence: 0.8815344

00:11:13.666 --> 00:11:16.028 the production would be 60 or 70%.

NOTE Confidence: 0.8815344

00:11:16.030 --> 00:11:18.292 This is far beyond our expectations

NOTE Confidence: 0.8815344

00:11:18.292 --> 00:11:19.423 and really impressive.

NOTE Confidence: 0.8815344

00:11:19.430 --> 00:11:21.915 One other statistic that you will hear

NOTE Confidence: 0.8815344

00:11:21.915 --> 00:11:24.348 about is what was the protection,

NOTE Confidence: 0.8815344

00:11:24.350 --> 00:11:26.240 not after the two doses,

NOTE Confidence: 0.8815344

00:11:26.240 --> 00:11:28.448 but after just the first dose

NOTE Confidence: 0.8815344

00:11:28.448 --> 00:11:30.390 and you'll see it here.

NOTE Confidence: 0.8815344

00:11:30.390 --> 00:11:32.138 It was about 52%.

NOTE Confidence: 0.8815344

00:11:32.138 --> 00:11:35.250 We're protected just after the first dose.

NOTE Confidence: 0.8815344

00:11:35.250 --> 00:11:38.877 Does that mean you should only get one dose?

NOTE Confidence: 0.8815344

00:11:38.880 --> 00:11:40.488 I don't think so.

NOTE Confidence: 0.8815344

00:11:40.488 --> 00:11:43.020 You want 95% protection and we

NOTE Confidence: 0.8815344

00:11:43.020 --> 00:11:45.220 anticipate that once getting committed

NOTE Confidence: 0.8815344

00:11:45.220 --> 00:11:47.584 to getting either the Pfizer Moderna

NOTE Confidence: 0.8815344

00:11:47.584 --> 00:11:50.570 that you'll you will get the second dose,

NOTE Confidence: 0.8815344

00:11:50.570 --> 00:11:53.384 that dose will be available to you.
NOTE Confidence: 0.8815344

00:11:53.390 --> 00:11:55.400 Be encouraged to get it.
NOTE Confidence: 0.8815344

00:11:55.400 --> 00:11:57.818 An 95.95% protection is really incredible.
NOTE Confidence: 0.8815344

00:11:57.820 --> 00:12:00.634 We I just want to be clear.
NOTE Confidence: 0.8815344

00:12:00.640 --> 00:12:03.804 We have a number of questions that
NOTE Confidence: 0.8815344

00:12:03.804 --> 00:12:06.729 have already been submitted online.
NOTE Confidence: 0.8815344

00:12:06.730 --> 00:12:08.542 Among the questions that actually have
NOTE Confidence: 0.8815344

00:12:08.542 --> 00:12:10.969 come in is is this being recorded.
NOTE Confidence: 0.8815344

00:12:10.970 --> 00:12:13.245 The answer is, if I'm not mistaken,
NOTE Confidence: 0.8815344

00:12:13.250 --> 00:12:13.547 Renee,
NOTE Confidence: 0.8815344

00:12:13.547 --> 00:12:15.626 it is and will be placed online
NOTE Confidence: 0.8815344

00:12:15.626 --> 00:12:17.635 so that for those individuals that
NOTE Confidence: 0.8815344

00:12:17.635 --> 00:12:20.385 you know that want to see this and
NOTE Confidence: 0.8815344

00:12:20.385 --> 00:12:22.045 could make it this evening,
NOTE Confidence: 0.8815344

00:12:22.050 --> 00:12:24.658 they will be able to view it online.
NOTE Confidence: 0.8815344

00:12:24.660 --> 00:12:26.205 Another question that other questions

NOTE Confidence: 0.8815344

00:12:26.205 --> 00:12:28.820 have come in and we can take during

NOTE Confidence: 0.8815344

00:12:28.820 --> 00:12:30.842 the question and answer session section,

NOTE Confidence: 0.8815344

00:12:30.850 --> 00:12:33.559 is safety of the vaccine and frankly

NOTE Confidence: 0.8815344

00:12:33.559 --> 00:12:36.340 the safety appears to be quite excellent.

NOTE Confidence: 0.8815344

00:12:36.340 --> 00:12:38.470 In terms of long-term concerns,

NOTE Confidence: 0.8815344

00:12:38.470 --> 00:12:40.066 while it's still early,

NOTE Confidence: 0.8815344

00:12:40.066 --> 00:12:43.579 but we don't see any long-term safety issues,

NOTE Confidence: 0.8815344

00:12:43.580 --> 00:12:46.196 there are people after the second

NOTE Confidence: 0.8815344

00:12:46.196 --> 00:12:49.389 dose who do get what may seem like

NOTE Confidence: 0.8815344

00:12:49.389 --> 00:12:53.041 a bit of a flu like feeling 24 hours

NOTE Confidence: 0.8815344

00:12:53.041 --> 00:12:55.077 after getting the shot.

NOTE Confidence: 0.8815344

00:12:55.080 --> 00:12:56.788 It's it's typically transient.

NOTE Confidence: 0.8815344

00:12:56.788 --> 00:12:58.069 You're not going,

NOTE Confidence: 0.8815344

00:12:58.070 --> 00:13:00.200 you're not getting the infection.

NOTE Confidence: 0.8815344

00:13:00.200 --> 00:13:03.175 You cannot get COVID-19 from the vaccine,

NOTE Confidence: 0.8815344

00:13:03.180 --> 00:13:06.379 it's just an immune response and a
NOTE Confidence: 0.8815344

00:13:06.379 --> 00:13:07.750 robust immune response.
NOTE Confidence: 0.8815344

00:13:07.750 --> 00:13:10.582 We are about 20% of people who get
NOTE Confidence: 0.8815344

00:13:10.582 --> 00:13:13.978 the Pfizer vaccine can get a flu like a flu,
NOTE Confidence: 0.8815344

00:13:13.980 --> 00:13:14.702 like feeling,
NOTE Confidence: 0.8815344

00:13:14.702 --> 00:13:17.229 about 40% of the people who get
NOTE Confidence: 0.8815344

00:13:17.229 --> 00:13:19.509 Moderna can get a flu like feeling,
NOTE Confidence: 0.8815344

00:13:19.510 --> 00:13:22.499 but usually gone after 24 to 36
NOTE Confidence: 0.8815344

00:13:22.499 --> 00:13:26.189 hours and people can take Tylenol for that.
NOTE Confidence: 0.8815344

00:13:26.190 --> 00:13:27.965 Another question that arises is
NOTE Confidence: 0.8815344

00:13:27.965 --> 00:13:29.740 well it once I get
NOTE Confidence: 0.90205

00:13:29.818 --> 00:13:33.222 vaccinated, does that mean I can go
NOTE Confidence: 0.90205

00:13:33.222 --> 00:13:36.429 about my business and the answer is?
NOTE Confidence: 0.90205

00:13:36.430 --> 00:13:38.453 Only in the context of what we
NOTE Confidence: 0.90205

00:13:38.453 --> 00:13:40.810 need to be doing when COVID-19,
NOTE Confidence: 0.90205

00:13:40.810 --> 00:13:43.506 so you still need to wear a mask.

NOTE Confidence: 0.90205

00:13:43.510 --> 00:13:45.574 You still need to physically distance

NOTE Confidence: 0.90205

00:13:45.574 --> 00:13:48.536 and you still need to be careful because

NOTE Confidence: 0.90205

00:13:48.536 --> 00:13:50.822 until our public health authorities tell

NOTE Confidence: 0.90205

00:13:50.884 --> 00:13:53.278 us that it's time to go back to normal,

NOTE Confidence: 0.90205

00:13:53.280 --> 00:13:55.639 we all need to be very careful.

NOTE Confidence: 0.90205

00:13:55.640 --> 00:13:57.999 It will be reassured getting the vaccine,

NOTE Confidence: 0.90205

00:13:58.000 --> 00:14:00.345 but we still want to be careful

NOTE Confidence: 0.90205

00:14:00.345 --> 00:14:02.379 because one thing we don't know,

NOTE Confidence: 0.90205

00:14:02.380 --> 00:14:04.060 we know that getting the

NOTE Confidence: 0.90205

00:14:04.060 --> 00:14:05.830 vaccine does protect you, but.

NOTE Confidence: 0.90205

00:14:05.830 --> 00:14:07.930 Does it prevent you from

NOTE Confidence: 0.90205

00:14:07.930 --> 00:14:09.190 transmitting the virus?

NOTE Confidence: 0.90205

00:14:09.190 --> 00:14:11.605 That is, you can get the vaccine.

NOTE Confidence: 0.90205

00:14:11.610 --> 00:14:14.370 You might have actually been exposed to it.

NOTE Confidence: 0.90205

00:14:14.370 --> 00:14:16.680 You may feel fine, but you may

NOTE Confidence: 0.90205

00:14:16.680 --> 00:14:18.848 harbor it briefly and transmit it.
NOTE Confidence: 0.90205

00:14:18.850 --> 00:14:21.370 So almost an asymptomatic infection.
NOTE Confidence: 0.90205

00:14:21.370 --> 00:14:22.702 That's a good thing for the
NOTE Confidence: 0.90205

00:14:22.702 --> 00:14:24.030 person who got the vaccine,
NOTE Confidence: 0.90205

00:14:24.030 --> 00:14:25.482 but you don't want to put
NOTE Confidence: 0.90205

00:14:25.482 --> 00:14:26.450 other people at risk.
NOTE Confidence: 0.90205

00:14:26.450 --> 00:14:28.704 So you gotta wear a mask even
NOTE Confidence: 0.90205

00:14:28.704 --> 00:14:30.650 after you get the vaccine.
NOTE Confidence: 0.90205

00:14:30.650 --> 00:14:33.450 We'll have a lot more time for questions.
NOTE Confidence: 0.90205

00:14:33.450 --> 00:14:36.250 Let me turn over now to my colleagues,
NOTE Confidence: 0.90205

00:14:36.250 --> 00:14:38.470 Kim Slusser and Kevin Billingsley for
NOTE Confidence: 0.90205

00:14:38.470 --> 00:14:40.800 updates on what's going on and smile.
NOTE Confidence: 0.8678079

00:14:42.230 --> 00:14:44.084 Hi Charlie, thank you for the
NOTE Confidence: 0.8678079

00:14:44.084 --> 00:14:45.730 opportunity part of this forum.
NOTE Confidence: 0.8678079

00:14:45.730 --> 00:14:48.390 I also want to say thank you to all of
NOTE Confidence: 0.8678079

00:14:48.465 --> 00:14:51.125 those that are joined us this evening.

NOTE Confidence: 0.8678079

00:14:51.130 --> 00:14:53.140 It's just wonderful to see

NOTE Confidence: 0.8678079

00:14:53.140 --> 00:14:55.470 so many people here with us.

NOTE Confidence: 0.8678079

00:14:55.470 --> 00:14:57.130 Passkey weeks have been an

NOTE Confidence: 0.8678079

00:14:57.130 --> 00:14:58.458 exciting time is Charlie.

NOTE Confidence: 0.8678079

00:14:58.460 --> 00:15:01.183 As mentioned as our teams have been

NOTE Confidence: 0.8678079

00:15:01.183 --> 00:15:03.129 receiving their vaccine and doing

NOTE Confidence: 0.8678079

00:15:03.129 --> 00:15:05.265 our part is light yellow Haven

NOTE Confidence: 0.8678079

00:15:05.265 --> 00:15:07.428 health system calls crushing covid.

NOTE Confidence: 0.8678079

00:15:07.430 --> 00:15:09.632 We've had such a great response

NOTE Confidence: 0.8678079

00:15:09.632 --> 00:15:11.100 from our smiling staff,

NOTE Confidence: 0.8678079

00:15:11.100 --> 00:15:13.732 close to 73% of our Smiler staff

NOTE Confidence: 0.8678079

00:15:13.732 --> 00:15:14.860 specifically have received

NOTE Confidence: 0.8678079

00:15:14.928 --> 00:15:16.968 their first dose of the vaccine,

NOTE Confidence: 0.8678079

00:15:16.970 --> 00:15:18.910 with many already receiving

NOTE Confidence: 0.8678079

00:15:18.910 --> 00:15:20.365 their second dose.

NOTE Confidence: 0.8678079

00:15:20.370 --> 00:15:21.870 I'm really glad we're having
NOTE Confidence: 0.8678079

00:15:21.870 --> 00:15:23.070 this form this evening,
NOTE Confidence: 0.8678079

00:15:23.070 --> 00:15:25.350 as I know that our patients have been
NOTE Confidence: 0.8678079

00:15:25.350 --> 00:15:26.906 calling their care teams wanting
NOTE Confidence: 0.8678079

00:15:26.906 --> 00:15:28.766 to know more about the vaccine,
NOTE Confidence: 0.8678079

00:15:28.770 --> 00:15:31.170 and we are fortunate to have doctors respond.
NOTE Confidence: 0.8678079

00:15:31.170 --> 00:15:32.046 Ayane Adelson,
NOTE Confidence: 0.8678079

00:15:32.046 --> 00:15:35.550 here with us to share information with you.
NOTE Confidence: 0.8678079

00:15:35.550 --> 00:15:37.349 I also wanted to take an opportunity
NOTE Confidence: 0.8678079

00:15:37.349 --> 00:15:39.251 to thank our community for those
NOTE Confidence: 0.8678079

00:15:39.251 --> 00:15:41.036 patients that received and completed
NOTE Confidence: 0.8678079

00:15:41.036 --> 00:15:43.230 this survey that was sent out recently.
NOTE Confidence: 0.8678079

00:15:43.230 --> 00:15:45.211 We wanted to get our patients opinions
NOTE Confidence: 0.8678079

00:15:45.211 --> 00:15:47.693 on what they value in regards to
NOTE Confidence: 0.8678079

00:15:47.693 --> 00:15:49.663 timeliness and availability of appointments.
NOTE Confidence: 0.8678079

00:15:49.670 --> 00:15:50.934 What you really want,

NOTE Confidence: 0.8678079

00:15:50.934 --> 00:15:53.330 you may want offered and Tele health,

NOTE Confidence: 0.8678079

00:15:53.330 --> 00:15:54.278 cancer care services,

NOTE Confidence: 0.8678079

00:15:54.278 --> 00:15:57.040 and if you would like to take advantage

NOTE Confidence: 0.8678079

00:15:57.040 --> 00:15:59.465 of untraditional hours of operations.

NOTE Confidence: 0.8678079

00:15:59.470 --> 00:16:01.594 We've learned a lot through coalbed

NOTE Confidence: 0.8678079

00:16:01.594 --> 00:16:03.821 and we've developed many of these

NOTE Confidence: 0.8678079

00:16:03.821 --> 00:16:05.681 initiatives to keep caring for

NOTE Confidence: 0.8678079

00:16:05.681 --> 00:16:07.629 cancer patients through the pandemic,

NOTE Confidence: 0.8678079

00:16:07.630 --> 00:16:10.227 and we wanted to get our patients

NOTE Confidence: 0.8678079

00:16:10.227 --> 00:16:11.340 opinion about or.

NOTE Confidence: 0.8678079

00:16:11.340 --> 00:16:13.210 These are these sustainable opportunities

NOTE Confidence: 0.8678079

00:16:13.210 --> 00:16:15.420 for us and delivering your care.

NOTE Confidence: 0.8678079

00:16:15.420 --> 00:16:17.625 We sent out this survey to thousands

NOTE Confidence: 0.8678079

00:16:17.625 --> 00:16:19.962 of our patients and received responses

NOTE Confidence: 0.8678079

00:16:19.962 --> 00:16:21.730 from nearly 700 individuals,

NOTE Confidence: 0.8678079

00:16:21.730 --> 00:16:24.766 which is actually a wonderful response.
NOTE Confidence: 0.8678079

00:16:24.770 --> 00:16:26.588 While we are still going through
NOTE Confidence: 0.8678079

00:16:26.588 --> 00:16:27.800 all of the feedback,
NOTE Confidence: 0.8678079

00:16:27.800 --> 00:16:29.618 I wanted to thank her smile,
NOTE Confidence: 0.8678079

00:16:29.620 --> 00:16:31.375 a community for completing the
NOTE Confidence: 0.8678079

00:16:31.375 --> 00:16:34.247 survey as it truly helps us in our
NOTE Confidence: 0.8678079

00:16:34.247 --> 00:16:36.002 journey to transform Karen awaited
NOTE Confidence: 0.8678079

00:16:36.002 --> 00:16:38.298 matters to you and your loved ones.
NOTE Confidence: 0.8678079

00:16:38.300 --> 00:16:40.435 There's also been a lot of questions
NOTE Confidence: 0.8678079

00:16:40.435 --> 00:16:42.208 regarding what we're still doing to
NOTE Confidence: 0.8678079

00:16:42.208 --> 00:16:44.077 keep our patients and staff safe as
NOTE Confidence: 0.8678079

00:16:44.139 --> 00:16:46.549 we are now in this new stage in the pandemic.
NOTE Confidence: 0.8678079

00:16:46.550 --> 00:16:49.106 With the rollout of the vaccine.
NOTE Confidence: 0.8678079

00:16:49.110 --> 00:16:50.163 At this point,
NOTE Confidence: 0.8678079

00:16:50.163 --> 00:16:51.216 as Charlie mentioned,
NOTE Confidence: 0.8678079

00:16:51.220 --> 00:16:53.796 we continue with all our pre appointment

NOTE Confidence: 0.8678079

00:16:53.796 --> 00:16:56.136 and pre admission screenings and follow

NOTE Confidence: 0.8678079

00:16:56.136 --> 00:16:58.464 all our state and CDC guidelines.

NOTE Confidence: 0.8678079

00:16:58.470 --> 00:17:01.025 We are still either through my charter

NOTE Confidence: 0.8678079

00:17:01.025 --> 00:17:02.954 calling screening for exposure to

NOTE Confidence: 0.8678079

00:17:02.954 --> 00:17:04.869 covid prior to your appointment.

NOTE Confidence: 0.8678079

00:17:04.870 --> 00:17:06.580 We are still maintaining our

NOTE Confidence: 0.8678079

00:17:06.580 --> 00:17:09.042 screenings at the front door of our

NOTE Confidence: 0.8678079

00:17:09.042 --> 00:17:10.757 facilities and wearing our masks.

NOTE Confidence: 0.8678079

00:17:10.760 --> 00:17:13.124 Our staff continue to self monitor

NOTE Confidence: 0.8678079

00:17:13.124 --> 00:17:15.116 their temperature and for other

NOTE Confidence: 0.8678079

00:17:15.116 --> 00:17:17.198 signs of cold air choice today.

NOTE Confidence: 0.8678079

00:17:17.200 --> 00:17:19.230 As I turn it over to Kevin,

NOTE Confidence: 0.8678079

00:17:19.230 --> 00:17:21.344 I want to thank everyone again for

NOTE Confidence: 0.8678079

00:17:21.344 --> 00:17:23.108 spending the evening with us and

NOTE Confidence: 0.8678079

00:17:23.108 --> 00:17:24.740 trusting us with your care, Kevin.

NOTE Confidence: 0.83948207

00:17:25.780 --> 00:17:29.119 Thank you Kim. I'd also like to sound sound.

NOTE Confidence: 0.83948207

00:17:29.120 --> 00:17:32.459 My note of gratitude for the trust that you,

NOTE Confidence: 0.83948207

00:17:32.460 --> 00:17:35.155 all and your families place in us

NOTE Confidence: 0.83948207

00:17:35.155 --> 00:17:38.608 here at Smilow and at the Yale Cancer

NOTE Confidence: 0.83948207

00:17:38.608 --> 00:17:41.300 Center for providing your cancer care.

NOTE Confidence: 0.83948207

00:17:41.300 --> 00:17:43.718 We are relentlessly committed to your

NOTE Confidence: 0.83948207

00:17:43.718 --> 00:17:46.467 ongoing safety both in your cancer care

NOTE Confidence: 0.83948207

00:17:46.467 --> 00:17:48.959 as well as in shepherding your care.

NOTE Confidence: 0.83948207

00:17:48.960 --> 00:17:52.026 Through this period of a pandemic.

NOTE Confidence: 0.83948207

00:17:52.030 --> 00:17:54.534 I think one of the things that I

NOTE Confidence: 0.83948207

00:17:54.534 --> 00:17:57.040 I would like to share with the

NOTE Confidence: 0.83948207

00:17:57.040 --> 00:17:59.701 audience is that one of the things

NOTE Confidence: 0.83948207

00:17:59.701 --> 00:18:02.047 that we are continuing to do,

NOTE Confidence: 0.83948207

00:18:02.050 --> 00:18:03.840 which is which is difficult,

NOTE Confidence: 0.83948207

00:18:03.840 --> 00:18:06.143 but we believe there are sound reasons

NOTE Confidence: 0.83948207

00:18:06.143 --> 00:18:08.514 to support it for patient safety is

NOTE Confidence: 0.83948207

00:18:08.514 --> 00:18:11.105 that we have continued to hold fairly

NOTE Confidence: 0.83948207

00:18:11.105 --> 00:18:13.850 restrictive policies around patient visitors.

NOTE Confidence: 0.83948207

00:18:13.850 --> 00:18:16.258 And that limits the number of people

NOTE Confidence: 0.83948207

00:18:16.258 --> 00:18:18.449 who actually come into the hospitals

NOTE Confidence: 0.83948207

00:18:18.449 --> 00:18:20.990 hospital and it makes it difficult for

NOTE Confidence: 0.83948207

00:18:21.061 --> 00:18:22.971 patients who are getting inpatient

NOTE Confidence: 0.83948207

00:18:22.971 --> 00:18:25.236 cancer care as a surgical oncologist.

NOTE Confidence: 0.83948207

00:18:25.236 --> 00:18:28.004 I have a number of patients who are

NOTE Confidence: 0.83948207

00:18:28.004 --> 00:18:30.340 in the hospital sometimes for several

NOTE Confidence: 0.83948207

00:18:30.340 --> 00:18:31.876 days at a time,

NOTE Confidence: 0.83948207

00:18:31.880 --> 00:18:34.211 and I can assure the audience that

NOTE Confidence: 0.83948207

00:18:34.211 --> 00:18:36.887 both myself as well as all of our

NOTE Confidence: 0.83948207

00:18:36.887 --> 00:18:38.995 surgical teams and the other clinical

NOTE Confidence: 0.83948207

00:18:38.995 --> 00:18:40.739 teams providing inpatient care

NOTE Confidence: 0.83948207

00:18:40.739 --> 00:18:43.690 are going the extra mile to keep

NOTE Confidence: 0.83948207

00:18:43.690 --> 00:18:45.615 in touch with families and.
NOTE Confidence: 0.83948207

00:18:45.620 --> 00:18:48.287 Loved ones at home so that you
NOTE Confidence: 0.83948207

00:18:48.287 --> 00:18:50.109 are hearing directly from us.
NOTE Confidence: 0.83948207

00:18:50.110 --> 00:18:53.359 Even though you are not seeing us in the
NOTE Confidence: 0.83948207

00:18:53.359 --> 00:18:56.087 hospital making rounds as we usually do.
NOTE Confidence: 0.83948207

00:18:56.090 --> 00:18:58.130 We're also working hard to make
NOTE Confidence: 0.83948207

00:18:58.130 --> 00:19:00.398 sure that all patients have some
NOTE Confidence: 0.83948207

00:19:00.398 --> 00:19:02.078 support with using technology,
NOTE Confidence: 0.83948207

00:19:02.080 --> 00:19:03.038 phones, iPads,
NOTE Confidence: 0.83948207

00:19:03.038 --> 00:19:05.912 other devices to help keep in
NOTE Confidence: 0.83948207

00:19:05.912 --> 00:19:07.570 touch with family.
NOTE Confidence: 0.83948207

00:19:07.570 --> 00:19:09.914 One of the things that I do encourage
NOTE Confidence: 0.83948207

00:19:09.914 --> 00:19:11.872 my patients in all patients and
NOTE Confidence: 0.83948207

00:19:11.872 --> 00:19:13.840 families coming into the Center for
NOTE Confidence: 0.83948207

00:19:13.909 --> 00:19:15.750 care in the outpatient arena to do
NOTE Confidence: 0.83948207

00:19:15.750 --> 00:19:18.340 is if you do not have a support

NOTE Confidence: 0.83948207

00:19:18.340 --> 00:19:20.540 person or loved one with you.

NOTE Confidence: 0.83948207

00:19:20.540 --> 00:19:22.808 Really use your phone, use it.

NOTE Confidence: 0.83948207

00:19:22.810 --> 00:19:23.944 Use an iPad,

NOTE Confidence: 0.83948207

00:19:23.944 --> 00:19:25.078 use a tablet,

NOTE Confidence: 0.83948207

00:19:25.080 --> 00:19:27.285 get someone on the phone with you

NOTE Confidence: 0.83948207

00:19:27.285 --> 00:19:29.788 so that you have the benefit of

NOTE Confidence: 0.83948207

00:19:29.788 --> 00:19:31.643 another set of years listening

NOTE Confidence: 0.83948207

00:19:31.643 --> 00:19:33.768 to that clinical encounter.

NOTE Confidence: 0.83948207

00:19:33.770 --> 00:19:36.038 We are completely supportive of that.

NOTE Confidence: 0.83948207

00:19:36.040 --> 00:19:37.925 We've adapted our practice style

NOTE Confidence: 0.83948207

00:19:37.925 --> 00:19:39.056 to embrace this,

NOTE Confidence: 0.83948207

00:19:39.060 --> 00:19:41.307 and I think that this is actually

NOTE Confidence: 0.83948207

00:19:41.307 --> 00:19:43.477 been one of the great learnings

NOTE Confidence: 0.83948207

00:19:43.477 --> 00:19:46.123 that has come out of the pandemic

NOTE Confidence: 0.83948207

00:19:46.197 --> 00:19:48.807 is that we are all increasingly

NOTE Confidence: 0.83948207

00:19:48.807 --> 00:19:50.547 comfortable with using these.
NOTE Confidence: 0.83948207

00:19:50.550 --> 00:19:52.985 Technology interfaces to help create
NOTE Confidence: 0.83948207

00:19:52.985 --> 00:19:55.420 a sense of family engagement.
NOTE Confidence: 0.83948207

00:19:55.420 --> 00:19:59.040 In these clinical encounters.
NOTE Confidence: 0.83948207

00:19:59.040 --> 00:19:59.884 Just stop.
NOTE Confidence: 0.83948207

00:19:59.884 --> 00:20:01.994 Shifting gears a little bit,
NOTE Confidence: 0.83948207

00:20:02.000 --> 00:20:05.040 I want to share with the audience that.
NOTE Confidence: 0.83948207

00:20:05.040 --> 00:20:07.944 Although we have continued to have
NOTE Confidence: 0.83948207

00:20:07.944 --> 00:20:10.304 some operational changes in our
NOTE Confidence: 0.83948207

00:20:10.304 --> 00:20:12.374 in our care here at smilow,
NOTE Confidence: 0.83948207

00:20:12.380 --> 00:20:15.926 some of our services are in
NOTE Confidence: 0.83948207

00:20:15.926 --> 00:20:17.108 altered locations.
NOTE Confidence: 0.83948207

00:20:17.110 --> 00:20:19.882 It has been possible for us to
NOTE Confidence: 0.83948207

00:20:19.882 --> 00:20:22.456 proceed with all of our clinical
NOTE Confidence: 0.83948207

00:20:22.456 --> 00:20:24.616 care at really full pace,
NOTE Confidence: 0.83948207

00:20:24.620 --> 00:20:27.116 were functioning on the inpatient arena,

NOTE Confidence: 0.83948207
00:20:27.120 --> 00:20:28.353 giving inpatient treatments,
NOTE Confidence: 0.83948207
00:20:28.353 --> 00:20:29.997 bone marrow transplant stem
NOTE Confidence: 0.83948207
00:20:29.997 --> 00:20:31.710 cell transplant cell therapy,
NOTE Confidence: 0.83948207
00:20:31.710 --> 00:20:33.936 as well as complex surgical care
NOTE Confidence: 0.83948207
00:20:33.936 --> 00:20:37.407 at all of our at our main hospital
NOTE Confidence: 0.83948207
00:20:37.407 --> 00:20:39.787 and delivery network hospitals at
NOTE Confidence: 0.83948207
00:20:39.787 --> 00:20:42.668 full speed as we continue to do
NOTE Confidence: 0.83948207
00:20:42.668 --> 00:20:44.216 in our infusion units
NOTE Confidence: 0.83879495
00:20:44.220 --> 00:20:45.932 in outpatient treatment areas,
NOTE Confidence: 0.83879495
00:20:45.932 --> 00:20:48.500 including our multiple sites of radiation.
NOTE Confidence: 0.83879495
00:20:48.500 --> 00:20:54.030 Onkologie so with that I would
NOTE Confidence: 0.83879495
00:20:54.030 --> 00:20:57.400 also urge people to remember that.
NOTE Confidence: 0.83879495
00:20:57.400 --> 00:21:00.921 Cancer is not the only threatening health
NOTE Confidence: 0.83879495
00:21:00.921 --> 00:21:05.240 problem that we face and you are safe to to
NOTE Confidence: 0.83879495
00:21:05.240 --> 00:21:08.618 pursue your your background medical care.
NOTE Confidence: 0.83879495

00:21:08.620 --> 00:21:11.581 Please do not put off routine medical
NOTE Confidence: 0.83879495

00:21:11.581 --> 00:21:15.138 care follow up with your primary care
NOTE Confidence: 0.83879495

00:21:15.138 --> 00:21:17.893 physician for any concerning symptoms.
NOTE Confidence: 0.83879495

00:21:17.900 --> 00:21:20.335 Try to maintain your scheduled
NOTE Confidence: 0.83879495

00:21:20.335 --> 00:21:22.283 visits and of course,
NOTE Confidence: 0.83879495

00:21:22.290 --> 00:21:24.880 if you have scheduled screening
NOTE Confidence: 0.83879495

00:21:24.880 --> 00:21:27.470 exams for for cancer please.
NOTE Confidence: 0.83879495

00:21:27.470 --> 00:21:29.318 Do everything you can to follow
NOTE Confidence: 0.83879495

00:21:29.318 --> 00:21:30.242 up with those.
NOTE Confidence: 0.83879495

00:21:30.250 --> 00:21:32.168 Well, we do have some delays and
NOTE Confidence: 0.83879495

00:21:32.168 --> 00:21:33.650 things like screening mammography.
NOTE Confidence: 0.83879495

00:21:33.650 --> 00:21:35.366 We are working as quickly as
NOTE Confidence: 0.83879495

00:21:35.366 --> 00:21:37.050 we can through that backlog,
NOTE Confidence: 0.83879495

00:21:37.050 --> 00:21:39.269 and that is an important part of
NOTE Confidence: 0.83879495

00:21:39.269 --> 00:21:41.744 the service we deliver and we look
NOTE Confidence: 0.83879495

00:21:41.744 --> 00:21:43.928 forward to providing that for you.

NOTE Confidence: 0.83879495

00:21:43.930 --> 00:21:45.790 So thank you.

NOTE Confidence: 0.80216104

00:21:47.880 --> 00:21:50.848 Kevin Kevin, thank you for those updates.

NOTE Confidence: 0.80216104

00:21:50.850 --> 00:21:53.866 So let me turn now to Doctor on

NOTE Confidence: 0.80216104

00:21:53.866 --> 00:21:57.806 Despond a who is here to share updates

NOTE Confidence: 0.80216104

00:21:57.806 --> 00:22:00.461 on vaccination and planning through

NOTE Confidence: 0.80216104

00:22:00.461 --> 00:22:03.720 the L New Haven Health System. Thank

NOTE Confidence: 0.855625

00:22:03.720 --> 00:22:05.030 you, Charlie and thank you

NOTE Confidence: 0.855625

00:22:05.030 --> 00:22:06.340 all for for being here.

NOTE Confidence: 0.855625

00:22:06.340 --> 00:22:08.580 I'll just share a couple of slides

NOTE Confidence: 0.855625

00:22:08.580 --> 00:22:10.839 to frame the conversation here.

NOTE Confidence: 0.855625

00:22:10.840 --> 00:22:13.328 So this is just this is just a

NOTE Confidence: 0.855625

00:22:13.328 --> 00:22:15.885 basic timeline of where have how

NOTE Confidence: 0.855625

00:22:15.885 --> 00:22:17.280 vaccinations have transpired.

NOTE Confidence: 0.855625

00:22:17.280 --> 00:22:19.560 Here at Yale, New Haven health,

NOTE Confidence: 0.855625

00:22:19.560 --> 00:22:21.455 just for some context as

NOTE Confidence: 0.855625

00:22:21.455 --> 00:22:23.350 as illustrated at the top,
NOTE Confidence: 0.855625

00:22:23.350 --> 00:22:25.720 the initial approval by the FDA
NOTE Confidence: 0.855625

00:22:25.720 --> 00:22:28.269 for Pfizer took place on the 11th.
NOTE Confidence: 0.855625

00:22:28.270 --> 00:22:30.182 We actually started consistent
NOTE Confidence: 0.855625

00:22:30.182 --> 00:22:32.572 with the public health guidelines
NOTE Confidence: 0.855625

00:22:32.572 --> 00:22:34.783 to vaccinate our health care
NOTE Confidence: 0.855625

00:22:34.783 --> 00:22:37.267 workers a short five days later.
NOTE Confidence: 0.855625

00:22:37.270 --> 00:22:37.982 Immediately thereafter,
NOTE Confidence: 0.855625

00:22:37.982 --> 00:22:39.050 on the 18th,
NOTE Confidence: 0.855625

00:22:39.050 --> 00:22:41.738 the Moderna vaccine was approved and we
NOTE Confidence: 0.855625

00:22:41.738 --> 00:22:44.636 have been using both of those vaccines
NOTE Confidence: 0.855625

00:22:44.636 --> 00:22:47.150 in our vaccination programs thus far.
NOTE Confidence: 0.855625

00:22:47.150 --> 00:22:49.370 So we have initially focused again
NOTE Confidence: 0.855625

00:22:49.370 --> 00:22:51.610 based on the guidance given to
NOTE Confidence: 0.855625

00:22:51.610 --> 00:22:53.674 us from the state on vaccinating
NOTE Confidence: 0.855625

00:22:53.674 --> 00:22:55.290 our health care workers,

NOTE Confidence: 0.855625

00:22:55.290 --> 00:22:57.774 and we have some about 34,000

NOTE Confidence: 0.855625

00:22:57.774 --> 00:23:00.015 individuals in the health system

NOTE Confidence: 0.855625

00:23:00.015 --> 00:23:02.525 which includes our medical staff.

NOTE Confidence: 0.855625

00:23:02.530 --> 00:23:04.693 Who are eligible for vaccination is a

NOTE Confidence: 0.855625

00:23:04.693 --> 00:23:07.390 part of our health care work workforce.

NOTE Confidence: 0.855625

00:23:07.390 --> 00:23:08.774 We've been fairly successful.

NOTE Confidence: 0.855625

00:23:08.774 --> 00:23:09.120 We've,

NOTE Confidence: 0.855625

00:23:09.120 --> 00:23:10.164 as of today,

NOTE Confidence: 0.855625

00:23:10.164 --> 00:23:12.742 were around 68% of our health care

NOTE Confidence: 0.855625

00:23:12.742 --> 00:23:14.657 workers are vaccinated or goals

NOTE Confidence: 0.855625

00:23:14.657 --> 00:23:17.391 to get to 80 and we are on our way

NOTE Confidence: 0.855625

00:23:17.391 --> 00:23:19.666 and we are continuing to press

NOTE Confidence: 0.855625

00:23:19.666 --> 00:23:21.960 forward and getting to that goal.

NOTE Confidence: 0.8356497

00:23:24.020 --> 00:23:26.799 At the beginning of January we started

NOTE Confidence: 0.8356497

00:23:26.799 --> 00:23:29.435 actually towards the end of December we

NOTE Confidence: 0.8356497

00:23:29.435 --> 00:23:32.001 started planning on how we would really
NOTE Confidence: 0.8356497

00:23:32.001 --> 00:23:34.599 pivot to vaccinate the general public.
NOTE Confidence: 0.8356497

00:23:34.600 --> 00:23:36.840 It's a critical part of our mission
NOTE Confidence: 0.8356497

00:23:36.840 --> 00:23:38.872 in serving the communities to
NOTE Confidence: 0.8356497

00:23:38.872 --> 00:23:40.880 support and provide vaccination,
NOTE Confidence: 0.8356497

00:23:40.880 --> 00:23:43.778 and we have done so in a way that
NOTE Confidence: 0.8356497

00:23:43.778 --> 00:23:46.980 is scalable and can get very big
NOTE Confidence: 0.8356497

00:23:46.980 --> 00:23:49.826 indeed as depending on the amount
NOTE Confidence: 0.8356497

00:23:49.826 --> 00:23:52.508 of vaccine we we we received.
NOTE Confidence: 0.8356497

00:23:52.510 --> 00:23:54.418 So we initially piloted vaccination of
NOTE Confidence: 0.8356497

00:23:54.418 --> 00:23:56.861 the general public at several of our
NOTE Confidence: 0.8356497

00:23:56.861 --> 00:23:58.716 Northeast Medical Group ambulatory sites,
NOTE Confidence: 0.8356497

00:23:58.720 --> 00:24:00.967 and on the 22nd of January we
NOTE Confidence: 0.8356497

00:24:00.967 --> 00:24:03.456 started putting up some of our mass
NOTE Confidence: 0.8356497

00:24:03.456 --> 00:24:05.276 vaccination sites which are now.
NOTE Confidence: 0.8356497

00:24:05.280 --> 00:24:07.530 We currently have five sites up

NOTE Confidence: 0.8356497

00:24:07.530 --> 00:24:09.396 and the specific locations are

NOTE Confidence: 0.8356497

00:24:09.396 --> 00:24:11.489 listed in the in the bottom left.

NOTE Confidence: 0.8356497

00:24:11.490 --> 00:24:13.898 So in granite in the granite area,

NOTE Confidence: 0.8356497

00:24:13.900 --> 00:24:16.315 it's the Brunswick School in the Bridgeport,

NOTE Confidence: 0.8356497

00:24:16.320 --> 00:24:17.018 Milford area.

NOTE Confidence: 0.8356497

00:24:17.018 --> 00:24:18.414 It's currently the person

NOTE Confidence: 0.8356497

00:24:18.414 --> 00:24:20.459 center in Milford in New Haven.

NOTE Confidence: 0.8356497

00:24:20.460 --> 00:24:22.800 We have three sites to Floyd

NOTE Confidence: 0.8356497

00:24:22.800 --> 00:24:23.970 Little Athletic Center.

NOTE Confidence: 0.8356497

00:24:23.970 --> 00:24:26.148 In the heart of New Haven,

NOTE Confidence: 0.8356497

00:24:26.150 --> 00:24:27.530 the Westdale West Campus,

NOTE Confidence: 0.8356497

00:24:27.530 --> 00:24:30.870 which is in West Haven and the Lanman Center,

NOTE Confidence: 0.8356497

00:24:30.870 --> 00:24:33.766 which is attached to the Payne Whitney Gym,

NOTE Confidence: 0.8356497

00:24:33.770 --> 00:24:36.380 also in the heart in New Haven in New

NOTE Confidence: 0.8356497

00:24:36.380 --> 00:24:38.656 London region we have Mitchell College's

NOTE Confidence: 0.8356497

00:24:38.656 --> 00:24:41.759 are our most recent mass vaccination site.

NOTE Confidence: 0.8356497

00:24:41.760 --> 00:24:44.376 In addition to that we do have a

NOTE Confidence: 0.8356497

00:24:44.376 --> 00:24:46.110 limited quantity of vaccination,

NOTE Confidence: 0.8356497

00:24:46.110 --> 00:24:47.965 limited amount of vaccination available

NOTE Confidence: 0.8356497

00:24:47.965 --> 00:24:50.221 at the six Northeast Medical Group

NOTE Confidence: 0.8356497

00:24:50.221 --> 00:24:52.279 Ambulatory sites listed in the middle,

NOTE Confidence: 0.8356497

00:24:52.280 --> 00:24:54.290 and as we look forward.

NOTE Confidence: 0.8356497

00:24:54.290 --> 00:24:55.142 We are very.

NOTE Confidence: 0.8356497

00:24:55.142 --> 00:24:57.687 We plan on putting up a mass vaccination

NOTE Confidence: 0.8356497

00:24:57.687 --> 00:25:00.597 site at the University of Bridgeport.

NOTE Confidence: 0.8356497

00:25:00.600 --> 00:25:03.210 Mohegan Sun and other places

NOTE Confidence: 0.8356497

00:25:03.210 --> 00:25:05.298 as we go forward.

NOTE Confidence: 0.8356497

00:25:05.300 --> 00:25:07.113 So a couple of points just around

NOTE Confidence: 0.8356497

00:25:07.113 --> 00:25:08.340 health care worker testing.

NOTE Confidence: 0.8356497

00:25:08.340 --> 00:25:09.966 The reason that we continue to

NOTE Confidence: 0.8356497

00:25:09.966 --> 00:25:11.919 focus on this is that you know,

NOTE Confidence: 0.8356497

00:25:11.920 --> 00:25:13.558 consistent with what Charlie and the

NOTE Confidence: 0.8356497

00:25:13.558 --> 00:25:15.253 rest of the group have discussed

NOTE Confidence: 0.8356497

00:25:15.253 --> 00:25:16.885 on many of these town halls,

NOTE Confidence: 0.8356497

00:25:16.890 --> 00:25:19.878 our commitment is to.

NOTE Confidence: 0.8356497

00:25:19.880 --> 00:25:21.638 Is to continue to provide the

NOTE Confidence: 0.8356497

00:25:21.638 --> 00:25:23.191 highest quality care for patients

NOTE Confidence: 0.8356497

00:25:23.191 --> 00:25:24.816 in the safest way possible.

NOTE Confidence: 0.8356497

00:25:24.820 --> 00:25:25.438 So we,

NOTE Confidence: 0.8356497

00:25:25.438 --> 00:25:26.983 in addition to the typical

NOTE Confidence: 0.8356497

00:25:26.983 --> 00:25:27.910 public health interventions,

NOTE Confidence: 0.8356497

00:25:27.910 --> 00:25:29.150 wearing masks, hand hygiene,

NOTE Confidence: 0.8356497

00:25:29.150 --> 00:25:30.080 and social distancing,

NOTE Confidence: 0.8356497

00:25:30.080 --> 00:25:32.117 we now have a fourth and extremely

NOTE Confidence: 0.8356497

00:25:32.117 --> 00:25:33.480 effective intervention in vaccines.

NOTE Confidence: 0.8356497

00:25:33.480 --> 00:25:35.808 So that is all the reason we have

NOTE Confidence: 0.8356497

00:25:35.808 --> 00:25:37.782 focused and we continue to focus
NOTE Confidence: 0.8356497

00:25:37.782 --> 00:25:40.124 on health care workers is that we
NOTE Confidence: 0.8356497

00:25:40.124 --> 00:25:42.161 want to keep our patients safe and
NOTE Confidence: 0.8356497

00:25:42.161 --> 00:25:43.982 to make sure there are locations,
NOTE Confidence: 0.8356497

00:25:43.982 --> 00:25:45.214 especially for cancer patients.
NOTE Confidence: 0.8356497

00:25:45.220 --> 00:25:47.033 But for all of our patients are
NOTE Confidence: 0.8356497

00:25:47.033 --> 00:25:48.929 as safe as humanly possible.
NOTE Confidence: 0.8356497

00:25:48.930 --> 00:25:50.904 The other pieces that we want to
NOTE Confidence: 0.8356497

00:25:50.904 --> 00:25:52.914 make sure that we can continue
NOTE Confidence: 0.8356497

00:25:52.914 --> 00:25:54.386 to provide supportive care.
NOTE Confidence: 0.8356497

00:25:54.390 --> 00:25:55.605 Without any interruption,
NOTE Confidence: 0.8356497

00:25:55.605 --> 00:25:57.225 and as you know,
NOTE Confidence: 0.8356497

00:25:57.230 --> 00:26:00.457 health care workers have been at higher
NOTE Confidence: 0.8356497

00:26:00.457 --> 00:26:02.932 risk associated with covid and you
NOTE Confidence: 0.8356497

00:26:02.932 --> 00:26:05.760 know that can take them out of work.
NOTE Confidence: 0.8356497

00:26:05.760 --> 00:26:08.124 So vaccination is a key piece

NOTE Confidence: 0.8356497

00:26:08.124 --> 00:26:09.700 of preserving our workforce

NOTE Confidence: 0.8356497

00:26:09.778 --> 00:26:11.438 for protecting our work.

NOTE Confidence: 0.8356497

00:26:11.440 --> 00:26:13.060 Our health care workers,

NOTE Confidence: 0.8356497

00:26:13.060 --> 00:26:14.275 and by extension,

NOTE Confidence: 0.8356497

00:26:14.280 --> 00:26:18.186 continuing to provide care regardless of how.

NOTE Confidence: 0.8356497

00:26:18.190 --> 00:26:20.549 How intense the pandemic continues to be.

NOTE Confidence: 0.8466378

00:26:22.940 --> 00:26:25.422 In terms of just go to the next

NOTE Confidence: 0.8466378

00:26:25.422 --> 00:26:27.317 slide just to illustrate where we

NOTE Confidence: 0.8466378

00:26:27.317 --> 00:26:29.400 are here at Yale, New Haven Health,

NOTE Confidence: 0.8466378

00:26:29.400 --> 00:26:31.570 and there are a couple of things

NOTE Confidence: 0.8466378

00:26:31.639 --> 00:26:33.690 I want to draw your attention to.

NOTE Confidence: 0.8466378

00:26:33.690 --> 00:26:36.138 These data are a few days old now.

NOTE Confidence: 0.8466378

00:26:36.140 --> 00:26:38.289 I think it does have the 24th,

NOTE Confidence: 0.8466378

00:26:38.290 --> 00:26:40.439 but nationally about just over 4 million.

NOTE Confidence: 0.8466378

00:26:40.440 --> 00:26:42.276 41 million doses have been distributed,

NOTE Confidence: 0.8466378

00:26:42.280 --> 00:26:44.384 but only run 21 million and this is
NOTE Confidence: 0.8466378

00:26:44.384 --> 00:26:46.192 probably a little higher now and maybe
NOTE Confidence: 0.8466378

00:26:46.192 --> 00:26:48.806 in the 25 or 26 range have actually
NOTE Confidence: 0.8466378

00:26:48.806 --> 00:26:50.570 been administered into individual,
NOTE Confidence: 0.8466378

00:26:50.570 --> 00:26:52.100 so that's a national utilization
NOTE Confidence: 0.8466378

00:26:52.100 --> 00:26:53.664 of the mid 50% range.
NOTE Confidence: 0.8466378

00:26:53.664 --> 00:26:55.334 Obviously there's been a ton
NOTE Confidence: 0.8466378

00:26:55.334 --> 00:26:57.380 reported in the press about this,
NOTE Confidence: 0.8466378

00:26:57.380 --> 00:27:00.575 and that's not this is not the speed that
NOTE Confidence: 0.8466378

00:27:00.575 --> 00:27:03.740 anyone feels is where we what we would want.
NOTE Confidence: 0.8466378

00:27:03.740 --> 00:27:04.396 Alright, Connecticut,
NOTE Confidence: 0.8466378

00:27:04.396 --> 00:27:06.364 as you are also probably aware,
NOTE Confidence: 0.8466378

00:27:06.370 --> 00:27:08.422 has been doing better and the
NOTE Confidence: 0.8466378

00:27:08.422 --> 00:27:10.649 utilization rate is in the mid 60s,
NOTE Confidence: 0.8466378

00:27:10.650 --> 00:27:12.535 which is something I think
NOTE Confidence: 0.8466378

00:27:12.535 --> 00:27:15.240 all of us should be proud of.

NOTE Confidence: 0.8466378

00:27:15.240 --> 00:27:18.489 And at the top right is young Haven health,

NOTE Confidence: 0.8466378

00:27:18.490 --> 00:27:21.878 so as you can see, we've again these dose.

NOTE Confidence: 0.8466378

00:27:21.878 --> 00:27:24.260 These numbers that 59 or 60,000

NOTE Confidence: 0.8466378

00:27:24.337 --> 00:27:25.707 are a few days old,

NOTE Confidence: 0.8466378

00:27:25.710 --> 00:27:27.186 so it's higher now.

NOTE Confidence: 0.8466378

00:27:27.186 --> 00:27:29.400 But the most important number is

NOTE Confidence: 0.8466378

00:27:29.472 --> 00:27:30.505 that 92% utilization.

NOTE Confidence: 0.8466378

00:27:30.505 --> 00:27:34.225 What that tells us is when we get

NOTE Confidence: 0.8466378

00:27:34.225 --> 00:27:35.530 the vaccine.

NOTE Confidence: 0.8466378

00:27:35.530 --> 00:27:38.667 We get it into people and 92% of all of

NOTE Confidence: 0.8466378

00:27:38.667 --> 00:27:41.211 our doses are used up and administered on

NOTE Confidence: 0.8466378

00:27:41.211 --> 00:27:43.725 a weekly basis and that remaining 8% is,

NOTE Confidence: 0.8466378

00:27:43.725 --> 00:27:45.300 you know, some of that.

NOTE Confidence: 0.8466378

00:27:45.300 --> 00:27:47.541 We just keep in as a buffer and some

NOTE Confidence: 0.8466378

00:27:47.541 --> 00:27:50.302 of that just it really fluctuates a

NOTE Confidence: 0.8466378

00:27:50.302 --> 00:27:52.278 few percentage points depending on
NOTE Confidence: 0.8466378

00:27:52.278 --> 00:27:55.213 which time point in the week you look at it.
NOTE Confidence: 0.8466378

00:27:55.213 --> 00:27:57.528 Because we get the vaccine
NOTE Confidence: 0.8466378

00:27:57.528 --> 00:28:00.560 shipment once a week so that 92%.
NOTE Confidence: 0.8466378

00:28:00.560 --> 00:28:03.150 Number tells you that we have figured
NOTE Confidence: 0.8466378

00:28:03.150 --> 00:28:05.493 out the operational issues that are
NOTE Confidence: 0.8466378

00:28:05.493 --> 00:28:07.438 needed to deliver these vaccines
NOTE Confidence: 0.8466378

00:28:07.438 --> 00:28:09.779 into people as quickly as possible.
NOTE Confidence: 0.8466378

00:28:09.780 --> 00:28:12.844 We are ready to take care of everyone.
NOTE Confidence: 0.8466378

00:28:12.850 --> 00:28:15.377 We are ready to vaccinate and the
NOTE Confidence: 0.8466378

00:28:15.377 --> 00:28:17.756 only thing we are really waiting
NOTE Confidence: 0.8466378

00:28:17.756 --> 00:28:19.380 on is is vaccines,
NOTE Confidence: 0.8466378

00:28:19.380 --> 00:28:22.827 which I'll which I'll touch upon in a moment.
NOTE Confidence: 0.8466378

00:28:22.830 --> 00:28:24.362 The bottom graph really
NOTE Confidence: 0.8466378

00:28:24.362 --> 00:28:25.894 just shows the trajectory.
NOTE Confidence: 0.8466378

00:28:25.900 --> 00:28:28.396 The appointments by day and the

NOTE Confidence: 0.8466378

00:28:28.396 --> 00:28:30.690 breakdown between Pfizer and Moderna.

NOTE Confidence: 0.8466378

00:28:30.690 --> 00:28:31.460 Thus far,

NOTE Confidence: 0.8466378

00:28:31.460 --> 00:28:34.155 the bulk of our vaccine doses administered

NOTE Confidence: 0.8466378

00:28:34.155 --> 00:28:36.438 have been Moderna going forward.

NOTE Confidence: 0.8466378

00:28:36.440 --> 00:28:38.500 It will be primarily Pfizer,

NOTE Confidence: 0.8466378

00:28:38.500 --> 00:28:41.200 but from a practical purpose it

NOTE Confidence: 0.8466378

00:28:41.200 --> 00:28:43.839 doesn't really matter which one it is.

NOTE Confidence: 0.8466378

00:28:43.840 --> 00:28:47.333 The point is that we are vaccinating

NOTE Confidence: 0.8466378

00:28:47.333 --> 00:28:50.117 people effectively and as of today

NOTE Confidence: 0.8466378

00:28:50.117 --> 00:28:52.505 actually the total dose is given

NOTE Confidence: 0.8466378

00:28:52.505 --> 00:28:55.527 is is at the 5555 thousand range.

NOTE Confidence: 0.8466378

00:28:55.530 --> 00:28:59.070 So what I want you to take away from that,

NOTE Confidence: 0.8466378

00:28:59.070 --> 00:29:02.330 I think is stop sharing.

NOTE Confidence: 0.8466378

00:29:02.330 --> 00:29:03.569 Is that number one?

NOTE Confidence: 0.8466378

00:29:03.569 --> 00:29:05.447 We're following the public health guidance

NOTE Confidence: 0.8466378

00:29:05.447 --> 00:29:07.778 as laid forth by the state of Connecticut.
NOTE Confidence: 0.8466378

00:29:07.780 --> 00:29:08.127 Currently,
NOTE Confidence: 0.8466378

00:29:08.127 --> 00:29:09.862 those individuals who are eligible
NOTE Confidence: 0.8466378

00:29:09.862 --> 00:29:11.543 other than health care workers
NOTE Confidence: 0.8466378

00:29:11.543 --> 00:29:13.237 or people who are 75 and over.
NOTE Confidence: 0.8466378

00:29:13.240 --> 00:29:15.967 So we currently have a number of sites open.
NOTE Confidence: 0.8466378

00:29:15.970 --> 00:29:17.480 What we don't currently have.
NOTE Confidence: 0.8466378

00:29:17.480 --> 00:29:19.286 What's sort of our challenge right
NOTE Confidence: 0.8466378

00:29:19.286 --> 00:29:21.720 now is that we just we don't have.
NOTE Confidence: 0.83757305

00:29:21.720 --> 00:29:23.592 Our schedules are not as open
NOTE Confidence: 0.83757305

00:29:23.592 --> 00:29:25.660 as we would like them to be,
NOTE Confidence: 0.83757305

00:29:25.660 --> 00:29:27.648 and the reason is that we haven't
NOTE Confidence: 0.83757305

00:29:27.648 --> 00:29:28.990 been getting enough vaccine.
NOTE Confidence: 0.83757305

00:29:28.990 --> 00:29:32.330 So this week is sort of one of our big weeks.
NOTE Confidence: 0.83757305

00:29:32.330 --> 00:29:34.759 We are. Vaccinating 12,000 people this week,
NOTE Confidence: 0.83757305

00:29:34.760 --> 00:29:36.482 we've been able to vaccinate 3500

NOTE Confidence: 0.83757305

00:29:36.482 --> 00:29:38.708 people in one day earlier this week.

NOTE Confidence: 0.83757305

00:29:38.710 --> 00:29:40.838 And if you've seen some press about

NOTE Confidence: 0.83757305

00:29:40.838 --> 00:29:43.268 the sites, if you go to the sites,

NOTE Confidence: 0.83757305

00:29:43.270 --> 00:29:45.694 you see that there are a lot more.

NOTE Confidence: 0.83757305

00:29:45.700 --> 00:29:47.530 There's a huge amount of capacity,

NOTE Confidence: 0.83757305

00:29:47.530 --> 00:29:49.348 so we're we're all set up.

NOTE Confidence: 0.83757305

00:29:49.350 --> 00:29:51.774 We have this staff, we know the model,

NOTE Confidence: 0.83757305

00:29:51.780 --> 00:29:54.820 and as soon as we get the vaccine we are.

NOTE Confidence: 0.83757305

00:29:54.820 --> 00:29:55.328 We are.

NOTE Confidence: 0.83757305

00:29:55.328 --> 00:29:58.469 We are ready to scale up at a moments notice.

NOTE Confidence: 0.83757305

00:29:58.470 --> 00:30:00.250 So as I mentioned first.

NOTE Confidence: 0.83757305

00:30:00.250 --> 00:30:01.578 Right now we're vaccinating

NOTE Confidence: 0.83757305

00:30:01.578 --> 00:30:03.570 individuals who are 75 and over.

NOTE Confidence: 0.83757305

00:30:03.570 --> 00:30:06.314 We expect the state of Connecticut to drop

NOTE Confidence: 0.83757305

00:30:06.314 --> 00:30:09.206 that to the people who are 65 and over,

NOTE Confidence: 0.83757305

00:30:09.210 --> 00:30:11.208 probably in the middle of February.
NOTE Confidence: 0.83757305

00:30:11.210 --> 00:30:12.932 What we don't currently know is
NOTE Confidence: 0.83757305

00:30:12.932 --> 00:30:14.494 exactly where the where individuals
NOTE Confidence: 0.83757305

00:30:14.494 --> 00:30:16.269 with chronic conditions or conditions
NOTE Confidence: 0.83757305

00:30:16.269 --> 00:30:18.096 that place them at elevated
NOTE Confidence: 0.83757305

00:30:18.096 --> 00:30:19.836 risk when they become eligible.
NOTE Confidence: 0.83757305

00:30:19.840 --> 00:30:22.066 We know that they were going to
NOTE Confidence: 0.83757305

00:30:22.066 --> 00:30:24.148 be eligible well before you know,
NOTE Confidence: 0.83757305

00:30:24.150 --> 00:30:25.810 the average healthy person with
NOTE Confidence: 0.83757305

00:30:25.810 --> 00:30:26.806 no clinical issues,
NOTE Confidence: 0.83757305

00:30:26.810 --> 00:30:29.127 but we're still waiting for that guidance.
NOTE Confidence: 0.83757305

00:30:29.130 --> 00:30:32.058 So that's just something that we don't know.
NOTE Confidence: 0.83757305

00:30:32.060 --> 00:30:34.328 But I think again the message should
NOTE Confidence: 0.83757305

00:30:34.328 --> 00:30:36.610 be rest assured that when we are able
NOTE Confidence: 0.83757305

00:30:36.610 --> 00:30:38.974 to and we have the vaccine, we will.
NOTE Confidence: 0.83757305

00:30:38.974 --> 00:30:41.190 We are ready and we are ready to

NOTE Confidence: 0.83757305

00:30:41.263 --> 00:30:43.375 meet that need and provide the

NOTE Confidence: 0.83757305

00:30:43.375 --> 00:30:45.460 vaccine as quickly as possible.

NOTE Confidence: 0.83757305

00:30:45.460 --> 00:30:46.895 A few other questions you

NOTE Confidence: 0.83757305

00:30:46.895 --> 00:30:48.043 know people have asked,

NOTE Confidence: 0.83757305

00:30:48.050 --> 00:30:49.490 you know, can I get?

NOTE Confidence: 0.83757305

00:30:49.490 --> 00:30:51.268 Will I be able to get it

NOTE Confidence: 0.83757305

00:30:51.268 --> 00:30:52.949 at my smile care center?

NOTE Confidence: 0.83757305

00:30:52.950 --> 00:30:55.533 I think my answer would be I hope so.

NOTE Confidence: 0.83757305

00:30:55.540 --> 00:30:57.268 In the mean time you know,

NOTE Confidence: 0.83757305

00:30:57.270 --> 00:30:58.134 as Charlie mentioned,

NOTE Confidence: 0.83757305

00:30:58.134 --> 00:31:00.440 these are the two vaccines we currently have.

NOTE Confidence: 0.83757305

00:31:00.440 --> 00:31:02.402 Our M RNA vaccines and they need to be

NOTE Confidence: 0.83757305

00:31:02.402 --> 00:31:04.423 kept extremely cold and it's logistically

NOTE Confidence: 0.83757305

00:31:04.423 --> 00:31:06.480 difficult to distribute and keep them.

NOTE Confidence: 0.83757305

00:31:06.480 --> 00:31:07.056 You know,

NOTE Confidence: 0.83757305

00:31:07.056 --> 00:31:09.072 in all the places in the system.
NOTE Confidence: 0.83757305

00:31:09.080 --> 00:31:10.956 So right now we're really focusing on
NOTE Confidence: 0.83757305

00:31:10.956 --> 00:31:13.400 keeping it to a limited number of locations.
NOTE Confidence: 0.83757305

00:31:13.400 --> 00:31:15.409 I think as we get more vaccine,
NOTE Confidence: 0.83757305

00:31:15.410 --> 00:31:17.072 we figure out the operational issues
NOTE Confidence: 0.83757305

00:31:17.072 --> 00:31:18.969 we would like to increase that.
NOTE Confidence: 0.83757305

00:31:18.970 --> 00:31:20.506 Availability and I think,
NOTE Confidence: 0.83757305

00:31:20.506 --> 00:31:22.426 especially when the Astra Zeneca
NOTE Confidence: 0.83757305

00:31:22.426 --> 00:31:24.801 and the more importantly I think
NOTE Confidence: 0.83757305

00:31:24.801 --> 00:31:26.721 the JNJ vaccine become available.
NOTE Confidence: 0.83757305

00:31:26.730 --> 00:31:29.160 That's something that will be much
NOTE Confidence: 0.83757305

00:31:29.160 --> 00:31:31.810 easier to stock and distribute and
NOTE Confidence: 0.83757305

00:31:31.810 --> 00:31:35.135 administer in all of our ambulatory sites.
NOTE Confidence: 0.83757305

00:31:35.140 --> 00:31:36.886 So I'll stop there I can.
NOTE Confidence: 0.83757305

00:31:36.890 --> 00:31:38.636 I'm happy to take some questions.
NOTE Confidence: 0.83757305

00:31:38.640 --> 00:31:39.450 Will keep answering.

NOTE Confidence: 0.83757305

00:31:39.450 --> 00:31:42.150 I'll look at the Q&A as an answer there,

NOTE Confidence: 0.83757305

00:31:42.150 --> 00:31:44.478 but thank you for having me just rested.

NOTE Confidence: 0.83757305

00:31:44.480 --> 00:31:46.545 The rest assured that we are keeping

NOTE Confidence: 0.83757305

00:31:46.545 --> 00:31:48.882 our carries as safe as possible and we

NOTE Confidence: 0.83757305

00:31:48.882 --> 00:31:51.198 are eager to provide the vaccine to you.

NOTE Confidence: 0.8674386

00:31:52.140 --> 00:31:54.618 Well, thank you and really congratulations

NOTE Confidence: 0.8674386

00:31:54.618 --> 00:31:57.794 to you and your entire team and really

NOTE Confidence: 0.8674386

00:31:57.794 --> 00:32:00.330 setting the model of of roll out.

NOTE Confidence: 0.8674386

00:32:00.330 --> 00:32:03.666 'cause I what I certainly heard and I

NOTE Confidence: 0.8674386

00:32:03.666 --> 00:32:06.745 hope everyone on this call is heard is

NOTE Confidence: 0.8674386

00:32:06.745 --> 00:32:10.146 that the only thing that is in your way

NOTE Confidence: 0.8674386

00:32:10.146 --> 00:32:13.200 is just getting supply and the fact that

NOTE Confidence: 0.8674386

00:32:13.200 --> 00:32:16.870 you can get 92% plus of the doses into

NOTE Confidence: 0.8674386

00:32:16.870 --> 00:32:19.456 peoples arms quickly really just speaks

NOTE Confidence: 0.8674386

00:32:19.456 --> 00:32:22.592 to the fact that you've set up systems.

NOTE Confidence: 0.8674386

00:32:22.600 --> 00:32:24.707 At once we get the supply up.

NOTE Confidence: 0.8674386

00:32:24.710 --> 00:32:25.312 You're going.

NOTE Confidence: 0.8674386

00:32:25.312 --> 00:32:27.720 You're going to get it to our patients.

NOTE Confidence: 0.8674386

00:32:27.720 --> 00:32:28.908 You know, I'll I'll,

NOTE Confidence: 0.8674386

00:32:28.908 --> 00:32:31.055 we're going to open it up to

NOTE Confidence: 0.8674386

00:32:31.055 --> 00:32:32.825 sort of questions at the end,

NOTE Confidence: 0.8674386

00:32:32.830 --> 00:32:34.734 but let me just before I turn

NOTE Confidence: 0.8674386

00:32:34.734 --> 00:32:36.150 to the next speaker,

NOTE Confidence: 0.8674386

00:32:36.150 --> 00:32:38.250 let me just offer up one question.

NOTE Confidence: 0.8674386

00:32:38.250 --> 00:32:40.114 I'm seeing a lot of is do you

NOTE Confidence: 0.8674386

00:32:40.114 --> 00:32:42.259 have a sense of supply chain and

NOTE Confidence: 0.8674386

00:32:42.259 --> 00:32:44.300 how that's going to look over

NOTE Confidence: 0.8674386

00:32:44.300 --> 00:32:46.075 the coming weeks and months?

NOTE Confidence: 0.8674386

00:32:46.080 --> 00:32:46.980 Yeah, no, that's

NOTE Confidence: 0.8365075

00:32:46.980 --> 00:32:48.786 that's. That's the right question I.

NOTE Confidence: 0.8365075

00:32:48.790 --> 00:32:51.499 So as I said, we have a fair amount.

NOTE Confidence: 0.8365075

00:32:51.500 --> 00:32:53.698 It's this week is a very weak.

NOTE Confidence: 0.8365075

00:32:53.700 --> 00:32:55.848 Next week we expect to vaccinate,

NOTE Confidence: 0.8365075

00:32:55.850 --> 00:32:57.640 probably between 5 and 7000.

NOTE Confidence: 0.8365075

00:32:57.640 --> 00:32:59.072 Again, you know that's

NOTE Confidence: 0.8365075

00:32:59.072 --> 00:33:01.220 not where we want to be.

NOTE Confidence: 0.8365075

00:33:01.220 --> 00:33:03.320 We're building this model to be

NOTE Confidence: 0.8365075

00:33:03.320 --> 00:33:05.507 able to vaccinate forty 40,000 or

NOTE Confidence: 0.8365075

00:33:05.507 --> 00:33:07.655 more individuals on a weekly basis.

NOTE Confidence: 0.8365075

00:33:07.660 --> 00:33:10.166 So we have a pretty scalable model.

NOTE Confidence: 0.8365075

00:33:10.170 --> 00:33:12.730 The issue is that I think in the

NOTE Confidence: 0.8365075

00:33:12.730 --> 00:33:15.000 next month it's the supply is

NOTE Confidence: 0.8365075

00:33:15.000 --> 00:33:17.322 going to be a little constrained.

NOTE Confidence: 0.8365075

00:33:17.330 --> 00:33:18.965 What think people have probably

NOTE Confidence: 0.8365075

00:33:18.965 --> 00:33:21.062 heard that you know with the

NOTE Confidence: 0.8365075

00:33:21.062 --> 00:33:23.057 transition of the new administration,

NOTE Confidence: 0.8365075

00:33:23.060 --> 00:33:25.388 there is a lack of transparency.
NOTE Confidence: 0.8365075

00:33:25.390 --> 00:33:26.979 Even at the federal level about where
NOTE Confidence: 0.8365075

00:33:26.979 --> 00:33:28.755 the doses are and how many they actually
NOTE Confidence: 0.8365075

00:33:28.755 --> 00:33:30.698 have on hand and how to distribute that.
NOTE Confidence: 0.8365075

00:33:30.700 --> 00:33:32.278 We are all optimistic about the
NOTE Confidence: 0.8365075

00:33:32.278 --> 00:33:34.532 fact that in the next 10 days the
NOTE Confidence: 0.8365075

00:33:34.532 --> 00:33:36.242 administration will be able to make
NOTE Confidence: 0.8365075

00:33:36.304 --> 00:33:38.212 those links understand where things are
NOTE Confidence: 0.8365075

00:33:38.212 --> 00:33:40.084 and really put the federal government
NOTE Confidence: 0.8365075

00:33:40.084 --> 00:33:42.163 back on the footing where it should
NOTE Confidence: 0.8365075

00:33:42.163 --> 00:33:44.141 be such that those those doses get
NOTE Confidence: 0.8365075

00:33:44.141 --> 00:33:45.880 distributed out in a more effective
NOTE Confidence: 0.8365075

00:33:45.880 --> 00:33:47.987 and effective way in a higher number.
NOTE Confidence: 0.8365075

00:33:47.990 --> 00:33:49.790 So I think that you know
NOTE Confidence: 0.8365075

00:33:49.790 --> 00:33:51.500 next week it will be OK.
NOTE Confidence: 0.8365075

00:33:51.500 --> 00:33:53.544 The week after I think probably the

NOTE Confidence: 0.8365075

00:33:53.544 --> 00:33:55.339 two weeks after that are probably

NOTE Confidence: 0.8365075

00:33:55.339 --> 00:33:57.341 going to be the low watermark in

NOTE Confidence: 0.8365075

00:33:57.404 --> 00:33:59.406 terms of how many doses we receive,

NOTE Confidence: 0.8365075

00:33:59.410 --> 00:34:00.980 probably on the order of.

NOTE Confidence: 0.8365075

00:34:00.980 --> 00:34:01.580 Order 5000,

NOTE Confidence: 0.8365075

00:34:01.580 --> 00:34:03.980 but I think we are all optimistic that

NOTE Confidence: 0.8365075

00:34:04.045 --> 00:34:06.629 after that we will get #1 the transparency.

NOTE Confidence: 0.8365075

00:34:06.630 --> 00:34:08.947 An early warning about when the numbers

NOTE Confidence: 0.8365075

00:34:08.947 --> 00:34:11.655 that we will get such that we can plan.

NOTE Confidence: 0.8365075

00:34:11.660 --> 00:34:13.809 And then we also will actually see

NOTE Confidence: 0.8365075

00:34:13.809 --> 00:34:16.048 more dose does actually come to us.

NOTE Confidence: 0.8365075

00:34:16.050 --> 00:34:18.218 So I think that by the probably the

NOTE Confidence: 0.8365075

00:34:18.218 --> 00:34:20.244 third week of February things are

NOTE Confidence: 0.8365075

00:34:20.244 --> 00:34:22.014 going to ease up substantially,

NOTE Confidence: 0.8365075

00:34:22.020 --> 00:34:24.380 but the next two to three weeks are

NOTE Confidence: 0.8365075

00:34:24.380 --> 00:34:26.647 going to be a little tight on our
NOTE Confidence: 0.8365075

00:34:26.647 --> 00:34:28.930 end in terms of the availability,
NOTE Confidence: 0.8365075

00:34:28.930 --> 00:34:31.128 I will say that we are opening
NOTE Confidence: 0.8365075

00:34:31.128 --> 00:34:32.997 schedules fairly regularly, so if you.
NOTE Confidence: 0.8365075

00:34:32.997 --> 00:34:35.595 You know if you are over 70 age
NOTE Confidence: 0.8365075

00:34:35.595 --> 00:34:38.017 of 75 and or eligible as such,
NOTE Confidence: 0.8365075

00:34:38.020 --> 00:34:40.068 I encourage you to check back on the
NOTE Confidence: 0.8365075

00:34:40.068 --> 00:34:41.869 website at you know periodically
NOTE Confidence: 0.8365075

00:34:41.869 --> 00:34:43.914 because availability does become open.
NOTE Confidence: 0.8365075

00:34:43.920 --> 00:34:46.216 Although the demand does demands pretty high.
NOTE Confidence: 0.8365075

00:34:46.220 --> 00:34:47.860 So it goes pretty quickly.
NOTE Confidence: 0.8365075

00:34:47.860 --> 00:34:50.803 But we we open schedules on an ongoing basis,
NOTE Confidence: 0.8365075

00:34:50.810 --> 00:34:52.868 so if you don't see it initially
NOTE Confidence: 0.8365075

00:34:52.868 --> 00:34:54.916 come back again and hopefully will
NOTE Confidence: 0.8365075

00:34:54.916 --> 00:34:56.384 have something for you.
NOTE Confidence: 0.8548816

00:34:57.490 --> 00:34:59.500 Home thank you and I I.

NOTE Confidence: 0.8548816
00:34:59.500 --> 00:35:01.180 There's a by the way,
NOTE Confidence: 0.8548816
00:35:01.180 --> 00:35:03.045 I like we definitely getting
NOTE Confidence: 0.8548816
00:35:03.045 --> 00:35:04.910 your questions online and even
NOTE Confidence: 0.8548816
00:35:04.973 --> 00:35:06.870 before and we will come to it.
NOTE Confidence: 0.8548816
00:35:06.870 --> 00:35:09.374 But I do want to also allow our
NOTE Confidence: 0.8548816
00:35:09.374 --> 00:35:11.071 other speakers to share their
NOTE Confidence: 0.8548816
00:35:11.071 --> 00:35:12.736 thoughts and then we'll open
NOTE Confidence: 0.8548816
00:35:12.736 --> 00:35:14.907 it up to the entire patent.
NOTE Confidence: 0.8548816
00:35:14.910 --> 00:35:15.580 Our panel.
NOTE Confidence: 0.8548816
00:35:15.580 --> 00:35:16.920 So as I mentioned,
NOTE Confidence: 0.8548816
00:35:16.920 --> 00:35:18.846 Doctor Karen Adelson is our Chief
NOTE Confidence: 0.8548816
00:35:18.846 --> 00:35:20.130 Quality Officer and actually
NOTE Confidence: 0.8548816
00:35:20.184 --> 00:35:21.789 has been to participating in
NOTE Confidence: 0.8548816
00:35:21.789 --> 00:35:23.394 Guideline Group that the National
NOTE Confidence: 0.8548816
00:35:23.447 --> 00:35:24.855 Cancer Institute Cancer centers
NOTE Confidence: 0.8548816

00:35:24.855 --> 00:35:26.615 have been working on four
NOTE Confidence: 0.8548816

00:35:26.615 --> 00:35:28.173 guidelines for cancer patients
NOTE Confidence: 0.8548816

00:35:28.173 --> 00:35:30.579 with respect to the vaccine and.
NOTE Confidence: 0.8548816

00:35:30.580 --> 00:35:33.079 Karen has been gracious to join us
NOTE Confidence: 0.8548816

00:35:33.079 --> 00:35:35.970 tonight to share the results of that work.
NOTE Confidence: 0.8548816

00:35:35.970 --> 00:35:37.038 So, Karen, thank
NOTE Confidence: 0.8555253

00:35:37.040 --> 00:35:39.200 you. Thank you. Thank you Charlie.
NOTE Confidence: 0.8555253

00:35:39.200 --> 00:35:41.710 I just want to say for all
NOTE Confidence: 0.8555253

00:35:41.710 --> 00:35:43.858 of us who work in smilow,
NOTE Confidence: 0.8555253

00:35:43.860 --> 00:35:46.380 we are really so happy that in
NOTE Confidence: 0.8555253

00:35:46.380 --> 00:35:48.606 the months to come we are going
NOTE Confidence: 0.8555253

00:35:48.606 --> 00:35:50.973 to be able to offer you the
NOTE Confidence: 0.8555253

00:35:50.973 --> 00:35:53.463 vaccine that is going to be able
NOTE Confidence: 0.8555253

00:35:53.463 --> 00:35:55.917 to eventually allow you to start
NOTE Confidence: 0.8555253

00:35:55.917 --> 00:35:58.074 living life more normally again.
NOTE Confidence: 0.8555253

00:35:58.074 --> 00:36:01.660 And we know how important that is. Just

NOTE Confidence: 0.88712025

00:36:01.660 --> 00:36:03.766 a few really big picture points.

NOTE Confidence: 0.88712025

00:36:03.770 --> 00:36:06.220 I don't have slides, but I've seen

NOTE Confidence: 0.88712025

00:36:06.220 --> 00:36:08.326 questions from our patients coming in,

NOTE Confidence: 0.88712025

00:36:08.330 --> 00:36:10.787 and I there's some things I just

NOTE Confidence: 0.88712025

00:36:10.787 --> 00:36:13.240 want to be able to tell you.

NOTE Confidence: 0.88712025

00:36:13.240 --> 00:36:15.274 So the clinical trials that were

NOTE Confidence: 0.88712025

00:36:15.274 --> 00:36:17.419 done that brought these vaccines to

NOTE Confidence: 0.88712025

00:36:17.419 --> 00:36:19.560 market that proved they were safe

NOTE Confidence: 0.88712025

00:36:19.560 --> 00:36:21.320 were done in healthy individuals,

NOTE Confidence: 0.88712025

00:36:21.320 --> 00:36:23.070 not in patients with cancer.

NOTE Confidence: 0.88712025

00:36:23.070 --> 00:36:26.152 So when we had to set about making guidelines

NOTE Confidence: 0.88712025

00:36:26.152 --> 00:36:27.990 and recommendations for the vaccine,

NOTE Confidence: 0.88712025

00:36:27.990 --> 00:36:30.136 we really had to base those

NOTE Confidence: 0.88712025

00:36:30.136 --> 00:36:31.628 guidelines on our knowledge.

NOTE Confidence: 0.88712025

00:36:31.630 --> 00:36:33.610 Of immunology and on our

NOTE Confidence: 0.88712025

00:36:33.610 --> 00:36:35.194 knowledge of cancer biology,
NOTE Confidence: 0.88712025

00:36:35.200 --> 00:36:37.965 so again, not really based on the
NOTE Confidence: 0.88712025

00:36:37.965 --> 00:36:40.359 patients we saw in the trials,
NOTE Confidence: 0.88712025

00:36:40.360 --> 00:36:41.954 but it's really important.
NOTE Confidence: 0.88712025

00:36:41.954 --> 00:36:45.130 I want everyone of you to realize this.
NOTE Confidence: 0.88712025

00:36:45.130 --> 00:36:47.668 There is absolutely no reason to
NOTE Confidence: 0.88712025

00:36:47.668 --> 00:36:50.523 believe that the vaccine will put you
NOTE Confidence: 0.88712025

00:36:50.523 --> 00:36:53.064 at any higher risk than anyone else.
NOTE Confidence: 0.88712025

00:36:53.070 --> 00:36:55.786 So we believe fully that this vaccine
NOTE Confidence: 0.88712025

00:36:55.786 --> 00:36:58.630 should be incredibly safe in cancer patients.
NOTE Confidence: 0.88712025

00:36:58.630 --> 00:36:59.026 Furthermore,
NOTE Confidence: 0.88712025

00:36:59.026 --> 00:37:01.408 we know that patients with active
NOTE Confidence: 0.88712025

00:37:01.408 --> 00:37:03.790 cancer with different kinds of cancer,
NOTE Confidence: 0.88712025

00:37:03.790 --> 00:37:05.840 blood cancers and solid tumors.
NOTE Confidence: 0.88712025

00:37:05.840 --> 00:37:08.199 May be more vulnerable to the risks
NOTE Confidence: 0.88712025

00:37:08.199 --> 00:37:10.937 of getting a COVID-19 infection and so

NOTE Confidence: 0.88712025

00:37:10.937 --> 00:37:13.340 for patients who have active cancer

NOTE Confidence: 0.88712025

00:37:13.340 --> 00:37:15.220 and an active cancer treatment.

NOTE Confidence: 0.88712025

00:37:15.220 --> 00:37:17.920 It's that much more important that

NOTE Confidence: 0.88712025

00:37:17.920 --> 00:37:21.164 you get the vaccine in the protection

NOTE Confidence: 0.88712025

00:37:21.164 --> 00:37:23.882 that the vaccine will give you.

NOTE Confidence: 0.88712025

00:37:23.890 --> 00:37:25.472 There's some other questions

NOTE Confidence: 0.88712025

00:37:25.472 --> 00:37:27.445 that continue to come up.

NOTE Confidence: 0.88712025

00:37:27.445 --> 00:37:29.025 What about my family?

NOTE Confidence: 0.88712025

00:37:29.030 --> 00:37:31.000 And will my family members

NOTE Confidence: 0.88712025

00:37:31.000 --> 00:37:32.978 be able to get vaccinated?

NOTE Confidence: 0.88712025

00:37:32.980 --> 00:37:35.739 So the guidelines that we developed in

NOTE Confidence: 0.88712025

00:37:35.740 --> 00:37:38.506 this and CCN committee that was working,

NOTE Confidence: 0.88712025

00:37:38.506 --> 00:37:41.310 we really would love to see household

NOTE Confidence: 0.88712025

00:37:41.310 --> 00:37:43.320 Contacts and family members getting

NOTE Confidence: 0.88712025

00:37:43.392 --> 00:37:45.690 vaccinated because they put our patients

NOTE Confidence: 0.88712025

00:37:45.690 --> 00:37:48.057 at the highest risk for infection
NOTE Confidence: 0.88712025

00:37:48.057 --> 00:37:50.355 just by living in close proximity.
NOTE Confidence: 0.88712025

00:37:50.360 --> 00:37:52.790 But because the vaccine has still
NOTE Confidence: 0.88712025

00:37:52.790 --> 00:37:54.915 been in such limited supply.
NOTE Confidence: 0.88712025

00:37:54.920 --> 00:37:57.212 The current guidelines say that your
NOTE Confidence: 0.88712025

00:37:57.212 --> 00:37:59.151 family members should get vaccinated
NOTE Confidence: 0.88712025

00:37:59.151 --> 00:38:01.573 with the group in which they fall.
NOTE Confidence: 0.88712025

00:38:01.580 --> 00:38:04.170 In terms of age and medical risk.
NOTE Confidence: 0.88712025

00:38:04.170 --> 00:38:06.508 But we do hope an endorse that
NOTE Confidence: 0.88712025

00:38:06.508 --> 00:38:08.240 this may change overtime.
NOTE Confidence: 0.8684338

00:38:10.640 --> 00:38:11.858 The real concern
NOTE Confidence: 0.8684338

00:38:11.860 --> 00:38:13.890 is not that the vaccine
NOTE Confidence: 0.8684338

00:38:13.890 --> 00:38:17.138 could cause you harm, but that if you're
NOTE Confidence: 0.8684338

00:38:17.140 --> 00:38:19.575 on certain kinds of cancer treatment,
NOTE Confidence: 0.8684338

00:38:19.575 --> 00:38:22.005 you may not amount as robust
NOTE Confidence: 0.8684338

00:38:22.010 --> 00:38:24.040 an immune response as somebody

NOTE Confidence: 0.8684338

00:38:24.040 --> 00:38:26.067 who's not on cancer treatment.

NOTE Confidence: 0.8684338

00:38:26.067 --> 00:38:29.558 And so it's going to be really important that

NOTE Confidence: 0.8684338

00:38:29.558 --> 00:38:32.159 you communicate with your treating doctor,

NOTE Confidence: 0.8684338

00:38:32.160 --> 00:38:33.780 your hematologist, your oncologist,

NOTE Confidence: 0.8684338

00:38:33.780 --> 00:38:34.995 your surgical oncologists,

NOTE Confidence: 0.8684338

00:38:35.000 --> 00:38:37.430 your GY, an oncologist about the

NOTE Confidence: 0.8684338

00:38:37.430 --> 00:38:39.056 timing of your vaccine.

NOTE Confidence: 0.8684338

00:38:39.056 --> 00:38:40.930 So, so there are.

NOTE Confidence: 0.8684338

00:38:40.930 --> 00:38:43.232 For most patients who are on

NOTE Confidence: 0.8684338

00:38:43.232 --> 00:38:44.768 our standard cancer treatments,

NOTE Confidence: 0.8684338

00:38:44.770 --> 00:38:47.158 we absolutely believe you should get

NOTE Confidence: 0.8684338

00:38:47.158 --> 00:38:50.013 the vaccine and just have a conversation

NOTE Confidence: 0.8684338

00:38:50.013 --> 00:38:52.799 with your provider about when in your

NOTE Confidence: 0.8684338

00:38:52.869 --> 00:38:54.921 treatment cycle might be the best

NOTE Confidence: 0.8684338

00:38:54.921 --> 00:38:57.445 time for you to get that vaccine.

NOTE Confidence: 0.8684338

00:38:57.445 --> 00:38:59.924 There are select and small numbers of
NOTE Confidence: 0.8684338

00:38:59.924 --> 00:39:02.334 patients who have been so severely
NOTE Confidence: 0.8684338

00:39:02.334 --> 00:39:04.222 immuno compromised from their
NOTE Confidence: 0.8684338

00:39:04.222 --> 00:39:06.496 treatments like patients who've had
NOTE Confidence: 0.8684338

00:39:06.496 --> 00:39:08.398 a very recent bone marrow transplant
NOTE Confidence: 0.8684338

00:39:08.398 --> 00:39:10.496 or car T cell procedure somewhat.
NOTE Confidence: 0.8684338

00:39:10.496 --> 00:39:12.900 Maybe patients who are on chronic
NOTE Confidence: 0.8684338

00:39:12.900 --> 00:39:14.920 use of drugs like Rituxan.
NOTE Confidence: 0.8684338

00:39:14.920 --> 00:39:17.368 An Ivy IG that we don't know how
NOTE Confidence: 0.8684338

00:39:17.368 --> 00:39:19.234 Briskin immune response they'll make,
NOTE Confidence: 0.8684338

00:39:19.234 --> 00:39:21.890 but we want you to talk to your
NOTE Confidence: 0.8684338

00:39:21.890 --> 00:39:23.780 doctor about when the best time
NOTE Confidence: 0.8684338

00:39:23.780 --> 00:39:26.208 for you to get that vaccine is.
NOTE Confidence: 0.8684338

00:39:26.210 --> 00:39:26.920 Because we.
NOTE Confidence: 0.8684338

00:39:26.920 --> 00:39:30.625 We again we want all of our patients to get
NOTE Confidence: 0.8684338

00:39:30.625 --> 00:39:33.383 that vaccine in the protection it brings.

NOTE Confidence: 0.8684338

00:39:33.390 --> 00:39:35.423 Those are my big picture comments

NOTE Confidence: 0.8684338

00:39:35.423 --> 00:39:37.241 and then as more specific questions

NOTE Confidence: 0.8684338

00:39:37.241 --> 00:39:39.260 come in about different scenarios,

NOTE Confidence: 0.8684338

00:39:39.260 --> 00:39:40.980 I'm happy to answer them.

NOTE Confidence: 0.84851784

00:39:42.510 --> 00:39:44.526 Karen, thank you. Let me just.

NOTE Confidence: 0.84851784

00:39:44.530 --> 00:39:46.678 There's one question that keeps coming

NOTE Confidence: 0.84851784

00:39:46.678 --> 00:39:49.364 in that I wanted to you've kind of

NOTE Confidence: 0.84851784

00:39:49.364 --> 00:39:52.424 alluded to it, but it amounts to.

NOTE Confidence: 0.84851784

00:39:52.424 --> 00:39:55.670 People who were on active therapy.

NOTE Confidence: 0.84851784

00:39:55.670 --> 00:39:57.180 Should they hold their therapy

NOTE Confidence: 0.84851784

00:39:57.180 --> 00:39:59.469 so that they can get the vaccine?

NOTE Confidence: 0.8813981

00:40:00.860 --> 00:40:03.800 So most likely the answer to that is no,

NOTE Confidence: 0.8813981

00:40:03.800 --> 00:40:06.350 we want you to continue your treatment

NOTE Confidence: 0.8813981

00:40:06.350 --> 00:40:08.748 and we want you to get vaccinated.

NOTE Confidence: 0.8813981

00:40:08.750 --> 00:40:11.144 But there are so many different treatments

NOTE Confidence: 0.8813981

00:40:11.150 --> 00:40:12.800 and so many different regiments

NOTE Confidence: 0.8813981

00:40:12.800 --> 00:40:15.731 that we do want you to talk to your

NOTE Confidence: 0.8813981

00:40:15.731 --> 00:40:17.555 doctor and decide you know when

NOTE Confidence: 0.8813981

00:40:17.622 --> 00:40:19.908 in your treatment regiment or your

NOTE Confidence: 0.8813981

00:40:19.908 --> 00:40:22.058 treatment cycle would be the time

NOTE Confidence: 0.8813981

00:40:22.058 --> 00:40:24.221 in which you would be most likely

NOTE Confidence: 0.8813981

00:40:24.221 --> 00:40:26.589 to Mount a good immune response,

NOTE Confidence: 0.8813981

00:40:26.590 --> 00:40:28.636 and that would most likely be,

NOTE Confidence: 0.8813981

00:40:28.640 --> 00:40:31.048 you know, not that I'm in your

NOTE Confidence: 0.8813981

00:40:31.048 --> 00:40:32.540 treatment where you're white.

NOTE Confidence: 0.8813981

00:40:32.540 --> 00:40:35.200 Blood cells go the lowest.

NOTE Confidence: 0.8813981

00:40:35.200 --> 00:40:36.862 But again, talk to your doctor

NOTE Confidence: 0.8813981

00:40:36.862 --> 00:40:38.262 and they will absolutely work

NOTE Confidence: 0.8813981

00:40:38.262 --> 00:40:39.684 with you to plan the timing.

NOTE Confidence: 0.8406872

00:40:40.340 --> 00:40:42.140 And then Karen, another question

NOTE Confidence: 0.8406872

00:40:42.140 --> 00:40:44.450 before we turn to terror sample,

NOTE Confidence: 0.8406872

00:40:44.450 --> 00:40:47.383 is a number of questions that relate

NOTE Confidence: 0.8406872

00:40:47.383 --> 00:40:49.630 to should patients with cancer.

NOTE Confidence: 0.8406872

00:40:49.630 --> 00:40:50.962 Would it be better?

NOTE Confidence: 0.8406872

00:40:50.962 --> 00:40:53.800 Is there a particular version of the vaccine?

NOTE Confidence: 0.8406872

00:40:53.800 --> 00:40:55.720 Period Moderna Pfizer Johnson

NOTE Confidence: 0.8406872

00:40:55.720 --> 00:40:58.120 Johnson maybe even Astra Zeneca

NOTE Confidence: 0.8406872

00:40:58.120 --> 00:41:00.676 were that to be approved or any

NOTE Confidence: 0.8406872

00:41:00.676 --> 00:41:02.890 of them better than another for

NOTE Confidence: 0.829015

00:41:02.890 --> 00:41:04.123 a cancer patient?

NOTE Confidence: 0.829015

00:41:04.123 --> 00:41:05.775 That's a great question.

NOTE Confidence: 0.829015

00:41:05.775 --> 00:41:08.145 So Interestingly the two approved vaccines,

NOTE Confidence: 0.829015

00:41:08.145 --> 00:41:10.395 the Moderna and the Pfizer RM

NOTE Confidence: 0.829015

00:41:10.395 --> 00:41:12.623 RNA vaccines which actually got

NOTE Confidence: 0.829015

00:41:12.623 --> 00:41:14.853 their start in cancer treatment,

NOTE Confidence: 0.829015

00:41:14.860 --> 00:41:16.930 is how these drugs were.

NOTE Confidence: 0.829015

00:41:16.930 --> 00:41:19.814 This class of drugs was initially developed,
NOTE Confidence: 0.829015

00:41:19.820 --> 00:41:22.756 so those two vaccines, the approved ones,
NOTE Confidence: 0.829015

00:41:22.756 --> 00:41:24.876 are almost like fraternal Twins.
NOTE Confidence: 0.829015

00:41:24.880 --> 00:41:26.543 Equally effective, have similar side
NOTE Confidence: 0.829015

00:41:26.543 --> 00:41:28.530 effects and both require two doses,
NOTE Confidence: 0.829015

00:41:28.530 --> 00:41:30.180 so there's no reason to
NOTE Confidence: 0.829015

00:41:30.180 --> 00:41:31.540 prioritize one over another.
NOTE Confidence: 0.829015

00:41:31.540 --> 00:41:35.210 The best one for you is the one that is
NOTE Confidence: 0.829015

00:41:35.313 --> 00:41:39.174 available on the day that you can get it.
NOTE Confidence: 0.829015

00:41:39.180 --> 00:41:40.780 Future vaccines to come.
NOTE Confidence: 0.829015

00:41:40.780 --> 00:41:42.720 I wouldn't venture to make
NOTE Confidence: 0.829015

00:41:42.720 --> 00:41:44.260 a recommendation until we
NOTE Confidence: 0.829015

00:41:44.260 --> 00:41:46.358 see how effective they are.
NOTE Confidence: 0.829015

00:41:46.360 --> 00:41:47.160 You know,
NOTE Confidence: 0.829015

00:41:47.160 --> 00:41:49.560 there's a high bar now with
NOTE Confidence: 0.829015

00:41:49.560 --> 00:41:52.810 vaccines that are 94-95% effective.

NOTE Confidence: 0.85735726

00:41:52.810 --> 00:41:53.953 Thank you, Karen,

NOTE Confidence: 0.85735726

00:41:53.953 --> 00:41:56.620 and now turning to our last speaker.

NOTE Confidence: 0.85735726

00:41:56.620 --> 00:41:59.308 I think for those of you who have

NOTE Confidence: 0.85735726

00:41:59.308 --> 00:42:01.948 been on several of these forms,

NOTE Confidence: 0.85735726

00:42:01.950 --> 00:42:04.169 one we always want to take time

NOTE Confidence: 0.85735726

00:42:04.169 --> 00:42:06.576 out during the forums to address

NOTE Confidence: 0.85735726

00:42:06.576 --> 00:42:08.424 supportive care and Wellness.

NOTE Confidence: 0.85735726

00:42:08.430 --> 00:42:10.566 Be cause it's hard enough having

NOTE Confidence: 0.85735726

00:42:10.566 --> 00:42:12.885 cancer or having to care for

NOTE Confidence: 0.85735726

00:42:12.885 --> 00:42:14.529 family members with cancer.

NOTE Confidence: 0.85735726

00:42:14.530 --> 00:42:16.816 And this has been a particularly

NOTE Confidence: 0.85735726

00:42:16.816 --> 00:42:19.176 difficult year, and Doctor Tara Samp,

NOTE Confidence: 0.85735726

00:42:19.176 --> 00:42:21.570 who is our chief patient Experience

NOTE Confidence: 0.85735726

00:42:21.648 --> 00:42:23.261 Officer as I know, been.

NOTE Confidence: 0.85735726

00:42:23.261 --> 00:42:25.367 Working with our teams or patients

NOTE Confidence: 0.85735726

00:42:25.367 --> 00:42:27.718 families to try to ensure that we
NOTE Confidence: 0.85735726

00:42:27.718 --> 00:42:29.980 have everything we can in place to
NOTE Confidence: 0.85735726

00:42:29.980 --> 00:42:32.080 help people through this and terror.
NOTE Confidence: 0.85735726

00:42:32.080 --> 00:42:34.084 Thank you for for joining us
NOTE Confidence: 0.85735726

00:42:34.084 --> 00:42:35.420 and sharing your thoughts.
NOTE Confidence: 0.86094624

00:42:36.230 --> 00:42:38.378 Thank you Charlie and thanks everyone.
NOTE Confidence: 0.86094624

00:42:38.380 --> 00:42:41.206 This has been a great discussion and I know
NOTE Confidence: 0.86094624

00:42:41.206 --> 00:42:44.321 that I could listen to Karen Adelson talk all
NOTE Confidence: 0.86094624

00:42:44.321 --> 00:42:46.968 night about cancer patients and vaccines.
NOTE Confidence: 0.86094624

00:42:46.970 --> 00:42:49.698 And I know you were just recently interviewed
NOTE Confidence: 0.86094624

00:42:49.698 --> 00:42:52.286 on our podcast Yale Cancer Center answers
NOTE Confidence: 0.86094624

00:42:52.286 --> 00:42:55.555 and so for people who wanted to hear more,
NOTE Confidence: 0.86094624

00:42:55.555 --> 00:42:58.040 I would encourage them to find that
NOTE Confidence: 0.86094624

00:42:58.040 --> 00:43:00.220 podcast wherever you listen to podcasts,
NOTE Confidence: 0.86094624

00:43:00.220 --> 00:43:02.719 and Renee can correct me if I'm
NOTE Confidence: 0.86094624

00:43:02.720 --> 00:43:04.148 saying the wrong information.

NOTE Confidence: 0.86094624

00:43:04.150 --> 00:43:08.310 I do have one slide to share an.

NOTE Confidence: 0.86094624

00:43:08.310 --> 00:43:10.578 You know, I just I do think

NOTE Confidence: 0.86094624

00:43:10.578 --> 00:43:12.169 that it's important to echo.

NOTE Confidence: 0.86094624

00:43:12.170 --> 00:43:14.756 That while we get our vaccines

NOTE Confidence: 0.86094624

00:43:14.756 --> 00:43:17.574 and the operations and all of

NOTE Confidence: 0.86094624

00:43:17.574 --> 00:43:19.086 our patients vaccinated,

NOTE Confidence: 0.86094624

00:43:19.090 --> 00:43:22.770 we need to continue to support each other.

NOTE Confidence: 0.86094624

00:43:22.770 --> 00:43:25.560 And this is a very isolating

NOTE Confidence: 0.86094624

00:43:25.560 --> 00:43:27.840 time for many of us.

NOTE Confidence: 0.86094624

00:43:27.840 --> 00:43:29.684 If you're feeling particularly

NOTE Confidence: 0.86094624

00:43:29.684 --> 00:43:32.729 isolated or depressed, you know we

NOTE Confidence: 0.86094624

00:43:32.729 --> 00:43:36.047 want you to reach out immediately.

NOTE Confidence: 0.86094624

00:43:36.050 --> 00:43:38.605 When I was asked to present tonight,

NOTE Confidence: 0.86094624

00:43:38.610 --> 00:43:40.746 I reached out to my colleagues

NOTE Confidence: 0.86094624

00:43:40.746 --> 00:43:42.620 who are in social work,

NOTE Confidence: 0.86094624

00:43:42.620 --> 00:43:44.132 integrative medicine, palliative care,
NOTE Confidence: 0.86094624

00:43:44.132 --> 00:43:45.644 and they all volunteered
NOTE Confidence: 0.86094624

00:43:45.644 --> 00:43:47.369 to come here tonight too.
NOTE Confidence: 0.86094624

00:43:47.370 --> 00:43:49.190 We are eager to help.
NOTE Confidence: 0.86094624

00:43:49.190 --> 00:43:52.840 It's a privilege to be with you at this time,
NOTE Confidence: 0.86094624

00:43:52.840 --> 00:43:54.280 and we have many,
NOTE Confidence: 0.86094624

00:43:54.280 --> 00:43:56.860 many offerings that you can choose from.
NOTE Confidence: 0.86094624

00:43:56.860 --> 00:44:00.437 These are just a few websites that.
NOTE Confidence: 0.86094624

00:44:00.440 --> 00:44:02.414 Will link you through to different
NOTE Confidence: 0.86094624

00:44:02.414 --> 00:44:04.378 support groups we have, I think,
NOTE Confidence: 0.86094624

00:44:04.378 --> 00:44:06.646 about 20 support groups that we offer
NOTE Confidence: 0.86094624

00:44:06.646 --> 00:44:08.986 and the website lists all of them.
NOTE Confidence: 0.86094624

00:44:08.990 --> 00:44:10.980 You can choose as appropriate
NOTE Confidence: 0.86094624

00:44:10.980 --> 00:44:12.970 for you in your setting.
NOTE Confidence: 0.86094624

00:44:12.970 --> 00:44:16.522 Integrative medicine, you know,
NOTE Confidence: 0.86094624

00:44:16.522 --> 00:44:18.298 focuses on.

NOTE Confidence: 0.86094624

00:44:18.300 --> 00:44:20.220 Doctor Sofer says all the things

NOTE Confidence: 0.86094624

00:44:20.220 --> 00:44:22.130 that we had before medicine,

NOTE Confidence: 0.86094624

00:44:22.130 --> 00:44:24.398 so the healthy things that we know

NOTE Confidence: 0.86094624

00:44:24.398 --> 00:44:27.000 work for diet and exercise and sleep,

NOTE Confidence: 0.86094624

00:44:27.000 --> 00:44:29.555 and they have a number of offerings

NOTE Confidence: 0.86094624

00:44:29.555 --> 00:44:31.869 and a really lovely website.

NOTE Confidence: 0.86094624

00:44:31.870 --> 00:44:33.838 And then we have teamed up.

NOTE Confidence: 0.86094624

00:44:33.840 --> 00:44:35.850 The survivorship clinic has teamed

NOTE Confidence: 0.86094624

00:44:35.850 --> 00:44:37.860 up with integrative Medicine to

NOTE Confidence: 0.86094624

00:44:37.921 --> 00:44:39.866 also offer a supplements clinic.

NOTE Confidence: 0.86094624

00:44:39.870 --> 00:44:41.370 The palliative care services

NOTE Confidence: 0.86094624

00:44:41.370 --> 00:44:42.870 are located in patient,

NOTE Confidence: 0.86094624

00:44:42.870 --> 00:44:45.257 an outpatient as well as the survivorship

NOTE Confidence: 0.86094624

00:44:45.257 --> 00:44:47.369 services which are mostly outpatient,

NOTE Confidence: 0.86094624

00:44:47.370 --> 00:44:51.456 but we all do in person and virtual visits.

NOTE Confidence: 0.86094624

00:44:51.460 --> 00:44:54.076 We think of ourselves as an extra layer
NOTE Confidence: 0.86094624

00:44:54.076 --> 00:44:56.163 of support no matter what setting
NOTE Confidence: 0.86094624

00:44:56.163 --> 00:44:58.540 you're in or what your issues are,
NOTE Confidence: 0.86094624

00:44:58.540 --> 00:45:00.916 and this is just a quick visual of
NOTE Confidence: 0.86094624

00:45:00.916 --> 00:45:02.580 the Integrative medicine website,
NOTE Confidence: 0.86094624

00:45:02.580 --> 00:45:04.780 and you can see here that they have
NOTE Confidence: 0.86094624

00:45:04.780 --> 00:45:06.959 links to many different offerings,
NOTE Confidence: 0.86094624

00:45:06.960 --> 00:45:10.332 and I again I don't want to take up too
NOTE Confidence: 0.86094624

00:45:10.332 --> 00:45:12.438 much time, but let's stay connected.
NOTE Confidence: 0.86094624

00:45:12.438 --> 00:45:14.955 We're all one big community and no
NOTE Confidence: 0.86094624

00:45:14.955 --> 00:45:17.403 matter what we're here for you all along.
NOTE Confidence: 0.86094624

00:45:17.410 --> 00:45:19.867 So it's been a privilege to be
NOTE Confidence: 0.86094624

00:45:19.867 --> 00:45:21.519 with you tonight to Ann.
NOTE Confidence: 0.86094624

00:45:21.520 --> 00:45:23.068 Can't stop sharing now.
NOTE Confidence: 0.6509302

00:45:24.470 --> 00:45:27.790 Tara, thank you, Ann.
NOTE Confidence: 0.6509302

00:45:27.790 --> 00:45:30.219 A number of questions that relate to

NOTE Confidence: 0.6509302

00:45:30.219 --> 00:45:33.159 the work you do before I open it up

NOTE Confidence: 0.6509302

00:45:33.159 --> 00:45:35.926 to the general panel and thank you for

NOTE Confidence: 0.6509302

00:45:35.926 --> 00:45:38.134 sharing all those programs and and

NOTE Confidence: 0.6509302

00:45:38.140 --> 00:45:40.210 making them available to our patients.

NOTE Confidence: 0.6509302

00:45:40.210 --> 00:45:42.625 But independent of the programs you know,

NOTE Confidence: 0.6509302

00:45:42.630 --> 00:45:44.500 what advice would you give

NOTE Confidence: 0.6509302

00:45:44.500 --> 00:45:46.370 patients and families during these

NOTE Confidence: 0.6509302

00:45:46.435 --> 00:45:48.028 challenging times suggest?

NOTE Confidence: 0.6509302

00:45:48.030 --> 00:45:50.775 You know? Stay emotionally well

NOTE Confidence: 0.6509302

00:45:50.775 --> 00:45:54.660 in what is a profound challenge.

NOTE Confidence: 0.6509302

00:45:54.660 --> 00:45:54.920 Oh

NOTE Confidence: 0.8394797

00:45:54.920 --> 00:45:57.380 well, you know, I think.

NOTE Confidence: 0.8394797

00:45:57.380 --> 00:45:59.963 I wish I had the magic words

NOTE Confidence: 0.8394797

00:45:59.963 --> 00:46:01.960 to make everybody feel good,

NOTE Confidence: 0.8394797

00:46:01.960 --> 00:46:03.970 but I do think something that

NOTE Confidence: 0.8394797

00:46:03.970 --> 00:46:07.055 comes to mind to me often is loving
NOTE Confidence: 0.8394797

00:46:07.055 --> 00:46:09.135 kindness an it's a meditation
NOTE Confidence: 0.8394797

00:46:09.135 --> 00:46:11.140 practice that basically allows you
NOTE Confidence: 0.8394797

00:46:11.140 --> 00:46:14.184 to be kind to yourself and kind to
NOTE Confidence: 0.8394797

00:46:14.184 --> 00:46:16.476 others and be patient and gentle.
NOTE Confidence: 0.8394797

00:46:16.480 --> 00:46:18.084 This is unprecedented. Times.
NOTE Confidence: 0.8394797

00:46:18.084 --> 00:46:21.059 We're all doing the best we can do.
NOTE Confidence: 0.8394797

00:46:21.060 --> 00:46:22.328 And so you know,
NOTE Confidence: 0.8394797

00:46:22.328 --> 00:46:25.298 I hope that we can feel that towards
NOTE Confidence: 0.8394797

00:46:25.298 --> 00:46:27.266 ourselves that that kindness
NOTE Confidence: 0.8394797

00:46:27.266 --> 00:46:29.790 an and some patients as we.
NOTE Confidence: 0.8394797

00:46:29.790 --> 00:46:32.448 As we wait for this terrible
NOTE Confidence: 0.8394797

00:46:32.448 --> 00:46:35.210 pandemic to become better controlled.
NOTE Confidence: 0.8394797

00:46:35.210 --> 00:46:36.438 And then you know,
NOTE Confidence: 0.8394797

00:46:36.438 --> 00:46:37.666 of course staying connected.
NOTE Confidence: 0.8394797

00:46:37.670 --> 00:46:39.567 I think as a community has so

NOTE Confidence: 0.8394797

00:46:39.567 --> 00:46:41.511 many benefits not just to getting

NOTE Confidence: 0.8394797

00:46:41.511 --> 00:46:42.579 through the pandemic,

NOTE Confidence: 0.8394797

00:46:42.580 --> 00:46:44.110 but to getting through cancer

NOTE Confidence: 0.8394797

00:46:44.110 --> 00:46:45.028 care in general.

NOTE Confidence: 0.8394797

00:46:45.030 --> 00:46:47.165 An it really is a privilege for

NOTE Confidence: 0.8394797

00:46:47.165 --> 00:46:49.949 all of us to be part of your team,

NOTE Confidence: 0.8394797

00:46:49.950 --> 00:46:52.110 and so I hope that you can feel

NOTE Confidence: 0.8394797

00:46:52.110 --> 00:46:54.544 that an an reach out to us and

NOTE Confidence: 0.8394797

00:46:54.544 --> 00:46:56.390 take advantage of our support.

NOTE Confidence: 0.87372434

00:46:58.580 --> 00:47:01.532 Tara, thank you. So let me now open it

NOTE Confidence: 0.87372434

00:47:01.532 --> 00:47:04.762 up to questions and I just want to say

NOTE Confidence: 0.87372434

00:47:04.762 --> 00:47:07.792 up front we we've received about 70

NOTE Confidence: 0.87372434

00:47:07.792 --> 00:47:10.878 questions online and prior to the forum

NOTE Confidence: 0.87372434

00:47:10.878 --> 00:47:13.392 we received somewhere in the vicinity

NOTE Confidence: 0.87372434

00:47:13.392 --> 00:47:16.028 of about 50 Ice admitted advance and

NOTE Confidence: 0.87372434

00:47:16.028 --> 00:47:19.342 I just want to say that obviously we
NOTE Confidence: 0.87372434

00:47:19.342 --> 00:47:21.867 want to address everyone's question.
NOTE Confidence: 0.87372434

00:47:21.870 --> 00:47:24.312 They'll always be an opportunity to
NOTE Confidence: 0.87372434

00:47:24.312 --> 00:47:26.676 speak to your provider with questions
NOTE Confidence: 0.87372434

00:47:26.676 --> 00:47:29.880 we're going to get to as many as we can.
NOTE Confidence: 0.87372434

00:47:29.880 --> 00:47:32.428 Many of them fall into similar categories,
NOTE Confidence: 0.87372434

00:47:32.430 --> 00:47:34.635 and obviously I think my colleagues will
NOTE Confidence: 0.87372434

00:47:34.635 --> 00:47:37.158 do their utmost anticipate other questions.
NOTE Confidence: 0.87372434

00:47:37.160 --> 00:47:40.427 Let me start with some of the practical ones,
NOTE Confidence: 0.87372434

00:47:40.430 --> 00:47:42.620 and I'll take turns you on.
NOTE Confidence: 0.87372434

00:47:42.620 --> 00:47:46.260 1st number of questions that relate to.
NOTE Confidence: 0.87372434

00:47:46.260 --> 00:47:48.689 You know well specifically all in the
NOTE Confidence: 0.87372434

00:47:48.689 --> 00:47:51.159 theme of Will will Smilow or Yale,
NOTE Confidence: 0.87372434

00:47:51.160 --> 00:47:52.138 New Haven health.
NOTE Confidence: 0.87372434

00:47:52.138 --> 00:47:54.094 Contact me for my appointment when
NOTE Confidence: 0.87372434

00:47:54.094 --> 00:47:55.709 the vaccine is available.

NOTE Confidence: 0.87372434

00:47:55.710 --> 00:47:58.689 Or do I reach out to the health system

NOTE Confidence: 0.87372434

00:47:58.689 --> 00:48:01.310 or my doctor? How does that work?

NOTE Confidence: 0.84808964

00:48:02.390 --> 00:48:04.230 Yeah, it's a great question.

NOTE Confidence: 0.84808964

00:48:04.230 --> 00:48:06.070 It's something that we've been

NOTE Confidence: 0.84808964

00:48:06.070 --> 00:48:07.910 talking about a lot about.

NOTE Confidence: 0.84808964

00:48:07.910 --> 00:48:09.956 I think the answer will change

NOTE Confidence: 0.84808964

00:48:09.956 --> 00:48:11.960 dependent once the inventory increases.

NOTE Confidence: 0.84808964

00:48:11.960 --> 00:48:14.683 Right now we are not calling individuals

NOTE Confidence: 0.84808964

00:48:14.683 --> 00:48:17.264 in particular what we are doing is

NOTE Confidence: 0.84808964

00:48:17.264 --> 00:48:19.280 that our practices have the ability

NOTE Confidence: 0.84808964

00:48:19.352 --> 00:48:21.530 to identify the patients who are,

NOTE Confidence: 0.84808964

00:48:21.530 --> 00:48:24.232 you know, within the they can identify

NOTE Confidence: 0.84808964

00:48:24.232 --> 00:48:26.704 their patients who are currently 75 or

NOTE Confidence: 0.84808964

00:48:26.704 --> 00:48:29.441 over and they can let them know about

NOTE Confidence: 0.84808964

00:48:29.441 --> 00:48:31.829 the fact that there is availability.

NOTE Confidence: 0.84808964

00:48:31.830 --> 00:48:33.810 We have sent out some.
NOTE Confidence: 0.84808964

00:48:33.810 --> 00:48:35.302 Mychart messages to patients
NOTE Confidence: 0.84808964

00:48:35.302 --> 00:48:37.167 who are 75 and over,
NOTE Confidence: 0.84808964

00:48:37.170 --> 00:48:39.100 indicating that this is now
NOTE Confidence: 0.84808964

00:48:39.100 --> 00:48:41.030 available and guiding them to
NOTE Confidence: 0.84808964

00:48:41.105 --> 00:48:43.139 the website as we get forward.
NOTE Confidence: 0.84808964

00:48:43.140 --> 00:48:44.512 I think we are.
NOTE Confidence: 0.84808964

00:48:44.512 --> 00:48:47.142 I would hope to use some of
NOTE Confidence: 0.84808964

00:48:47.142 --> 00:48:49.547 our registries that to enable
NOTE Confidence: 0.84808964

00:48:49.547 --> 00:48:51.900 people to be identified and.
NOTE Confidence: 0.84808964

00:48:51.900 --> 00:48:53.031 And you know,
NOTE Confidence: 0.84808964

00:48:53.031 --> 00:48:55.670 we receive a message of some sort,
NOTE Confidence: 0.84808964

00:48:55.670 --> 00:48:58.148 but currently we are not calling
NOTE Confidence: 0.84808964

00:48:58.148 --> 00:49:00.569 patients to schedule right now it is.
NOTE Confidence: 0.84808964

00:49:00.570 --> 00:49:02.586 It's more of a self scheduling
NOTE Confidence: 0.84808964

00:49:02.586 --> 00:49:05.100 thing with a layer of notification.

NOTE Confidence: 0.84808964

00:49:05.100 --> 00:49:06.600 One vaccine is available.

NOTE Confidence: 0.83937824

00:49:08.150 --> 00:49:09.837 Tim, was there anything you wanted to

NOTE Confidence: 0.83937824

00:49:09.837 --> 00:49:11.987 add to that other question that came in?

NOTE Confidence: 0.8694414

00:49:12.580 --> 00:49:13.900 I need something like.

NOTE Confidence: 0.8694414

00:49:13.900 --> 00:49:16.414 Well, yes, I guess I think the only

NOTE Confidence: 0.8694414

00:49:16.414 --> 00:49:19.295 thing I would add is that we do have

NOTE Confidence: 0.8694414

00:49:19.295 --> 00:49:21.660 the you know ability on our website

NOTE Confidence: 0.8694414

00:49:21.660 --> 00:49:24.096 on the whole system website to to

NOTE Confidence: 0.8694414

00:49:24.100 --> 00:49:26.050 sign up to receive information when

NOTE Confidence: 0.8694414

00:49:26.050 --> 00:49:28.040 you're eligible to receive the vaccine.

NOTE Confidence: 0.8694414

00:49:28.040 --> 00:49:30.992 So you can do that right now and then.

NOTE Confidence: 0.8694414

00:49:31.000 --> 00:49:34.290 That's a way that if you go to the white,

NOTE Confidence: 0.8694414

00:49:34.290 --> 00:49:36.930 if the Yale New Haven Health System website,

NOTE Confidence: 0.8694414

00:49:36.930 --> 00:49:39.698 there is a place right there where you

NOTE Confidence: 0.8694414

00:49:39.698 --> 00:49:42.606 can sign up for that so that you will.

NOTE Confidence: 0.8694414

00:49:42.610 --> 00:49:44.038 Receive information as soon
NOTE Confidence: 0.8694414

00:49:44.038 --> 00:49:45.109 as it's available.
NOTE Confidence: 0.90235996

00:49:46.090 --> 00:49:48.594 That's great and I I guess we should.
NOTE Confidence: 0.90235996

00:49:48.600 --> 00:49:49.650 We should have.
NOTE Confidence: 0.90235996

00:49:49.650 --> 00:49:51.050 Our patients should download
NOTE Confidence: 0.90235996

00:49:51.050 --> 00:49:53.289 if they can download my chart.
NOTE Confidence: 0.90235996

00:49:53.290 --> 00:49:54.439 To their phones.
NOTE Confidence: 0.90235996

00:49:54.439 --> 00:49:56.640 Is that fair to say? Yeah,
NOTE Confidence: 0.87820756

00:49:56.640 --> 00:49:58.368 I think that'll make that'll make
NOTE Confidence: 0.87820756

00:49:58.368 --> 00:50:00.399 things easier for a lot of reasons.
NOTE Confidence: 0.87820756

00:50:00.400 --> 00:50:02.759 I will say that it's not absolutely
NOTE Confidence: 0.87820756

00:50:02.759 --> 00:50:04.920 mandatory that we you know the
NOTE Confidence: 0.87820756

00:50:04.920 --> 00:50:06.368 self scheduling interface is
NOTE Confidence: 0.87820756

00:50:06.368 --> 00:50:08.540 actually it's a web based thing,
NOTE Confidence: 0.87820756

00:50:08.540 --> 00:50:10.310 so it's not absolutely required,
NOTE Confidence: 0.87820756

00:50:10.310 --> 00:50:13.140 but if you do have my chart it

NOTE Confidence: 0.8166262

00:50:13.140 --> 00:50:15.270 will make things a lot easier.

NOTE Confidence: 0.8166262

00:50:15.270 --> 00:50:16.401 Thank you Kevin.

NOTE Confidence: 0.8166262

00:50:16.401 --> 00:50:18.663 Dr Billingslea a number of questions

NOTE Confidence: 0.8166262

00:50:18.663 --> 00:50:20.929 in the here and I'll read one,

NOTE Confidence: 0.8166262

00:50:20.930 --> 00:50:23.240 but it's a theme I've been super

NOTE Confidence: 0.8166262

00:50:23.240 --> 00:50:24.830 cautious throughout the pandemic.

NOTE Confidence: 0.8166262

00:50:24.830 --> 00:50:26.562 Haven't seen my family

NOTE Confidence: 0.8166262

00:50:26.562 --> 00:50:28.294 or friends since March.

NOTE Confidence: 0.8166262

00:50:28.300 --> 00:50:29.398 Following vaccinations,

NOTE Confidence: 0.8166262

00:50:29.398 --> 00:50:32.143 what would be the indicators

NOTE Confidence: 0.8166262

00:50:32.143 --> 00:50:34.799 needed before I might safely

NOTE Confidence: 0.8166262

00:50:34.799 --> 00:50:37.104 resume going out in public?

NOTE Confidence: 0.8166262

00:50:37.110 --> 00:50:37.430 Great

NOTE Confidence: 0.9037551

00:50:37.430 --> 00:50:39.050 question and I think it's

NOTE Confidence: 0.9037551

00:50:39.050 --> 00:50:40.670 on all of our minds.

NOTE Confidence: 0.9037551

00:50:40.670 --> 00:50:43.610 What we do know is that.
NOTE Confidence: 0.9037551

00:50:43.610 --> 00:50:45.782 You will start to get some
NOTE Confidence: 0.9037551

00:50:45.782 --> 00:50:47.650 protection after the first dose,
NOTE Confidence: 0.9037551

00:50:47.650 --> 00:50:50.274 and I'm talking about you know the the
NOTE Confidence: 0.9037551

00:50:50.274 --> 00:50:52.900 the the vaccines that we have most
NOTE Confidence: 0.9037551

00:50:52.900 --> 00:50:55.627 available at this time are the Moderna
NOTE Confidence: 0.9037551

00:50:55.627 --> 00:50:58.651 and the Pfizer which are two DOS program,
NOTE Confidence: 0.9037551

00:50:58.660 --> 00:51:01.229 one separated with a three week interval,
NOTE Confidence: 0.9037551

00:51:01.230 --> 00:51:05.900 one by four week interval. Um but.
NOTE Confidence: 0.9037551

00:51:05.900 --> 00:51:08.988 You really need to get both doses and
NOTE Confidence: 0.9037551

00:51:08.988 --> 00:51:12.260 what we know from the trials is the.
NOTE Confidence: 0.9037551

00:51:12.260 --> 00:51:14.834 The real full level of protection
NOTE Confidence: 0.9037551

00:51:14.834 --> 00:51:18.252 will not be for about a week to
NOTE Confidence: 0.9037551

00:51:18.252 --> 00:51:20.670 10 days after the second dose.
NOTE Confidence: 0.9037551

00:51:20.670 --> 00:51:23.066 Now that being said,
NOTE Confidence: 0.9037551

00:51:23.066 --> 00:51:27.280 we are reminding people that although that.

NOTE Confidence: 0.9037551

00:51:27.280 --> 00:51:29.332 You should be protected.

NOTE Confidence: 0.9037551

00:51:29.332 --> 00:51:32.410 You should continue to use precautions.

NOTE Confidence: 0.9037551

00:51:32.410 --> 00:51:34.570 Continue to wear your mask.

NOTE Confidence: 0.9037551

00:51:34.570 --> 00:51:37.156 Continue to be safe, but yes,

NOTE Confidence: 0.9037551

00:51:37.160 --> 00:51:39.752 at that point you should have

NOTE Confidence: 0.9037551

00:51:39.752 --> 00:51:41.048 some immunological protection.

NOTE Confidence: 0.840740275185185

00:51:43.080 --> 00:51:45.831 Thank you. Um? Home a number of

NOTE Confidence: 0.840740275185185

00:51:45.831 --> 00:51:48.879 questions and I think related to a

NOTE Confidence: 0.840740275185185

00:51:48.879 --> 00:51:51.543 question I'd ask Karen before when

NOTE Confidence: 0.840740275185185

00:51:51.628 --> 00:51:54.309 they come do they get to choose,

NOTE Confidence: 0.840740275185185

00:51:54.310 --> 00:51:56.476 let's say 3 or 4 approved?

NOTE Confidence: 0.840740275185185

00:51:56.480 --> 00:51:59.729 Do they get to choose which one they get?

NOTE Confidence: 0.8171866

00:52:01.220 --> 00:52:03.544 Yeah, so the short answer is no,

NOTE Confidence: 0.8171866

00:52:03.550 --> 00:52:05.356 and here's why. Number one that

NOTE Confidence: 0.8171866

00:52:05.356 --> 00:52:07.549 you know as Kevin just mentioned,

NOTE Confidence: 0.8171866

00:52:07.550 --> 00:52:09.548 the two vaccines we currently have,

NOTE Confidence: 0.8171866

00:52:09.550 --> 00:52:11.210 or both M RNA vaccines.

NOTE Confidence: 0.8171866

00:52:11.210 --> 00:52:13.202 They both have efficacy rates of

NOTE Confidence: 0.8171866

00:52:13.202 --> 00:52:14.098 9495% essentially equivalent.

NOTE Confidence: 0.8171866

00:52:14.098 --> 00:52:16.051 We at the health system had declared

NOTE Confidence: 0.8171866

00:52:16.051 --> 00:52:17.539 them therapeutically equivalent,

NOTE Confidence: 0.8171866

00:52:17.540 --> 00:52:19.304 and so is this date and

NOTE Confidence: 0.8171866

00:52:19.304 --> 00:52:21.200 so so has the country.

NOTE Confidence: 0.8171866

00:52:21.200 --> 00:52:23.072 So we receive we don't know

NOTE Confidence: 0.8171866

00:52:23.072 --> 00:52:24.860 exactly which vaccine we receive.

NOTE Confidence: 0.8171866

00:52:24.860 --> 00:52:26.292 As I mentioned as.

NOTE Confidence: 0.8171866

00:52:26.292 --> 00:52:29.445 A list rated on the chart before we've

NOTE Confidence: 0.8171866

00:52:29.445 --> 00:52:33.280 been giving both and, so there's.

NOTE Confidence: 0.8171866

00:52:33.280 --> 00:52:35.646 What we have is what we give.

NOTE Confidence: 0.8171866

00:52:35.650 --> 00:52:37.335 You know there's been a

NOTE Confidence: 0.8171866

00:52:37.335 --> 00:52:38.683 lot of concerns earlier,

NOTE Confidence: 0.8171866

00:52:38.690 --> 00:52:40.930 data indicated or seem to suggest that

NOTE Confidence: 0.8171866

00:52:40.930 --> 00:52:42.655 the Moderna vaccine was associated

NOTE Confidence: 0.8171866

00:52:42.655 --> 00:52:44.767 with more frequent vex side effects.

NOTE Confidence: 0.8171866

00:52:44.770 --> 00:52:46.250 The subsequent data that seems

NOTE Confidence: 0.8171866

00:52:46.250 --> 00:52:48.161 to be that came out illustrated

NOTE Confidence: 0.8171866

00:52:48.161 --> 00:52:49.996 that the actual frequency of

NOTE Confidence: 0.8171866

00:52:49.996 --> 00:52:52.205 side effects is about the same

NOTE Confidence: 0.8171866

00:52:52.205 --> 00:52:53.895 between the Pfizer and Moderna,

NOTE Confidence: 0.8171866

00:52:53.900 --> 00:52:55.590 but the specific side effects

NOTE Confidence: 0.8171866

00:52:55.590 --> 00:52:57.280 are a little bit different.

NOTE Confidence: 0.8171866

00:52:57.280 --> 00:52:59.518 With Moderna you get a little

NOTE Confidence: 0.8171866

00:52:59.518 --> 00:53:01.712 bit of swelling under the armpit

NOTE Confidence: 0.8171866

00:53:01.712 --> 00:53:04.224 on the on the side that you get.

NOTE Confidence: 0.8171866

00:53:04.230 --> 00:53:05.594 Injected on with Pfizer.

NOTE Confidence: 0.8171866

00:53:05.594 --> 00:53:08.060 There's a slightly higher rate of fever.

NOTE Confidence: 0.8171866

00:53:08.060 --> 00:53:10.489 Both have muscle aches and joint aches,

NOTE Confidence: 0.8171866

00:53:10.490 --> 00:53:12.716 so it's you know there's a little

NOTE Confidence: 0.8171866

00:53:12.716 --> 00:53:15.367 there's not a whole lot of difference.

NOTE Confidence: 0.8171866

00:53:15.370 --> 00:53:17.105 The side effects are just

NOTE Confidence: 0.8171866

00:53:17.105 --> 00:53:18.493 sort of an inconvenience.

NOTE Confidence: 0.8171866

00:53:18.500 --> 00:53:20.884 They only last for a couple of days

NOTE Confidence: 0.8171866

00:53:20.884 --> 00:53:23.368 and really have no material difference,

NOTE Confidence: 0.8171866

00:53:23.370 --> 00:53:24.922 so there's no different.

NOTE Confidence: 0.8171866

00:53:24.922 --> 00:53:27.250 There's no ability to choose between

NOTE Confidence: 0.8171866

00:53:27.322 --> 00:53:29.610 M RNA vaccines now as we get more

NOTE Confidence: 0.8171866

00:53:29.610 --> 00:53:31.718 vaccines if we have more available,

NOTE Confidence: 0.8171866

00:53:31.720 --> 00:53:32.524 you know?

NOTE Confidence: 0.8171866

00:53:32.524 --> 00:53:33.730 For some reason,

NOTE Confidence: 0.8171866

00:53:33.730 --> 00:53:35.529 there may be a reason to choose

NOTE Confidence: 0.8171866

00:53:35.529 --> 00:53:37.370 11 between the other convenience.

NOTE Confidence: 0.8171866

00:53:37.370 --> 00:53:37.990 You know.

NOTE Confidence: 0.8171866

00:53:37.990 --> 00:53:39.540 If you're leaving somewhere or

NOTE Confidence: 0.8171866

00:53:39.540 --> 00:53:41.389 there's a difference between one A1

NOTE Confidence: 0.8171866

00:53:41.389 --> 00:53:43.117 dose vaccine versus A2 dose vaccine,

NOTE Confidence: 0.8171866

00:53:43.120 --> 00:53:44.782 these are things that make that

NOTE Confidence: 0.8171866

00:53:44.782 --> 00:53:46.759 choice a little bit more important,

NOTE Confidence: 0.8171866

00:53:46.760 --> 00:53:47.654 but in general,

NOTE Confidence: 0.8171866

00:53:47.654 --> 00:53:50.109 I think the answer is going to be

NOTE Confidence: 0.8171866

00:53:50.109 --> 00:53:52.209 you're not going to have a choice,

NOTE Confidence: 0.8171866

00:53:52.210 --> 00:53:54.634 just based on how this is being distributed.

NOTE Confidence: 0.903666376666667

00:53:55.680 --> 00:53:59.580 Thank you. Karen, is there any?

NOTE Confidence: 0.903666376666667

00:53:59.580 --> 00:54:02.140 Cancer treatments or type of

NOTE Confidence: 0.903666376666667

00:54:02.140 --> 00:54:04.188 cancer such that somebody

NOTE Confidence: 0.903666376666667

00:54:04.188 --> 00:54:06.639 should avoid getting vaccine.

NOTE Confidence: 0.8943781

00:54:07.780 --> 00:54:10.450 So patients within three months of

NOTE Confidence: 0.894378100000001

00:54:10.450 --> 00:54:13.354 a bone marrow transplant that has

NOTE Confidence: 0.894378100000001

00:54:13.354 --> 00:54:16.171 completely depleted the bone marrow of
NOTE Confidence: 0.8943781000000001

00:54:16.171 --> 00:54:18.957 all immune cells are really not likely
NOTE Confidence: 0.8943781000000001

00:54:18.957 --> 00:54:22.020 to get any benefit from the vaccine.
NOTE Confidence: 0.8943781000000001

00:54:22.020 --> 00:54:24.260 So generally our guidelines recommend
NOTE Confidence: 0.8943781000000001

00:54:24.260 --> 00:54:26.993 waiting until you're 3 months out
NOTE Confidence: 0.8943781000000001

00:54:26.993 --> 00:54:28.695 from your transplant. Similarly,
NOTE Confidence: 0.8943781000000001

00:54:28.695 --> 00:54:31.365 potentially with car T cell treatments.
NOTE Confidence: 0.8943781000000001

00:54:31.370 --> 00:54:34.040 And then there's some other treatments
NOTE Confidence: 0.8943781000000001

00:54:34.040 --> 00:54:36.710 that are not in absolute contraindication
NOTE Confidence: 0.8943781

00:54:36.710 --> 00:54:40.260 to responding to the vaccine. But that may
NOTE Confidence: 0.8586079

00:54:40.260 --> 00:54:42.726 at least slow your immune response,
NOTE Confidence: 0.8586079

00:54:42.730 --> 00:54:45.607 or may make the vaccine less effective.
NOTE Confidence: 0.8586079

00:54:45.610 --> 00:54:48.802 Those are people who are on high dose
NOTE Confidence: 0.8586079

00:54:48.802 --> 00:54:51.359 steroids for long periods of time.
NOTE Confidence: 0.8586079

00:54:51.360 --> 00:54:53.700 Patients who are on the drug
NOTE Confidence: 0.8586079

00:54:53.700 --> 00:54:56.202 rituximab may have what we would

NOTE Confidence: 0.8586079

00:54:56.202 --> 00:54:58.347 call a blunted immune response,

NOTE Confidence: 0.8586079

00:54:58.350 --> 00:54:59.994 and maybe patients who

NOTE Confidence: 0.8586079

00:54:59.994 --> 00:55:01.638 receive Ivy IG therapy.

NOTE Confidence: 0.8586079

00:55:01.640 --> 00:55:04.510 But I would say don't rule yourself

NOTE Confidence: 0.8586079

00:55:04.510 --> 00:55:06.156 out under any circumstances.

NOTE Confidence: 0.8586079

00:55:06.156 --> 00:55:08.210 Just bring your specific questions

NOTE Confidence: 0.8586079

00:55:08.210 --> 00:55:10.284 to your treating, hematologist and

NOTE Confidence: 0.8586079

00:55:10.284 --> 00:55:13.238 oncologist and they will work with you.

NOTE Confidence: 0.8586079

00:55:13.240 --> 00:55:14.906 To figure out the very best time

NOTE Confidence: 0.8586079

00:55:14.906 --> 00:55:16.570 for you to get the vaccine.

NOTE Confidence: 0.8562885

00:55:17.380 --> 00:55:19.192 Thank you, Karen Terra.

NOTE Confidence: 0.8562885

00:55:19.192 --> 00:55:22.368 I neglected in my introduction to point

NOTE Confidence: 0.8562885

00:55:22.368 --> 00:55:25.336 out that not only are you the chief,

NOTE Confidence: 0.8562885

00:55:25.340 --> 00:55:26.714 patient experience Officer,

NOTE Confidence: 0.8562885

00:55:26.714 --> 00:55:29.004 you also leave the survivorship

NOTE Confidence: 0.8562885

00:55:29.004 --> 00:55:31.480 clinic and there actually are a
NOTE Confidence: 0.8562885

00:55:31.480 --> 00:55:33.718 number of questions related to that.
NOTE Confidence: 0.8562885

00:55:33.720 --> 00:55:36.306 Namely, should patients who have completed
NOTE Confidence: 0.8562885

00:55:36.306 --> 00:55:38.330 their cancer treatment sometime ago.
NOTE Confidence: 0.8562885

00:55:38.330 --> 00:55:40.850 Are they considered different or different
NOTE Confidence: 0.8562885

00:55:40.850 --> 00:55:43.780 risk related to those in active therapy,
NOTE Confidence: 0.8562885

00:55:43.780 --> 00:55:45.870 and will they also be
NOTE Confidence: 0.8562885

00:55:45.870 --> 00:55:47.542 prioritized for the vaccine?
NOTE Confidence: 0.7896708

00:55:49.510 --> 00:55:52.772 Um, yeah, that's a question I answer
NOTE Confidence: 0.7896708

00:55:52.772 --> 00:55:56.496 or try to answer 20 times a day.
NOTE Confidence: 0.7896708

00:55:56.500 --> 00:55:58.509 And you know, the good news is
NOTE Confidence: 0.7896708

00:55:58.509 --> 00:56:00.166 that patients who are long-term
NOTE Confidence: 0.7896708

00:56:00.166 --> 00:56:01.991 survivors or outside of active
NOTE Confidence: 0.7896708

00:56:01.991 --> 00:56:03.930 treatment and on surveillance,
NOTE Confidence: 0.7896708

00:56:03.930 --> 00:56:06.054 you know, tend to have mostly
NOTE Confidence: 0.7896708

00:56:06.054 --> 00:56:07.116 recovered immune system,

NOTE Confidence: 0.7896708

00:56:07.120 --> 00:56:09.058 and so their risk doesn't seem

NOTE Confidence: 0.7896708

00:56:09.058 --> 00:56:11.604 to be as high as other cancer

NOTE Confidence: 0.7896708

00:56:11.604 --> 00:56:13.490 patients who are on treatment.

NOTE Confidence: 0.8889188

00:56:15.510 --> 00:56:16.443 And, you know,

NOTE Confidence: 0.8889188

00:56:16.443 --> 00:56:17.687 in terms of prioritization,

NOTE Confidence: 0.8889188

00:56:17.690 --> 00:56:20.198 I guess I'm going to have

NOTE Confidence: 0.8889188

00:56:20.198 --> 00:56:22.570 to defer that to Karen.

NOTE Confidence: 0.8889188

00:56:22.570 --> 00:56:24.000 You know you're our patients,

NOTE Confidence: 0.8889188

00:56:24.000 --> 00:56:26.128 but I do think that we're going

NOTE Confidence: 0.8889188

00:56:26.128 --> 00:56:28.468 to have to wait and see what

NOTE Confidence: 0.8889188

00:56:28.468 --> 00:56:30.158 the guidance is on that.

NOTE Confidence: 0.8889188

00:56:30.160 --> 00:56:32.925 Yeah, I think you know the beauty

NOTE Confidence: 0.85538554

00:56:32.930 --> 00:56:35.737 of surviving cancer is that you're probably

NOTE Confidence: 0.85538554

00:56:35.737 --> 00:56:38.460 not at especially high risk, so there's.

NOTE Confidence: 0.85538554

00:56:38.460 --> 00:56:40.830 There's a good side to that.

NOTE Confidence: 0.85538554

00:56:40.830 --> 00:56:43.446 An an your you will end up falling
NOTE Confidence: 0.85538554

00:56:43.446 --> 00:56:46.266 into the category that you fall into
NOTE Confidence: 0.85538554

00:56:46.266 --> 00:56:49.120 based on your other medical problems.
NOTE Confidence: 0.85538554

00:56:49.120 --> 00:56:52.675 So if you have heart disease or lung disease,
NOTE Confidence: 0.85538554

00:56:52.680 --> 00:56:55.382 you may be considered in the category
NOTE Confidence: 0.85538554

00:56:55.382 --> 00:56:58.136 of somebody who has a comorbidity that
NOTE Confidence: 0.85538554

00:56:58.136 --> 00:57:01.070 would bring you to an earlier vaccine.
NOTE Confidence: 0.85538554

00:57:01.070 --> 00:57:03.326 Then I healthy individual who doesn't.
NOTE Confidence: 0.85538554

00:57:03.330 --> 00:57:05.717 So again, you know you're probably going
NOTE Confidence: 0.85538554

00:57:05.717 --> 00:57:08.550 to need to talk about your specific
NOTE Confidence: 0.85538554

00:57:08.550 --> 00:57:11.160 situation with your individual doctor at
NOTE Confidence: 0.85538554

00:57:11.227 --> 00:57:13.614 the point in which vaccines are being
NOTE Confidence: 0.85538554

00:57:13.614 --> 00:57:15.852 rolled out to people with comorbidities,
NOTE Confidence: 0.85538554

00:57:15.852 --> 00:57:18.680 I would say if you're a survivor
NOTE Confidence: 0.85538554

00:57:18.754 --> 00:57:20.296 but has long term complications
NOTE Confidence: 0.85538554

00:57:20.296 --> 00:57:21.776 of your cancer treatment,

NOTE Confidence: 0.85538554

00:57:21.776 --> 00:57:23.591 something like graft versus host

NOTE Confidence: 0.85538554

00:57:23.591 --> 00:57:25.200 disease or pulmonary fibrosis,

NOTE Confidence: 0.85538554

00:57:25.200 --> 00:57:27.085 that alone would bring you

NOTE Confidence: 0.85538554

00:57:27.085 --> 00:57:28.970 to a higher priority list.

NOTE Confidence: 0.8257495

00:57:30.680 --> 00:57:32.810 Karen Karen, thank you Kim.

NOTE Confidence: 0.8257495

00:57:32.810 --> 00:57:35.281 A number of questions which I know

NOTE Confidence: 0.8257495

00:57:35.281 --> 00:57:37.474 you field regularly regarding visitors

NOTE Confidence: 0.8257495

00:57:37.474 --> 00:57:39.610 both inpatient and outpatient.

NOTE Confidence: 0.8257495

00:57:39.610 --> 00:57:41.306 That's Milo, you know?

NOTE Confidence: 0.8257495

00:57:41.306 --> 00:57:43.426 Where are we at now?

NOTE Confidence: 0.8257495

00:57:43.430 --> 00:57:46.405 Where do you sort of see the

NOTE Confidence: 0.8257495

00:57:46.405 --> 00:57:48.529 likelihood for change and that?

NOTE Confidence: 0.8257495

00:57:48.530 --> 00:57:50.398 Obviously that's it's difficult

NOTE Confidence: 0.8257495

00:57:50.398 --> 00:57:52.733 for families and patients and

NOTE Confidence: 0.8257495

00:57:52.733 --> 00:57:55.328 love to get your thoughts on that.

NOTE Confidence: 0.87189054

00:57:56.520 --> 00:57:57.604 His name is Charlie.
NOTE Confidence: 0.87189054

00:57:57.604 --> 00:58:00.531 Right now we are at a place where we're
NOTE Confidence: 0.87189054

00:58:00.531 --> 00:58:03.003 continuing all of our visitor restrictions
NOTE Confidence: 0.87189054

00:58:03.003 --> 00:58:05.355 for all the things we talked for,
NOTE Confidence: 0.87189054

00:58:05.360 --> 00:58:07.740 all the reasons we talked about earlier,
NOTE Confidence: 0.87189054

00:58:07.740 --> 00:58:10.172 we're just not at a place where we
NOTE Confidence: 0.87189054

00:58:10.172 --> 00:58:12.499 could start to allow more Visitation.
NOTE Confidence: 0.87189054

00:58:12.500 --> 00:58:14.908 I think Kevin talked earlier about how
NOTE Confidence: 0.87189054

00:58:14.908 --> 00:58:17.938 we know how hard it is for our patients,
NOTE Confidence: 0.87189054

00:58:17.940 --> 00:58:19.836 whether they're in the hospital or
NOTE Confidence: 0.87189054

00:58:19.836 --> 00:58:21.888 coming into our clinics or radiation
NOTE Confidence: 0.87189054

00:58:21.888 --> 00:58:24.060 therapy centers or our infusion centers.
NOTE Confidence: 0.87189054

00:58:24.060 --> 00:58:27.780 We know how hard it is to come in alone.
NOTE Confidence: 0.87189054

00:58:27.780 --> 00:58:30.980 We do have exceptions.
NOTE Confidence: 0.87189054

00:58:30.980 --> 00:58:32.696 That you know, obviously,
NOTE Confidence: 0.87189054

00:58:32.696 --> 00:58:34.841 that that if it's absolutely

NOTE Confidence: 0.87189054

00:58:34.841 --> 00:58:36.969 needed for visitor to come in,

NOTE Confidence: 0.87189054

00:58:36.970 --> 00:58:39.756 there are certain exceptions that we have,

NOTE Confidence: 0.87189054

00:58:39.760 --> 00:58:41.872 especially for those patients

NOTE Confidence: 0.87189054

00:58:41.872 --> 00:58:43.984 that unfortunately are nearing

NOTE Confidence: 0.87189054

00:58:43.984 --> 00:58:47.107 the end of their life and having

NOTE Confidence: 0.87189054

00:58:47.107 --> 00:58:49.560 a family member there with them.

NOTE Confidence: 0.87189054

00:58:49.560 --> 00:58:51.534 But it's really to safeguard the

NOTE Confidence: 0.87189054

00:58:51.534 --> 00:58:53.859 safety of all of our community.

NOTE Confidence: 0.87189054

00:58:53.860 --> 00:58:55.288 All of our patients,

NOTE Confidence: 0.87189054

00:58:55.288 --> 00:58:57.452 their loved ones, and our staff.

NOTE Confidence: 0.87189054

00:58:57.452 --> 00:59:00.000 We still have the same visitor restrictions

NOTE Confidence: 0.87189054

00:59:00.064 --> 00:59:02.444 that we've had for several months now,

NOTE Confidence: 0.87189054

00:59:02.450 --> 00:59:04.556 and we do those pre screening

NOTE Confidence: 0.87189054

00:59:04.556 --> 00:59:06.390 phone calls still as well.

NOTE Confidence: 0.87189054

00:59:06.390 --> 00:59:07.670 But as Kevin mentioned,

NOTE Confidence: 0.87189054

00:59:07.670 --> 00:59:10.320 we really want to utilize our technology,

NOTE Confidence: 0.87189054

00:59:10.320 --> 00:59:12.832 so we really want you to feel free

NOTE Confidence: 0.87189054

00:59:12.832 --> 00:59:15.015 to you know during your clinic

NOTE Confidence: 0.87189054

00:59:15.015 --> 00:59:17.840 visit you can say wait a minute.

NOTE Confidence: 0.87189054

00:59:17.840 --> 00:59:20.300 I really want to get my.

NOTE Confidence: 0.87189054

00:59:20.300 --> 00:59:22.070 Husband wife my best friend

NOTE Confidence: 0.87189054

00:59:22.070 --> 00:59:23.486 on the phone here.

NOTE Confidence: 0.87189054

00:59:23.490 --> 00:59:25.295 I really think somebody needs

NOTE Confidence: 0.87189054

00:59:25.295 --> 00:59:27.380 to listen to this with me.

NOTE Confidence: 0.87189054

00:59:27.380 --> 00:59:28.700 You can FaceTime them.

NOTE Confidence: 0.87189054

00:59:28.700 --> 00:59:31.135 We if you don't have the technology

NOTE Confidence: 0.87189054

00:59:31.135 --> 00:59:33.788 we have technology to help you so

NOTE Confidence: 0.87189054

00:59:33.788 --> 00:59:36.309 please if we haven't offered it to

NOTE Confidence: 0.87189054

00:59:36.309 --> 00:59:38.972 you please feel free to stop us and

NOTE Confidence: 0.87189054

00:59:38.972 --> 00:59:41.687 and tell us that you need to get

NOTE Confidence: 0.87189054

00:59:41.687 --> 00:59:44.543 somebody on the line if if you need

NOTE Confidence: 0.87189054

00:59:44.543 --> 00:59:47.906 your family to here to be there with you,

NOTE Confidence: 0.87189054

00:59:47.910 --> 00:59:50.808 even if it's through the phone or.

NOTE Confidence: 0.87189054

00:59:50.810 --> 00:59:52.780 Virtually through through FaceTime resume.

NOTE Confidence: 0.87189054

00:59:52.780 --> 00:59:56.871 So we are we are here to make sure that we

NOTE Confidence: 0.87189054

00:59:56.871 --> 01:00:00.469 do everything we can to accommodate having.

NOTE Confidence: 0.87189054

01:00:00.470 --> 01:00:01.770 Having your your support,

NOTE Confidence: 0.87189054

01:00:01.770 --> 01:00:02.745 I'm near you,

NOTE Confidence: 0.87189054

01:00:02.750 --> 01:00:04.700 even if it's not how we

NOTE Confidence: 0.87189054

01:00:04.700 --> 01:00:06.000 have traditionally had it,

NOTE Confidence: 0.87189054

01:00:06.000 --> 01:00:08.352 but as soon as we can safely have

NOTE Confidence: 0.87189054

01:00:08.352 --> 01:00:10.550 you have your support with you,

NOTE Confidence: 0.87189054

01:00:10.550 --> 01:00:13.049 we will be welcoming your friends and

NOTE Confidence: 0.87189054

01:00:13.049 --> 01:00:15.529 families with open arms and it's a big

NOTE Confidence: 0.87189054

01:00:15.529 --> 01:00:17.700 part of how we deliver cancer care,

NOTE Confidence: 0.87189054

01:00:17.700 --> 01:00:19.954 so you know we want to bring

NOTE Confidence: 0.87189054

01:00:19.954 --> 01:00:22.249 it back as soon as we can,
NOTE Confidence: 0.87189054

01:00:22.250 --> 01:00:24.200 but it needs to be safe.
NOTE Confidence: 0.87189054

01:00:24.200 --> 01:00:24.525 Kevin,
NOTE Confidence: 0.87189054

01:00:24.525 --> 01:00:26.470 I don't know if there's anything
NOTE Confidence: 0.87189054

01:00:26.470 --> 01:00:28.095 more you want to say.
NOTE Confidence: 0.9043941

01:00:30.520 --> 01:00:32.700 No, I completely agree with
NOTE Confidence: 0.9043941

01:00:32.700 --> 01:00:34.440 all of those comments.
NOTE Confidence: 0.800181377777778

01:00:36.410 --> 01:00:38.414 Thank you both home.
NOTE Confidence: 0.800181377777778

01:00:38.414 --> 01:00:41.355 Some questions what is 95% protection
NOTE Confidence: 0.800181377777778

01:00:41.355 --> 01:00:43.965 means that in a related point,
NOTE Confidence: 0.800181377777778

01:00:43.970 --> 01:00:47.904 is that mean I have a 5% chance of
NOTE Confidence: 0.800181377777778

01:00:47.904 --> 01:00:50.963 getting the infection if I get vaccinated?
NOTE Confidence: 0.8347287

01:00:52.220 --> 01:00:53.932 Yeah, that's the question.
NOTE Confidence: 0.8347287

01:00:53.932 --> 01:00:56.500 So there's a slight difference in
NOTE Confidence: 0.8347287

01:00:56.580 --> 01:00:59.388 efficacy and effectiveness, But yeah,
NOTE Confidence: 0.8347287

01:00:59.388 --> 01:01:01.583 the 95% rate numbers essentially

NOTE Confidence: 0.8347287

01:01:01.583 --> 01:01:04.443 means one out of 20 individuals

NOTE Confidence: 0.8347287

01:01:04.443 --> 01:01:07.359 may not Mount the immunity that's

NOTE Confidence: 0.8347287

01:01:07.359 --> 01:01:10.128 sufficient to prevent COVID-19 illness.

NOTE Confidence: 0.8347287

01:01:10.130 --> 01:01:12.062 So yes, that said,

NOTE Confidence: 0.8347287

01:01:12.062 --> 01:01:14.970 it's as you mentioned earlier, Charlie.

NOTE Confidence: 0.8492289

01:01:17.000 --> 01:01:18.985 So it's a fairly unbelievably

NOTE Confidence: 0.8492289

01:01:18.985 --> 01:01:20.970 effective high and encouraging number.

NOTE Confidence: 0.8492289

01:01:20.970 --> 01:01:22.950 Most vaccines do not have

NOTE Confidence: 0.8492289

01:01:22.950 --> 01:01:24.534 those kinds of performances,

NOTE Confidence: 0.8492289

01:01:24.540 --> 01:01:27.168 so these are these are really

NOTE Confidence: 0.8492289

01:01:27.168 --> 01:01:28.920 special and exceptional vaccines

NOTE Confidence: 0.8492289

01:01:28.992 --> 01:01:30.900 that we were lucky to have.

NOTE Confidence: 0.8452231

01:01:32.320 --> 01:01:33.954 Can I say something about

NOTE Confidence: 0.8452231

01:01:33.954 --> 01:01:36.430 herd immunity just? So so

NOTE Confidence: 0.86677885

01:01:36.430 --> 01:01:38.692 related to what Tom said,

NOTE Confidence: 0.86677885

01:01:38.692 --> 01:01:41.862 is that if enough people in the
NOTE Confidence: 0.86677885

01:01:41.862 --> 01:01:44.120 population have that 95% immunity,
NOTE Confidence: 0.86677885

01:01:44.120 --> 01:01:46.856 the chances that one person who's
NOTE Confidence: 0.86677885

01:01:46.856 --> 01:01:49.610 infected would bump into another person
NOTE Confidence: 0.86677885

01:01:49.694 --> 01:01:52.704 who doesn't have immunity goes way down,
NOTE Confidence: 0.86677885

01:01:52.710 --> 01:01:55.608 and so the 95% vaccination rate or
NOTE Confidence: 0.86677885

01:01:55.608 --> 01:01:58.408 immunity rate should really end up
NOTE Confidence: 0.86677885

01:01:58.408 --> 01:02:00.384 protecting the whole population.
NOTE Confidence: 0.841394225333334

01:02:01.730 --> 01:02:03.290 Yes. Thank you, um.
NOTE Confidence: 0.841394225333334

01:02:03.290 --> 01:02:06.176 A cabin or are there certain medications
NOTE Confidence: 0.841394225333334

01:02:06.176 --> 01:02:09.368 that one should or should not take
NOTE Confidence: 0.841394225333334

01:02:09.368 --> 01:02:12.996 when they get the vaccine and or should
NOTE Confidence: 0.841394225333334

01:02:12.996 --> 01:02:16.047 they avoid shortly after getting the vaccine?
NOTE Confidence: 0.841394225333334

01:02:16.047 --> 01:02:18.621 And I think they're probably referring
NOTE Confidence: 0.841394225333334

01:02:18.621 --> 01:02:20.574 to like. A motor in Thailand?
NOTE Confidence: 0.841394225333334

01:02:20.574 --> 01:02:22.545 I mean, that seems to be many

NOTE Confidence: 0.841394225333334
01:02:22.545 --> 01:02:23.960 of the questions and obviously
NOTE Confidence: 0.841394225333334
01:02:24.016 --> 01:02:25.540 others can chime in as well,
NOTE Confidence: 0.841394225333334
01:02:25.540 --> 01:02:26.920 but it's we've gotten a
NOTE Confidence: 0.841394225333334
01:02:26.920 --> 01:02:28.300 lot of questions on that.
NOTE Confidence: 0.8445169
01:02:30.550 --> 01:02:32.370 Well, I I actually may
NOTE Confidence: 0.8445169
01:02:32.370 --> 01:02:34.190 punt that one to Karen.
NOTE Confidence: 0.8445169
01:02:34.190 --> 01:02:36.588 I'm going to say in my view,
NOTE Confidence: 0.8445169
01:02:36.588 --> 01:02:39.650 I don't think this is been well studied.
NOTE Confidence: 0.8445169
01:02:39.650 --> 01:02:42.758 I think most motor Inn and Tylenol.
NOTE Confidence: 0.8445169
01:02:42.760 --> 01:02:45.964 Are fine and will provide symptomatic
NOTE Confidence: 0.8445169
01:02:45.964 --> 01:02:49.964 relief for people who have low grade
NOTE Confidence: 0.8445169
01:02:49.964 --> 01:02:53.383 fever and symptoms after vaccination, but.
NOTE Confidence: 0.8445169
01:02:53.383 --> 01:02:55.748 Karen White out or on?
NOTE Confidence: 0.8445169
01:02:55.750 --> 01:02:58.246 Why don't you guys chime in as well?
NOTE Confidence: 0.82993525
01:02:59.230 --> 01:03:01.588 The I think the package insert
NOTE Confidence: 0.82993525

01:03:01.590 --> 01:03:04.550 that you get says you can take either
NOTE Confidence: 0.82993525

01:03:04.550 --> 01:03:07.506 an you should you know, treat your
NOTE Confidence: 0.82993525

01:03:07.506 --> 01:03:09.864 symptoms and not not suffer stoically.
NOTE Confidence: 0.90289825

01:03:11.160 --> 01:03:12.124 Yeah, I would agree.
NOTE Confidence: 0.90289825

01:03:12.124 --> 01:03:14.276 I mean, I think I might even go a
NOTE Confidence: 0.90289825

01:03:14.276 --> 01:03:15.846 little further and say, you know?
NOTE Confidence: 0.90289825

01:03:15.846 --> 01:03:17.862 Then maybe the night you go to
NOTE Confidence: 0.90289825

01:03:17.862 --> 01:03:19.840 sleep after getting the vaccine.
NOTE Confidence: 0.90289825

01:03:19.840 --> 01:03:21.548 It may just make things a little
NOTE Confidence: 0.90289825

01:03:21.548 --> 01:03:23.106 easier to take something you know
NOTE Confidence: 0.90289825

01:03:23.106 --> 01:03:24.891 these so I know I called these
NOTE Confidence: 0.90289825

01:03:24.947 --> 01:03:26.507 side effects an inconvenience,
NOTE Confidence: 0.90289825

01:03:26.510 --> 01:03:28.449 but they are real and you know,
NOTE Confidence: 0.90289825

01:03:28.450 --> 01:03:30.396 they may keep people out of work.
NOTE Confidence: 0.90289825

01:03:30.400 --> 01:03:32.346 You feel pretty bad for a little
NOTE Confidence: 0.90289825

01:03:32.346 --> 01:03:34.289 bit and it is a little bit.

NOTE Confidence: 0.90289825

01:03:34.290 --> 01:03:35.958 It's two days, it's three days.

NOTE Confidence: 0.90289825

01:03:35.960 --> 01:03:38.176 It's not going to be more than that,

NOTE Confidence: 0.90289825

01:03:38.180 --> 01:03:41.617 but in the meantime, you know it.

NOTE Confidence: 0.90289825

01:03:41.620 --> 01:03:43.384 Make your life a little easier to

NOTE Confidence: 0.90289825

01:03:43.384 --> 01:03:45.270 take a little Tylenol and ibuprofen as

NOTE Confidence: 0.90289825

01:03:45.270 --> 01:03:47.420 long as it's safe for you to do so.

NOTE Confidence: 0.90289825

01:03:47.420 --> 01:03:48.878 You don't have renal issues or

NOTE Confidence: 0.90289825

01:03:48.878 --> 01:03:50.156 liver issues that would prevent

NOTE Confidence: 0.90289825

01:03:50.156 --> 01:03:51.200 you from taking them.

NOTE Confidence: 0.90289825

01:03:51.200 --> 01:03:52.460 I think that you know,

NOTE Confidence: 0.90289825

01:03:52.460 --> 01:03:54.217 make it a little easier on yourself.

NOTE Confidence: 0.7392856

01:03:56.200 --> 01:03:57.840 Thank you, thank you both

NOTE Confidence: 0.7392856

01:03:57.840 --> 01:04:00.920 for three of you, Tara.

NOTE Confidence: 0.7392856

01:04:00.920 --> 01:04:03.160 Number of questions you know.

NOTE Confidence: 0.7392856

01:04:03.160 --> 01:04:05.710 Obviously, there's been some controversy

NOTE Confidence: 0.7392856

01:04:05.710 --> 01:04:07.750 about vaccinations in general.
NOTE Confidence: 0.7392856

01:04:07.750 --> 01:04:12.446 In in the let us say social media.
NOTE Confidence: 0.7392856

01:04:12.450 --> 01:04:14.856 Should our patients and smilow be
NOTE Confidence: 0.7392856

01:04:14.856 --> 01:04:17.384 worried about people who go online
NOTE Confidence: 0.7392856

01:04:17.384 --> 01:04:19.509 suggesting that vaccines are bad?
NOTE Confidence: 0.91077435

01:04:21.780 --> 01:04:26.178 Well, you know, I think that.
NOTE Confidence: 0.91077435

01:04:26.180 --> 01:04:29.084 We have to be very careful with where
NOTE Confidence: 0.91077435

01:04:29.084 --> 01:04:32.284 we get our information and in general,
NOTE Confidence: 0.91077435

01:04:32.284 --> 01:04:34.780 social media probably isn't the most
NOTE Confidence: 0.91077435

01:04:34.780 --> 01:04:36.880 reliable source because people can
NOTE Confidence: 0.91077435

01:04:36.880 --> 01:04:39.310 post things that are actually not
NOTE Confidence: 0.91077435

01:04:39.310 --> 01:04:41.650 news that they're they're not real.
NOTE Confidence: 0.91077435

01:04:41.650 --> 01:04:44.520 So I think you know this is a great forum
NOTE Confidence: 0.91077435

01:04:44.595 --> 01:04:47.750 that we're disseminating information tonight.
NOTE Confidence: 0.91077435

01:04:47.750 --> 01:04:50.192 We have a website dedicated to
NOTE Confidence: 0.91077435

01:04:50.192 --> 01:04:51.820 covid resources for patients.

NOTE Confidence: 0.91077435

01:04:51.820 --> 01:04:54.256 Ann and I would suggest that,

NOTE Confidence: 0.91077435

01:04:54.260 --> 01:04:56.546 as it's been said, multiple times

NOTE Confidence: 0.91077435

01:04:56.546 --> 01:04:58.810 that patients ask their providers.

NOTE Confidence: 0.91077435

01:04:58.810 --> 01:05:00.736 You know to clarify any questions,

NOTE Confidence: 0.91077435

01:05:00.740 --> 01:05:02.350 so we hear a smile.

NOTE Confidence: 0.91077435

01:05:02.350 --> 01:05:04.144 Firmly believe in the power of

NOTE Confidence: 0.91077435

01:05:04.144 --> 01:05:05.890 medicine and science and vaccines,

NOTE Confidence: 0.91077435

01:05:05.890 --> 01:05:07.822 and we encourage all of our

NOTE Confidence: 0.91077435

01:05:07.822 --> 01:05:09.110 patients to take them.

NOTE Confidence: 0.91077435

01:05:09.110 --> 01:05:11.062 And and I hope that all of our

NOTE Confidence: 0.91077435

01:05:11.062 --> 01:05:12.347 patients feel comfortable bringing

NOTE Confidence: 0.91077435

01:05:12.347 --> 01:05:14.549 questions or if they see something

NOTE Confidence: 0.91077435

01:05:14.549 --> 01:05:16.838 that seems legitimate on social media,

NOTE Confidence: 0.91077435

01:05:16.840 --> 01:05:21.475 bring that to us and we can discuss it.

NOTE Confidence: 0.91077435

01:05:21.480 --> 01:05:21.760 Here,

NOTE Confidence: 0.771704

01:05:21.760 --> 01:05:23.470 thank you, and by the way,
NOTE Confidence: 0.771704

01:05:23.470 --> 01:05:25.346 one of our one of our attendees
NOTE Confidence: 0.771704

01:05:25.346 --> 01:05:27.159 thought thinks your child is adorable.
NOTE Confidence: 0.841281

01:05:28.600 --> 01:05:30.581 Can be under bedtime, and so you're
NOTE Confidence: 0.841281

01:05:30.581 --> 01:05:32.790 hearing her now in the background, but
NOTE Confidence: 0.841281

01:05:32.790 --> 01:05:34.578 I would concur, there's a question,
NOTE Confidence: 0.841281

01:05:34.580 --> 01:05:37.262 and actually I think it's a very good point.
NOTE Confidence: 0.841281

01:05:37.270 --> 01:05:39.724 It's a question in a comment, which is,
NOTE Confidence: 0.841281

01:05:39.724 --> 01:05:41.686 you know, please make sure that
NOTE Confidence: 0.841281

01:05:41.686 --> 01:05:43.395 people understand that this is free
NOTE Confidence: 0.841281

01:05:43.395 --> 01:05:45.340 of charge so they don't get scamed.
NOTE Confidence: 0.841281

01:05:45.340 --> 01:05:46.950 People might take advantage and
NOTE Confidence: 0.841281

01:05:46.950 --> 01:05:49.160 call you to say you can get
NOTE Confidence: 0.841281

01:05:49.160 --> 01:05:51.022 the vaccine if you pay for it.
NOTE Confidence: 0.841281

01:05:51.030 --> 01:05:52.794 Do you want to just talk
NOTE Confidence: 0.841281

01:05:52.794 --> 01:05:54.610 about that a little bit? Yes,

NOTE Confidence: 0.841281

01:05:54.610 --> 01:05:56.437 thank you for that question, Charlie.

NOTE Confidence: 0.841281

01:05:56.437 --> 01:05:57.091 You're right,

NOTE Confidence: 0.841281

01:05:57.091 --> 01:05:59.053 it's a very important question so.

NOTE Confidence: 0.841281

01:05:59.060 --> 01:06:03.340 At all of our map vaccination sites we.

NOTE Confidence: 0.841281

01:06:03.340 --> 01:06:05.836 Let me start by saying there should be.

NOTE Confidence: 0.841281

01:06:05.840 --> 01:06:08.208 At no point should you have to reach

NOTE Confidence: 0.841281

01:06:08.208 --> 01:06:10.346 into your own pocket and and and

NOTE Confidence: 0.841281

01:06:10.346 --> 01:06:12.729 hand over any money for this vaccine.

NOTE Confidence: 0.841281

01:06:12.730 --> 01:06:15.130 We are what we're doing is we will

NOTE Confidence: 0.841281

01:06:15.130 --> 01:06:17.110 for individuals who do have insurance,

NOTE Confidence: 0.841281

01:06:17.110 --> 01:06:19.350 we are billing insurance for a small

NOTE Confidence: 0.841281

01:06:19.350 --> 01:06:21.162 administration fee and that is how

NOTE Confidence: 0.841281

01:06:21.162 --> 01:06:22.752 the federal government has set up

NOTE Confidence: 0.841281

01:06:22.752 --> 01:06:25.127 the payment to cover some of the

NOTE Confidence: 0.841281

01:06:25.127 --> 01:06:26.491 costs associated with vaccination.

NOTE Confidence: 0.841281

01:06:26.500 --> 01:06:28.070 So we will bill insurance.
NOTE Confidence: 0.841281

01:06:28.070 --> 01:06:30.254 We will not. There are no copays.
NOTE Confidence: 0.841281

01:06:30.260 --> 01:06:31.820 There's nothing out of pocket.
NOTE Confidence: 0.841281

01:06:31.820 --> 01:06:34.053 And if individuals do not have insurance
NOTE Confidence: 0.841281

01:06:34.053 --> 01:06:36.139 they will not be charged at all,
NOTE Confidence: 0.841281

01:06:36.140 --> 01:06:37.092 so it will be.
NOTE Confidence: 0.841281

01:06:37.092 --> 01:06:38.896 You should at no point have to
NOTE Confidence: 0.841281

01:06:38.896 --> 01:06:40.456 pay anything for this vaccine.
NOTE Confidence: 0.841281

01:06:40.460 --> 01:06:42.080 So if someone tells you otherwise,
NOTE Confidence: 0.85453346

01:06:42.080 --> 01:06:43.972 walking directions thank you.
NOTE Confidence: 0.85453346

01:06:43.972 --> 01:06:46.324 I'm Karen, directly for patients
NOTE Confidence: 0.85453346

01:06:46.324 --> 01:06:48.664 who are being scheduled for
NOTE Confidence: 0.85453346

01:06:48.664 --> 01:06:50.670 cancer surgeries or procedures.
NOTE Confidence: 0.85453346

01:06:50.670 --> 01:06:53.175 Should they postpone until they
NOTE Confidence: 0.85453346

01:06:53.175 --> 01:06:56.945 get vaccinated and or will they get
NOTE Confidence: 0.85453346

01:06:56.945 --> 01:06:59.293 vaccinated before their procedure

NOTE Confidence: 0.85453346

01:06:59.293 --> 01:07:02.600 because they're getting a procedure?

NOTE Confidence: 0.85453346

01:07:02.600 --> 01:07:03.010 Unfortunately,

NOTE Confidence: 0.91091764

01:07:03.010 --> 01:07:05.272 I don't think that a scheduled

NOTE Confidence: 0.91091764

01:07:05.272 --> 01:07:07.311 procedure is necessarily going to

NOTE Confidence: 0.91091764

01:07:07.311 --> 01:07:09.187 accelerate the vaccination process.

NOTE Confidence: 0.91091764

01:07:09.190 --> 01:07:11.895 You know, as we've talked

NOTE Confidence: 0.91091764

01:07:11.895 --> 01:07:15.070 about so much of this is.

NOTE Confidence: 0.91091764

01:07:15.070 --> 01:07:19.280 Just a product availability issue.

NOTE Confidence: 0.91091764

01:07:19.280 --> 01:07:21.878 Ultimately, I think it is really

NOTE Confidence: 0.91091764

01:07:21.878 --> 01:07:24.227 important to proceed with scheduled

NOTE Confidence: 0.91091764

01:07:24.227 --> 01:07:26.379 or planned cancer surgery.

NOTE Confidence: 0.91091764

01:07:26.380 --> 01:07:29.396 I think the the potential or an real

NOTE Confidence: 0.91091764

01:07:29.396 --> 01:07:31.945 risks of delaying surgical therapy

NOTE Confidence: 0.91091764

01:07:31.945 --> 01:07:35.353 for cancer far outweighs the risks.

NOTE Confidence: 0.91091764

01:07:35.360 --> 01:07:37.622 And this speaks to the point

NOTE Confidence: 0.91091764

01:07:37.622 --> 01:07:40.819 that I think both Kim and I made
NOTE Confidence: 0.91091764

01:07:40.819 --> 01:07:43.225 earlier that we really continue to
NOTE Confidence: 0.91091764

01:07:43.316 --> 01:07:45.185 exercise extraordinarily vigilant
NOTE Confidence: 0.91091764

01:07:45.185 --> 01:07:47.677 efforts to maintain maintain
NOTE Confidence: 0.91091764

01:07:47.677 --> 01:07:50.382 safety in the operating room.
NOTE Confidence: 0.91091764

01:07:50.382 --> 01:07:53.710 And in the in the hospital for patients
NOTE Confidence: 0.91091764

01:07:53.787 --> 01:07:56.355 who are getting getting care here.
NOTE Confidence: 0.91091764

01:07:56.360 --> 01:07:57.450 Great, thank you.
NOTE Confidence: 0.8822731

01:08:00.130 --> 01:08:02.020 And I'll turn this one.
NOTE Confidence: 0.8822731

01:08:02.020 --> 01:08:05.413 I will offer up to any of our panelists.
NOTE Confidence: 0.8822731

01:08:05.420 --> 01:08:07.305 There's been a number of
NOTE Confidence: 0.8822731

01:08:07.305 --> 01:08:08.813 questions regarding the anecdotes,
NOTE Confidence: 0.8822731

01:08:08.820 --> 01:08:10.332 news about allergic reactions
NOTE Confidence: 0.8822731

01:08:10.332 --> 01:08:12.420 that have been, you know,
NOTE Confidence: 0.8822731

01:08:12.420 --> 01:08:14.795 a promulgated because of the.
NOTE Confidence: 0.8822731

01:08:14.800 --> 01:08:16.966 Limited number reactions that have curd.

NOTE Confidence: 0.8822731

01:08:16.970 --> 01:08:19.866 One is what do we know about that?

NOTE Confidence: 0.8822731

01:08:19.870 --> 01:08:23.006 Should that be a concern for patients?

NOTE Confidence: 0.8822731

01:08:23.010 --> 01:08:24.825 At any of our panelists

NOTE Confidence: 0.8822731

01:08:24.825 --> 01:08:26.970 want to take that one? I

NOTE Confidence: 0.85806686

01:08:26.970 --> 01:08:29.594 might I might take a crack and Karen,

NOTE Confidence: 0.85806686

01:08:29.600 --> 01:08:31.580 you can add so number one.

NOTE Confidence: 0.85806686

01:08:31.580 --> 01:08:33.792 People with histories of allergies are not

NOTE Confidence: 0.85806686

01:08:33.792 --> 01:08:35.520 prevented from getting these vaccines.

NOTE Confidence: 0.85806686

01:08:35.520 --> 01:08:38.049 So what if you had a severe allergic reaction

NOTE Confidence: 0.85806686

01:08:38.049 --> 01:08:40.789 to things like penicillin or something else?

NOTE Confidence: 0.85806686

01:08:40.790 --> 01:08:43.355 What we do is you will wait a little

NOTE Confidence: 0.85806686

01:08:43.355 --> 01:08:45.297 longer after you get the vaccine

NOTE Confidence: 0.85806686

01:08:45.297 --> 01:08:47.777 to be observed to make sure that

NOTE Confidence: 0.85806686

01:08:47.777 --> 01:08:49.644 nothing is happening. There is.

NOTE Confidence: 0.85806686

01:08:49.644 --> 01:08:51.546 There's no allergic reaction that prevents

NOTE Confidence: 0.85806686

01:08:51.546 --> 01:08:53.949 you from getting from getting the vaccine.
NOTE Confidence: 0.85806686

01:08:53.950 --> 01:08:56.582 All of our vaccination sites are equipped
NOTE Confidence: 0.85806686

01:08:56.582 --> 01:08:59.567 with people who can respond to any sort of.
NOTE Confidence: 0.85806686

01:08:59.570 --> 01:09:00.024 Emergency,
NOTE Confidence: 0.85806686

01:09:00.024 --> 01:09:03.656 we have the meds there so there's no.
NOTE Confidence: 0.85806686

01:09:03.660 --> 01:09:05.019 There's really no
NOTE Confidence: 0.85806686

01:09:05.019 --> 01:09:06.378 contraindication care enough.
NOTE Confidence: 0.87392086

01:09:08.340 --> 01:09:09.510 So, so the
NOTE Confidence: 0.87392086

01:09:09.510 --> 01:09:11.070 rates are really really
NOTE Confidence: 0.87392086

01:09:11.070 --> 01:09:13.020 low of severe allergic reactions,
NOTE Confidence: 0.87392086

01:09:13.020 --> 01:09:16.530 so you may hear about it in the news.
NOTE Confidence: 0.87392086

01:09:16.530 --> 01:09:18.480 But given the massive numbers
NOTE Confidence: 0.87392086

01:09:18.480 --> 01:09:20.040 of people being vaccinated,
NOTE Confidence: 0.87392086

01:09:20.040 --> 01:09:22.992 the chance of you having an
NOTE Confidence: 0.87392086

01:09:22.992 --> 01:09:24.960 allergic reaction is tiny.
NOTE Confidence: 0.87392086

01:09:24.960 --> 01:09:27.352 For patients who do have a real

NOTE Confidence: 0.87392086

01:09:27.352 --> 01:09:28.716 allergic reaction, and again,

NOTE Confidence: 0.87392086

01:09:28.720 --> 01:09:31.114 it's extremely rare to the first dose,

NOTE Confidence: 0.87392086

01:09:31.120 --> 01:09:33.142 we would probably have you see

NOTE Confidence: 0.87392086

01:09:33.142 --> 01:09:34.885 one of our immunologists before

NOTE Confidence: 0.87392086

01:09:34.885 --> 01:09:36.835 getting the second dose and would

NOTE Confidence: 0.87392086

01:09:36.835 --> 01:09:39.278 give you the second dose in a

NOTE Confidence: 0.87392086

01:09:39.278 --> 01:09:40.678 controlled environment just to

NOTE Confidence: 0.87392086

01:09:40.678 --> 01:09:42.748 make sure that we have everything

NOTE Confidence: 0.87392086

01:09:42.748 --> 01:09:44.800 around you to keep you safe.

NOTE Confidence: 0.838151

01:09:45.700 --> 01:09:47.878 Thank you another, I'll just add

NOTE Confidence: 0.838151

01:09:47.880 --> 01:09:50.393 the number of the number of people

NOTE Confidence: 0.838151

01:09:50.393 --> 01:09:52.263 who have actually had allergic

NOTE Confidence: 0.838151

01:09:52.263 --> 01:09:55.135 reactions here that we know is is true.

NOTE Confidence: 0.838151

01:09:55.140 --> 01:09:58.360 Anaphylaxis is 1. We've had a few

NOTE Confidence: 0.838151

01:09:58.360 --> 01:10:00.540 others with questionable allergic.

NOTE Confidence: 0.838151

01:10:00.540 --> 01:10:01.888 Reactions, but true anaphylaxis.
NOTE Confidence: 0.838151

01:10:01.888 --> 01:10:03.910 There has been one person out
NOTE Confidence: 0.838151

01:10:03.971 --> 01:10:05.669 of the 40,000 people that we
NOTE Confidence: 0.838151

01:10:05.669 --> 01:10:07.130 have vaccinated so that just,
NOTE Confidence: 0.838151

01:10:07.130 --> 01:10:08.990 you know, goes to Karen's point
NOTE Confidence: 0.838151

01:10:08.990 --> 01:10:10.899 that it is very very very
NOTE Confidence: 0.8536915

01:10:10.900 --> 01:10:14.080 very well. Thank you both.
NOTE Confidence: 0.8536915

01:10:14.080 --> 01:10:17.716 Because the Johnson Johnson and the
NOTE Confidence: 0.8536915

01:10:17.716 --> 01:10:21.039 Astra Zeneca vaccines are a virus,
NOTE Confidence: 0.8536915

01:10:21.040 --> 01:10:24.585 should cancer patients avoid that
NOTE Confidence: 0.8536915

01:10:24.585 --> 01:10:29.690 particular version of the vaccine? There. I
NOTE Confidence: 0.89999783

01:10:29.690 --> 01:10:32.400 think probably the answer in
NOTE Confidence: 0.89999783

01:10:32.400 --> 01:10:34.838 general is. You know what I'm
NOTE Confidence: 0.89999783

01:10:34.838 --> 01:10:36.523 going to defer the oncologist
NOTE Confidence: 0.84939367

01:10:36.530 --> 01:10:39.232 here. I'm a simple internal take that one,
NOTE Confidence: 0.84939367

01:10:39.232 --> 01:10:42.274 so it's but you know it is a virus,

NOTE Confidence: 0.84939367

01:10:42.280 --> 01:10:44.488 but it's it's a virus that is not

NOTE Confidence: 0.84939367

01:10:44.488 --> 01:10:47.102 harmful to humans and it is incapable

NOTE Confidence: 0.84939367

01:10:47.102 --> 01:10:49.038 of multiplying or replicating. It's.

NOTE Confidence: 0.84939367

01:10:49.038 --> 01:10:51.066 It's actually essentially a dead virus.

NOTE Confidence: 0.84939367

01:10:51.070 --> 01:10:53.558 It's not, it doesn't have the ability to

NOTE Confidence: 0.84939367

01:10:53.558 --> 01:10:56.129 do what viruses don't because they've taken

NOTE Confidence: 0.84939367

01:10:56.129 --> 01:10:59.177 that part of the genes out of the virus.

NOTE Confidence: 0.84939367

01:10:59.180 --> 01:11:00.870 Still, really, all it is,

NOTE Confidence: 0.84939367

01:11:00.870 --> 01:11:04.419 it's just a vehicle to put the.

NOTE Confidence: 0.84939367

01:11:04.420 --> 01:11:06.688 Gene the the one gene for kovid

NOTE Confidence: 0.84939367

01:11:06.688 --> 01:11:08.839 to generate the immune response.

NOTE Confidence: 0.84939367

01:11:08.840 --> 01:11:11.073 So it's not all people you know

NOTE Confidence: 0.84939367

01:11:11.073 --> 01:11:13.382 people may have heard that if

NOTE Confidence: 0.84939367

01:11:13.382 --> 01:11:15.090 you're getting cancer therapy,

NOTE Confidence: 0.84939367

01:11:15.090 --> 01:11:17.298 don't get a live virus vaccine.

NOTE Confidence: 0.84939367

01:11:17.300 --> 01:11:19.508 This is not the Johnson, Johnson,
NOTE Confidence: 0.84939367

01:11:19.508 --> 01:11:21.348 AstraZeneca are not live viruses,
NOTE Confidence: 0.84939367

01:11:21.350 --> 01:11:23.185 they are essentially dead viruses
NOTE Confidence: 0.84939367

01:11:23.185 --> 01:11:24.653 'cause they can't replicate.
NOTE Confidence: 0.84939367

01:11:24.660 --> 01:11:26.868 They can multiply in your body.
NOTE Confidence: 0.84939367

01:11:26.870 --> 01:11:30.178 So if you get if you go well, firstly,
NOTE Confidence: 0.84939367

01:11:30.178 --> 01:11:32.386 neither of those vaccines are approved,
NOTE Confidence: 0.84939367

01:11:32.390 --> 01:11:33.718 but if they are.
NOTE Confidence: 0.84939367

01:11:33.718 --> 01:11:36.692 And you go to the one of our
NOTE Confidence: 0.84939367

01:11:36.692 --> 01:11:39.374 offices and that you were offered.
NOTE Confidence: 0.84939367

01:11:39.380 --> 01:11:40.744 The Johnson and Johnson.
NOTE Confidence: 0.84939367

01:11:40.744 --> 01:11:41.766 That's fine, obviously.
NOTE Confidence: 0.84939367

01:11:41.766 --> 01:11:44.118 But first we want to see the
NOTE Confidence: 0.84939367

01:11:44.118 --> 01:11:46.217 results will get them in February.
NOTE Confidence: 0.84939367

01:11:46.220 --> 01:11:47.588 But at the moment,
NOTE Confidence: 0.84939367

01:11:47.588 --> 01:11:49.640 if you were to get vaccinated,

NOTE Confidence: 0.84939367
01:11:49.640 --> 01:11:50.630 unless things change,
NOTE Confidence: 0.84939367
01:11:50.630 --> 01:11:52.940 it will only be the RNA viruses
NOTE Confidence: 0.84939367
01:11:53.011 --> 01:11:54.955 which are not viruses and vaccines
NOTE Confidence: 0.84939367
01:11:54.955 --> 01:11:57.361 that only the RNA vaccine. Rather.
NOTE Confidence: 0.84939367
01:11:57.361 --> 01:12:00.066 And that's Moderna and Pfizer.
NOTE Confidence: 0.84939367
01:12:00.070 --> 01:12:02.854 So let me just say it's it's 8:15
NOTE Confidence: 0.84939367
01:12:02.854 --> 01:12:05.919 and I think terrorist kids need to
NOTE Confidence: 0.84939367
01:12:05.919 --> 01:12:09.496 go to bed and probably all of us
NOTE Confidence: 0.84939367
01:12:09.496 --> 01:12:12.310 need to get some rest for tomorrow.
NOTE Confidence: 0.84939367
01:12:12.310 --> 01:12:15.166 I want to really thank our panelists,
NOTE Confidence: 0.84939367
01:12:15.170 --> 01:12:17.520 Kevin Billingslea on Despond Ekim
NOTE Confidence: 0.84939367
01:12:17.520 --> 01:12:19.870 Slusser Karen Adelson Tera synth.
NOTE Confidence: 0.84939367
01:12:19.870 --> 01:12:22.486 I also want to thank Aliza Folsom and
NOTE Confidence: 0.84939367
01:12:22.486 --> 01:12:24.847 Renee Gaudette for pulling this together.
NOTE Confidence: 0.84939367
01:12:24.850 --> 01:12:27.167 I notice that we almost I think
NOTE Confidence: 0.84939367

01:12:27.167 --> 01:12:29.736 we had up to about 600 people
NOTE Confidence: 0.84939367

01:12:29.736 --> 01:12:31.968 on the on the system here,
NOTE Confidence: 0.84939367

01:12:31.970 --> 01:12:33.914 and that does include people who
NOTE Confidence: 0.84939367

01:12:33.914 --> 01:12:35.210 were probably watching through
NOTE Confidence: 0.84939367

01:12:35.262 --> 01:12:36.600 alternative things online.
NOTE Confidence: 0.84939367

01:12:36.600 --> 01:12:38.736 So really an extraordinary turn out.
NOTE Confidence: 0.84939367

01:12:38.740 --> 01:12:40.870 Obviously this is of great interest,
NOTE Confidence: 0.84939367

01:12:40.870 --> 01:12:43.006 so I just want to say,
NOTE Confidence: 0.84939367

01:12:43.010 --> 01:12:45.220 Doctor Charles Fuchs can send
NOTE Confidence: 0.84939367

01:12:45.220 --> 01:12:47.430 director and physician Chief want
NOTE Confidence: 0.84939367

01:12:47.510 --> 01:12:49.897 to thank all of you for attending.
NOTE Confidence: 0.84939367

01:12:49.900 --> 01:12:52.012 We really appreciate your courage through
NOTE Confidence: 0.84939367

01:12:52.012 --> 01:12:54.599 all of this and you know you have.
NOTE Confidence: 0.84939367

01:12:54.600 --> 01:12:56.424 You should know we're here for
NOTE Confidence: 0.84939367

01:12:56.424 --> 01:12:58.300 you and we're always available.
NOTE Confidence: 0.84939367

01:12:58.300 --> 01:13:00.316 We didn't get there every question,

NOTE Confidence: 0.84939367

01:13:00.320 --> 01:13:02.786 but you can always reach out

NOTE Confidence: 0.84939367

01:13:02.786 --> 01:13:05.460 to us with your questions.

NOTE Confidence: 0.84939367

01:13:05.460 --> 01:13:07.380 You're important and we are

NOTE Confidence: 0.84939367

01:13:07.380 --> 01:13:10.203 going to make sure that we all

NOTE Confidence: 0.84939367

01:13:10.203 --> 01:13:11.859 get through this pandemic,

NOTE Confidence: 0.84939367

01:13:11.860 --> 01:13:15.060 get vaccinated and move on with our lives.

NOTE Confidence: 0.84939367

01:13:15.060 --> 01:13:16.521 So for now.
