NOTE Confidence: 0.8325471

00:00:00.000 --> 00:00:01.840 Hello I'm doctor Roy Herbst,

NOTE Confidence: 0.8325471

00:00:01.840 --> 00:00:03.680 chief of Medical Oncology associate

NOTE Confidence: 0.8325471

00:00:03.742 --> 00:00:05.282 director for translational research

NOTE Confidence: 0.8325471

00:00:05.282 --> 00:00:07.592 here at the Yale Cancer Center.

NOTE Confidence: 0.8325471

00:00:07.600 --> 00:00:09.280 My specialty is thoracic malignancies,

NOTE Confidence: 0.8325471

00:00:09.280 --> 00:00:11.014 meaning I take care of lung

NOTE Confidence: 0.8325471

00:00:11.014 --> 00:00:13.397 cancer and I see people with all

NOTE Confidence: 0.8325471

00:00:13.397 --> 00:00:15.327 different types of lung cancer.

NOTE Confidence: 0.8325471

00:00:15.330 --> 00:00:18.018 I've been doing that for over 25 years.

NOTE Confidence: 0.8325471

00:00:18.020 --> 00:00:20.225 As a fellow I looked around and

NOTE Confidence: 0.8325471

00:00:20.225 --> 00:00:22.640 saw that lung cancer had very few

NOTE Confidence: 0.8325471

00:00:22.640 --> 00:00:24.740 advances in quite a few years.

NOTE Confidence: 0.8325471

00:00:24.740 --> 00:00:27.620 So at that point it seemed like a great

NOTE Confidence: 0.8325471

00:00:27.620 --> 00:00:29.837 opportunity to help patients do research

NOTE Confidence: 0.8325471

00:00:29.837 --> 00:00:32.479 and bring those new therapies to patients.

NOTE Confidence: 0.8325471

00:00:32.480 --> 00:00:35.040 So I began a career in lung cancer,

NOTE Confidence: 0.8325471

00:00:35.040 --> 00:00:35.898 first in Boston,

NOTE Confidence: 0.8325471

00:00:35.898 --> 00:00:37.900 then for 13 years in Texas at

NOTE Confidence: 0.8325471

00:00:37.970 --> 00:00:39.840 the MD Anderson Cancer Center,

NOTE Confidence: 0.8325471

00:00:39.840 --> 00:00:42.080 where I led the lung Cancer Group,

NOTE Confidence: 0.8325471

00:00:42.080 --> 00:00:44.194 and now I've been here at Yale

NOTE Confidence: 0.8325471

00:00:44.194 --> 00:00:45.600 for about 10 years.

NOTE Confidence: 0.8325471

00:00:45.600 --> 00:00:47.568 Working to lead the Department but

NOTE Confidence: 0.8325471

00:00:47.568 --> 00:00:49.758 focusing my clinical work on lung cancer,

NOTE Confidence: 0.8325471

00:00:49.760 --> 00:00:51.680 well encourage patients to come here

NOTE Confidence: 0.8325471

00:00:51.680 --> 00:00:54.522 for an opinion or to get treated, or both,

NOTE Confidence: 0.8325471

00:00:54.522 --> 00:00:57.331 and certainly what we need is we need to

NOTE Confidence: 0.8325471

00:00:57.331 --> 00:00:59.676 have all your records before you come,

NOTE Confidence: 0.8325471

00:00:59.680 --> 00:01:01.871 meaning your past medical history and a

NOTE Confidence: 0.8325471

00:01:01.871 --> 00:01:04.217 prior diagnosis or treatment you've had for.

00:01:04.220 --> 00:01:04.854 Lung cancer,

00:01:04.854 --> 00:01:07.390 including all the X Rays and the pathology,

00:01:07.390 --> 00:01:08.970 and more recently I've been

00:01:08.970 --> 00:01:10.234 very involved in immunotherapy.

00:01:10.240 --> 00:01:11.071 Here at Yale.

00:01:11.071 --> 00:01:13.444 We have a wonderful team trying to use

00:01:13.444 --> 00:01:15.319 immunotherapy to treat lung cancer,

00:01:15.320 --> 00:01:16.900 either alone or in combination.

00:01:16.900 --> 00:01:17.872 Looking at biomarkers,

00:01:17.872 --> 00:01:19.492 trying to understand how can

00:01:19.492 --> 00:01:21.018 we make it even better.

00:01:21.020 --> 00:01:22.688 I'm very proud that our program

00:01:22.688 --> 00:01:24.955 was one of the first to use

00:01:24.955 --> 00:01:26.407 immunotherapy in lung cancer,

00:01:26.410 --> 00:01:28.580 and we're remaining on the cutting edge

NOTE Confidence: 0.8325471

00:01:28.580 --> 00:01:30.850 with new therapies and new clinical trials.

NOTE Confidence: 0.8325471

00:01:30.850 --> 00:01:33.378 And it's just a pleasure to work here.

NOTE Confidence: 0.8325471

00:01:33.380 --> 00:01:34.636 We have a spore.

NOTE Confidence: 0.8325471

00:01:34.636 --> 00:01:36.206 A specialized program of research

NOTE Confidence: 0.8325471

00:01:36.206 --> 00:01:38.327 excellence in lung cancer where we

NOTE Confidence: 0.8325471

00:01:38.327 --> 00:01:39.727 have multiple investigators working

NOTE Confidence: 0.8325471

00:01:39.727 --> 00:01:41.266 together to find new therapies

NOTE Confidence: 0.8325471

00:01:41.266 --> 00:01:42.964 and new targets for this disease.

NOTE Confidence: 0.8325471

00:01:42.970 --> 00:01:45.063 I have a wonderful job and so

NOTE Confidence: 0.8325471

00:01:45.063 --> 00:01:47.070 many things that make me excited.

NOTE Confidence: 0.8325471

00:01:47.070 --> 00:01:48.750 I'm really proud of the way

NOTE Confidence: 0.8325471

00:01:48.750 --> 00:01:50.530 we take care of patients.

NOTE Confidence: 0.8325471

00:01:50.530 --> 00:01:52.015 That's the most important thing

NOTE Confidence: 0.8325471

00:01:52.015 --> 00:01:53.881 our patients come first and we

NOTE Confidence: 0.8325471

00:01:53.881 --> 00:01:55.516 give them the most compassionate

NOTE Confidence: 0.8325471

00:01:55.516 --> 00:01:56.824 and innovative care possible.

NOTE Confidence: 0.8325471

00:01:56.830 --> 00:01:58.944 But then I really enjoy leading the

NOTE Confidence: 0.8325471

00:01:58.944 --> 00:02:00.880 team and bringing a group together

NOTE Confidence: 0.8325471

00:02:00.880 --> 00:02:02.818 to motivate everyone to do better,

NOTE Confidence: 0.8325471

00:02:02.820 --> 00:02:05.235 to find better things in the lab.

NOTE Confidence: 0.8325471

00:02:05.240 --> 00:02:06.512 To find better drugs,

NOTE Confidence: 0.8325471

00:02:06.512 --> 00:02:08.798 better clinical trials so that we can

NOTE Confidence: 0.8325471

00:02:08.798 --> 00:02:10.975 help patients in the best possible way.

NOTE Confidence: 0.8325471

00:02:10.980 --> 00:02:11.265 Well,

NOTE Confidence: 0.8325471

00:02:11.265 --> 00:02:13.260 I came to Yale 10 years ago

NOTE Confidence: 0.8325471

00:02:13.260 --> 00:02:15.128 because it was returning home.

NOTE Confidence: 0.8325471

00:02:15.130 --> 00:02:17.032 I had been an undergraduate here

NOTE Confidence: 0.8325471

00:02:17.032 --> 00:02:19.318 in the early 80s and actually I

NOTE Confidence: 0.8325471

00:02:19.318 --> 00:02:21.537 did my lab research just a hallway

NOTE Confidence: 0.8325471

00:02:21.604 --> 00:02:23.739 away from where my office is now.

NOTE Confidence: 0.8325471

00:02:23.740 --> 00:02:25.882 So it really took my career full

NOTE Confidence: 0.8325471

00:02:25.882 --> 00:02:27.733 circle and coming back here now

NOTE Confidence: 0.8325471

00:02:27.733 --> 00:02:29.749 is the Chief of Oncology with the

NOTE Confidence: 0.8325471

00:02:29.813 --> 00:02:31.907 resources and the ability and the

NOTE Confidence: 0.8325471

00:02:31.907 --> 00:02:33.658 experience to bring new things

NOTE Confidence: 0.8325471

00:02:33.658 --> 00:02:35.746 from the lab to the clinic.

NOTE Confidence: 0.8325471

00:02:35.750 --> 00:02:36.432 Build teams,

NOTE Confidence: 0.8325471

00:02:36.432 --> 00:02:37.114 recruit faculty.

NOTE Confidence: 0.8325471

00:02:37.114 --> 00:02:39.160 It's just been an amazing experience

NOTE Confidence: 0.8325471

00:02:39.212 --> 00:02:40.088 when I came here.

NOTE Confidence: 0.8325471

00:02:40.090 --> 00:02:41.950 The Smile hospital had just opened

NOTE Confidence: 0.8325471

00:02:41.950 --> 00:02:42.570 weeks before.

NOTE Confidence: 0.8493008

00:02:42.570 --> 00:02:44.120 Now we're celebrating 10 years.

NOTE Confidence: 0.8493008

00:02:44.120 --> 00:02:45.670 We have a robust faculty.

NOTE Confidence: 0.8493008

00:02:45.670 --> 00:02:47.530 We have centers at 15 plus

NOTE Confidence: 0.8493008

00:02:47.530 --> 00:02:48.770 places around the state.

NOTE Confidence: 0.8493008

00:02:48.770 --> 00:02:50.010 We're doing clinical trials

NOTE Confidence: 0.8493008

00:02:50.010 --> 00:02:51.560 at all of those centers,

NOTE Confidence: 0.8493008

00:02:51.560 --> 00:02:53.730 and we're raising the bar against cancer.

NOTE Confidence: 0.8493008

00:02:53.730 --> 00:02:55.280 And that's the exciting thing.

NOTE Confidence: 0.8493008

00:02:55.280 --> 00:02:56.830 And that's why I love

NOTE Confidence: 0.8493008

00:02:56.830 --> 00:02:58.380 being here in New Haven.

NOTE Confidence: 0.8493008

00:02:58.380 --> 00:03:00.657 I live in New Haven and I'm a member

NOTE Confidence: 0.8493008

00:03:00.657 --> 00:03:02.500 of the Community and it's just

NOTE Confidence: 0.8493008

00:03:02.500 --> 00:03:04.850 great to be here at Yale taking

NOTE Confidence: 0.8493008

00:03:04.850 --> 00:03:06.750 care of patients with cancer.
