NOTE duration:"00:02:06.7630000"

NOTE language:en-us

NOTE Confidence: 0.8520507

00:00:00.000 --> 00:00:03.048 My name is Doctor Regina Hooley.

NOTE Confidence: 0.8520507

00:00:03.050 --> 00:00:04.994 I'm a radiologist and I'm professor

NOTE Confidence: 0.8520507

00:00:04.994 --> 00:00:07.212 and vice chair for clinical affairs

NOTE Confidence: 0.8520507

00:00:07.212 --> 00:00:09.347 and the Department of Radiology

NOTE Confidence: 0.8520507

00:00:09.347 --> 00:00:11.169 and Biomedical Imaging at Yale.

NOTE Confidence: 0.8520507

00:00:11.170 --> 00:00:13.150 I oversee radiology operations and

NOTE Confidence: 0.8520507

00:00:13.150 --> 00:00:16.047 in addition to this I'm also the

NOTE Confidence: 0.8520507

00:00:16.047 --> 00:00:18.147 division Chief for breast imaging.

NOTE Confidence: 0.8520507

00:00:18.150 --> 00:00:20.046 The patients that I see are

NOTE Confidence: 0.8520507

00:00:20.046 --> 00:00:21.856 primarily women who are undergoing

NOTE Confidence: 0.8520507

00:00:21.856 --> 00:00:23.788 screening for breast cancer.

NOTE Confidence: 0.8520507

00:00:23.790 --> 00:00:26.798 I also see women who have breast symptoms,

NOTE Confidence: 0.8520507

00:00:26.800 --> 00:00:28.984 including those women who may be

NOTE Confidence: 0.8520507

00:00:28.984 --> 00:00:30.930 newly diagnosed with breast cancer.

NOTE Confidence: 0.8520507

00:00:30.930 --> 00:00:33.926 I chose radiology as a specialty because

NOTE Confidence: 0.8520507

00:00:33.926 --> 00:00:36.224 radiologists must learn about all kinds

NOTE Confidence: 0.8520507

00:00:36.224 --> 00:00:38.830 of diseases in all parts of the body,

NOTE Confidence: 0.8520507

00:00:38.830 --> 00:00:40.710 which I found really interesting.

NOTE Confidence: 0.8520507

00:00:40.710 --> 00:00:42.024 Most radiologists, however,

NOTE Confidence: 0.8520507

00:00:42.024 --> 00:00:44.214 eventually choose to focus on

NOTE Confidence: 0.8520507

00:00:44.214 --> 00:00:46.454 one or two areas because there

NOTE Confidence: 0.8520507

00:00:46.454 --> 00:00:48.800 is so much to learn and know.

NOTE Confidence: 0.8520507

00:00:48.800 --> 00:00:50.822 And I chose breast imaging because

NOTE Confidence: 0.8520507

00:00:50.822 --> 00:00:52.960 breast cancer is very interesting.

NOTE Confidence: 0.8520507

00:00:52.960 --> 00:00:55.599 It's a very common and significant disease.

NOTE Confidence: 0.8520507

00:00:55.600 --> 00:00:58.304 I enjoy helping women and I also enjoy

NOTE Confidence: 0.8520507

00:00:58.304 --> 00:01:00.692 working with women for those patients

NOTE Confidence: 0.8520507

00:01:00.692 --> 00:01:03.158 who are diagnosed with breast cancer,

NOTE Confidence: 0.8520507

00:01:03.160 --> 00:01:05.757 it's important to know that these days

NOTE Confidence: 0.8520507

00:01:05.757 --> 00:01:08.830 breast cancer is a very well treated disease,

NOTE Confidence: 0.8520507

00:01:08.830 --> 00:01:10.720 and for the most part,

NOTE Confidence: 0.8520507

00:01:10.720 --> 00:01:11.854 women do very,

NOTE Confidence: 0.8520507

00:01:11.854 --> 00:01:12.610 very well,

NOTE Confidence: 0.8520507

00:01:12.610 --> 00:01:14.885 particularly those women whose cancers

NOTE Confidence: 0.8520507

00:01:14.885 --> 00:01:17.160 are found on screening mammography.

NOTE Confidence: 0.8520507

00:01:17.160 --> 00:01:19.630 My research is primarily focused

NOTE Confidence: 0.8520507

00:01:19.630 --> 00:01:20.618 on screening.

NOTE Confidence: 0.8520507

00:01:20.620 --> 00:01:24.183 I've done most of my research on

NOTE Confidence: 0.8520507

00:01:24.183 --> 00:01:25.710 supplemental screening ultrasound

NOTE Confidence: 0.8520507

00:01:25.792 --> 00:01:28.027 and women with dense breasts.

NOTE Confidence: 0.8520507

00:01:28.030 --> 00:01:30.988 I've also done research on tomosynthesis,

NOTE Confidence: 0.8520507

00:01:30.990 --> 00:01:32.469 an 3D mammography.

NOTE Confidence: 0.8520507

00:01:32.469 --> 00:01:34.934 We operate as a team.

NOTE Confidence: 0.8520507

00:01:34.940 --> 00:01:37.910 Certainly, radiology is a team specialty.

NOTE Confidence: 0.8520507

00:01:37.910 --> 00:01:41.854 We have a great group of breast imagers.

NOTE Confidence: 0.8520507

00:01:41.860 --> 00:01:45.804 We all work together, we share our patients.

NOTE Confidence: 0.8520507

00:01:45.810 --> 00:01:47.058 We have similar.

NOTE Confidence: 0.8520507

00:01:47.058 --> 00:01:49.138 Styles in diagnosis and work

NOTE Confidence: 0.8520507

00:01:49.138 --> 00:01:51.520 up so it's a great team.

NOTE Confidence: 0.8520507

00:01:51.520 --> 00:01:53.338 We also work very closely with

NOTE Confidence: 0.8520507

00:01:53.338 --> 00:01:55.415 our breast surgeons and our breast

NOTE Confidence: 0.8520507

00:01:55.415 --> 00:01:57.435 oncologist and radiation oncologist to

NOTE Confidence: 0.8520507

00:01:57.435 --> 00:01:59.404 optimize treatment for our patients

NOTE Confidence: 0.8520507

00:01:59.404 --> 00:02:01.504 who are diagnosed with breast cancer.
