

WEBVTT

NOTE duration:"00:01:50.5070000"

NOTE language:en-us

NOTE Confidence: 0.9397428

00:00:00.000 --> 00:00:01.948 I'm doctor Lash boost,

NOTE Confidence: 0.9397428

00:00:01.948 --> 00:00:04.383 a breast medical oncologist and

NOTE Confidence: 0.9397428

00:00:04.383 --> 00:00:07.488 I treat breast cancer patients.

NOTE Confidence: 0.9397428

00:00:07.490 --> 00:00:10.180 I've always been torn between

NOTE Confidence: 0.9397428

00:00:10.180 --> 00:00:11.794 humanities and science.

NOTE Confidence: 0.9397428

00:00:11.800 --> 00:00:14.725 And my mother was a physician when he died.

NOTE Confidence: 0.9397428

00:00:14.730 --> 00:00:16.896 That medicine is a perfect blend

NOTE Confidence: 0.9397428

00:00:16.896 --> 00:00:18.961 of humanities and science and she

NOTE Confidence: 0.9397428

00:00:18.961 --> 00:00:20.900 was right as mothers tend to be.

NOTE Confidence: 0.9397428

00:00:20.900 --> 00:00:23.500 The more information we have about a cancer,

NOTE Confidence: 0.9397428

00:00:23.500 --> 00:00:25.594 the more precise and accurate treatment

NOTE Confidence: 0.9397428

00:00:25.594 --> 00:00:27.728 plan we could set up for you.

NOTE Confidence: 0.9397428

00:00:27.730 --> 00:00:29.350 However, it's also very important

NOTE Confidence: 0.9397428

00:00:29.350 --> 00:00:30.646 to bring your questions.

NOTE Confidence: 0.9397428

00:00:30.650 --> 00:00:32.280 I think everybody has questions,

NOTE Confidence: 0.9397428

00:00:32.280 --> 00:00:35.328 and some of them may get lost during

NOTE Confidence: 0.9397428

00:00:35.328 --> 00:00:37.577 a discussion unless you write it

NOTE Confidence: 0.9397428

00:00:37.577 --> 00:00:40.230 down in a paper and bring it in.

NOTE Confidence: 0.9397428

00:00:40.230 --> 00:00:42.018 And then I go to physicians.

NOTE Confidence: 0.9397428

00:00:42.020 --> 00:00:43.785 I sometimes feel embarrassed to

NOTE Confidence: 0.9397428

00:00:43.785 --> 00:00:45.550 actually ask a question because

NOTE Confidence: 0.9397428

00:00:45.610 --> 00:00:47.626 I think it kind of a sign that I

NOTE Confidence: 0.9397428

00:00:47.626 --> 00:00:49.198 somehow don't trust the person.

NOTE Confidence: 0.9397428

00:00:49.200 --> 00:00:50.988 But please don't feel that way.

NOTE Confidence: 0.9397428

00:00:50.990 --> 00:00:51.917 I cherish questions.

NOTE Confidence: 0.9397428

00:00:51.917 --> 00:00:53.771 I think it's always very helpful

NOTE Confidence: 0.9397428

00:00:53.771 --> 00:00:55.577 to bring someone video who you

NOTE Confidence: 0.9397428

00:00:55.577 --> 00:00:57.570 trust a family member or a friend.

NOTE Confidence: 0.9397428

00:00:57.570 --> 00:00:59.310 It's a lot of information that

NOTE Confidence: 0.9397428

00:00:59.310 --> 00:01:01.159 you will hear during the initial  
NOTE Confidence: 0.98746836

00:01:01.160 --> 00:01:02.352 visits and to process  
NOTE Confidence: 0.98746836

00:01:02.352 --> 00:01:03.842 those and remember them is  
NOTE Confidence: 0.98746836

00:01:03.850 --> 00:01:05.650 difficult, and I think it's very,  
NOTE Confidence: 0.98746836

00:01:05.650 --> 00:01:07.603 very helpful to have somebody with you  
NOTE Confidence: 0.98746836

00:01:07.603 --> 00:01:10.294 in addition to clinical work. I also.  
NOTE Confidence: 0.98746836

00:01:10.294 --> 00:01:13.123 Direct Co direct, the cancer centers,  
NOTE Confidence: 0.98746836

00:01:13.123 --> 00:01:15.178 genetics and genomics research program,  
NOTE Confidence: 0.9786982

00:01:15.180 --> 00:01:18.879 and in that role we do research that aims  
NOTE Confidence: 0.9786982

00:01:18.880 --> 00:01:20.965 to define genetic and molecular  
NOTE Confidence: 0.9786982

00:01:20.965 --> 00:01:22.633 abnormalities that drive cancer  
NOTE Confidence: 0.9786982

00:01:22.633 --> 00:01:25.105 and eventually would lead to new  
NOTE Confidence: 0.9786982

00:01:25.105 --> 00:01:27.095 therapies and new diagnostic tests.  
NOTE Confidence: 0.9786982

00:01:27.100 --> 00:01:29.548 One important thing that I would  
NOTE Confidence: 0.9786982

00:01:29.548 --> 00:01:32.325 like to communicate to you is that  
NOTE Confidence: 0.9786982

00:01:32.325 --> 00:01:34.817 the diagnosis of breast cancer is no

NOTE Confidence: 0.9786982

00:01:34.895 --> 00:01:37.787 longer associated or shouldn't be fear.

NOTE Confidence: 0.9786982

00:01:37.790 --> 00:01:39.900 It's hope. The vast majority

NOTE Confidence: 0.9786982

00:01:39.900 --> 00:01:41.588 of breast cancer patients.

NOTE Confidence: 0.9786982

00:01:41.590 --> 00:01:43.518 Back in those to be the new diagnosed

NOTE Confidence: 0.9786982

00:01:43.518 --> 00:01:45.309 with the disease today are cured.
