

WEBVTT

NOTE duration:"00:55:11"

NOTE recognizability:0.972

NOTE language:en-us

NOTE Confidence: 0.955576935

00:00:00.000 --> 00:00:01.924 Welcome to the Smilow

NOTE Confidence: 0.955576935

00:00:01.924 --> 00:00:03.848 patient and Family Forum.

NOTE Confidence: 0.955576935

00:00:03.850 --> 00:00:06.034 It's my pleasure to welcome you back.

NOTE Confidence: 0.955576935

00:00:06.040 --> 00:00:07.864 For those of you who may have been

NOTE Confidence: 0.955576935

00:00:07.864 --> 00:00:09.818 here the last time we were together.

NOTE Confidence: 0.955576935

00:00:09.820 --> 00:00:11.884 But for those of you joining or the

NOTE Confidence: 0.955576935

00:00:11.884 --> 00:00:13.886 first time my name is Doctor Nita

NOTE Confidence: 0.955576935

00:00:13.886 --> 00:00:15.955 Uja I'm the interim director for the

NOTE Confidence: 0.955576935

00:00:15.955 --> 00:00:17.701 Yale Cancer Center and position in

NOTE Confidence: 0.955576935

00:00:17.701 --> 00:00:19.582 Chief for the Smilow Cancer Hospitals.

NOTE Confidence: 0.955576935

00:00:19.582 --> 00:00:22.191 My other job is the chair of the

NOTE Confidence: 0.955576935

00:00:22.191 --> 00:00:23.716 Department of Surgery and it's

NOTE Confidence: 0.955576935

00:00:23.716 --> 00:00:25.588 a pleasure to see all of you,

NOTE Confidence: 0.955576935

00:00:25.590 --> 00:00:28.784 or at least have you join us this evening.
NOTE Confidence: 0.955576935

00:00:28.784 --> 00:00:31.037 So with that? Maybe next slide.
NOTE Confidence: 0.955576935

00:00:31.037 --> 00:00:32.780 I think many of you join us
NOTE Confidence: 0.955576935

00:00:32.841 --> 00:00:34.449 and are connected with us in.
NOTE Confidence: 0.955576935

00:00:34.450 --> 00:00:37.354 In over with you and and with your
NOTE Confidence: 0.955576935

00:00:37.354 --> 00:00:39.290 families and it's I want to take
NOTE Confidence: 0.955576935

00:00:39.290 --> 00:00:40.520 just a few minutes to acknowledge
NOTE Confidence: 0.955576935

00:00:40.568 --> 00:00:42.108 the upcoming cancer awareness funds.
NOTE Confidence: 0.955576935

00:00:42.110 --> 00:00:44.018 And September I'm going to just
NOTE Confidence: 0.955576935

00:00:44.018 --> 00:00:47.252 say is a busy month for us.
NOTE Confidence: 0.955576935

00:00:47.252 --> 00:00:49.868 So first up is.
NOTE Confidence: 0.955576935

00:00:49.870 --> 00:00:54.110 Our prostate Cancer Awareness month and.
NOTE Confidence: 0.98682792875

00:00:56.250 --> 00:00:58.386 Prostate cancer, as some of you may know,
NOTE Confidence: 0.98682792875

00:00:58.390 --> 00:01:00.382 is one of the most diagnosed and treated
NOTE Confidence: 0.98682792875

00:01:00.382 --> 00:01:02.429 cancer in men at smilow Cancer hospital,
NOTE Confidence: 0.98682792875

00:01:02.430 --> 00:01:06.224 accounting for 17% of all male cancers.

NOTE Confidence: 0.98682792875

00:01:06.230 --> 00:01:09.230 BC here and our oncologist, urologist,

NOTE Confidence: 0.98682792875

00:01:09.230 --> 00:01:11.830 radiation oncologists and other specialists

NOTE Confidence: 0.98682792875

00:01:11.830 --> 00:01:14.373 partner together to provide specialty

NOTE Confidence: 0.98682792875

00:01:14.373 --> 00:01:17.145 care to men diagnosed with this disease.

NOTE Confidence: 0.98682792875

00:01:17.150 --> 00:01:18.790 So if you have please talk to the

NOTE Confidence: 0.98682792875

00:01:18.790 --> 00:01:20.877 men in your life to talk to their

NOTE Confidence: 0.98682792875

00:01:20.877 --> 00:01:22.530 health care provider about screening.

NOTE Confidence: 0.98682792875

00:01:22.530 --> 00:01:26.364 This is it screen screen cancer Next up.

NOTE Confidence: 0.98682792875

00:01:26.364 --> 00:01:27.810 Also, is gynecological

NOTE Confidence: 0.98682792875

00:01:27.810 --> 00:01:29.256 Cancer awareness month?

NOTE Confidence: 0.98682792875

00:01:29.260 --> 00:01:31.744 And similarly our team of gynecological

NOTE Confidence: 0.98682792875

00:01:31.744 --> 00:01:33.400 oncologists and other specialty

NOTE Confidence: 0.98682792875

00:01:33.465 --> 00:01:35.177 physicians provide excellent care

NOTE Confidence: 0.98682792875

00:01:35.177 --> 00:01:37.317 to women diagnosed with ovarian,

NOTE Confidence: 0.98682792875

00:01:37.320 --> 00:01:40.550 cervical, endometrial and other cancers.

NOTE Confidence: 0.98682792875

00:01:40.550 --> 00:01:42.155 And for nearly twenty years
NOTE Confidence: 0.98682792875

00:01:42.155 --> 00:01:43.439 or discovery to cancer,
NOTE Confidence: 0.98682792875

00:01:43.440 --> 00:01:46.218 cure program has led research projects
NOTE Confidence: 0.98682792875

00:01:46.218 --> 00:01:48.591 for earlier detection of ovarian
NOTE Confidence: 0.98682792875

00:01:48.591 --> 00:01:50.796 cancer and supported clinical care
NOTE Confidence: 0.98682792875

00:01:50.796 --> 00:01:53.669 for women at Yale and in Smilow.
NOTE Confidence: 0.98682792875

00:01:53.670 --> 00:01:55.847 Enable you move to the next slide.
NOTE Confidence: 0.98682792875

00:01:55.850 --> 00:01:57.310 I I mentioned it's it.
NOTE Confidence: 0.98682792875

00:01:57.310 --> 00:01:58.750 There's a lot of cancer awareness.
NOTE Confidence: 0.98682792875

00:01:58.750 --> 00:02:00.330 September, I think it's so.
NOTE Confidence: 0.98682792875

00:02:00.330 --> 00:02:03.366 It's want to acknowledge all of the all
NOTE Confidence: 0.98682792875

00:02:03.366 --> 00:02:05.508 of those in terms of raising awareness.
NOTE Confidence: 0.98682792875

00:02:05.510 --> 00:02:07.508 Next up is blood Cancer Awareness
NOTE Confidence: 0.98682792875

00:02:07.508 --> 00:02:09.448 Month and the Smilow Cancer
NOTE Confidence: 0.98682792875

00:02:09.448 --> 00:02:11.068 Hospital hematology program,
NOTE Confidence: 0.98682792875

00:02:11.070 --> 00:02:13.100 led by Doctor Stephanie Lee,

NOTE Confidence: 0.98682792875

00:02:13.100 --> 00:02:15.641 has expanded over the last several years

NOTE Confidence: 0.98682792875

00:02:15.641 --> 00:02:18.352 to provide expert care to patients through

NOTE Confidence: 0.98682792875

00:02:18.352 --> 00:02:21.112 our multiple myeloma and gammopathy

NOTE Confidence: 0.98682792875

00:02:21.112 --> 00:02:23.595 program classical hematology program.

NOTE Confidence: 0.98682792875

00:02:23.595 --> 00:02:24.420 Leukemia,

NOTE Confidence: 0.98682792875

00:02:24.420 --> 00:02:24.885 lymphoma,

NOTE Confidence: 0.98682792875

00:02:24.885 --> 00:02:27.210 stem cell transplant and these

NOTE Confidence: 0.98682792875

00:02:27.210 --> 00:02:28.140 newer therapies.

NOTE Confidence: 0.98682792875

00:02:28.140 --> 00:02:30.436 The car T cell programs that are

NOTE Confidence: 0.98682792875

00:02:30.436 --> 00:02:32.088 available are transplant program is

NOTE Confidence: 0.98682792875

00:02:32.088 --> 00:02:34.223 also a member of the National Marrow

NOTE Confidence: 0.98682792875

00:02:34.223 --> 00:02:35.967 Donor program and is accredited

NOTE Confidence: 0.98682792875

00:02:35.967 --> 00:02:38.037 as a major transplant center under

NOTE Confidence: 0.98682792875

00:02:38.040 --> 00:02:42.300 Dr Stuart Seropian's leadership.

NOTE Confidence: 0.98682792875

00:02:42.300 --> 00:02:44.364 I also want to acknowledge thyroid

NOTE Confidence: 0.98682792875

00:02:44.364 --> 00:02:46.178 cancer Awareness month and the
NOTE Confidence: 0.98682792875

00:02:46.178 --> 00:02:47.670 incidence of thyroid cancers.
NOTE Confidence: 0.98682792875

00:02:47.670 --> 00:02:48.066 Unfortunately,
NOTE Confidence: 0.98682792875

00:02:48.066 --> 00:02:50.838 actually rising in for women in Connecticut.
NOTE Confidence: 0.98682792875

00:02:50.840 --> 00:02:51.244 Dash,
NOTE Confidence: 0.98682792875

00:02:51.244 --> 00:02:53.264 Jennifer Ogilvie joins Milo Cancer
NOTE Confidence: 0.98682792875

00:02:53.264 --> 00:02:55.564 Hospital earlier this year as Chief
NOTE Confidence: 0.98682792875

00:02:55.564 --> 00:02:57.412 of Endocrine Surgery and is leading
NOTE Confidence: 0.98682792875

00:02:57.412 --> 00:02:59.413 a team including her endocrinologist
NOTE Confidence: 0.98682792875

00:02:59.413 --> 00:03:02.059 and medical oncologist to care for
NOTE Confidence: 0.98682792875

00:03:02.059 --> 00:03:04.424 patients diagnosed with thyroid cancers
NOTE Confidence: 0.98682792875

00:03:04.424 --> 00:03:06.829 are cancer prevention and control
NOTE Confidence: 0.98682792875

00:03:06.829 --> 00:03:09.370 research program is also actively
NOTE Confidence: 0.98682792875

00:03:09.370 --> 00:03:11.860 receives researching this rising incidence.
NOTE Confidence: 0.98682792875

00:03:11.860 --> 00:03:13.906 To determine the causes of this
NOTE Confidence: 0.98682792875

00:03:13.906 --> 00:03:16.343 and find ways to prevent it Next

NOTE Confidence: 0.98682792875

00:03:16.343 --> 00:03:18.607 up and then last but not least is

NOTE Confidence: 0.98682792875

00:03:18.607 --> 00:03:20.308 childhood Cancer Awareness Month.

NOTE Confidence: 0.98682792875

00:03:20.310 --> 00:03:22.220 We also celebrate our littlest

NOTE Confidence: 0.98682792875

00:03:22.220 --> 00:03:24.613 patients and the tremendous care or

NOTE Confidence: 0.98682792875

00:03:24.613 --> 00:03:26.265 pediatric hematologist and oncologist

NOTE Confidence: 0.98682792875

00:03:26.265 --> 00:03:28.752 in child Life team provided smilow

NOTE Confidence: 0.98682792875

00:03:28.752 --> 00:03:30.900 cancer hospital and in the Yale

NOTE Confidence: 0.98682792875

00:03:30.900 --> 00:03:32.373 New Haven Children's Hospital.

NOTE Confidence: 0.98682792875

00:03:32.373 --> 00:03:34.731 I'm also really excited to announce

NOTE Confidence: 0.98682792875

00:03:34.731 --> 00:03:37.196 that next month we'll welcome Doctor

NOTE Confidence: 0.98682792875

00:03:37.196 --> 00:03:39.226 Lakshman Krishnamurthi as our new

NOTE Confidence: 0.98682792875

00:03:39.226 --> 00:03:41.155 Chief of Pediatric Hematology

NOTE Confidence: 0.98682792875

00:03:41.155 --> 00:03:43.780 Oncology and bone marrow transplant.

NOTE Confidence: 0.98682792875

00:03:43.780 --> 00:03:45.800 Questionable through more seasoned,

NOTE Confidence: 0.98682792875

00:03:45.800 --> 00:03:47.315 accomplished pediatric hematologist

NOTE Confidence: 0.98682792875

00:03:47.315 --> 00:03:49.335 oncologist and an international
NOTE Confidence: 0.98682792875

00:03:49.335 --> 00:03:51.555 leader in bone marrow transplant.
NOTE Confidence: 0.98682792875

00:03:51.560 --> 00:03:53.378 He's joining us from Atlanta Berries,
NOTE Confidence: 0.98682792875

00:03:53.380 --> 00:03:55.420 a professor of Pediatrics at Emory
NOTE Confidence: 0.98682792875

00:03:55.420 --> 00:03:56.780 University School of Medicine
NOTE Confidence: 0.98682792875

00:03:56.835 --> 00:03:59.031 and director of the bone Marrow
NOTE Confidence: 0.98682792875

00:03:59.031 --> 00:04:00.129 Transplantation program there.
NOTE Confidence: 0.98682792875

00:04:00.130 --> 00:04:02.354 So that was a lot of raising awareness
NOTE Confidence: 0.98682792875

00:04:02.354 --> 00:04:05.344 of all the cancers that are this month.
NOTE Confidence: 0.98682792875

00:04:05.344 --> 00:04:06.260 Next up,
NOTE Confidence: 0.98682792875

00:04:06.260 --> 00:04:08.108 it's the closer to free bike ride.
NOTE Confidence: 0.98682792875

00:04:08.110 --> 00:04:10.022 I know that this is an event that
NOTE Confidence: 0.98682792875

00:04:10.022 --> 00:04:11.413 has been important to Connecticut
NOTE Confidence: 0.98682792875

00:04:11.413 --> 00:04:13.401 and all of our all of our
NOTE Confidence: 0.97807162047619

00:04:13.467 --> 00:04:15.132 patients. In our families, etc.
NOTE Confidence: 0.97807162047619

00:04:15.132 --> 00:04:16.672 It's on Saturday, September 11th.

NOTE Confidence: 0.97807162047619

00:04:16.672 --> 00:04:18.688 I know we were briefly hoping

NOTE Confidence: 0.97807162047619

00:04:18.688 --> 00:04:20.669 it would become an in person,

NOTE Confidence: 0.97807162047619

00:04:20.670 --> 00:04:22.504 but it has once again moved to

NOTE Confidence: 0.97807162047619

00:04:22.504 --> 00:04:24.221 a virtual event to protect and

NOTE Confidence: 0.97807162047619

00:04:24.221 --> 00:04:25.967 give safety to all our writers,

NOTE Confidence: 0.97807162047619

00:04:25.970 --> 00:04:27.134 volunteers and community.

NOTE Confidence: 0.97807162047619

00:04:27.134 --> 00:04:29.850 I'm could guarantee you the spirit will

NOTE Confidence: 0.97807162047619

00:04:29.917 --> 00:04:32.129 be strong in all of the participants,

NOTE Confidence: 0.97807162047619

00:04:32.130 --> 00:04:33.800 so even though it's virtual,

NOTE Confidence: 0.97807162047619

00:04:33.800 --> 00:04:35.732 I know many of you participated in

NOTE Confidence: 0.97807162047619

00:04:35.732 --> 00:04:37.949 this and I encourage you to register

NOTE Confidence: 0.97807162047619

00:04:37.949 --> 00:04:40.296 and join the event online or donate

NOTE Confidence: 0.97807162047619

00:04:40.296 --> 00:04:42.648 to support a rider or ride closer to

NOTE Confidence: 0.97807162047619

00:04:42.648 --> 00:04:45.524 free dot or you can log on and on the

NOTE Confidence: 0.97807162047619

00:04:45.524 --> 00:04:47.664 site on right closer to free.org.

NOTE Confidence: 0.97807162047619

00:04:47.664 --> 00:04:50.736 100% of the funds go to support patch
NOTE Confidence: 0.97807162047619

00:04:50.736 --> 00:04:53.321 patient carrots Milo Cancer Hospital in
NOTE Confidence: 0.97807162047619

00:04:53.321 --> 00:04:56.010 Cancer Research at our Cancer Center.
NOTE Confidence: 0.97807162047619

00:04:56.010 --> 00:04:58.274 I thought I would also talk very briefly
NOTE Confidence: 0.97807162047619

00:04:58.274 --> 00:05:00.686 about COVID data from our what we are seeing.
NOTE Confidence: 0.97807162047619

00:05:00.690 --> 00:05:03.917 So in terms of if you're wondering,
NOTE Confidence: 0.97807162047619

00:05:03.920 --> 00:05:06.446 the hospital Yale New Haven Health
NOTE Confidence: 0.97807162047619

00:05:06.446 --> 00:05:08.614 System has made vaccination mandatory
NOTE Confidence: 0.97807162047619

00:05:08.614 --> 00:05:10.774 and over 27,000 of our employees
NOTE Confidence: 0.97807162047619

00:05:10.774 --> 00:05:13.178 have been vaccinated and in terms of
NOTE Confidence: 0.97807162047619

00:05:13.178 --> 00:05:15.146 how many vaccines we have delivered,
NOTE Confidence: 0.97807162047619

00:05:15.150 --> 00:05:17.198 I think you can see that over 200,000.
NOTE Confidence: 0.97807162047619

00:05:17.198 --> 00:05:19.502 And if you see the care that continues
NOTE Confidence: 0.97807162047619

00:05:19.502 --> 00:05:21.580 to happen along with cancer care,
NOTE Confidence: 0.97807162047619

00:05:21.580 --> 00:05:23.956 we continue to provide care to our camp
NOTE Confidence: 0.97807162047619

00:05:23.956 --> 00:05:25.744 COVID patients over 12,000 patients

NOTE Confidence: 0.97807162047619

00:05:25.744 --> 00:05:27.634 have been discharged and released,

NOTE Confidence: 0.97807162047619

00:05:27.640 --> 00:05:29.960 and as health system has had the lowest

NOTE Confidence: 0.97807162047619

00:05:29.960 --> 00:05:31.506 mortality in the statement compared

NOTE Confidence: 0.97807162047619

00:05:31.506 --> 00:05:34.213 to the all the hospitals I know we all

NOTE Confidence: 0.97807162047619

00:05:34.213 --> 00:05:35.821 contribute and we're proud of that

NOTE Confidence: 0.97807162047619

00:05:35.821 --> 00:05:37.980 of the care we provide to our Community.

NOTE Confidence: 0.97807162047619

00:05:37.980 --> 00:05:40.332 So just wanted to take a minute to

NOTE Confidence: 0.97807162047619

00:05:40.332 --> 00:05:42.251 acknowledge that because I know this

NOTE Confidence: 0.97807162047619

00:05:42.251 --> 00:05:44.153 is something we're all living with.

NOTE Confidence: 0.97807162047619

00:05:44.160 --> 00:05:46.064 Next slide, Renee, please.

NOTE Confidence: 0.97807162047619

00:05:46.064 --> 00:05:46.540 Alright.

NOTE Confidence: 0.97807162047619

00:05:46.540 --> 00:05:48.787 So if you have suggestions or questions.

NOTE Confidence: 0.97807162047619

00:05:48.790 --> 00:05:49.528 About these forms,

NOTE Confidence: 0.97807162047619

00:05:49.528 --> 00:05:51.982 I do want you to take the time to reach

NOTE Confidence: 0.97807162047619

00:05:51.982 --> 00:05:54.110 out to us and all the ways Facebook,

NOTE Confidence: 0.97807162047619

00:05:54.110 --> 00:05:54.884 Twitter, etc.
NOTE Confidence: 0.97807162047619

00:05:54.884 --> 00:05:57.206 You can use old fashioned emails,
NOTE Confidence: 0.97807162047619

00:05:57.210 --> 00:05:59.110 cancer and answers at yale.edu
NOTE Confidence: 0.97807162047619

00:05:59.110 --> 00:06:01.510 and follow us on social media.
NOTE Confidence: 0.97807162047619

00:06:01.510 --> 00:06:03.820 I know Renee Gadets team since a
NOTE Confidence: 0.97807162047619

00:06:03.820 --> 00:06:06.051 lot of information on the various
NOTE Confidence: 0.97807162047619

00:06:06.051 --> 00:06:07.218 social media formats,
NOTE Confidence: 0.97807162047619

00:06:07.220 --> 00:06:09.044 so again we want to hear from you.
NOTE Confidence: 0.97807162047619

00:06:09.050 --> 00:06:10.828 You are part of our community and
NOTE Confidence: 0.97807162047619

00:06:10.828 --> 00:06:12.464 we feel very connected with you
NOTE Confidence: 0.97807162047619

00:06:12.464 --> 00:06:14.361 and we want to make sure we're
NOTE Confidence: 0.97807162047619

00:06:14.417 --> 00:06:16.517 supporting you and all your questions.
NOTE Confidence: 0.97807162047619

00:06:16.520 --> 00:06:18.530 With that I'm going to share
NOTE Confidence: 0.97807162047619

00:06:18.530 --> 00:06:19.870 the agenda for tonight.
NOTE Confidence: 0.97807162047619

00:06:19.870 --> 00:06:22.062 First up is our new chief for Breast
NOTE Confidence: 0.97807162047619

00:06:22.062 --> 00:06:23.779 medical Oncology and the director of

NOTE Confidence: 0.97807162047619

00:06:23.779 --> 00:06:25.453 the Breast Center at Smilow Cancer

NOTE Confidence: 0.97807162047619

00:06:25.508 --> 00:06:27.368 Hospital will be Dr Maryam Lustberg,

NOTE Confidence: 0.97807162047619

00:06:27.370 --> 00:06:29.100 who has joined us recently

NOTE Confidence: 0.97807162047619

00:06:29.100 --> 00:06:30.484 from the Ohio State,

NOTE Confidence: 0.97807162047619

00:06:30.490 --> 00:06:32.786 and she's going to be talking about the

NOTE Confidence: 0.97807162047619

00:06:32.786 --> 00:06:35.127 impact of COVID on cancer survivorship.

NOTE Confidence: 0.97807162047619

00:06:35.130 --> 00:06:36.898 I would like you know she will talk

NOTE Confidence: 0.97807162047619

00:06:36.898 --> 00:06:38.628 and then we'll have Q&A and after

NOTE Confidence: 0.97807162047619

00:06:38.628 --> 00:06:40.220 that we're going to talk about,

NOTE Confidence: 0.97807162047619

00:06:40.220 --> 00:06:40.616 I suspect,

NOTE Confidence: 0.97807162047619

00:06:40.616 --> 00:06:42.002 which there going to be a lot

NOTE Confidence: 0.97807162047619

00:06:42.002 --> 00:06:43.270 of questions and answers.

NOTE Confidence: 0.97807162047619

00:06:43.270 --> 00:06:45.013 It's immunocompromised patients

NOTE Confidence: 0.97807162047619

00:06:45.013 --> 00:06:47.337 and 3rd dose vaccinations.

NOTE Confidence: 0.97807162047619

00:06:47.340 --> 00:06:48.732 And doctor Om Deshpande,

NOTE Confidence: 0.97807162047619

00:06:48.732 --> 00:06:50.472 who's our executive director in
NOTE Confidence: 0.97807162047619

00:06:50.472 --> 00:06:52.258 charge of this program for Yale,
NOTE Confidence: 0.97807162047619

00:06:52.260 --> 00:06:53.049 New Haven Health,
NOTE Confidence: 0.97807162047619

00:06:53.049 --> 00:06:53.838 has joined us.
NOTE Confidence: 0.978696878571429

00:06:53.840 --> 00:06:55.724 Thank you Doctor Deshpande
NOTE Confidence: 0.978696878571429

00:06:55.724 --> 00:06:57.137 doctor Kevin Billingsley.
NOTE Confidence: 0.978696878571429

00:06:57.140 --> 00:06:58.040 Many of you know him.
NOTE Confidence: 0.978696878571429

00:06:58.040 --> 00:06:59.745 He's our chief medical officer
NOTE Confidence: 0.978696878571429

00:06:59.745 --> 00:07:01.450 for Smilow Cancer Hospital and
NOTE Confidence: 0.978696878571429

00:07:01.511 --> 00:07:03.185 will be giving us the updates.
NOTE Confidence: 0.978696878571429

00:07:03.190 --> 00:07:05.330 And he's joined by a team and we want to
NOTE Confidence: 0.978696878571429

00:07:05.385 --> 00:07:07.415 make sure we answer all the questions.
NOTE Confidence: 0.978696878571429

00:07:07.420 --> 00:07:08.740 Lisa Barber ODA,
NOTE Confidence: 0.978696878571429

00:07:08.740 --> 00:07:11.380 who's the program director and oncology
NOTE Confidence: 0.978696878571429

00:07:11.380 --> 00:07:13.726 education Dr Huntington who is in
NOTE Confidence: 0.978696878571429

00:07:13.726 --> 00:07:16.148 hematology and can answer those very

NOTE Confidence: 0.978696878571429
00:07:16.148 --> 00:07:18.228 specific questions for hematology,
NOTE Confidence: 0.978696878571429
00:07:18.230 --> 00:07:20.390 hematologic malignancies, patients.
NOTE Confidence: 0.978696878571429
00:07:20.390 --> 00:07:22.826 Miss Lester, who I know many of you.
NOTE Confidence: 0.978696878571429
00:07:22.830 --> 00:07:24.188 If you've joined us in the past,
NOTE Confidence: 0.978696878571429
00:07:24.190 --> 00:07:25.906 know her she's her chief nursing
NOTE Confidence: 0.978696878571429
00:07:25.906 --> 00:07:27.050 officer and vice president.
NOTE Confidence: 0.978696878571429
00:07:27.050 --> 00:07:28.694 Patient services for hospital
NOTE Confidence: 0.978696878571429
00:07:28.694 --> 00:07:30.338 and then Dr Euhus,
NOTE Confidence: 0.978696878571429
00:07:30.340 --> 00:07:32.686 their associate CMO for radiation oncology,
NOTE Confidence: 0.978696878571429
00:07:32.690 --> 00:07:33.530 is also joining.
NOTE Confidence: 0.978696878571429
00:07:33.530 --> 00:07:35.990 Still everybody give a big babe so you can.
NOTE Confidence: 0.978696878571429
00:07:35.990 --> 00:07:38.500 They can see your faces in your names are on,
NOTE Confidence: 0.978696878571429
00:07:38.500 --> 00:07:40.341 but with that I'm going to turn
NOTE Confidence: 0.978696878571429
00:07:40.341 --> 00:07:42.446 it over to our very own doctor
NOTE Confidence: 0.978696878571429
00:07:42.446 --> 00:07:44.324 Lustberg to give you an update
NOTE Confidence: 0.978696878571429

00:07:44.389 --> 00:07:45.829 on cancer survivorship.
NOTE Confidence: 0.978696878571429

00:07:45.830 --> 00:07:47.696 Doctor Losfer take it away please.
NOTE Confidence: 0.905444114

00:07:48.200 --> 00:07:49.690 Thank you Doctor Raja and
NOTE Confidence: 0.905444114

00:07:49.690 --> 00:07:51.180 thank you to all the.
NOTE Confidence: 0.905444114

00:07:51.180 --> 00:07:54.906 Participants tonight in this town hall.
NOTE Confidence: 0.905444114

00:07:54.910 --> 00:07:57.130 It's wonderful that you're here.
NOTE Confidence: 0.905444114

00:07:57.130 --> 00:07:59.794 So that we can all have a conversation
NOTE Confidence: 0.905444114

00:07:59.794 --> 00:08:01.650 about the impact of COVID,
NOTE Confidence: 0.905444114

00:08:01.650 --> 00:08:05.759 which has changed many things in healthcare.
NOTE Confidence: 0.905444114

00:08:05.760 --> 00:08:06.690 As many of you know,
NOTE Confidence: 0.905444114

00:08:06.690 --> 00:08:09.616 and I'm sure many of you have
NOTE Confidence: 0.905444114

00:08:09.616 --> 00:08:11.710 also been personally impacted.
NOTE Confidence: 0.905444114

00:08:11.710 --> 00:08:14.734 By many of the changes that we have
NOTE Confidence: 0.905444114

00:08:14.734 --> 00:08:18.016 all gone through since early 2020,
NOTE Confidence: 0.905444114

00:08:18.016 --> 00:08:22.464 so this schema here is a.
NOTE Confidence: 0.905444114

00:08:22.464 --> 00:08:26.416 It captures the work of many of

NOTE Confidence: 0.905444114

00:08:26.416 --> 00:08:27.745 the collaborate collaborations

NOTE Confidence: 0.905444114

00:08:27.745 --> 00:08:29.960 that I've had throughout the

NOTE Confidence: 0.905444114

00:08:30.032 --> 00:08:32.147 country where we were observing.

NOTE Confidence: 0.905444114

00:08:32.150 --> 00:08:34.940 Kind of what was happening to

NOTE Confidence: 0.905444114

00:08:34.940 --> 00:08:37.274 healthcare delivery as essentially the

NOTE Confidence: 0.905444114

00:08:37.274 --> 00:08:39.239 healthcare system for valid reasons

NOTE Confidence: 0.905444114

00:08:39.239 --> 00:08:42.616 had to come to a halt with with the

NOTE Confidence: 0.905444114

00:08:42.616 --> 00:08:45.640 mounting cases of COVID in early 2020,

NOTE Confidence: 0.905444114

00:08:45.640 --> 00:08:49.699 and as you can see we've had multiple waves.

NOTE Confidence: 0.905444114

00:08:49.700 --> 00:08:51.468 So this is, uh,

NOTE Confidence: 0.905444114

00:08:51.468 --> 00:08:53.678 this was an artistic depiction

NOTE Confidence: 0.905444114

00:08:53.680 --> 00:08:56.105 of how multiple cancer survivors

NOTE Confidence: 0.905444114

00:08:56.105 --> 00:08:58.986 were affected by multiple waves of

NOTE Confidence: 0.905444114

00:08:58.986 --> 00:09:01.260 COVID as they each came through,

NOTE Confidence: 0.905444114

00:09:01.260 --> 00:09:02.540 and we with each wave.

NOTE Confidence: 0.905444114

00:09:02.540 --> 00:09:04.356 We thought this might be the last one,
NOTE Confidence: 0.905444114

00:09:04.360 --> 00:09:06.515 and so as we're currently
NOTE Confidence: 0.905444114

00:09:06.515 --> 00:09:08.239 experiencing or fourth wave,
NOTE Confidence: 0.905444114

00:09:08.240 --> 00:09:09.460 I think it's it's.
NOTE Confidence: 0.905444114

00:09:09.460 --> 00:09:12.536 It's a telling schema and so with with
NOTE Confidence: 0.905444114

00:09:12.536 --> 00:09:15.320 many of the national survivorship experts,
NOTE Confidence: 0.905444114

00:09:15.320 --> 00:09:18.208 I think we we we really had multiple
NOTE Confidence: 0.905444114

00:09:18.208 --> 00:09:21.077 dialogues in terms of how we could
NOTE Confidence: 0.905444114

00:09:21.077 --> 00:09:23.142 better support cancer survivors as
NOTE Confidence: 0.905444114

00:09:23.222 --> 00:09:25.452 they were going through the pandemic.
NOTE Confidence: 0.905444114

00:09:25.452 --> 00:09:27.314 And to make sure we're all on
NOTE Confidence: 0.905444114

00:09:27.314 --> 00:09:29.278 the same page in terms of the
NOTE Confidence: 0.905444114

00:09:29.278 --> 00:09:30.940 definition of a cancer survivor,
NOTE Confidence: 0.905444114

00:09:30.940 --> 00:09:32.580 because I know that can
NOTE Confidence: 0.905444114

00:09:32.580 --> 00:09:33.564 be confusing sometimes.
NOTE Confidence: 0.905444114

00:09:33.570 --> 00:09:34.182 Uhm,

NOTE Confidence: 0.905444114
00:09:34.182 --> 00:09:34.794 really,
NOTE Confidence: 0.905444114
00:09:34.794 --> 00:09:37.242 the official National Cancer
NOTE Confidence: 0.905444114
00:09:37.242 --> 00:09:38.466 Center definition.
NOTE Confidence: 0.905444114
00:09:38.470 --> 00:09:40.410 Is anyone diagnosed with cancer
NOTE Confidence: 0.905444114
00:09:40.410 --> 00:09:43.120 from the day one of diagnosis
NOTE Confidence: 0.905444114
00:09:43.120 --> 00:09:45.706 throughout the rest of their lives.
NOTE Confidence: 0.905444114
00:09:45.710 --> 00:09:47.705 And obviously there are many
NOTE Confidence: 0.905444114
00:09:47.705 --> 00:09:49.700 different types of cancer survivors,
NOTE Confidence: 0.905444114
00:09:49.700 --> 00:09:52.269 and this will also be relevant in
NOTE Confidence: 0.905444114
00:09:52.269 --> 00:09:54.767 the next segment of this town hall.
NOTE Confidence: 0.905444114
00:09:54.770 --> 00:09:57.198 When we talk about.
NOTE Confidence: 0.905444114
00:09:57.200 --> 00:09:59.160 Patients on active treatment versus
NOTE Confidence: 0.905444114
00:09:59.160 --> 00:10:01.120 patients were not active treatment,
NOTE Confidence: 0.905444114
00:10:01.120 --> 00:10:04.320 but what we noticed kind as as as
NOTE Confidence: 0.905444114
00:10:04.320 --> 00:10:07.732 as a COVID-19 was mounting that
NOTE Confidence: 0.905444114

00:10:07.732 --> 00:10:09.484 there needed to be best practice
NOTE Confidence: 0.905444114

00:10:09.484 --> 00:10:12.447 is set in place in terms of how we
NOTE Confidence: 0.905444114

00:10:12.447 --> 00:10:14.305 better communicated with with the
NOTE Confidence: 0.905444114

00:10:14.305 --> 00:10:16.097 many different cancer survivors,
NOTE Confidence: 0.905444114

00:10:16.100 --> 00:10:18.095 how we shared information and
NOTE Confidence: 0.905444114

00:10:18.095 --> 00:10:21.296 how we try to make the best of
NOTE Confidence: 0.905444114

00:10:21.296 --> 00:10:23.434 things during resource lean times.
NOTE Confidence: 0.905444114

00:10:23.434 --> 00:10:26.984 When we were going through this crisis so.
NOTE Confidence: 0.905444114

00:10:26.984 --> 00:10:29.228 Many of these themes you have
NOTE Confidence: 0.905444114

00:10:29.228 --> 00:10:31.209 seen because the health system
NOTE Confidence: 0.905444114

00:10:31.209 --> 00:10:33.543 here has really done a terrific
NOTE Confidence: 0.905444114

00:10:33.543 --> 00:10:36.350 job of responding to this crisis.
NOTE Confidence: 0.905444114

00:10:36.350 --> 00:10:38.118 But on top of the wave you can
NOTE Confidence: 0.905444114

00:10:38.118 --> 00:10:39.547 see the the the the box,
NOTE Confidence: 0.905444114

00:10:39.550 --> 00:10:42.550 assess and anticipate the COVID-19 burden.
NOTE Confidence: 0.905444114

00:10:42.550 --> 00:10:44.909 And this is exactly what was done.

NOTE Confidence: 0.905444114

00:10:44.910 --> 00:10:45.810 What is being done?

NOTE Confidence: 0.905444114

00:10:45.810 --> 00:10:46.710 What will be done?

NOTE Confidence: 0.905444114

00:10:46.710 --> 00:10:49.580 Which is we are constantly looking at

NOTE Confidence: 0.905444114

00:10:49.580 --> 00:10:52.849 what our case numbers are doing and

NOTE Confidence: 0.905444114

00:10:52.849 --> 00:10:55.278 really making decisions in terms of.

NOTE Confidence: 0.905444114

00:10:55.280 --> 00:10:56.792 You know what?

NOTE Confidence: 0.905444114

00:10:56.792 --> 00:10:59.312 Whether we need to scale

NOTE Confidence: 0.905444114

00:10:59.312 --> 00:11:01.573 back from certain events,

NOTE Confidence: 0.905444114

00:11:01.573 --> 00:11:03.688 whether to keep things fresh.

NOTE Confidence: 0.905444114

00:11:03.690 --> 00:11:05.870 Also can constantly being in

NOTE Confidence: 0.905444114

00:11:05.870 --> 00:11:09.595 touch with you in terms of how how

NOTE Confidence: 0.905444114

00:11:09.595 --> 00:11:12.770 the COVID-19 burden is is doing.

NOTE Confidence: 0.905444114

00:11:12.770 --> 00:11:14.845 Another theme that emerged for

NOTE Confidence: 0.905444114

00:11:14.845 --> 00:11:16.920 cancer survivorship and other other

NOTE Confidence: 0.981682041666667

00:11:16.986 --> 00:11:18.936 types of cancer care delivery

NOTE Confidence: 0.981682041666667

00:11:18.936 --> 00:11:20.886 was other emergence of increased
NOTE Confidence: 0.981682041666667

00:11:20.950 --> 00:11:22.458 reliance on Tele health,
NOTE Confidence: 0.981682041666667

00:11:22.460 --> 00:11:26.527 which which has been a wonderful asset.
NOTE Confidence: 0.981682041666667

00:11:26.530 --> 00:11:29.794 However, we also want to make sure that
NOTE Confidence: 0.981682041666667

00:11:29.794 --> 00:11:32.473 cancer survivors also know that it's also
NOTE Confidence: 0.981682041666667

00:11:32.473 --> 00:11:35.209 safe to enter the health care system.
NOTE Confidence: 0.981682041666667

00:11:35.210 --> 00:11:36.836 There was a lot of fear,
NOTE Confidence: 0.981682041666667

00:11:36.840 --> 00:11:39.252 specially in the early months of
NOTE Confidence: 0.981682041666667

00:11:39.252 --> 00:11:41.405 the pandemic where certain signs
NOTE Confidence: 0.981682041666667

00:11:41.405 --> 00:11:43.790 and symptoms of disease progression,
NOTE Confidence: 0.981682041666667

00:11:43.790 --> 00:11:45.955 where perhaps being being ignored
NOTE Confidence: 0.981682041666667

00:11:45.955 --> 00:11:48.120 because patients didn't feel safe
NOTE Confidence: 0.981682041666667

00:11:48.192 --> 00:11:50.067 to enter the hospital system.
NOTE Confidence: 0.981682041666667

00:11:50.070 --> 00:11:52.726 So Tele health absolutely has a place it.
NOTE Confidence: 0.981682041666667

00:11:52.730 --> 00:11:55.660 It absolutely enhances care delivery,
NOTE Confidence: 0.981682041666667

00:11:55.660 --> 00:11:56.924 but they are there.

NOTE Confidence: 0.981682041666667
00:11:56.924 --> 00:11:58.692 Also, instances where a physical
NOTE Confidence: 0.981682041666667
00:11:58.692 --> 00:12:00.144 exam is also important.
NOTE Confidence: 0.981682041666667
00:12:00.150 --> 00:12:03.036 So really educating our survivors in
NOTE Confidence: 0.981682041666667
00:12:03.036 --> 00:12:06.731 terms of signs and symptoms to look for
NOTE Confidence: 0.981682041666667
00:12:06.731 --> 00:12:10.390 and to come into the health care system.
NOTE Confidence: 0.981682041666667
00:12:10.390 --> 00:12:12.694 If they are very worried or
NOTE Confidence: 0.981682041666667
00:12:12.694 --> 00:12:14.230 have a concerning system,
NOTE Confidence: 0.981682041666667
00:12:14.230 --> 00:12:16.720 the next piece that really emerged
NOTE Confidence: 0.981682041666667
00:12:16.720 --> 00:12:19.197 during the pandemic was the importance
NOTE Confidence: 0.981682041666667
00:12:19.197 --> 00:12:21.801 of the health care team that in
NOTE Confidence: 0.981682041666667
00:12:21.801 --> 00:12:24.111 order to this is something we've
NOTE Confidence: 0.981682041666667
00:12:24.111 --> 00:12:26.440 always known but but COVID really
NOTE Confidence: 0.981682041666667
00:12:26.440 --> 00:12:28.930 brought it to to center stage,
NOTE Confidence: 0.981682041666667
00:12:28.930 --> 00:12:30.700 which is that the different
NOTE Confidence: 0.981682041666667
00:12:30.700 --> 00:12:32.470 health care providers needed to
NOTE Confidence: 0.981682041666667

00:12:32.533 --> 00:12:34.483 really work together from primary
NOTE Confidence: 0.981682041666667

00:12:34.483 --> 00:12:36.433 care specialists to to oncology
NOTE Confidence: 0.981682041666667

00:12:36.496 --> 00:12:38.050 specialist continued collaboration
NOTE Confidence: 0.981682041666667

00:12:38.050 --> 00:12:40.640 with nurses and advanced practice.
NOTE Confidence: 0.981682041666667

00:12:40.640 --> 00:12:44.454 Providers another area that impacted
NOTE Confidence: 0.981682041666667

00:12:44.454 --> 00:12:46.740 are cancer survivors with access to
NOTE Confidence: 0.981682041666667

00:12:46.803 --> 00:12:48.673 diagnostic imaging and services and
NOTE Confidence: 0.981682041666667

00:12:48.673 --> 00:12:51.252 this is something that we can reassure
NOTE Confidence: 0.981682041666667

00:12:51.252 --> 00:12:53.804 you now that that things are back open.
NOTE Confidence: 0.981682041666667

00:12:53.810 --> 00:12:57.275 We want you to come in for your screenings.
NOTE Confidence: 0.981682041666667

00:12:57.280 --> 00:13:01.907 This is a central component of cancer
NOTE Confidence: 0.981682041666667

00:13:01.907 --> 00:13:04.784 survivorship and these services are
NOTE Confidence: 0.981682041666667

00:13:04.784 --> 00:13:08.410 available now and it's really important to.
NOTE Confidence: 0.981682041666667

00:13:08.410 --> 00:13:10.634 To follow a guideline,
NOTE Confidence: 0.981682041666667

00:13:10.634 --> 00:13:14.510 concordant care and what we unfortunately
NOTE Confidence: 0.981682041666667

00:13:14.510 --> 00:13:17.398 saw during the pandemic in in some of

NOTE Confidence: 0.981682041666667

00:13:17.398 --> 00:13:19.519 the earlier waves was that there was

NOTE Confidence: 0.981682041666667

00:13:19.519 --> 00:13:21.930 a sharp drop off of cancer screenings,

NOTE Confidence: 0.981682041666667

00:13:21.930 --> 00:13:24.930 and now we're seeing that starting

NOTE Confidence: 0.981682041666667

00:13:24.930 --> 00:13:26.930 cancers are actually presenting

NOTE Confidence: 0.981682041666667

00:13:27.011 --> 00:13:29.585 at more more more advanced stages.

NOTE Confidence: 0.981682041666667

00:13:29.590 --> 00:13:32.515 You'll hear a lot more about the next box,

NOTE Confidence: 0.981682041666667

00:13:32.520 --> 00:13:36.314 which is the concept of risk stratification.

NOTE Confidence: 0.981682041666667

00:13:36.320 --> 00:13:39.834 We we we want to be really giving

NOTE Confidence: 0.981682041666667

00:13:39.834 --> 00:13:42.216 personalized care to all of you,

NOTE Confidence: 0.981682041666667

00:13:42.220 --> 00:13:44.285 which means your vaccine recommendations

NOTE Confidence: 0.981682041666667

00:13:44.285 --> 00:13:46.780 and a lot of your care.

NOTE Confidence: 0.981682041666667

00:13:46.780 --> 00:13:48.496 Recommendations and cautions are

NOTE Confidence: 0.981682041666667

00:13:48.496 --> 00:13:51.070 dictated by your level of risk,

NOTE Confidence: 0.981682041666667

00:13:51.070 --> 00:13:53.727 which is in many ways determined

NOTE Confidence: 0.981682041666667

00:13:53.727 --> 00:13:56.183 by the type of cancer you have and

NOTE Confidence: 0.981682041666667

00:13:56.183 --> 00:13:58.476 the type of cancer treatments that
NOTE Confidence: 0.981682041666667

00:13:58.476 --> 00:13:59.628 you are receiving.
NOTE Confidence: 0.981682041666667

00:13:59.630 --> 00:14:01.625 So a lot more information will come
NOTE Confidence: 0.981682041666667

00:14:01.625 --> 00:14:03.971 up in the next segment of the town
NOTE Confidence: 0.981682041666667

00:14:03.971 --> 00:14:06.540 hall and also in the panel discussion.
NOTE Confidence: 0.981682041666667

00:14:06.540 --> 00:14:07.672 And uhm.
NOTE Confidence: 0.981682041666667

00:14:07.672 --> 00:14:11.068 The next box focusing on outreach
NOTE Confidence: 0.981682041666667

00:14:11.068 --> 00:14:12.200 and education.
NOTE Confidence: 0.981682041666667

00:14:12.200 --> 00:14:14.790 This is something that we feel very
NOTE Confidence: 0.981682041666667

00:14:14.790 --> 00:14:16.498 passionately about and inspire low,
NOTE Confidence: 0.981682041666667

00:14:16.498 --> 00:14:19.339 and we this is one of the many reasons
NOTE Confidence: 0.981682041666667

00:14:19.339 --> 00:14:21.607 we're having town halls like this
NOTE Confidence: 0.981682041666667

00:14:21.607 --> 00:14:24.395 is that we're one community and we
NOTE Confidence: 0.981682041666667

00:14:24.395 --> 00:14:27.008 want to share with you information
NOTE Confidence: 0.981682041666667

00:14:27.008 --> 00:14:30.354 as it becomes available and to really
NOTE Confidence: 0.981682041666667

00:14:30.354 --> 00:14:32.902 focus on state of the art patient

NOTE Confidence: 0.981682041666667
00:14:32.902 --> 00:14:34.510 education through our websites,
NOTE Confidence: 0.981682041666667
00:14:34.510 --> 00:14:37.380 social media as well as these types
NOTE Confidence: 0.981682041666667
00:14:37.380 --> 00:14:38.610 of live events.
NOTE Confidence: 0.981682041666667
00:14:38.610 --> 00:14:41.070 And then most importantly,
NOTE Confidence: 0.981682041666667
00:14:41.070 --> 00:14:42.990 I think it's important to take a pause.
NOTE Confidence: 0.981682041666667
00:14:42.990 --> 00:14:45.986 All of us and really acknowledge what,
NOTE Confidence: 0.984746
00:14:45.990 --> 00:14:48.906 what, what, what, these past year,
NOTE Confidence: 0.984746
00:14:48.910 --> 00:14:51.054 year and a half has done to us
NOTE Confidence: 0.984746
00:14:51.054 --> 00:14:53.559 and in our workforce and our
NOTE Confidence: 0.984746
00:14:53.559 --> 00:14:55.447 families in our relationships.
NOTE Confidence: 0.984746
00:14:55.450 --> 00:14:58.170 I think it's up there.
NOTE Confidence: 0.984746
00:14:58.170 --> 00:15:01.838 There has been a significant like the
NOTE Confidence: 0.984746
00:15:01.838 --> 00:15:04.978 social impact of COVID-19 It's important
NOTE Confidence: 0.984746
00:15:04.978 --> 00:15:07.730 to to take a moment and realize that,
NOTE Confidence: 0.984746
00:15:07.730 --> 00:15:11.012 and also know that there are
NOTE Confidence: 0.984746

00:15:11.012 --> 00:15:13.200 many resources available to.

NOTE Confidence: 0.984746

00:15:13.200 --> 00:15:16.238 To address these psychosocial needs and to

NOTE Confidence: 0.984746

00:15:16.238 --> 00:15:20.004 be able to ask for help to to know that.

NOTE Confidence: 0.984746

00:15:20.010 --> 00:15:21.835 Social distancing does not necessarily

NOTE Confidence: 0.984746

00:15:21.835 --> 00:15:23.983 have to mean social isolation and

NOTE Confidence: 0.984746

00:15:23.983 --> 00:15:25.298 that there are different ways

NOTE Confidence: 0.984746

00:15:25.298 --> 00:15:27.553 that we can all reach out to each

NOTE Confidence: 0.984746

00:15:27.553 --> 00:15:28.983 other and support one another.

NOTE Confidence: 0.984746

00:15:28.990 --> 00:15:31.648 And you're part of our community,

NOTE Confidence: 0.984746

00:15:31.650 --> 00:15:34.240 and so I just want to encourage

NOTE Confidence: 0.984746

00:15:34.240 --> 00:15:36.698 you to continue to to reach out.

NOTE Confidence: 0.984746

00:15:36.700 --> 00:15:40.311 So this was the schema was initially created

NOTE Confidence: 0.984746

00:15:40.311 --> 00:15:43.039 by my colleagues early on in the pandemic,

NOTE Confidence: 0.984746

00:15:43.040 --> 00:15:47.246 and the next figure reiterates the similar

NOTE Confidence: 0.984746

00:15:47.246 --> 00:15:49.870 themes that I'm not going to go over,

NOTE Confidence: 0.984746

00:15:49.870 --> 00:15:51.700 but it highlights how we

NOTE Confidence: 0.984746

00:15:51.700 --> 00:15:53.164 thought that the pandemic.

NOTE Confidence: 0.984746

00:15:53.170 --> 00:15:56.450 Was over and then into 2021 we realized.

NOTE Confidence: 0.984746

00:15:56.450 --> 00:15:58.450 Gosh we needed to reassess.

NOTE Confidence: 0.984746

00:15:58.450 --> 00:16:00.082 What are survivor needs were and

NOTE Confidence: 0.984746

00:16:00.082 --> 00:16:02.438 you can see a lot of the same

NOTE Confidence: 0.984746

00:16:02.438 --> 00:16:03.948 themes that I already covered,

NOTE Confidence: 0.984746

00:16:03.950 --> 00:16:06.794 including you know do not delay

NOTE Confidence: 0.984746

00:16:06.794 --> 00:16:09.420 needed and in person visits.

NOTE Confidence: 0.984746

00:16:09.420 --> 00:16:09.928 Uhm,

NOTE Confidence: 0.984746

00:16:09.928 --> 00:16:13.484 really it would continue to focus on

NOTE Confidence: 0.984746

00:16:13.484 --> 00:16:16.588 healthy habits and healthy behaviors.

NOTE Confidence: 0.984746

00:16:16.590 --> 00:16:18.982 And additional themes emerged,

NOTE Confidence: 0.984746

00:16:18.982 --> 00:16:21.972 including the financial impact of

NOTE Confidence: 0.984746

00:16:21.972 --> 00:16:24.581 COVID-19 because it was impacting

NOTE Confidence: 0.984746

00:16:24.581 --> 00:16:26.505 survivors in terms of.

NOTE Confidence: 0.984746

00:16:26.510 --> 00:16:28.735 Many different issues in terms
NOTE Confidence: 0.984746

00:16:28.735 --> 00:16:30.960 of changes and work patterns,
NOTE Confidence: 0.984746

00:16:30.960 --> 00:16:34.656 and this may have impacted their ability,
NOTE Confidence: 0.984746

00:16:34.660 --> 00:16:38.000 ability to access health insurance,
NOTE Confidence: 0.984746

00:16:38.000 --> 00:16:42.780 or be able to pay for certain services so.
NOTE Confidence: 0.984746

00:16:42.780 --> 00:16:45.867 Or I think it just highlighted that
NOTE Confidence: 0.984746

00:16:45.870 --> 00:16:49.070 these needs continued even into
NOTE Confidence: 0.984746

00:16:49.070 --> 00:16:53.459 the into the third and 4th wave.
NOTE Confidence: 0.984746

00:16:53.460 --> 00:16:57.965 And that the main upshot was to really
NOTE Confidence: 0.984746

00:16:57.965 --> 00:17:00.885 be open to using the health care facilities,
NOTE Confidence: 0.984746

00:17:00.890 --> 00:17:02.760 acknowledge the impact of COVID,
NOTE Confidence: 0.984746

00:17:02.760 --> 00:17:05.352 and know that you know many
NOTE Confidence: 0.984746

00:17:05.352 --> 00:17:07.590 cancer services cannot wait that
NOTE Confidence: 0.984746

00:17:07.590 --> 00:17:10.039 that that that cancer itself is.
NOTE Confidence: 0.984746

00:17:10.039 --> 00:17:11.773 Is not an elective procedure that
NOTE Confidence: 0.984746

00:17:11.773 --> 00:17:14.419 was one of the other myths that that

NOTE Confidence: 0.984746
00:17:14.419 --> 00:17:16.134 sometimes emerges like Oh well,
NOTE Confidence: 0.984746
00:17:16.140 --> 00:17:18.072 cancer surgery can be can be postponed
NOTE Confidence: 0.984746
00:17:18.072 --> 00:17:21.400 or a bit, but we we we really,
NOTE Confidence: 0.984746
00:17:21.400 --> 00:17:22.274 I think,
NOTE Confidence: 0.984746
00:17:22.274 --> 00:17:24.932 have a better understanding that all
NOTE Confidence: 0.984746
00:17:24.932 --> 00:17:27.292 our patients and cancer survivors
NOTE Confidence: 0.984746
00:17:27.292 --> 00:17:30.018 need ongoing care and we are.
NOTE Confidence: 0.984746
00:17:30.018 --> 00:17:32.634 We are committed to providing that
NOTE Confidence: 0.984746
00:17:32.634 --> 00:17:35.270 with you and in the subsequent segments
NOTE Confidence: 0.984746
00:17:35.270 --> 00:17:37.910 of this town hall you'll hear more
NOTE Confidence: 0.984746
00:17:37.910 --> 00:17:40.766 about how we can help optimize your health.
NOTE Confidence: 0.984746
00:17:40.770 --> 00:17:43.542 As we continue to go through this 4th wave,
NOTE Confidence: 0.984746
00:17:43.550 --> 00:17:46.052 so I'll stop there to make sure we have
NOTE Confidence: 0.984746
00:17:46.052 --> 00:17:48.738 time for other segments and for questions.
NOTE Confidence: 0.984746
00:17:48.740 --> 00:17:49.040 Thank
NOTE Confidence: 0.976233015555555

00:17:49.050 --> 00:17:50.355 you doctor. Lustberg I think
NOTE Confidence: 0.9762330155555555

00:17:50.355 --> 00:17:51.399 will save the questions.
NOTE Confidence: 0.9762330155555555

00:17:51.400 --> 00:17:52.788 There are some questions
NOTE Confidence: 0.9762330155555555

00:17:52.788 --> 00:17:53.829 around protecting survivors.
NOTE Confidence: 0.9762330155555555

00:17:53.830 --> 00:17:55.294 I'm going to leave it at the end
NOTE Confidence: 0.9762330155555555

00:17:55.294 --> 00:17:57.059 because I think a lot of the next
NOTE Confidence: 0.9762330155555555

00:17:57.059 --> 00:17:58.230 discussion will also address this.
NOTE Confidence: 0.9762330155555555

00:17:58.230 --> 00:18:00.218 I think the points that I heard
NOTE Confidence: 0.9762330155555555

00:18:00.218 --> 00:18:01.950 which I loved, social distancing,
NOTE Confidence: 0.9762330155555555

00:18:01.950 --> 00:18:03.710 doesn't mean social isolation.
NOTE Confidence: 0.9762330155555555

00:18:03.710 --> 00:18:06.054 We need to remember this part of her
NOTE Confidence: 0.9762330155555555

00:18:06.054 --> 00:18:08.079 can taking care of our community,
NOTE Confidence: 0.9762330155555555

00:18:08.080 --> 00:18:09.682 and I think if everyone didn't
NOTE Confidence: 0.9762330155555555

00:18:09.682 --> 00:18:11.518 get this then make sure you get.
NOTE Confidence: 0.9762330155555555

00:18:11.520 --> 00:18:13.170 While you're screening done because
NOTE Confidence: 0.9762330155555555

00:18:13.170 --> 00:18:15.623 I think last year we did see a

NOTE Confidence: 0.976233015555555

00:18:15.623 --> 00:18:17.352 lot of gaps as things shut down,

NOTE Confidence: 0.976233015555555

00:18:17.360 --> 00:18:19.520 so thank you so much I I suspect there

NOTE Confidence: 0.976233015555555

00:18:19.520 --> 00:18:21.330 will be more and more questions,

NOTE Confidence: 0.976233015555555

00:18:21.330 --> 00:18:23.860 but I want to sort of come I

NOTE Confidence: 0.976233015555555

00:18:23.860 --> 00:18:26.530 someone saying they cannot hear me.

NOTE Confidence: 0.976233015555555

00:18:26.530 --> 00:18:28.842 Uhm? Or others hearing me,

NOTE Confidence: 0.976233015555555

00:18:28.842 --> 00:18:30.788 just give me a thumbs up if you can hear me.

NOTE Confidence: 0.976233015555555

00:18:30.790 --> 00:18:32.254 OK doctor Deshpande.

NOTE Confidence: 0.976233015555555

00:18:32.254 --> 00:18:34.720 Others OK miss our fee I'm hoping

NOTE Confidence: 0.976233015555555

00:18:34.720 --> 00:18:37.026 that we can get you connected or

NOTE Confidence: 0.976233015555555

00:18:37.026 --> 00:18:39.246 enable reach out to you offline

NOTE Confidence: 0.976233015555555

00:18:39.246 --> 00:18:41.370 but I'm going to move on to the

NOTE Confidence: 0.976233015555555

00:18:41.370 --> 00:18:42.644 next segment because I suspect

NOTE Confidence: 0.976233015555555

00:18:42.644 --> 00:18:44.516 there are lots and lots and lots of

NOTE Confidence: 0.976233015555555

00:18:44.575 --> 00:18:46.400 questions around the booster shots.

NOTE Confidence: 0.976233015555555

00:18:46.400 --> 00:18:48.230 So with that Doctor Deshpande,
NOTE Confidence: 0.9762330155555555

00:18:48.230 --> 00:18:50.750 I think you're starting this segment.
NOTE Confidence: 0.9762330155555555

00:18:50.750 --> 00:18:52.320 Or Doctor Billingslea or Miss
NOTE Confidence: 0.9762330155555555

00:18:52.320 --> 00:18:54.403 Barbarito I I am actually I'm going
NOTE Confidence: 0.9762330155555555

00:18:54.403 --> 00:18:56.227 to pass it on to the panel so.
NOTE Confidence: 0.9873144111111111

00:18:57.240 --> 00:18:59.499 OK, I think we could probably tag team and,
NOTE Confidence: 0.9873144111111111

00:18:59.500 --> 00:19:02.307 uh, but uh, thank you Doctor Who
NOTE Confidence: 0.9873144111111111

00:19:02.307 --> 00:19:05.247 and thank you for having me so.
NOTE Confidence: 0.9873144111111111

00:19:05.247 --> 00:19:08.349 You know, as was mentioned earlier,
NOTE Confidence: 0.9873144111111111

00:19:08.350 --> 00:19:10.420 the health system has actually
NOTE Confidence: 0.9873144111111111

00:19:10.420 --> 00:19:13.020 done over 450,000 vaccinations and
NOTE Confidence: 0.9873144111111111

00:19:13.020 --> 00:19:15.380 has vaccinated approximately 200
NOTE Confidence: 0.9873144111111111

00:19:15.380 --> 00:19:17.200 and 15,000 people individually.
NOTE Confidence: 0.9873144111111111

00:19:17.200 --> 00:19:20.070 You know on the point that Doctor
NOTE Confidence: 0.9873144111111111

00:19:20.142 --> 00:19:22.046 Who brought up that are about
NOTE Confidence: 0.9873144111111111

00:19:22.046 --> 00:19:23.470 our health care workers.

NOTE Confidence: 0.9873144111111111
00:19:23.470 --> 00:19:26.380 We jointly with our other
NOTE Confidence: 0.9873144111111111
00:19:26.380 --> 00:19:29.290 hospitals in in the state,
NOTE Confidence: 0.9873144111111111
00:19:29.290 --> 00:19:31.786 had really committed to a vaccine
NOTE Confidence: 0.9873144111111111
00:19:31.786 --> 00:19:34.500 mandate and we were at 81% of
NOTE Confidence: 0.9873144111111111
00:19:34.500 --> 00:19:36.525 our of our full workforce.
NOTE Confidence: 0.9873144111111111
00:19:36.530 --> 00:19:38.860 Which includes our medical staff
NOTE Confidence: 0.9873144111111111
00:19:38.860 --> 00:19:41.471 prior to the mandate and we are
NOTE Confidence: 0.9873144111111111
00:19:41.471 --> 00:19:42.590 making significant progress.
NOTE Confidence: 0.9873144111111111
00:19:42.590 --> 00:19:44.108 Our deadline for the first dose
NOTE Confidence: 0.9873144111111111
00:19:44.108 --> 00:19:45.406 was actually yesterday and we're
NOTE Confidence: 0.9873144111111111
00:19:45.406 --> 00:19:46.828 still waiting on the final data,
NOTE Confidence: 0.9873144111111111
00:19:46.830 --> 00:19:48.950 but we're we are making a lot of
NOTE Confidence: 0.9873144111111111
00:19:48.950 --> 00:19:50.648 progress and we anticipate that we
NOTE Confidence: 0.9873144111111111
00:19:50.648 --> 00:19:53.650 will get to our goal by the end of September,
NOTE Confidence: 0.9873144111111111
00:19:53.650 --> 00:19:54.630 which is, you know,
NOTE Confidence: 0.9873144111111111

00:19:54.630 --> 00:19:56.610 part of our ongoing commitment to providing,

NOTE Confidence: 0.9873144111111111

00:19:56.610 --> 00:19:58.476 you know, the really safest care

NOTE Confidence: 0.9873144111111111

00:19:58.476 --> 00:20:00.400 to all of our patients.

NOTE Confidence: 0.9873144111111111

00:20:00.400 --> 00:20:01.675 And of course,

NOTE Confidence: 0.9873144111111111

00:20:01.675 --> 00:20:03.800 most importantly are those who

NOTE Confidence: 0.9873144111111111

00:20:03.800 --> 00:20:06.174 are had increased vulnerability.

NOTE Confidence: 0.9873144111111111

00:20:06.174 --> 00:20:09.414 With regards to the immunocompromised

NOTE Confidence: 0.9873144111111111

00:20:09.420 --> 00:20:10.316 population there,

NOTE Confidence: 0.9873144111111111

00:20:10.316 --> 00:20:13.452 I'm sure most of you are aware

NOTE Confidence: 0.9873144111111111

00:20:13.452 --> 00:20:17.194 of the fact that a third dose was

NOTE Confidence: 0.9873144111111111

00:20:17.194 --> 00:20:19.002 approved sometime ago and thus

NOTE Confidence: 0.9873144111111111

00:20:19.002 --> 00:20:20.298 far in the state of Connecticut,

NOTE Confidence: 0.9873144111111111

00:20:20.300 --> 00:20:22.310 about 10,000 of these doses have

NOTE Confidence: 0.9873144111111111

00:20:22.310 --> 00:20:23.650 been administered and around

NOTE Confidence: 0.9873144111111111

00:20:23.710 --> 00:20:25.712 8:00 or 900 of these doses have

NOTE Confidence: 0.9873144111111111

00:20:25.712 --> 00:20:26.900 been administered at Yale,

NOTE Confidence: 0.9873144111111111
00:20:26.900 --> 00:20:28.037 New Haven Health,
NOTE Confidence: 0.9873144111111111
00:20:28.037 --> 00:20:30.690 so the process really has not changed
NOTE Confidence: 0.9873144111111111
00:20:30.764 --> 00:20:33.662 from our first from our first wave,
NOTE Confidence: 0.9873144111111111
00:20:33.662 --> 00:20:37.440 the first two doses it's very easy to.
NOTE Confidence: 0.9873144111111111
00:20:37.440 --> 00:20:39.800 To go through the process and get scheduled,
NOTE Confidence: 0.9873144111111111
00:20:39.800 --> 00:20:40.068 uh,
NOTE Confidence: 0.9873144111111111
00:20:40.068 --> 00:20:41.944 the the website is is on the
NOTE Confidence: 0.9873144111111111
00:20:41.944 --> 00:20:43.249 bottom of this slide.
NOTE Confidence: 0.9873144111111111
00:20:43.250 --> 00:20:45.995 You can also call our call center at 833.
NOTE Confidence: 0.9873144111111111
00:20:45.995 --> 00:20:49.460 Ask why NHH and they can also
NOTE Confidence: 0.9873144111111111
00:20:49.460 --> 00:20:50.880 telephonically schedule you.
NOTE Confidence: 0.9873144111111111
00:20:50.880 --> 00:20:53.600 The process is fairly seamless
NOTE Confidence: 0.9873144111111111
00:20:53.600 --> 00:20:54.688 and straightforward.
NOTE Confidence: 0.9873144111111111
00:20:54.690 --> 00:20:57.626 You really have to attest to the fact
NOTE Confidence: 0.9873144111111111
00:20:57.626 --> 00:21:00.095 that you you meet the definition of
NOTE Confidence: 0.9873144111111111

00:21:00.095 --> 00:21:03.242 them in a compromise and as a part of
NOTE Confidence: 0.9873144111111111

00:21:03.242 --> 00:21:05.246 that workflow we really do highlight
NOTE Confidence: 0.9873144111111111

00:21:05.316 --> 00:21:07.426 the different things that that.
NOTE Confidence: 0.9873144111111111

00:21:07.430 --> 00:21:09.285 Are there constituting any compromise
NOTE Confidence: 0.9873144111111111

00:21:09.285 --> 00:21:10.660 per the CDC's recommendation,
NOTE Confidence: 0.9873144111111111

00:21:10.660 --> 00:21:12.865 and the language has changed a fair
NOTE Confidence: 0.9873144111111111

00:21:12.865 --> 00:21:14.850 amount over the last few weeks of thing
NOTE Confidence: 0.9873144111111111

00:21:14.850 --> 00:21:16.830 as things have gotten better and better,
NOTE Confidence: 0.9873144111111111

00:21:16.830 --> 00:21:19.926 so I think that our language as you
NOTE Confidence: 0.9873144111111111

00:21:19.926 --> 00:21:22.239 actually schedule through the website,
NOTE Confidence: 0.9873144111111111

00:21:22.240 --> 00:21:23.272 it has been updated.
NOTE Confidence: 0.9873144111111111

00:21:23.272 --> 00:21:24.046 I don't know.
NOTE Confidence: 0.9873144111111111

00:21:24.050 --> 00:21:26.666 There are website where it talks about LVK
NOTE Confidence: 0.9873144111111111

00:21:26.666 --> 00:21:28.647 seen eligibility has been fully updated,
NOTE Confidence: 0.9873144111111111

00:21:28.650 --> 00:21:29.982 so just stay tuned.
NOTE Confidence: 0.9873144111111111

00:21:29.982 --> 00:21:31.647 That will also be updated

NOTE Confidence: 0.9873144111111111
00:21:31.647 --> 00:21:33.240 by tomorrow morning.
NOTE Confidence: 0.9873144111111111
00:21:33.240 --> 00:21:34.680 Kevin Lisa, if you do,
NOTE Confidence: 0.9873144111111111
00:21:34.680 --> 00:21:37.038 do you want us to go through the specific?
NOTE Confidence: 0.9873144111111111
00:21:37.040 --> 00:21:37.576 I can't.
NOTE Confidence: 0.9873144111111111
00:21:37.576 --> 00:21:38.648 OK there we go.
NOTE Confidence: 0.967269934
00:21:39.220 --> 00:21:41.420 Thank you doctor. Just pandi.
NOTE Confidence: 0.967269934
00:21:41.420 --> 00:21:43.345 You know, I I'd like to just
NOTE Confidence: 0.967269934
00:21:43.345 --> 00:21:45.836 build on a couple of the comments
NOTE Confidence: 0.967269934
00:21:45.836 --> 00:21:48.744 made by my colleagues. First off,
NOTE Confidence: 0.967269934
00:21:48.744 --> 00:21:53.343 to echo Dr Lustberg we fully understand.
NOTE Confidence: 0.967269934
00:21:53.350 --> 00:21:56.682 On behalf of our patients and their
NOTE Confidence: 0.967269934
00:21:56.682 --> 00:21:59.110 families that navigating a cancer
NOTE Confidence: 0.967269934
00:21:59.110 --> 00:22:01.410 diagnosis and cancer care and
NOTE Confidence: 0.967269934
00:22:01.410 --> 00:22:03.803 getting through the cancer journey
NOTE Confidence: 0.967269934
00:22:03.803 --> 00:22:06.599 is difficult and trying at best.
NOTE Confidence: 0.967269934

00:22:06.600 --> 00:22:09.360 But when our patients and families
NOTE Confidence: 0.967269934

00:22:09.360 --> 00:22:12.147 confront the challenges of a global
NOTE Confidence: 0.967269934

00:22:12.147 --> 00:22:15.192 pandemic layered on top of their diagnosis,
NOTE Confidence: 0.967269934

00:22:15.200 --> 00:22:19.346 it truly creates a difficult mix.
NOTE Confidence: 0.967269934

00:22:19.350 --> 00:22:23.440 Our goal is your cancer care team is to make.
NOTE Confidence: 0.967269934

00:22:23.440 --> 00:22:26.332 Navigating that difficult mix as easy
NOTE Confidence: 0.967269934

00:22:26.332 --> 00:22:29.818 as possible and as safe as possible.
NOTE Confidence: 0.967269934

00:22:29.820 --> 00:22:34.170 And as Doctor Deshpande indicated.
NOTE Confidence: 0.967269934

00:22:34.170 --> 00:22:35.868 Part of that is that we,
NOTE Confidence: 0.967269934

00:22:35.870 --> 00:22:37.606 as health care providers,
NOTE Confidence: 0.967269934

00:22:37.606 --> 00:22:39.564 are committed to getting vaccinated
NOTE Confidence: 0.967269934

00:22:39.564 --> 00:22:41.850 ourselves so that when you come
NOTE Confidence: 0.967269934

00:22:41.914 --> 00:22:43.789 into our facilities or offices,
NOTE Confidence: 0.967269934

00:22:43.790 --> 00:22:45.198 you know you're safe.
NOTE Confidence: 0.967269934

00:22:45.198 --> 00:22:47.743 Our health care system has been in
NOTE Confidence: 0.967269934

00:22:47.743 --> 00:22:50.298 the lead in the state of Connecticut

NOTE Confidence: 0.967269934

00:22:50.298 --> 00:22:52.498 and vaccinating people over 250.

NOTE Confidence: 0.967269934

00:22:52.498 --> 00:22:55.170 Fifteen thousand people vaccinated,

NOTE Confidence: 0.967269934

00:22:55.170 --> 00:22:57.110 and we're still rolling.

NOTE Confidence: 0.967269934

00:22:57.110 --> 00:22:59.535 Now with this third dose.

NOTE Confidence: 0.967269934

00:22:59.540 --> 00:23:01.838 And the question is, you know,

NOTE Confidence: 0.967269934

00:23:01.840 --> 00:23:03.412 as Doctor Despond indicated,

NOTE Confidence: 0.967269934

00:23:03.412 --> 00:23:06.710 this has been a moving target and we

NOTE Confidence: 0.967269934

00:23:06.710 --> 00:23:08.885 have just updated our recommendations.

NOTE Confidence: 0.967269934

00:23:08.890 --> 00:23:11.510 The original description was for

NOTE Confidence: 0.967269934

00:23:11.510 --> 00:23:14.130 immuno compromised patients to be

NOTE Confidence: 0.967269934

00:23:14.213 --> 00:23:17.261 immediately eligible for a third dose

NOTE Confidence: 0.967269934

00:23:17.261 --> 00:23:19.783 vaccination to boost their immunity

NOTE Confidence: 0.967269934

00:23:19.783 --> 00:23:22.618 and the truth is that the vast

NOTE Confidence: 0.967269934

00:23:22.618 --> 00:23:25.842 majority of our patients are actually

NOTE Confidence: 0.967269934

00:23:25.842 --> 00:23:28.254 within this eligibility criteria.

NOTE Confidence: 0.967269934

00:23:28.260 --> 00:23:30.236 So just to go through this in a
NOTE Confidence: 0.967269934

00:23:30.236 --> 00:23:32.320 little bit more detail and you can
NOTE Confidence: 0.967269934

00:23:32.320 --> 00:23:34.352 certainly read along with me if you
NOTE Confidence: 0.967269934

00:23:34.352 --> 00:23:36.873 are this is and this is part of our
NOTE Confidence: 0.967269934

00:23:36.873 --> 00:23:39.078 attestation language on our website.
NOTE Confidence: 0.967269934

00:23:39.080 --> 00:23:41.075 If you are an individual who has
NOTE Confidence: 0.967269934

00:23:41.075 --> 00:23:42.964 a diagnosis of cancer and you've
NOTE Confidence: 0.967269934

00:23:42.964 --> 00:23:45.218 met at least one of these criteria,
NOTE Confidence: 0.967269934

00:23:45.220 --> 00:23:47.758 you are eligible for an immediate
NOTE Confidence: 0.967269934

00:23:47.758 --> 00:23:49.886 vaccination either within our system
NOTE Confidence: 0.967269934

00:23:49.886 --> 00:23:52.100 or within one of the commercial
NOTE Confidence: 0.967269934

00:23:52.100 --> 00:23:53.680 sites around the state.
NOTE Confidence: 0.967269934

00:23:53.680 --> 00:23:55.555 Meaning that you have received
NOTE Confidence: 0.967269934

00:23:55.555 --> 00:23:56.680 some cancer therapy,
NOTE Confidence: 0.967269934

00:23:56.680 --> 00:23:58.456 including really the entire
NOTE Confidence: 0.967269934

00:23:58.456 --> 00:24:00.676 spectrum of treatment for cancer.

NOTE Confidence: 0.967269934

00:24:00.680 --> 00:24:03.758 For a solid tumor within one year of your

NOTE Confidence: 0.967269934

00:24:03.758 --> 00:24:05.795 initial COVID-19 vaccination series.

NOTE Confidence: 0.967269934

00:24:05.795 --> 00:24:08.858 Or you or someone who may not

NOTE Confidence: 0.967269934

00:24:08.860 --> 00:24:10.476 have started your treatment,

NOTE Confidence: 0.967269934

00:24:10.476 --> 00:24:12.496 but you've been diagnosed with

NOTE Confidence: 0.967269934

00:24:12.496 --> 00:24:14.557 cancer or recurrent cancer and you

NOTE Confidence: 0.967269934

00:24:14.557 --> 00:24:17.012 have a treatment plan in place that

NOTE Confidence: 0.967269934

00:24:17.012 --> 00:24:19.400 will be moving forward that will

NOTE Confidence: 0.967269934

00:24:19.400 --> 00:24:20.705 include chemotherapy, immunotherapy,

NOTE Confidence: 0.967269934

00:24:20.705 --> 00:24:21.715 radiation therapy.

NOTE Confidence: 0.967269934

00:24:21.715 --> 00:24:25.690 And we are even including surgery in that.

NOTE Confidence: 0.967269934

00:24:25.690 --> 00:24:27.328 Or you were one of these?

NOTE Confidence: 0.967269934

00:24:27.330 --> 00:24:30.096 One of our patients who were

NOTE Confidence: 0.967269934

00:24:30.100 --> 00:24:32.635 facing a hematologic disease or

NOTE Confidence: 0.967269934

00:24:32.635 --> 00:24:34.156 blood cancer diagnosis.

NOTE Confidence: 0.967269934

00:24:34.160 --> 00:24:35.438 For example, leukemia,
NOTE Confidence: 0.967269934

00:24:35.438 --> 00:24:37.586 lymphoma, myeloma, or Milo,
NOTE Confidence: 0.967269934

00:24:37.586 --> 00:24:38.882 dysplastic syndrome,
NOTE Confidence: 0.967269934

00:24:38.882 --> 00:24:41.474 or other chronic myeloproliferative
NOTE Confidence: 0.967269934

00:24:41.474 --> 00:24:42.122 conditions.
NOTE Confidence: 0.967269934

00:24:42.130 --> 00:24:46.060 You are also eligible and that
NOTE Confidence: 0.967269934

00:24:46.060 --> 00:24:49.640 eligibility is broadly spanning in time.
NOTE Confidence: 0.967269934

00:24:49.640 --> 00:24:52.090 Or you were a patient who's received
NOTE Confidence: 0.967269934

00:24:52.090 --> 00:24:54.785 a stem cell transplant or car T
NOTE Confidence: 0.967269934

00:24:54.785 --> 00:24:57.143 therapy at virtually any time here
NOTE Confidence: 0.967269934

00:24:57.223 --> 00:24:59.408 at the Smilow cancer hospital.
NOTE Confidence: 0.967269934

00:24:59.410 --> 00:25:00.029 So.
NOTE Confidence: 0.967269934

00:25:00.029 --> 00:25:03.124 We're really creating a broad
NOTE Confidence: 0.967269934

00:25:03.124 --> 00:25:05.600 eligibility structure for patients
NOTE Confidence: 0.967269934

00:25:05.694 --> 00:25:08.469 to derive the additional protective
NOTE Confidence: 0.967269934

00:25:08.469 --> 00:25:12.070 effect of that third dose vaccine,

NOTE Confidence: 0.967269934

00:25:12.070 --> 00:25:16.180 and we are in alliance in alignment

NOTE Confidence: 0.967269934

00:25:16.180 --> 00:25:19.460 with our peer institutions through the

NOTE Confidence: 0.967269934

00:25:19.460 --> 00:25:21.660 National Comprehensive Cancer Network,

NOTE Confidence: 0.988167081428571

00:25:21.660 --> 00:25:25.510 as well as the updated CDC guidelines.

NOTE Confidence: 0.988230185

00:25:27.650 --> 00:25:28.450 Next slide.

NOTE Confidence: 0.984598265555556

00:25:33.350 --> 00:25:35.474 That actually may be the end

NOTE Confidence: 0.984598265555556

00:25:35.474 --> 00:25:38.110 of our slides. Renee, UM.

NOTE Confidence: 0.9889709

00:25:40.190 --> 00:25:41.640 Yeah, I think we want to

NOTE Confidence: 0.9889709

00:25:41.640 --> 00:25:42.600 leave time for questions.

NOTE Confidence: 0.979833608

00:25:42.600 --> 00:25:43.056 Doctor Billingslea,

NOTE Confidence: 0.979833608

00:25:43.056 --> 00:25:44.880 so I think there's a lot of questions.

NOTE Confidence: 0.979833608

00:25:44.880 --> 00:25:47.414 The first one is from Miss Monaghan.

NOTE Confidence: 0.979833608

00:25:47.420 --> 00:25:49.180 Asking for advice for caregivers,

NOTE Confidence: 0.979833608

00:25:49.180 --> 00:25:51.905 spouses, Visa V protecting cancer

NOTE Confidence: 0.979833608

00:25:51.905 --> 00:25:54.748 survivors from COVID would be appreciated.

NOTE Confidence: 0.986946510833333

00:25:58.030 --> 00:26:01.103 And I also want to make sure
NOTE Confidence: 0.986946510833333

00:26:01.103 --> 00:26:03.860 that we introduce our panelists.
NOTE Confidence: 0.986946510833333

00:26:03.860 --> 00:26:08.095 Uh, I see my colleague Doctor Huntington
NOTE Confidence: 0.986946510833333

00:26:08.100 --> 00:26:09.995 who's also available to answer
NOTE Confidence: 0.986946510833333

00:26:09.995 --> 00:26:12.320 questions in the heme malignancy space.
NOTE Confidence: 0.986946510833333

00:26:12.320 --> 00:26:14.378 Uhm, we introduce these folks earlier,
NOTE Confidence: 0.986946510833333

00:26:14.380 --> 00:26:15.988 but Kim Slusser at least brought
NOTE Confidence: 0.986946510833333

00:26:15.988 --> 00:26:18.199 us so all can help with answering
NOTE Confidence: 0.986946510833333

00:26:18.199 --> 00:26:19.810 the answering our question.
NOTE Confidence: 0.98593263875

00:26:20.220 --> 00:26:21.988 Would you like to take that one for
NOTE Confidence: 0.96990256

00:26:22.210 --> 00:26:23.180 sure? I know it's a.
NOTE Confidence: 0.96990256

00:26:23.180 --> 00:26:26.330 It's a great question on highlighting.
NOTE Confidence: 0.96990256

00:26:26.330 --> 00:26:29.025 The importance of caregivers. First of all,
NOTE Confidence: 0.96990256

00:26:29.030 --> 00:26:31.830 thank you for all that you do come.
NOTE Confidence: 0.96990256

00:26:31.830 --> 00:26:35.490 It's a way we are only the thing stages are
NOTE Confidence: 0.96990256

00:26:35.583 --> 00:26:38.873 truly recognizing what impact caregivers

NOTE Confidence: 0.96990256

00:26:38.873 --> 00:26:42.542 actually have during the cancer continuum.

NOTE Confidence: 0.96990256

00:26:42.542 --> 00:26:46.070 But to specifically answer your question,

NOTE Confidence: 0.96990256

00:26:46.070 --> 00:26:49.190 the the biggest thing you can do is to be

NOTE Confidence: 0.96990256

00:26:49.190 --> 00:26:52.430 normally vaccinated for standard of care

NOTE Confidence: 0.96990256

00:26:52.430 --> 00:26:56.418 as well as continuing to practice masking.

NOTE Confidence: 0.96990256

00:26:56.420 --> 00:26:58.744 In high risk situations,

NOTE Confidence: 0.96990256

00:26:58.744 --> 00:27:02.160 good hygiene, and if there are any,

NOTE Confidence: 0.96990256

00:27:02.160 --> 00:27:03.952 any symptoms that that,

NOTE Confidence: 0.96990256

00:27:03.952 --> 00:27:06.360 that that that raises the question in

NOTE Confidence: 0.96990256

00:27:06.360 --> 00:27:08.440 your head is could this be covered?

NOTE Confidence: 0.96990256

00:27:08.440 --> 00:27:10.678 Could this happy Kovit getting tested?

NOTE Confidence: 0.96990256

00:27:10.680 --> 00:27:14.165 Because testing it is is available

NOTE Confidence: 0.96990256

00:27:14.165 --> 00:27:17.700 and so those are those are the

NOTE Confidence: 0.96990256

00:27:17.700 --> 00:27:20.648 precautions that you can take as

NOTE Confidence: 0.96990256

00:27:20.648 --> 00:27:23.170 caregivers to to protect higher risk

NOTE Confidence: 0.96990256

00:27:23.170 --> 00:27:25.690 individuals at this point in time.
NOTE Confidence: 0.9552657833333333

00:27:26.920 --> 00:27:29.770 Thank you, Mary. Come next question.
NOTE Confidence: 0.9552657833333333

00:27:29.770 --> 00:27:31.990 I think this may be doctor
NOTE Confidence: 0.9552657833333333

00:27:31.990 --> 00:27:33.100 Deshpande your alley.
NOTE Confidence: 0.9552657833333333

00:27:33.100 --> 00:27:35.053 Should there be a delay between the
NOTE Confidence: 0.9552657833333333

00:27:35.053 --> 00:27:37.180 flu shot and the third COVID dose?
NOTE Confidence: 0.9552657833333333

00:27:37.180 --> 00:27:39.260 If So what is the suggested time frame?
NOTE Confidence: 0.9552657833333333

00:27:39.260 --> 00:27:40.560 I know you've answered it,
NOTE Confidence: 0.9552657833333333

00:27:40.560 --> 00:27:43.360 but maybe just give some more details.
NOTE Confidence: 0.9552657833333333

00:27:43.360 --> 00:27:43.940 Thank you.
NOTE Confidence: 0.979493707142857

00:27:45.570 --> 00:27:47.534 So the Advisory Committee
NOTE Confidence: 0.979493707142857

00:27:47.534 --> 00:27:49.007 on Immunization Practices,
NOTE Confidence: 0.979493707142857

00:27:49.010 --> 00:27:51.752 which is sort of the the Group of
NOTE Confidence: 0.979493707142857

00:27:51.752 --> 00:27:53.636 expert who helps us create the
NOTE Confidence: 0.979493707142857

00:27:53.636 --> 00:27:55.408 guidelines for administration here,
NOTE Confidence: 0.979493707142857

00:27:55.410 --> 00:27:57.288 have reviewed the data across the

NOTE Confidence: 0.979493707142857
00:27:57.288 --> 00:27:59.129 board and have determined that it's.
NOTE Confidence: 0.979493707142857
00:27:59.130 --> 00:28:02.217 It seems it appears to be completely safe to
NOTE Confidence: 0.979493707142857
00:28:02.217 --> 00:28:04.318 get multiple vaccinations at the same time,
NOTE Confidence: 0.979493707142857
00:28:04.320 --> 00:28:06.336 so there's really no reason to could
NOTE Confidence: 0.979493707142857
00:28:06.336 --> 00:28:08.238 be concerned that you know either the
NOTE Confidence: 0.979493707142857
00:28:08.238 --> 00:28:10.521 flu or the code vaccine would be less
NOTE Confidence: 0.979493707142857
00:28:10.521 --> 00:28:12.850 effective by getting them at the same time.
NOTE Confidence: 0.979493707142857
00:28:12.850 --> 00:28:14.285 Again, the only thing is that you
NOTE Confidence: 0.979493707142857
00:28:14.285 --> 00:28:15.718 know if you get both of them.
NOTE Confidence: 0.979493707142857
00:28:15.720 --> 00:28:18.280 The COVID vaccine is likely to result
NOTE Confidence: 0.979493707142857
00:28:18.280 --> 00:28:20.480 in some transient side effects.
NOTE Confidence: 0.979493707142857
00:28:20.480 --> 00:28:23.459 The usual muscle aches a little bit of fever,
NOTE Confidence: 0.979493707142857
00:28:23.460 --> 00:28:25.650 headaches, things of that nature which
NOTE Confidence: 0.979493707142857
00:28:25.650 --> 00:28:28.000 all resolved within two to three days.
NOTE Confidence: 0.979493707142857
00:28:28.000 --> 00:28:31.339 So you you are going to you.
NOTE Confidence: 0.979493707142857

00:28:31.340 --> 00:28:32.756 You can easily experience those things,
NOTE Confidence: 0.979493707142857

00:28:32.760 --> 00:28:33.940 but again, those are.
NOTE Confidence: 0.979493707142857

00:28:33.940 --> 00:28:35.415 Those would be experienced regardless,
NOTE Confidence: 0.979493707142857

00:28:35.420 --> 00:28:36.410 so it is completely safe to
NOTE Confidence: 0.979493707142857

00:28:36.410 --> 00:28:37.638 get them both at the same time.
NOTE Confidence: 0.979493707142857

00:28:37.640 --> 00:28:40.268 And actually as we are planning
NOTE Confidence: 0.979493707142857

00:28:40.268 --> 00:28:42.322 forward for our health care workers,
NOTE Confidence: 0.979493707142857

00:28:42.322 --> 00:28:42.810 we are,
NOTE Confidence: 0.979493707142857

00:28:42.810 --> 00:28:44.466 we're figuring out the workflow to
NOTE Confidence: 0.979493707142857

00:28:44.466 --> 00:28:46.570 do that exactly that so it there's no
NOTE Confidence: 0.979493707142857

00:28:46.570 --> 00:28:49.400 reason to be concerned in that regard.
NOTE Confidence: 0.979493707142857

00:28:49.400 --> 00:28:49.930 OK,
NOTE Confidence: 0.98167061125

00:28:49.940 --> 00:28:50.825 thanks, start responding.
NOTE Confidence: 0.98167061125

00:28:50.825 --> 00:28:52.300 I think the next one,
NOTE Confidence: 0.98167061125

00:28:52.300 --> 00:28:54.666 which is also important and I suspect
NOTE Confidence: 0.98167061125

00:28:54.666 --> 00:28:56.928 front and center on following the

NOTE Confidence: 0.98167061125

00:28:56.928 --> 00:28:58.888 question that doctor lost forgot.

NOTE Confidence: 0.98167061125

00:28:58.890 --> 00:29:01.188 When will the caregivers of cancer

NOTE Confidence: 0.98167061125

00:29:01.188 --> 00:29:03.570 patients be eligible for the booster?

NOTE Confidence: 0.98167061125

00:29:03.570 --> 00:29:05.800 I know this is an area that's up and sort

NOTE Confidence: 0.98167061125

00:29:05.859 --> 00:29:07.929 of there's a lot of data I don't know.

NOTE Confidence: 0.98167061125

00:29:07.930 --> 00:29:08.480 Doctor Billingslea,

NOTE Confidence: 0.98167061125

00:29:08.480 --> 00:29:09.855 are you taking this one?

NOTE Confidence: 0.978755735

00:29:12.410 --> 00:29:15.236 I'd be happy to you know.

NOTE Confidence: 0.978755735

00:29:15.240 --> 00:29:18.384 What I think we all would like to

NOTE Confidence: 0.978755735

00:29:18.384 --> 00:29:22.778 share is that this is. One of these.

NOTE Confidence: 0.978755735

00:29:22.780 --> 00:29:25.864 Areas that is evolving very quickly

NOTE Confidence: 0.978755735

00:29:25.864 --> 00:29:30.062 and I think that if you follow the

NOTE Confidence: 0.978755735

00:29:30.062 --> 00:29:33.099 CDC commentary and the advice of

NOTE Confidence: 0.978755735

00:29:33.099 --> 00:29:35.614 governing bodies around the country,

NOTE Confidence: 0.978755735

00:29:35.620 --> 00:29:38.072 there is accelerating movement

NOTE Confidence: 0.978755735

00:29:38.072 --> 00:29:41.137 towards opening accessibility for the
NOTE Confidence: 0.978755735

00:29:41.137 --> 00:29:44.444 general population for a third dose of
NOTE Confidence: 0.978755735

00:29:44.444 --> 00:29:47.397 vaccination in the very near term. Now,
NOTE Confidence: 0.978755735

00:29:47.397 --> 00:29:49.616 like the original rollout of the vaccine,
NOTE Confidence: 0.978755735

00:29:49.620 --> 00:29:54.020 I suspect that there will be a staged.
NOTE Confidence: 0.978755735

00:29:54.020 --> 00:29:57.142 Approach to this with the most high
NOTE Confidence: 0.978755735

00:29:57.142 --> 00:29:59.054 risk individuals being encouraged
NOTE Confidence: 0.978755735

00:29:59.054 --> 00:30:02.498 to seek that third dose the soonest
NOTE Confidence: 0.978755735

00:30:02.498 --> 00:30:04.816 particularly paid folks in in
NOTE Confidence: 0.978755735

00:30:04.816 --> 00:30:06.484 long term care facilities,
NOTE Confidence: 0.978755735

00:30:06.490 --> 00:30:07.414 the elderly,
NOTE Confidence: 0.978755735

00:30:07.414 --> 00:30:09.724 and probably health care personnel.
NOTE Confidence: 0.978755735

00:30:09.730 --> 00:30:12.058 But I think that that very,
NOTE Confidence: 0.978755735

00:30:12.060 --> 00:30:15.714 very quickly you will be seeing
NOTE Confidence: 0.978755735

00:30:15.714 --> 00:30:19.490 broad eligibility for a third dose.
NOTE Confidence: 0.978755735

00:30:19.490 --> 00:30:19.860 Doctor

NOTE Confidence: 0.985622394117647
00:30:19.870 --> 00:30:20.902 Deshpande, anything else you'd
NOTE Confidence: 0.985622394117647
00:30:20.902 --> 00:30:22.758 like to point out 'cause you manage
NOTE Confidence: 0.985622394117647
00:30:22.758 --> 00:30:24.294 this for the entire health system?
NOTE Confidence: 0.985622394117647
00:30:24.300 --> 00:30:25.530 Anything else we should point?
NOTE Confidence: 0.985622394117647
00:30:25.530 --> 00:30:28.006 I know this is a we'll be seeing
NOTE Confidence: 0.985622394117647
00:30:28.006 --> 00:30:29.420 more information. I suspect. Pretty
NOTE Confidence: 0.980642061111111
00:30:29.430 --> 00:30:30.770 short. Yeah, yeah we will
NOTE Confidence: 0.980642061111111
00:30:30.770 --> 00:30:31.842 be seeing more information.
NOTE Confidence: 0.980642061111111
00:30:31.850 --> 00:30:33.659 I I think that you know and I believe
NOTE Confidence: 0.980642061111111
00:30:33.659 --> 00:30:35.328 in the some of the documents that
NOTE Confidence: 0.980642061111111
00:30:35.328 --> 00:30:37.081 were some of the questions that
NOTE Confidence: 0.980642061111111
00:30:37.081 --> 00:30:38.589 had been submitted previously.
NOTE Confidence: 0.980642061111111
00:30:38.590 --> 00:30:40.396 Someone had asked to comment on a
NOTE Confidence: 0.980642061111111
00:30:40.396 --> 00:30:42.186 New York Times article that speaks
NOTE Confidence: 0.980642061111111
00:30:42.186 --> 00:30:44.094 to the sort of the controversies
NOTE Confidence: 0.980642061111111

00:30:44.094 --> 00:30:45.329 around waning immunity.
NOTE Confidence: 0.9806420611111111

00:30:45.330 --> 00:30:48.540 And it gets a little complicated,
NOTE Confidence: 0.9806420611111111

00:30:48.540 --> 00:30:49.748 so I'll try not to get too deep.
NOTE Confidence: 0.9806420611111111

00:30:49.750 --> 00:30:50.599 Into the weeds,
NOTE Confidence: 0.9806420611111111

00:30:50.599 --> 00:30:53.051 but I think the key thing here is
NOTE Confidence: 0.9806420611111111

00:30:53.051 --> 00:30:55.457 that there are individuals who are
NOTE Confidence: 0.9806420611111111

00:30:55.457 --> 00:30:57.074 clearly immunosuppressed or for
NOTE Confidence: 0.9806420611111111

00:30:57.074 --> 00:30:59.186 some reason immunity does truly win.
NOTE Confidence: 0.9806420611111111

00:30:59.190 --> 00:31:01.640 And you know the cancer patients and
NOTE Confidence: 0.9806420611111111

00:31:01.640 --> 00:31:04.081 you know everyone who's receiving the
NOTE Confidence: 0.9806420611111111

00:31:04.081 --> 00:31:06.727 therapy is that doctor Billingsley just
NOTE Confidence: 0.9806420611111111

00:31:06.727 --> 00:31:09.309 outlined clearly fall into that category.
NOTE Confidence: 0.9806420611111111

00:31:09.310 --> 00:31:11.350 Other people who are also probably
NOTE Confidence: 0.9806420611111111

00:31:11.350 --> 00:31:13.299 in that category of people over
NOTE Confidence: 0.9806420611111111

00:31:13.299 --> 00:31:15.410 the age of 65 and have you know,
NOTE Confidence: 0.9806420611111111

00:31:15.410 --> 00:31:17.000 even if they have no other

NOTE Confidence: 0.9806420611111111
00:31:17.061 --> 00:31:18.239 comorbid conditions.
NOTE Confidence: 0.9806420611111111
00:31:18.240 --> 00:31:20.816 It is a little less clear about
NOTE Confidence: 0.9806420611111111
00:31:20.820 --> 00:31:23.375 younger people and who may
NOTE Confidence: 0.9806420611111111
00:31:23.375 --> 00:31:25.419 not have these comorbidities,
NOTE Confidence: 0.9806420611111111
00:31:25.420 --> 00:31:27.140 so I think that is some of the
NOTE Confidence: 0.9806420611111111
00:31:27.140 --> 00:31:28.538 data that has to be parsed.
NOTE Confidence: 0.9806420611111111
00:31:28.540 --> 00:31:29.620 I do think you know,
NOTE Confidence: 0.9806420611111111
00:31:29.620 --> 00:31:30.660 based on the the signaling
NOTE Confidence: 0.9806420611111111
00:31:30.660 --> 00:31:31.492 from the White House,
NOTE Confidence: 0.9806420611111111
00:31:31.500 --> 00:31:34.475 there was a desire to make this,
NOTE Confidence: 0.9806420611111111
00:31:34.480 --> 00:31:36.262 you know available across the board
NOTE Confidence: 0.9806420611111111
00:31:36.262 --> 00:31:38.526 and we were planning frankly for that
NOTE Confidence: 0.9806420611111111
00:31:38.526 --> 00:31:40.572 eventuality towards the end of September.
NOTE Confidence: 0.9806420611111111
00:31:40.580 --> 00:31:42.288 But I think we're also hoping that
NOTE Confidence: 0.9806420611111111
00:31:42.288 --> 00:31:43.637 there's a little more clarity
NOTE Confidence: 0.9806420611111111

00:31:43.637 --> 00:31:45.047 about who will actually benefit
NOTE Confidence: 0.9806420611111111

00:31:45.047 --> 00:31:46.858 'cause the New York Times article,
NOTE Confidence: 0.9806420611111111

00:31:46.860 --> 00:31:48.426 that that was sort of that
NOTE Confidence: 0.9806420611111111

00:31:48.426 --> 00:31:49.470 was in the questions.
NOTE Confidence: 0.9806420611111111

00:31:49.470 --> 00:31:50.985 Highlighted the fact that you
NOTE Confidence: 0.9806420611111111

00:31:50.985 --> 00:31:52.880 know four people who are otherwise
NOTE Confidence: 0.9806420611111111

00:31:52.880 --> 00:31:55.134 healthy and of our it's it's really.
NOTE Confidence: 0.9806420611111111

00:31:55.140 --> 00:31:56.586 There are certain groups that clearly
NOTE Confidence: 0.9806420611111111

00:31:56.586 --> 00:31:57.999 will benefit and then there are.
NOTE Confidence: 0.9806420611111111

00:31:58.000 --> 00:31:59.188 There may be others who don't.
NOTE Confidence: 0.9806420611111111

00:31:59.190 --> 00:32:00.806 So I think that we just need a
NOTE Confidence: 0.9806420611111111

00:32:00.806 --> 00:32:02.440 little more information and with
NOTE Confidence: 0.9806420611111111

00:32:02.440 --> 00:32:04.390 regards to the original question is
NOTE Confidence: 0.9806420611111111

00:32:04.390 --> 00:32:06.860 to when caregivers will be eligible.
NOTE Confidence: 0.9806420611111111

00:32:06.860 --> 00:32:09.290 It really depends on the national
NOTE Confidence: 0.9806420611111111

00:32:09.290 --> 00:32:10.960 guidelines that are that are

NOTE Confidence: 0.9806420611111111
00:32:10.960 --> 00:32:12.292 released in the meantime.
NOTE Confidence: 0.9806420611111111
00:32:12.292 --> 00:32:14.290 Of course you know the key
NOTE Confidence: 0.9806420611111111
00:32:14.355 --> 00:32:15.699 things that you know.
NOTE Confidence: 0.9806420611111111
00:32:15.700 --> 00:32:16.390 Mask wearing,
NOTE Confidence: 0.9806420611111111
00:32:16.390 --> 00:32:18.115 universal mask wearing hand hygiene
NOTE Confidence: 0.9806420611111111
00:32:18.115 --> 00:32:19.879 and being particularly careful about.
NOTE Confidence: 0.9806420611111111
00:32:19.880 --> 00:32:22.700 All the other infection prevention
NOTE Confidence: 0.9806420611111111
00:32:22.700 --> 00:32:24.212 behaviours are or absolutely
NOTE Confidence: 0.9806420611111111
00:32:24.212 --> 00:32:26.102 obviously continue to be critical.
NOTE Confidence: 0.9761954225
00:32:27.740 --> 00:32:29.133 Thank you and I think you know
NOTE Confidence: 0.9761954225
00:32:29.133 --> 00:32:30.470 the New York Times articles.
NOTE Confidence: 0.9761954225
00:32:30.470 --> 00:32:32.270 For those of you may not have read it,
NOTE Confidence: 0.9761954225
00:32:32.270 --> 00:32:33.824 I think talks about you know the
NOTE Confidence: 0.9761954225
00:32:33.824 --> 00:32:35.006 risk benefit, and I think this
NOTE Confidence: 0.9761954225
00:32:35.006 --> 00:32:36.420 is an area we continue to learn.
NOTE Confidence: 0.9761954225

00:32:36.420 --> 00:32:38.100 I think 18 months later we know
NOTE Confidence: 0.9761954225

00:32:38.100 --> 00:32:39.798 a lot more of this disease,
NOTE Confidence: 0.9761954225

00:32:39.800 --> 00:32:40.800 but it also changes,
NOTE Confidence: 0.9761954225

00:32:40.800 --> 00:32:42.639 so I think it's it gets into
NOTE Confidence: 0.9761954225

00:32:42.639 --> 00:32:44.295 a lot of details around this.
NOTE Confidence: 0.9761954225

00:32:44.300 --> 00:32:45.968 I think. Certainly there are clear
NOTE Confidence: 0.9761954225

00:32:45.968 --> 00:32:47.080 categories with immuno suppression.
NOTE Confidence: 0.9761954225

00:32:47.080 --> 00:32:48.685 Bear it's beneficial but you
NOTE Confidence: 0.9761954225

00:32:48.685 --> 00:32:50.840 know if you're young and healthy.
NOTE Confidence: 0.9761954225

00:32:50.840 --> 00:32:52.208 Do you benefit from a booster?
NOTE Confidence: 0.9761954225

00:32:52.210 --> 00:32:54.138 I think it's something will bill figure out,
NOTE Confidence: 0.9761954225

00:32:54.140 --> 00:32:56.676 but I think we're all learning a lot
NOTE Confidence: 0.9761954225

00:32:56.676 --> 00:32:59.449 with this disease also and collectively.
NOTE Confidence: 0.9761954225

00:32:59.450 --> 00:33:01.630 Uhm, dealing with this, uh,
NOTE Confidence: 0.9761954225

00:33:01.630 --> 00:33:03.126 there's a question around
NOTE Confidence: 0.9761954225

00:33:03.126 --> 00:33:04.248 getting the Moderna.

NOTE Confidence: 0.9761954225

00:33:04.250 --> 00:33:06.473 If you got your last two doses of Moderna

NOTE Confidence: 0.9761954225

00:33:06.473 --> 00:33:08.866 and now you're trying to get your booster,

NOTE Confidence: 0.9761954225

00:33:08.870 --> 00:33:10.380 someone saying I can't get

NOTE Confidence: 0.9761954225

00:33:10.380 --> 00:33:11.588 an appointment at Yale.

NOTE Confidence: 0.9761954225

00:33:11.590 --> 00:33:13.186 They're waiting on a shipment Lisa,

NOTE Confidence: 0.9761954225

00:33:13.190 --> 00:33:14.732 would you like to take this

NOTE Confidence: 0.9761954225

00:33:14.732 --> 00:33:15.650 one or doctor Deshpande?

NOTE Confidence: 0.9761954225

00:33:15.650 --> 00:33:17.630 I don't know who wants to take this one.

NOTE Confidence: 0.9761954225

00:33:17.630 --> 00:33:18.860 It looks like it's gonna

NOTE Confidence: 0.9761954225

00:33:18.860 --> 00:33:20.850 say that responded probably.

NOTE Confidence: 0.9761954225

00:33:20.850 --> 00:33:21.730 I know it is.

NOTE Confidence: 0.9761954225

00:33:21.730 --> 00:33:24.019 I figured that I would just give him a break.

NOTE Confidence: 0.964266278333333

00:33:24.450 --> 00:33:26.254 It's OK, no problem.

NOTE Confidence: 0.964266278333333

00:33:26.254 --> 00:33:28.828 So yeah, we so the good thing is

NOTE Confidence: 0.964266278333333

00:33:28.828 --> 00:33:30.960 that there really is enough vaccine.

NOTE Confidence: 0.964266278333333

00:33:30.960 --> 00:33:33.145 That's available so we can
NOTE Confidence: 0.9642662783333333

00:33:33.145 --> 00:33:34.893 absolutely are ordering a.
NOTE Confidence: 0.9642662783333333

00:33:34.900 --> 00:33:36.460 We are certainly ordering enough and
NOTE Confidence: 0.9642662783333333

00:33:36.460 --> 00:33:38.722 we will have it available. You know,
NOTE Confidence: 0.9642662783333333

00:33:38.722 --> 00:33:41.039 the number of for this initial group.
NOTE Confidence: 0.9642662783333333

00:33:41.040 --> 00:33:42.840 We've only we've opened a
NOTE Confidence: 0.9642662783333333

00:33:42.840 --> 00:33:44.640 limited number of of sites,
NOTE Confidence: 0.9642662783333333

00:33:44.640 --> 00:33:46.064 mostly in RMG sites,
NOTE Confidence: 0.9642662783333333

00:33:46.064 --> 00:33:48.200 and we're working to create some
NOTE Confidence: 0.9642662783333333

00:33:48.273 --> 00:33:50.559 popups for smilow clinics as well.
NOTE Confidence: 0.9642662783333333

00:33:50.560 --> 00:33:52.684 But there there is absolutely availability
NOTE Confidence: 0.9642662783333333

00:33:52.684 --> 00:33:55.068 and we will make sure that Moderna
NOTE Confidence: 0.9642662783333333

00:33:55.068 --> 00:33:57.168 will be an option that will that
NOTE Confidence: 0.9642662783333333

00:33:57.235 --> 00:33:59.275 will that we will certainly offer.
NOTE Confidence: 0.9642662783333333

00:33:59.280 --> 00:34:01.686 I think when when all is.
NOTE Confidence: 0.9642662783333333

00:34:01.690 --> 00:34:04.504 Told the split between Moderna and Pfizer.

NOTE Confidence: 0.964266278333333
00:34:04.510 --> 00:34:05.900 I think we actually administered
NOTE Confidence: 0.964266278333333
00:34:05.900 --> 00:34:07.290 more Pfizer than Moderna were.
NOTE Confidence: 0.964266278333333
00:34:07.290 --> 00:34:08.319 Actually I'm sorry.
NOTE Confidence: 0.964266278333333
00:34:08.319 --> 00:34:10.034 More Moderna than Pfizer so
NOTE Confidence: 0.964266278333333
00:34:10.034 --> 00:34:12.234 we will absolutely have those
NOTE Confidence: 0.964266278333333
00:34:12.234 --> 00:34:13.528 available as we go forward.
NOTE Confidence: 0.980250843333333
00:34:14.290 --> 00:34:15.970 That responded don't go away I.
NOTE Confidence: 0.980250843333333
00:34:15.970 --> 00:34:17.130 I think there's another
NOTE Confidence: 0.980250843333333
00:34:17.130 --> 00:34:18.000 question following this.
NOTE Confidence: 0.980250843333333
00:34:18.000 --> 00:34:21.234 If you got Pfizer initially should you?
NOTE Confidence: 0.980250843333333
00:34:21.240 --> 00:34:23.270 Can you get the Moderner Moderna initially?
NOTE Confidence: 0.980250843333333
00:34:23.270 --> 00:34:24.350 Can you switch to Pfizer?
NOTE Confidence: 0.980250843333333
00:34:24.350 --> 00:34:26.522 So can you sort of share
NOTE Confidence: 0.980250843333333
00:34:26.522 --> 00:34:27.580 the combinations? Yeah,
NOTE Confidence: 0.979210683333334
00:34:27.590 --> 00:34:29.984 it's a. It's a great question and you know
NOTE Confidence: 0.979210683333334

00:34:29.984 --> 00:34:32.573 the the bottom line is that we really have.

NOTE Confidence: 0.9792106833333334

00:34:32.580 --> 00:34:34.566 We are following the CDC's guidelines,

NOTE Confidence: 0.9792106833333334

00:34:34.570 --> 00:34:36.310 which are really saying that you

NOTE Confidence: 0.9792106833333334

00:34:36.310 --> 00:34:38.930 have to get the same version of the

NOTE Confidence: 0.9792106833333334

00:34:38.930 --> 00:34:40.675 vaccine that you got originally.

NOTE Confidence: 0.9792106833333334

00:34:40.680 --> 00:34:41.730 There's a lot of interest.

NOTE Confidence: 0.9792106833333334

00:34:41.730 --> 00:34:44.300 There's a lot of research.

NOTE Confidence: 0.9792106833333334

00:34:44.300 --> 00:34:46.600 That's actively going on here.

NOTE Confidence: 0.9792106833333334

00:34:46.600 --> 00:34:48.616 There's a theoretically a lot of

NOTE Confidence: 0.9792106833333334

00:34:48.616 --> 00:34:50.730 people have sort of had played

NOTE Confidence: 0.9792106833333334

00:34:50.730 --> 00:34:52.818 out the value of vaccine mixing,

NOTE Confidence: 0.9792106833333334

00:34:52.820 --> 00:34:54.304 but it really needs to be fully

NOTE Confidence: 0.9792106833333334

00:34:54.304 --> 00:34:55.810 studied in a rigorous fashion,

NOTE Confidence: 0.9792106833333334

00:34:55.810 --> 00:34:57.602 and we don't have those data to say

NOTE Confidence: 0.9792106833333334

00:34:57.602 --> 00:34:59.448 that it's safe and truly efficacious,

NOTE Confidence: 0.9792106833333334

00:34:59.450 --> 00:35:01.310 so we're waiting for those trials.

NOTE Confidence: 0.979210683333334
00:35:01.310 --> 00:35:04.910 At present, the the the.
NOTE Confidence: 0.979210683333334
00:35:04.910 --> 00:35:05.524 The guideline,
NOTE Confidence: 0.979210683333334
00:35:05.524 --> 00:35:07.366 the recommendation that we are following,
NOTE Confidence: 0.979210683333334
00:35:07.370 --> 00:35:09.539 is that you you get the same kind of
NOTE Confidence: 0.979210683333334
00:35:09.539 --> 00:35:11.366 vaccine that you got the first time.
NOTE Confidence: 0.979210683333334
00:35:11.370 --> 00:35:13.340 The first two times and
NOTE Confidence: 0.987617437272727
00:35:13.370 --> 00:35:14.810 we did get some questions on
NOTE Confidence: 0.987617437272727
00:35:14.810 --> 00:35:16.130 email prior to this event,
NOTE Confidence: 0.987617437272727
00:35:16.130 --> 00:35:17.340 as people register the last
NOTE Confidence: 0.987617437272727
00:35:17.340 --> 00:35:19.233 one on this and there were two
NOTE Confidence: 0.987617437272727
00:35:19.233 --> 00:35:20.485 questions which seem similar.
NOTE Confidence: 0.987617437272727
00:35:20.490 --> 00:35:22.698 People who had the J&J vaccine,
NOTE Confidence: 0.987617437272727
00:35:22.700 --> 00:35:24.115 should they be getting a
NOTE Confidence: 0.987617437272727
00:35:24.115 --> 00:35:25.247 booster from Pfizer Moderna
NOTE Confidence: 0.987617437272727
00:35:25.247 --> 00:35:26.920 or wait to see what J&J does?
NOTE Confidence: 0.980636711111111

00:35:27.530 --> 00:35:29.735 Yeah, so this is all we have to wait.
NOTE Confidence: 0.9806367111111111

00:35:29.740 --> 00:35:31.812 At present we are not able to provide
NOTE Confidence: 0.9806367111111111

00:35:31.812 --> 00:35:34.487 an M RNA vaccine for them at President.
NOTE Confidence: 0.9806367111111111

00:35:34.490 --> 00:35:37.070 Did JJ has concluded a trial.
NOTE Confidence: 0.9806367111111111

00:35:37.070 --> 00:35:40.194 Of the a second booster, because you'll
NOTE Confidence: 0.9806367111111111

00:35:40.194 --> 00:35:42.250 recall that the J&J is a one shot,
NOTE Confidence: 0.9806367111111111

00:35:42.250 --> 00:35:45.106 was was a one shot vaccine and we
NOTE Confidence: 0.9806367111111111

00:35:45.106 --> 00:35:47.857 are still waiting for the actual
NOTE Confidence: 0.9806367111111111

00:35:47.857 --> 00:35:50.374 trial data to understand what benefit
NOTE Confidence: 0.9806367111111111

00:35:50.374 --> 00:35:52.348 and how how great the benefit is.
NOTE Confidence: 0.9806367111111111

00:35:52.350 --> 00:35:54.065 So they they've issued a press release
NOTE Confidence: 0.9806367111111111

00:35:54.065 --> 00:35:55.858 but we can't go by press releases.
NOTE Confidence: 0.9806367111111111

00:35:55.860 --> 00:35:57.288 We have to wait until we have.
NOTE Confidence: 0.9806367111111111

00:35:57.290 --> 00:35:58.795 We really have full transparency
NOTE Confidence: 0.9806367111111111

00:35:58.795 --> 00:35:59.999 to the outcomes data.
NOTE Confidence: 0.9806367111111111

00:36:00.440 --> 00:36:02.550 Thank you.

NOTE Confidence: 0.982622117692308

00:36:02.550 --> 00:36:05.961 I think the next one is for you Doctor

NOTE Confidence: 0.982622117692308

00:36:05.961 --> 00:36:08.129 Huntington neutropenia with with.

NOTE Confidence: 0.982622117692308

00:36:08.130 --> 00:36:09.996 Angus, I probably said it wrong,

NOTE Confidence: 0.982622117692308

00:36:10.000 --> 00:36:12.125 but no treatment yet qualify

NOTE Confidence: 0.982622117692308

00:36:12.125 --> 00:36:13.840 for third vaccine. Yeah,

NOTE Confidence: 0.983703658181818

00:36:13.960 --> 00:36:15.694 I. I think you know our

NOTE Confidence: 0.983703658181818

00:36:15.694 --> 00:36:17.210 guidance has evolved over time.

NOTE Confidence: 0.983703658181818

00:36:17.210 --> 00:36:20.031 So I think initially the CDC really

NOTE Confidence: 0.983703658181818

00:36:20.031 --> 00:36:22.136 was focused on active treatment.

NOTE Confidence: 0.983703658181818

00:36:22.140 --> 00:36:24.810 But for him malignancies oftentimes

NOTE Confidence: 0.983703658181818

00:36:24.810 --> 00:36:26.718 we won't actually vaccinate before we

NOTE Confidence: 0.983703658181818

00:36:26.718 --> 00:36:28.450 start the most oppressive therapy.

NOTE Confidence: 0.983703658181818

00:36:28.450 --> 00:36:30.130 And so I think our current guidance

NOTE Confidence: 0.983703658181818

00:36:30.130 --> 00:36:32.518 would be that some of that has engulfed

NOTE Confidence: 0.983703658181818

00:36:32.518 --> 00:36:34.133 neutropenia foramina suppressed and they

NOTE Confidence: 0.983703658181818

00:36:34.190 --> 00:36:36.010 would fall under the new category of
NOTE Confidence: 0.983703658181818

00:36:36.010 --> 00:36:37.930 of being allowed to have a third dose.
NOTE Confidence: 0.983703658181818

00:36:37.930 --> 00:36:38.860 Just want to.
NOTE Confidence: 0.983703658181818

00:36:38.860 --> 00:36:40.954 Had one UM, kind of feature about
NOTE Confidence: 0.983703658181818

00:36:40.954 --> 00:36:42.700 think about third dose versus booster.
NOTE Confidence: 0.983703658181818

00:36:42.700 --> 00:36:44.611 Many of my patients didn't respond to
NOTE Confidence: 0.983703658181818

00:36:44.611 --> 00:36:46.860 the first 22 doses and so our goal of
NOTE Confidence: 0.983703658181818

00:36:46.860 --> 00:36:49.035 the third dose is really to get those
NOTE Confidence: 0.983703658181818

00:36:49.035 --> 00:36:50.835 folks that didn't have any antibody
NOTE Confidence: 0.983703658181818

00:36:50.840 --> 00:36:52.947 response to having a response a little
NOTE Confidence: 0.983703658181818

00:36:52.947 --> 00:36:55.092 bit different when we think about the
NOTE Confidence: 0.983703658181818

00:36:55.092 --> 00:36:56.868 Community about people that you know,
NOTE Confidence: 0.983703658181818

00:36:56.870 --> 00:36:59.159 95% of the people on those Moderna
NOTE Confidence: 0.983703658181818

00:36:59.159 --> 00:37:01.179 and Pfizer vaccines made antibodies.
NOTE Confidence: 0.983703658181818

00:37:01.180 --> 00:37:02.870 Many of our patients were
NOTE Confidence: 0.983703658181818

00:37:02.870 --> 00:37:04.560 not those of those folks.

NOTE Confidence: 0.983703658181818

00:37:04.560 --> 00:37:05.316 They don't have antibodies,

NOTE Confidence: 0.983703658181818

00:37:05.316 --> 00:37:06.675 and so the third dose for them

NOTE Confidence: 0.983703658181818

00:37:06.675 --> 00:37:07.595 is a little bit different,

NOTE Confidence: 0.983703658181818

00:37:07.600 --> 00:37:08.928 so that's why I think the timing is.

NOTE Confidence: 0.983703658181818

00:37:08.930 --> 00:37:10.554 Also a little bit more nuanced in

NOTE Confidence: 0.983703658181818

00:37:10.554 --> 00:37:12.370 terms of not waiting eight months,

NOTE Confidence: 0.983703658181818

00:37:12.370 --> 00:37:14.158 but really within 28 days or

NOTE Confidence: 0.983703658181818

00:37:14.158 --> 00:37:15.730 more after a second dose,

NOTE Confidence: 0.983703658181818

00:37:15.730 --> 00:37:16.340 you can get a third

NOTE Confidence: 0.98130112

00:37:16.350 --> 00:37:18.390 dose. Thank you Doctor Huntington.

NOTE Confidence: 0.98130112

00:37:18.390 --> 00:37:20.478 You answered the question that came

NOTE Confidence: 0.98130112

00:37:20.478 --> 00:37:22.659 through our chat earlier and you

NOTE Confidence: 0.98130112

00:37:22.659 --> 00:37:24.119 answered that that immunosuppressed

NOTE Confidence: 0.98130112

00:37:24.119 --> 00:37:26.280 people do not mount a response,

NOTE Confidence: 0.98130112

00:37:26.280 --> 00:37:28.960 so they need their third dose a little

NOTE Confidence: 0.98130112

00:37:28.960 --> 00:37:31.856 sooner versus those of us who mounted and

NOTE Confidence: 0.98130112

00:37:31.856 --> 00:37:33.950 gaining immunity are waiting the time.

NOTE Confidence: 0.98130112

00:37:33.950 --> 00:37:35.330 I think this has been answered,

NOTE Confidence: 0.98130112

00:37:35.330 --> 00:37:36.540 but doctor Lustberg would you

NOTE Confidence: 0.98130112

00:37:36.540 --> 00:37:38.130 like to just add more detail?

NOTE Confidence: 0.98130112

00:37:38.130 --> 00:37:39.273 Those taking anastrozole?

NOTE Confidence: 0.98130112

00:37:39.273 --> 00:37:41.559 Daily basis count as amino suppression

NOTE Confidence: 0.98130112

00:37:41.559 --> 00:37:43.459 and can you get a boost right?

NOTE Confidence: 0.98130112

00:37:43.460 --> 00:37:44.550 Think the answer is yes,

NOTE Confidence: 0.98130112

00:37:44.550 --> 00:37:46.646 but anything else you want to add for

NOTE Confidence: 0.98130112

00:37:46.646 --> 00:37:48.620 other types of hormonal therapies etc.

NOTE Confidence: 0.976154438965517

00:37:49.120 --> 00:37:51.584 Yes, so no. I completely agree as my

NOTE Confidence: 0.976154438965517

00:37:51.584 --> 00:37:53.092 colleague hasn't happened have answered

NOTE Confidence: 0.976154438965517

00:37:53.092 --> 00:37:55.749 and that we want to be as broad as

NOTE Confidence: 0.976154438965517

00:37:55.749 --> 00:37:58.003 possible and be as inclusive as possible.

NOTE Confidence: 0.976154438965517

00:37:58.010 --> 00:38:00.146 It's absolutely true that you know

NOTE Confidence: 0.976154438965517
00:38:00.146 --> 00:38:02.552 compared to a patient on immunotherapy
NOTE Confidence: 0.976154438965517
00:38:02.552 --> 00:38:05.300 or chemotherapy the the level of
NOTE Confidence: 0.976154438965517
00:38:05.300 --> 00:38:07.119 immunosuppression from anastrozole is
NOTE Confidence: 0.976154438965517
00:38:07.119 --> 00:38:10.430 is not equivalent, but we we want to.
NOTE Confidence: 0.976154438965517
00:38:10.430 --> 00:38:12.040 Protect all our cancer survivors
NOTE Confidence: 0.976154438965517
00:38:12.040 --> 00:38:13.650 at various levels of training.
NOTE Confidence: 0.976154438965517
00:38:13.650 --> 00:38:15.820 So this is this is this is to be as
NOTE Confidence: 0.976154438965517
00:38:15.890 --> 00:38:17.850 inclusive as possible and protect
NOTE Confidence: 0.976154438965517
00:38:17.850 --> 00:38:19.810 as many patients as possible.
NOTE Confidence: 0.976154438965517
00:38:19.810 --> 00:38:22.402 So yes, any type of hormonal therapy and
NOTE Confidence: 0.976154438965517
00:38:22.402 --> 00:38:25.540 I also saw a question on other types of
NOTE Confidence: 0.976154438965517
00:38:25.540 --> 00:38:27.959 oral therapy such as PARP inhibitors.
NOTE Confidence: 0.976154438965517
00:38:27.960 --> 00:38:30.508 So that applies to that as well,
NOTE Confidence: 0.976154438965517
00:38:30.510 --> 00:38:32.428 which is that if you're on any
NOTE Confidence: 0.976154438965517
00:38:32.428 --> 00:38:33.250 type of treatment,
NOTE Confidence: 0.976154438965517

00:38:33.250 --> 00:38:35.044 go ahead and know that you
NOTE Confidence: 0.976154438965517

00:38:35.044 --> 00:38:36.820 are eligible for the booster.
NOTE Confidence: 0.963036624285714

00:38:37.770 --> 00:38:39.174 Thank you doctor you,
NOTE Confidence: 0.963036624285714

00:38:39.174 --> 00:38:40.636 you've been quiet, you know.
NOTE Confidence: 0.963036624285714

00:38:40.636 --> 00:38:41.448 Is there a benefit?
NOTE Confidence: 0.963036624285714

00:38:41.450 --> 00:38:42.668 Should you do it after that?
NOTE Confidence: 0.963036624285714

00:38:42.670 --> 00:38:44.630 Your booster after six months or eight
NOTE Confidence: 0.963036624285714

00:38:44.630 --> 00:38:46.570 months you know people want to know.
NOTE Confidence: 0.963036624285714

00:38:46.570 --> 00:38:48.394 Would you wait six months or eight months?
NOTE Confidence: 0.9783052075

00:38:49.090 --> 00:38:49.830 Well, so as a
NOTE Confidence: 0.991858966666667

00:38:49.840 --> 00:38:52.350 radiation oncologist it's very
NOTE Confidence: 0.989609833333333

00:38:52.350 --> 00:38:55.150 question for me to answer, but I would say
NOTE Confidence: 0.979129787777778

00:38:55.160 --> 00:38:56.984 if you the NCCN is trying to be
NOTE Confidence: 0.979129787777778

00:38:56.984 --> 00:38:59.111 as broad as possible, and so if
NOTE Confidence: 0.979129787777778

00:38:59.111 --> 00:39:01.950 you fit the category of of getting
NOTE Confidence: 0.98264533

00:39:01.960 --> 00:39:03.208 a booster right away.

NOTE Confidence: 0.984608306666667

00:39:04.430 --> 00:39:06.392 You know, I don't think there's a downside to

NOTE Confidence: 0.989651441666667

00:39:06.410 --> 00:39:07.142 going ahead and getting

NOTE Confidence: 0.989651441666667

00:39:07.142 --> 00:39:08.598 it now. Is there a rush?

NOTE Confidence: 0.983122553076923

00:39:08.630 --> 00:39:09.402 I mean there was.

NOTE Confidence: 0.983122553076923

00:39:09.402 --> 00:39:10.560 I think there was a question

NOTE Confidence: 0.983122553076923

00:39:10.602 --> 00:39:12.234 in there about a patient would

NOTE Confidence: 0.983122553076923

00:39:12.234 --> 00:39:13.626 just finish radiation treatment.

NOTE Confidence: 0.983122553076923

00:39:13.630 --> 00:39:14.641 Just finished chemo.

NOTE Confidence: 0.983122553076923

00:39:14.641 --> 00:39:17.320 I would assume if they had had their

NOTE Confidence: 0.983122553076923

00:39:17.320 --> 00:39:18.570 immunization within a couple months,

NOTE Confidence: 0.983122553076923

00:39:18.570 --> 00:39:20.434 it's OK to kind of recover from that.

NOTE Confidence: 0.983122553076923

00:39:20.434 --> 00:39:23.390 And and there's no extreme rush

NOTE Confidence: 0.983122553076923

00:39:23.390 --> 00:39:25.370 to get the the third booster,

NOTE Confidence: 0.983122553076923

00:39:25.370 --> 00:39:27.170 so I would say fit it in your schedule

NOTE Confidence: 0.983122553076923

00:39:27.170 --> 00:39:29.354 and your lifestyle and know that the

NOTE Confidence: 0.983122553076923

00:39:29.354 --> 00:39:31.190 NCCN is being broadened recommending

NOTE Confidence: 0.983122553076923

00:39:31.190 --> 00:39:34.080 the booster as soon as it it fits.

NOTE Confidence: 0.983416992

00:39:35.520 --> 00:39:37.641 Thank you, I'm going to switch to

NOTE Confidence: 0.983416992

00:39:37.641 --> 00:39:39.224 the question answers, let's see.

NOTE Confidence: 0.983416992

00:39:39.224 --> 00:39:41.246 Uhm, perhaps I don't know Kim,

NOTE Confidence: 0.983416992

00:39:41.250 --> 00:39:42.870 do you want answer this?

NOTE Confidence: 0.983416992

00:39:42.870 --> 00:39:44.916 When are we going to have

NOTE Confidence: 0.983416992

00:39:44.916 --> 00:39:45.598 psychosocial services?

NOTE Confidence: 0.983416992

00:39:45.600 --> 00:39:47.040 I have nerd not heard

NOTE Confidence: 0.983416992

00:39:47.040 --> 00:39:48.480 of any or offered any.

NOTE Confidence: 0.978750049666667

00:39:49.760 --> 00:39:50.940 Oh OK, thank you.

NOTE Confidence: 0.978750049666667

00:39:50.940 --> 00:39:53.248 I'm so I'm so sorry that you

NOTE Confidence: 0.978750049666667

00:39:53.248 --> 00:39:55.104 haven't been offered psychosocial

NOTE Confidence: 0.978750049666667

00:39:55.104 --> 00:39:57.771 services due to the pandemic we

NOTE Confidence: 0.978750049666667

00:39:57.771 --> 00:39:59.689 have had to alter the way we

NOTE Confidence: 0.978750049666667

00:39:59.689 --> 00:40:01.592 offer a lot of those services,

NOTE Confidence: 0.978750049666667

00:40:01.592 --> 00:40:04.831 but we do have a lot of our social

NOTE Confidence: 0.978750049666667

00:40:04.831 --> 00:40:07.991 work team back in our clinic areas in

NOTE Confidence: 0.978750049666667

00:40:07.991 --> 00:40:10.619 some capacity to meet with patients.

NOTE Confidence: 0.978750049666667

00:40:10.620 --> 00:40:12.874 And then they also have the ability

NOTE Confidence: 0.978750049666667

00:40:12.874 --> 00:40:15.000 to meet virtually with our patients.

NOTE Confidence: 0.978750049666667

00:40:15.000 --> 00:40:18.505 So if you have not I, I really apologize.

NOTE Confidence: 0.978750049666667

00:40:18.505 --> 00:40:20.755 We're happy to follow up specifically.

NOTE Confidence: 0.978750049666667

00:40:20.760 --> 00:40:24.945 And then also on our Yale Cancer Center site,

NOTE Confidence: 0.978750049666667

00:40:24.950 --> 00:40:27.365 we have all of our listings of

NOTE Confidence: 0.978750049666667

00:40:27.365 --> 00:40:28.840 our integrative medicine offerings

NOTE Confidence: 0.978750049666667

00:40:28.840 --> 00:40:31.096 that are all done virtually now.

NOTE Confidence: 0.978750049666667

00:40:31.100 --> 00:40:32.900 And we actually saw that patients

NOTE Confidence: 0.978750049666667

00:40:32.900 --> 00:40:35.602 liked to do a lot of these things

NOTE Confidence: 0.978750049666667

00:40:35.602 --> 00:40:37.038 like meditation and yoga,

NOTE Confidence: 0.978750049666667

00:40:37.040 --> 00:40:39.077 right from the comfort of their home.

NOTE Confidence: 0.978750049666667

00:40:39.080 --> 00:40:40.700 So we still have those.
NOTE Confidence: 0.978750049666667

00:40:40.700 --> 00:40:42.488 And along with our support groups,
NOTE Confidence: 0.978750049666667

00:40:42.490 --> 00:40:43.840 so we have a, uh,
NOTE Confidence: 0.978750049666667

00:40:43.840 --> 00:40:46.227 a series of many different support groups
NOTE Confidence: 0.978750049666667

00:40:46.227 --> 00:40:49.119 and those are being provided virtually now.
NOTE Confidence: 0.978750049666667

00:40:49.120 --> 00:40:50.730 I know that some people.
NOTE Confidence: 0.978750049666667

00:40:50.730 --> 00:40:52.434 May not have all the technology
NOTE Confidence: 0.978750049666667

00:40:52.434 --> 00:40:54.464 they need and we are very sensitive
NOTE Confidence: 0.978750049666667

00:40:54.464 --> 00:40:56.855 to that and we are trying to bring
NOTE Confidence: 0.978750049666667

00:40:56.855 --> 00:40:58.007 those services back,
NOTE Confidence: 0.978750049666667

00:40:58.010 --> 00:41:00.264 but we're also trying to make sure
NOTE Confidence: 0.978750049666667

00:41:00.264 --> 00:41:02.290 we still maintain safe distancing.
NOTE Confidence: 0.978750049666667

00:41:02.290 --> 00:41:05.248 Social distancing in our clinical areas,
NOTE Confidence: 0.978750049666667

00:41:05.250 --> 00:41:07.690 and so it is a balance and we
NOTE Confidence: 0.978750049666667

00:41:07.690 --> 00:41:09.220 appreciate our patients flexibility
NOTE Confidence: 0.978750049666667

00:41:09.220 --> 00:41:12.181 through this and but please know that

NOTE Confidence: 0.978750049666667

00:41:12.181 --> 00:41:14.828 we want to provide these services.

NOTE Confidence: 0.978750049666667

00:41:14.830 --> 00:41:17.668 We have our our entire multidisciplinary

NOTE Confidence: 0.978750049666667

00:41:17.668 --> 00:41:19.560 multi departmental team here

NOTE Confidence: 0.978750049666667

00:41:19.629 --> 00:41:20.999 to take care of you.

NOTE Confidence: 0.978750049666667

00:41:21.000 --> 00:41:22.660 And we apologize if those

NOTE Confidence: 0.978750049666667

00:41:22.660 --> 00:41:24.320 services have not been offered,

NOTE Confidence: 0.978750049666667

00:41:24.320 --> 00:41:24.930 and again,

NOTE Confidence: 0.978750049666667

00:41:24.930 --> 00:41:26.455 happy to follow up individually

NOTE Confidence: 0.978750049666667

00:41:26.455 --> 00:41:28.450 and and make sure you're connected

NOTE Confidence: 0.978750049666667

00:41:28.450 --> 00:41:30.484 with the resources that you need.

NOTE Confidence: 0.782841478

00:41:30.980 --> 00:41:33.560 Thank you and our Renee.

NOTE Confidence: 0.782841478

00:41:33.560 --> 00:41:34.868 God has already put a couple

NOTE Confidence: 0.782841478

00:41:34.868 --> 00:41:36.208 of links on the integrative

NOTE Confidence: 0.782841478

00:41:36.208 --> 00:41:37.438 Medicine Office offerings

NOTE Confidence: 0.782841478

00:41:37.438 --> 00:41:39.078 and support group structure.

NOTE Confidence: 0.782841478

00:41:39.080 --> 00:41:40.598 Less for do you wanna add
NOTE Confidence: 0.782841478

00:41:40.598 --> 00:41:41.357 any more information?
NOTE Confidence: 0.782841478

00:41:41.360 --> 00:41:42.860 I thought it was pretty comprehensive,
NOTE Confidence: 0.782841478

00:41:42.860 --> 00:41:43.548 but if there's something
NOTE Confidence: 0.782841478

00:41:43.548 --> 00:41:44.408 else you'd like to add
NOTE Confidence: 0.9776949975

00:41:44.960 --> 00:41:47.720 right now, can get such an amazing job.
NOTE Confidence: 0.9776949975

00:41:47.720 --> 00:41:49.664 Yeah, I was just speaking to one of
NOTE Confidence: 0.9776949975

00:41:49.664 --> 00:41:51.427 our social workers and she echoed.
NOTE Confidence: 0.9776949975

00:41:51.430 --> 00:41:55.168 Exactly what this cluster referred to,
NOTE Confidence: 0.9776949975

00:41:55.170 --> 00:41:58.852 and this psychosocial gaps are a common
NOTE Confidence: 0.9776949975

00:41:58.852 --> 00:42:02.000 theme and cancer survivorship throughout
NOTE Confidence: 0.9776949975

00:42:02.000 --> 00:42:05.690 the country not making excuses,
NOTE Confidence: 0.9776949975

00:42:05.690 --> 00:42:08.682 but simply sharing that this is an evolving
NOTE Confidence: 0.9776949975

00:42:08.682 --> 00:42:13.054 area that we're continuing to to to work on,
NOTE Confidence: 0.9776949975

00:42:13.060 --> 00:42:16.847 and it it it really necessitates using
NOTE Confidence: 0.9776949975

00:42:16.847 --> 00:42:20.339 both university and academic resources.

NOTE Confidence: 0.9776949975

00:42:20.340 --> 00:42:22.720 In addition to also liaisoning with our

NOTE Confidence: 0.9776949975

00:42:22.720 --> 00:42:24.960 community of mental health resources so,

NOTE Confidence: 0.9776949975

00:42:24.960 --> 00:42:27.504 so you're going to see that that that

NOTE Confidence: 0.9776949975

00:42:27.504 --> 00:42:29.376 theme continued to be discussed and

NOTE Confidence: 0.9776949975

00:42:29.376 --> 00:42:31.698 we would love to partner with you to

NOTE Confidence: 0.9776949975

00:42:31.698 --> 00:42:33.606 additionally understand the gaps that you

NOTE Confidence: 0.9776949975

00:42:33.606 --> 00:42:35.660 have experienced so that we can make it

NOTE Confidence: 0.9776949975

00:42:35.660 --> 00:42:37.648 better for you as well as other patients.

NOTE Confidence: 0.986609612727273

00:42:38.740 --> 00:42:40.609 Thank you, I'm also looking at questions

NOTE Confidence: 0.986609612727273

00:42:40.609 --> 00:42:41.950 that we've received beforehand.

NOTE Confidence: 0.986609612727273

00:42:41.950 --> 00:42:44.580 There was a question on I am a patient at

NOTE Confidence: 0.986609612727273

00:42:44.652 --> 00:42:47.040 Smilow Cancer Hospital in Waterford and

NOTE Confidence: 0.986609612727273

00:42:47.040 --> 00:42:49.668 there are eligible for the third dose,

NOTE Confidence: 0.986609612727273

00:42:49.670 --> 00:42:52.214 but I think the vaccine appointments

NOTE Confidence: 0.986609612727273

00:42:52.214 --> 00:42:54.809 are not available in New London.

NOTE Confidence: 0.986609612727273

00:42:54.810 --> 00:42:56.390 When will they be available?
NOTE Confidence: 0.986609612727273

00:42:56.390 --> 00:42:58.190 They could only find an option in Trumbull,
NOTE Confidence: 0.986609612727273

00:42:58.190 --> 00:43:00.008 so these are Kim or Kevin.
NOTE Confidence: 0.986609612727273

00:43:00.010 --> 00:43:02.698 Would you like to take that one?
NOTE Confidence: 0.986609612727273

00:43:02.700 --> 00:43:04.284 Sorry, it's quite specific.
NOTE Confidence: 0.986609612727273

00:43:04.284 --> 00:43:06.660 I know this might always keep
NOTE Confidence: 0.986609612727273

00:43:06.733 --> 00:43:09.748 saying yeah, I might.
NOTE Confidence: 0.983224616

00:43:08.330 --> 00:43:09.740 Maybe I can take that. Thank you
NOTE Confidence: 0.94592074

00:43:09.750 --> 00:43:12.380 Doctor Deshpande. We are. We're
NOTE Confidence: 0.951784337272727

00:43:12.390 --> 00:43:14.790 administering vaccines at a Northeast
NOTE Confidence: 0.951784337272727

00:43:14.790 --> 00:43:17.800 Medical Group site in New London.
NOTE Confidence: 0.951784337272727

00:43:17.800 --> 00:43:20.060 It is available periodically so
NOTE Confidence: 0.951784337272727

00:43:20.060 --> 00:43:23.092 I I think maybe please do check
NOTE Confidence: 0.951784337272727

00:43:23.092 --> 00:43:25.836 back on the website but I as of.
NOTE Confidence: 0.951784337272727

00:43:25.840 --> 00:43:27.359 As of yesterday, I believe we were.
NOTE Confidence: 0.951784337272727

00:43:27.360 --> 00:43:29.160 We were vaccinating there and it's

NOTE Confidence: 0.951784337272727

00:43:29.160 --> 00:43:31.115 been available for for about a week

NOTE Confidence: 0.951784337272727

00:43:31.115 --> 00:43:32.739 so I just please do check back.

NOTE Confidence: 0.951784337272727

00:43:32.740 --> 00:43:33.508 It is available.

NOTE Confidence: 0.982058172

00:43:33.750 --> 00:43:36.580 OK. Thank you so much. There are a

NOTE Confidence: 0.982058172

00:43:36.580 --> 00:43:38.671 lot of questions around antibodies.

NOTE Confidence: 0.982058172

00:43:38.671 --> 00:43:41.137 Should you be checking on antibodies?

NOTE Confidence: 0.982058172

00:43:41.140 --> 00:43:42.855 When should you do the third dose?

NOTE Confidence: 0.982058172

00:43:42.860 --> 00:43:45.158 So maybe someone who's a very

NOTE Confidence: 0.982058172

00:43:45.158 --> 00:43:47.100 good immunologist can take this.

NOTE Confidence: 0.982058172

00:43:47.100 --> 00:43:49.864 One is for this. Who's going to be

NOTE Confidence: 0.982058172

00:43:49.864 --> 00:43:51.208 brave enough to answer this one?

NOTE Confidence: 0.982058172

00:43:51.210 --> 00:43:52.730 I think we know the answer is no,

NOTE Confidence: 0.982058172

00:43:52.730 --> 00:43:53.274 you shouldn't,

NOTE Confidence: 0.982058172

00:43:53.274 --> 00:43:55.450 but I want someone to answer the question.

NOTE Confidence: 0.982058172

00:43:55.450 --> 00:43:56.590 I'm happy to you know,

NOTE Confidence: 0.982058172

00:43:56.590 --> 00:43:58.852 should you be doing routine antibody
NOTE Confidence: 0.982058172

00:43:58.852 --> 00:44:01.510 tests after your second dose,
NOTE Confidence: 0.982058172

00:44:01.510 --> 00:44:03.790 patients with multiple myeloma?
NOTE Confidence: 0.982058172

00:44:03.790 --> 00:44:05.855 Should they take their response
NOTE Confidence: 0.982058172

00:44:05.855 --> 00:44:08.020 to the vaccine so not everybody
NOTE Confidence: 0.982058172

00:44:08.020 --> 00:44:09.550 raise their hand all at once.
NOTE Confidence: 0.982058172

00:44:09.550 --> 00:44:10.618 I think this is,
NOTE Confidence: 0.982058172

00:44:10.618 --> 00:44:12.940 I think this is a doctor Huntington
NOTE Confidence: 0.982058172

00:44:12.950 --> 00:44:16.760 and Lisa Barbara question first.
NOTE Confidence: 0.981429306

00:44:18.000 --> 00:44:18.930 I could do the broad
NOTE Confidence: 0.976003028571429

00:44:18.940 --> 00:44:20.606 strokes cotton you could fill in through
NOTE Confidence: 0.976003028571429

00:44:20.610 --> 00:44:24.248 details so you know the CDC and our.
NOTE Confidence: 0.976003028571429

00:44:24.248 --> 00:44:27.244 You know our oncology national groups do
NOTE Confidence: 0.976003028571429

00:44:27.244 --> 00:44:30.436 not recommend routine antibody testing as a
NOTE Confidence: 0.976003028571429

00:44:30.436 --> 00:44:32.514 means of measuring response to vaccination
NOTE Confidence: 0.976003028571429

00:44:32.514 --> 00:44:36.600 or kind of advising on timing of third dose.

NOTE Confidence: 0.976003028571429
00:44:36.600 --> 00:44:39.672 There's a variety of currently available
NOTE Confidence: 0.976003028571429
00:44:39.672 --> 00:44:43.068 antibody tests and there's not a real
NOTE Confidence: 0.976003028571429
00:44:43.068 --> 00:44:45.594 standardization in those tests which make
NOTE Confidence: 0.976003028571429
00:44:45.594 --> 00:44:48.372 it difficult to implement one standard.
NOTE Confidence: 0.976003028571429
00:44:48.372 --> 00:44:50.362 So outside of the context
NOTE Confidence: 0.976003028571429
00:44:50.362 --> 00:44:52.219 of a research setting,
NOTE Confidence: 0.976003028571429
00:44:52.220 --> 00:44:54.140 we're not recommending antibody
NOTE Confidence: 0.976003028571429
00:44:54.140 --> 00:44:56.588 testing for our patients today,
NOTE Confidence: 0.976003028571429
00:44:56.590 --> 00:44:58.993 and so I think one of the questions was,
NOTE Confidence: 0.976003028571429
00:44:59.000 --> 00:45:00.330 well, how do we, you know,
NOTE Confidence: 0.976003028571429
00:45:00.330 --> 00:45:02.416 have this information that advises
NOTE Confidence: 0.976003028571429
00:45:02.416 --> 00:45:05.537 these third doses and the answer to
NOTE Confidence: 0.976003028571429
00:45:05.537 --> 00:45:07.973 that is that antibody testing was done
NOTE Confidence: 0.976003028571429
00:45:07.973 --> 00:45:10.698 in the context of big research studies
NOTE Confidence: 0.976003028571429
00:45:10.698 --> 00:45:13.562 in labs that are doing good antibody
NOTE Confidence: 0.976003028571429

00:45:13.562 --> 00:45:16.719 testing and have given us this data.

NOTE Confidence: 0.976003028571429

00:45:16.720 --> 00:45:18.856 And we're hoping to learn more.

NOTE Confidence: 0.976003028571429

00:45:18.860 --> 00:45:20.897 This is obviously a very hot topic,

NOTE Confidence: 0.976003028571429

00:45:20.900 --> 00:45:22.636 and I think one that will continue

NOTE Confidence: 0.976003028571429

00:45:22.640 --> 00:45:24.872 to learn more about and ultimately

NOTE Confidence: 0.976003028571429

00:45:24.872 --> 00:45:26.996 hopefully have some standardized

NOTE Confidence: 0.976003028571429

00:45:26.996 --> 00:45:29.760 testing in the near future.

NOTE Confidence: 0.976003028571429

00:45:29.760 --> 00:45:30.184 But Scott,

NOTE Confidence: 0.976003028571429

00:45:30.184 --> 00:45:31.880 I don't know if you want to fill

NOTE Confidence: 0.976003028571429

00:45:31.931 --> 00:45:35.246 in any other because we just don't

NOTE Confidence: 0.976003028571429

00:45:35.246 --> 00:45:36.758 know how to interpret with the

NOTE Confidence: 0.976003028571429

00:45:36.758 --> 00:45:38.483 antibiotics mean in terms of whether

NOTE Confidence: 0.976003028571429

00:45:38.483 --> 00:45:39.619 that's clinically relevant and

NOTE Confidence: 0.976003028571429

00:45:39.619 --> 00:45:41.077 whether we should be tailoring a,

NOTE Confidence: 0.976003028571429

00:45:41.080 --> 00:45:41.532 you know,

NOTE Confidence: 0.976003028571429

00:45:41.532 --> 00:45:42.888 not giving a third dose to

NOTE Confidence: 0.976003028571429
00:45:42.888 --> 00:45:44.089 someone that has antibodies,
NOTE Confidence: 0.976003028571429
00:45:44.090 --> 00:45:47.818 and so the antibodies weren't really part of.
NOTE Confidence: 0.976003028571429
00:45:47.820 --> 00:45:50.354 Now giving a third dose and broad
NOTE Confidence: 0.976003028571429
00:45:50.354 --> 00:45:51.989 booster regiments if you think
NOTE Confidence: 0.976003028571429
00:45:51.989 --> 00:45:53.690 about other nations like Israel,
NOTE Confidence: 0.976003028571429
00:45:53.690 --> 00:45:56.730 and so I think the data that supports
NOTE Confidence: 0.976003028571429
00:45:56.730 --> 00:45:58.867 what we're doing is not really
NOTE Confidence: 0.976003028571429
00:45:58.867 --> 00:46:00.840 requiring the antibody levels.
NOTE Confidence: 0.976003028571429
00:46:00.840 --> 00:46:02.230 We do have ongoing clinical
NOTE Confidence: 0.976003028571429
00:46:02.230 --> 00:46:03.620 trial or not clinical trials,
NOTE Confidence: 0.976003028571429
00:46:03.620 --> 00:46:05.676 but observational prospective studies
NOTE Confidence: 0.976003028571429
00:46:05.676 --> 00:46:08.760 available for patients with blood cancer.
NOTE Confidence: 0.976003028571429
00:46:08.760 --> 00:46:11.184 So certainly folks that are interested
NOTE Confidence: 0.976003028571429
00:46:11.184 --> 00:46:13.480 in kind of contributing to science,
NOTE Confidence: 0.976003028571429
00:46:13.480 --> 00:46:15.690 and we have that available
NOTE Confidence: 0.976003028571429

00:46:15.690 --> 00:46:17.458 to get antibody test.
NOTE Confidence: 0.976003028571429

00:46:17.460 --> 00:46:19.630 But after the second dose.
NOTE Confidence: 0.976003028571429

00:46:19.630 --> 00:46:21.094 And also after the third dose
NOTE Confidence: 0.976003028571429

00:46:21.094 --> 00:46:22.070 in that month thereafter.
NOTE Confidence: 0.977503226363636

00:46:22.840 --> 00:46:24.310 So try and take them while you're
NOTE Confidence: 0.977503226363636

00:46:24.310 --> 00:46:25.560 answering all the immunotherapy.
NOTE Confidence: 0.977503226363636

00:46:25.560 --> 00:46:27.695 How long should I wait after receiving
NOTE Confidence: 0.977503226363636

00:46:27.695 --> 00:46:29.249 immunotherapy to receive the booster?
NOTE Confidence: 0.985862818214286

00:46:30.240 --> 00:46:32.032 Yeah, so you know, I think these are
NOTE Confidence: 0.985862818214286

00:46:32.032 --> 00:46:33.466 broad strokes in the sense that we
NOTE Confidence: 0.985862818214286

00:46:33.466 --> 00:46:34.933 do think that most of our patients
NOTE Confidence: 0.985862818214286

00:46:34.933 --> 00:46:36.373 should be having a third dose.
NOTE Confidence: 0.985862818214286

00:46:36.380 --> 00:46:38.024 The actual nuances about when the
NOTE Confidence: 0.985862818214286

00:46:38.024 --> 00:46:40.410 best timing is is really I think the
NOTE Confidence: 0.985862818214286

00:46:40.410 --> 00:46:41.945 discussion that many folks should
NOTE Confidence: 0.985862818214286

00:46:41.945 --> 00:46:43.867 have with their treating provider,

NOTE Confidence: 0.985862818214286
00:46:43.870 --> 00:46:45.970 particularly those unactive cancer therapy,
NOTE Confidence: 0.985862818214286
00:46:45.970 --> 00:46:47.414 including immunotherapy.
NOTE Confidence: 0.985862818214286
00:46:47.414 --> 00:46:49.580 There's some medications,
NOTE Confidence: 0.985862818214286
00:46:49.580 --> 00:46:51.148 and I use where I would typically
NOTE Confidence: 0.985862818214286
00:46:51.148 --> 00:46:52.520 try to wait three months,
NOTE Confidence: 0.985862818214286
00:46:52.520 --> 00:46:54.540 perhaps even six months after,
NOTE Confidence: 0.985862818214286
00:46:54.540 --> 00:46:56.660 because that blunt antibody response,
NOTE Confidence: 0.985862818214286
00:46:56.660 --> 00:46:58.200 but for other therapies it may be
NOTE Confidence: 0.985862818214286
00:46:58.200 --> 00:46:59.928 best to give it right, you know,
NOTE Confidence: 0.985862818214286
00:46:59.928 --> 00:47:00.516 during treatment.
NOTE Confidence: 0.985862818214286
00:47:00.516 --> 00:47:02.850 So I think those sort of questions
NOTE Confidence: 0.985862818214286
00:47:02.850 --> 00:47:04.345 you're seeing your provider regularly
NOTE Confidence: 0.985862818214286
00:47:04.345 --> 00:47:05.840 on treatment definitely ask them
NOTE Confidence: 0.985862818214286
00:47:05.891 --> 00:47:07.389 about the timing of the third dose.
NOTE Confidence: 0.979646976
00:47:08.210 --> 00:47:10.662 Thank you Lisa. Thank you, Scott.
NOTE Confidence: 0.979646976

00:47:10.662 --> 00:47:12.190 Anyone else? Anything else?
NOTE Confidence: 0.979646976

00:47:12.190 --> 00:47:14.836 We want to add Doctor Deshpande, anyone else?
NOTE Confidence: 0.979646976

00:47:14.836 --> 00:47:16.750 OK, Doctor Lustberg,
NOTE Confidence: 0.979646976

00:47:16.750 --> 00:47:18.364 there's a question here or whoever
NOTE Confidence: 0.979646976

00:47:18.364 --> 00:47:19.840 wants else wants to answer.
NOTE Confidence: 0.979646976

00:47:19.840 --> 00:47:22.927 This was received prior on a prescription
NOTE Confidence: 0.979646976

00:47:22.927 --> 00:47:25.650 drug for psoriatic arthritis tremfya.
NOTE Confidence: 0.979646976

00:47:25.650 --> 00:47:27.318 Their primary care has
NOTE Confidence: 0.979646976

00:47:27.318 --> 00:47:28.986 recommended an additional dose.
NOTE Confidence: 0.979646976

00:47:28.990 --> 00:47:30.908 Can they schedule an appointment for an
NOTE Confidence: 0.979646976

00:47:30.908 --> 00:47:32.728 additional dose of the Moderna vaccine?
NOTE Confidence: 0.979646976

00:47:32.730 --> 00:47:34.090 I'm going to hazard, yes,
NOTE Confidence: 0.979646976

00:47:34.090 --> 00:47:35.586 'cause it's a immunosuppressive,
NOTE Confidence: 0.979646976

00:47:35.586 --> 00:47:38.200 but I'd like someone else to just.
NOTE Confidence: 0.979646976

00:47:38.200 --> 00:47:40.810 Confirm yes, that's that's correct.
NOTE Confidence: 0.979646976

00:47:40.810 --> 00:47:44.350 Alright, good thanks Yep.

NOTE Confidence: 0.979646976

00:47:44.350 --> 00:47:45.020 Thank you,

NOTE Confidence: 0.9880117075

00:47:45.050 --> 00:47:47.626 can I just add on the scheduling website?

NOTE Confidence: 0.9880117075

00:47:47.630 --> 00:47:50.570 There is a list of immunosuppressive drugs.

NOTE Confidence: 0.9880117075

00:47:50.570 --> 00:47:52.210 It's not a comprehensive list,

NOTE Confidence: 0.9880117075

00:47:52.210 --> 00:47:53.974 but it does provide some guidance

NOTE Confidence: 0.9880117075

00:47:53.974 --> 00:47:55.744 if patients are wondering if the

NOTE Confidence: 0.9880117075

00:47:55.744 --> 00:47:57.094 drugs they're on meet criteria,

NOTE Confidence: 0.9880117075

00:47:57.100 --> 00:47:58.744 and if you're unsure,

NOTE Confidence: 0.9880117075

00:47:58.744 --> 00:48:00.440 I think Renee included

NOTE Confidence: 0.9872997225

00:48:00.450 --> 00:48:02.430 the call center number on the list

NOTE Confidence: 0.9872997225

00:48:02.430 --> 00:48:04.518 and you can also consult with your

NOTE Confidence: 0.98644854625

00:48:05.200 --> 00:48:07.000 provider that prescribes that

NOTE Confidence: 0.98644854625

00:48:07.000 --> 00:48:08.800 medication to get guidance,

NOTE Confidence: 0.98268593

00:48:08.810 --> 00:48:11.714 right? Yeah, I did actually check that list.

NOTE Confidence: 0.98268593

00:48:11.720 --> 00:48:13.466 Trump fire is not on it. So again,

NOTE Confidence: 0.98268593

00:48:13.466 --> 00:48:15.374 to this point it's not comprehensive.
NOTE Confidence: 0.98268593

00:48:15.380 --> 00:48:17.256 But it is a interleukin 23 inhibitor
NOTE Confidence: 0.98268593

00:48:17.256 --> 00:48:19.378 I think, so it it it it buys.
NOTE Confidence: 0.98268593

00:48:19.380 --> 00:48:21.594 I mean it's it suppresses your
NOTE Confidence: 0.98268593

00:48:21.594 --> 00:48:23.070 immune system so absolutely.
NOTE Confidence: 0.98672421

00:48:24.300 --> 00:48:25.780 There's a question also on.
NOTE Confidence: 0.98672421

00:48:25.780 --> 00:48:27.695 I've received my third Pfizer
NOTE Confidence: 0.98672421

00:48:27.695 --> 00:48:29.244 shot outside of the system.
NOTE Confidence: 0.98672421

00:48:29.244 --> 00:48:31.659 How do I mark that on my chart?
NOTE Confidence: 0.98672421

00:48:31.660 --> 00:48:32.980 I think that's a good question,
NOTE Confidence: 0.98672421

00:48:32.980 --> 00:48:34.790 and if someone can sure
NOTE Confidence: 0.983036415714286

00:48:34.970 --> 00:48:38.136 yes. I mean the nice thing about as long as
NOTE Confidence: 0.983036415714286

00:48:38.136 --> 00:48:40.470 you receive that in the state of Connecticut,
NOTE Confidence: 0.983036415714286

00:48:40.470 --> 00:48:43.332 there's a there's a statewide database
NOTE Confidence: 0.983036415714286

00:48:43.332 --> 00:48:46.328 that every vaccine provider sends data to.
NOTE Confidence: 0.983036415714286

00:48:46.330 --> 00:48:48.878 And as of about two months ago,

NOTE Confidence: 0.983036415714286
00:48:48.880 --> 00:48:51.826 I believe our Yale New Haven
NOTE Confidence: 0.983036415714286
00:48:51.826 --> 00:48:54.160 Health version of EPIC downloads.
NOTE Confidence: 0.983036415714286
00:48:54.160 --> 00:48:57.050 All the data, so it doesn't really matter
NOTE Confidence: 0.983036415714286
00:48:57.050 --> 00:48:59.987 whether or not you got it through us or or
NOTE Confidence: 0.983036415714286
00:48:59.987 --> 00:49:02.320 someone else in the state of Connecticut,
NOTE Confidence: 0.983036415714286
00:49:02.320 --> 00:49:03.680 those data are automatically
NOTE Confidence: 0.983036415714286
00:49:03.680 --> 00:49:06.080 populated and will show up in epic.
NOTE Confidence: 0.983036415714286
00:49:06.080 --> 00:49:10.085 Now if you did get it out of state.
NOTE Confidence: 0.983036415714286
00:49:10.090 --> 00:49:12.277 I believe we have a process through my chart
NOTE Confidence: 0.983036415714286
00:49:12.277 --> 00:49:14.268 that we're working on putting together.
NOTE Confidence: 0.983036415714286
00:49:14.270 --> 00:49:16.606 I don't know that it's it's fully baked,
NOTE Confidence: 0.983036415714286
00:49:16.610 --> 00:49:18.968 but if you if you did receive it somewhere
NOTE Confidence: 0.983036415714286
00:49:18.968 --> 00:49:20.728 anywhere in the state of Connecticut,
NOTE Confidence: 0.983036415714286
00:49:20.730 --> 00:49:21.854 that data will automatically
NOTE Confidence: 0.983036415714286
00:49:21.854 --> 00:49:23.259 show up in an epic.
NOTE Confidence: 0.9880681

00:49:23.980 --> 00:49:26.518 That's wonderful, I think this is,
NOTE Confidence: 0.9880681

00:49:26.520 --> 00:49:27.870 you know, I'm still grappling my
NOTE Confidence: 0.9880681

00:49:27.870 --> 00:49:29.857 and I think many of us are still
NOTE Confidence: 0.9880681

00:49:29.857 --> 00:49:31.157 understanding about the third dose.
NOTE Confidence: 0.9880681

00:49:31.160 --> 00:49:32.615 But someone asked when will
NOTE Confidence: 0.9880681

00:49:32.615 --> 00:49:33.779 you need another booster?
NOTE Confidence: 0.9880681

00:49:33.780 --> 00:49:36.000 How many months after Will
NOTE Confidence: 0.9880681

00:49:36.000 --> 00:49:38.220 4th doses be recommended so?
NOTE Confidence: 0.9880681

00:49:38.220 --> 00:49:39.885 Really insightful questions.
NOTE Confidence: 0.9880681

00:49:39.885 --> 00:49:42.105 I'm from Doctor Deshpande.
NOTE Confidence: 0.9880681

00:49:42.110 --> 00:49:43.760 You're going to take that one again. Also,
NOTE Confidence: 0.93941742

00:49:43.810 --> 00:49:45.430 I I can get. I can hazard a guess.
NOTE Confidence: 0.93941742

00:49:45.430 --> 00:49:48.175 I mean, I, you know, I think the the key
NOTE Confidence: 0.93941742

00:49:48.175 --> 00:49:50.970 thing is these vaccines are are great,
NOTE Confidence: 0.93941742

00:49:50.970 --> 00:49:53.410 but I think one of what we are
NOTE Confidence: 0.93941742

00:49:53.410 --> 00:49:55.854 seeing is that as the virus changes,

NOTE Confidence: 0.93941742

00:49:55.854 --> 00:49:57.659 the vaccines that currently that

NOTE Confidence: 0.93941742

00:49:57.659 --> 00:50:00.135 were initially programmed may be less

NOTE Confidence: 0.93941742

00:50:00.135 --> 00:50:02.185 effective against the the changing

NOTE Confidence: 0.93941742

00:50:02.249 --> 00:50:04.269 physical nature of these viruses.

NOTE Confidence: 0.93941742

00:50:04.270 --> 00:50:06.340 So I think the question about when are we

NOTE Confidence: 0.93941742

00:50:06.340 --> 00:50:09.150 in need another dose depends on how the.

NOTE Confidence: 0.93941742

00:50:09.150 --> 00:50:12.792 Pandemic looks globally if another type of

NOTE Confidence: 0.93941742

00:50:12.792 --> 00:50:16.760 variant of of of COVID-19 evolves at that.

NOTE Confidence: 0.93941742

00:50:16.760 --> 00:50:18.290 Against which our current vaccines

NOTE Confidence: 0.93941742

00:50:18.290 --> 00:50:19.820 are current or less affected.

NOTE Confidence: 0.93941742

00:50:19.820 --> 00:50:21.278 You know, on the positive side,

NOTE Confidence: 0.93941742

00:50:21.280 --> 00:50:22.915 these companies have the ability

NOTE Confidence: 0.93941742

00:50:22.915 --> 00:50:24.886 to so called, you know,

NOTE Confidence: 0.93941742

00:50:24.886 --> 00:50:26.858 essentially reprogram the vaccine

NOTE Confidence: 0.93941742

00:50:26.858 --> 00:50:29.206 fairly quickly and trot out new

NOTE Confidence: 0.93941742

00:50:29.206 --> 00:50:31.920 versions as the as the virus evolves.

NOTE Confidence: 0.93941742

00:50:31.920 --> 00:50:33.462 We haven't seen that the second

NOTE Confidence: 0.93941742

00:50:33.462 --> 00:50:34.233 that you know,

NOTE Confidence: 0.93941742

00:50:34.240 --> 00:50:36.676 the 2.0 version of these vaccines yet,

NOTE Confidence: 0.93941742

00:50:36.680 --> 00:50:38.492 but just the nature of especially

NOTE Confidence: 0.93941742

00:50:38.492 --> 00:50:39.700 the M RNA technology,

NOTE Confidence: 0.93941742

00:50:39.700 --> 00:50:42.076 is such that the time to develop a

NOTE Confidence: 0.93941742

00:50:42.080 --> 00:50:44.096 a the next version is very rapid,

NOTE Confidence: 0.93941742

00:50:44.100 --> 00:50:47.088 so it it really depends on when as the.

NOTE Confidence: 0.93941742

00:50:47.090 --> 00:50:47.898 How the pandemic goes,

NOTE Confidence: 0.93941742

00:50:47.898 --> 00:50:49.570 but it might be a year from now.

NOTE Confidence: 0.93941742

00:50:49.570 --> 00:50:51.370 It really depends on what vaccines

NOTE Confidence: 0.93941742

00:50:51.370 --> 00:50:52.770 were there variants excuse me,

NOTE Confidence: 0.93941742

00:50:52.770 --> 00:50:53.200 arise

NOTE Confidence: 0.980910321578947

00:50:53.360 --> 00:50:54.944 yeah and I think part of it of

NOTE Confidence: 0.980910321578947

00:50:54.944 --> 00:50:56.285 course depends not only on what

NOTE Confidence: 0.980910321578947
00:50:56.285 --> 00:50:57.410 the variants arise of course,
NOTE Confidence: 0.980910321578947
00:50:57.410 --> 00:50:59.860 and also how in Connecticut has done
NOTE Confidence: 0.980910321578947
00:50:59.860 --> 00:51:02.623 a fabulous job on things like social
NOTE Confidence: 0.980910321578947
00:51:02.623 --> 00:51:04.215 distancing and respiratory's and all
NOTE Confidence: 0.980910321578947
00:51:04.215 --> 00:51:05.490 the protection and hand hygiene.
NOTE Confidence: 0.980910321578947
00:51:05.490 --> 00:51:08.160 So again, I think good questions.
NOTE Confidence: 0.980910321578947
00:51:08.160 --> 00:51:10.407 Things will will keep these forms going
NOTE Confidence: 0.980910321578947
00:51:10.407 --> 00:51:12.670 to just keep all of you informed.
NOTE Confidence: 0.980910321578947
00:51:12.670 --> 00:51:14.295 Thank you Renee for putting
NOTE Confidence: 0.980910321578947
00:51:14.295 --> 00:51:15.658 the phone number 833.
NOTE Confidence: 0.980910321578947
00:51:15.658 --> 00:51:18.374 Ask why NHH for vaccine information and.
NOTE Confidence: 0.980910321578947
00:51:18.380 --> 00:51:21.495 To schedule the website information is there,
NOTE Confidence: 0.980910321578947
00:51:21.500 --> 00:51:23.396 I think the last there's another
NOTE Confidence: 0.980910321578947
00:51:23.396 --> 00:51:25.291 question about I've had two Pfizer
NOTE Confidence: 0.980910321578947
00:51:25.291 --> 00:51:27.013 shots and the booster and they
NOTE Confidence: 0.980910321578947

00:51:27.013 --> 00:51:28.779 never got a physical reaction.
NOTE Confidence: 0.980910321578947

00:51:28.780 --> 00:51:30.838 And I think a lot of us, you know,
NOTE Confidence: 0.980910321578947

00:51:30.838 --> 00:51:32.826 think that we get a physical reaction.
NOTE Confidence: 0.980910321578947

00:51:32.830 --> 00:51:33.673 I'm forming antibody.
NOTE Confidence: 0.980910321578947

00:51:33.673 --> 00:51:34.797 How true is that?
NOTE Confidence: 0.980955376666667

00:51:37.400 --> 00:51:40.040 Doctor Deshpande, I think you're it. OK,
NOTE Confidence: 0.938830363333333

00:51:40.070 --> 00:51:42.938 yeah, it it. Actually you know,
NOTE Confidence: 0.938830363333333

00:51:42.940 --> 00:51:44.866 I think the the physical reactions,
NOTE Confidence: 0.938830363333333

00:51:44.870 --> 00:51:46.302 the side effects that
NOTE Confidence: 0.938830363333333

00:51:46.302 --> 00:51:47.734 that you may experience.
NOTE Confidence: 0.938830363333333

00:51:47.740 --> 00:51:48.516 Our confirmatory,
NOTE Confidence: 0.938830363333333

00:51:48.516 --> 00:51:50.456 but they are not required,
NOTE Confidence: 0.938830363333333

00:51:50.460 --> 00:51:53.132 so the the it's it was very well
NOTE Confidence: 0.938830363333333

00:51:53.132 --> 00:51:54.762 characterized that there were
NOTE Confidence: 0.938830363333333

00:51:54.762 --> 00:51:56.722 individuals who really, you know,
NOTE Confidence: 0.938830363333333

00:51:56.722 --> 00:51:58.899 went through the the two dose series

NOTE Confidence: 0.9388303633333333

00:51:58.899 --> 00:52:01.057 without any issues with really feeling.

NOTE Confidence: 0.9388303633333333

00:52:01.060 --> 00:52:03.430 Just great not having anything and

NOTE Confidence: 0.9388303633333333

00:52:03.430 --> 00:52:05.381 they absolutely had equivalent or

NOTE Confidence: 0.9388303633333333

00:52:05.381 --> 00:52:07.509 the same sort of protection in terms

NOTE Confidence: 0.9388303633333333

00:52:07.509 --> 00:52:09.460 of getting symptomatic COVID-19.

NOTE Confidence: 0.9388303633333333

00:52:09.460 --> 00:52:10.732 And certainly you know,

NOTE Confidence: 0.9388303633333333

00:52:10.732 --> 00:52:12.004 being hospitalized from COVID-19

NOTE Confidence: 0.9388303633333333

00:52:12.004 --> 00:52:13.960 so the vaccines can protect you.

NOTE Confidence: 0.9388303633333333

00:52:13.960 --> 00:52:15.724 The fact that you don't have these

NOTE Confidence: 0.9388303633333333

00:52:15.724 --> 00:52:17.130 reactions doesn't really mean anything.

NOTE Confidence: 0.9840210733333333

00:52:18.480 --> 00:52:19.808 Doctor Huntington, Dr Billingsly

NOTE Confidence: 0.9840210733333333

00:52:19.808 --> 00:52:22.135 anything else you'd like to add for

NOTE Confidence: 0.9840210733333333

00:52:22.135 --> 00:52:24.088 our cancer patients in regards to that?

NOTE Confidence: 0.97263038125

00:52:27.920 --> 00:52:30.840 No, I I do want to make sure.

NOTE Confidence: 0.97263038125

00:52:30.840 --> 00:52:32.814 Have we touched on any questions

NOTE Confidence: 0.97263038125

00:52:32.814 --> 00:52:35.109 about the Johnson and Johnson vaccine

NOTE Confidence: 0.96308740625

00:52:35.380 --> 00:52:37.356 we did be talking. There were a couple

NOTE Confidence: 0.95483832625

00:52:37.370 --> 00:52:39.164 longsword addressing that

NOTE Confidence: 0.95483832625

00:52:39.164 --> 00:52:42.154 a little bit because I.

NOTE Confidence: 0.95483832625

00:52:42.160 --> 00:52:43.465 I have gotten some questions

NOTE Confidence: 0.95483832625

00:52:43.465 --> 00:52:45.060 from my own patients about that,

NOTE Confidence: 0.95483832625

00:52:45.060 --> 00:52:47.967 and it's a small number and I I just

NOTE Confidence: 0.95483832625

00:52:47.967 --> 00:52:50.388 do want to underscore to our patients

NOTE Confidence: 0.95483832625

00:52:50.388 --> 00:52:52.918 and families that there will we that

NOTE Confidence: 0.95483832625

00:52:52.918 --> 00:52:55.158 if you've had J&J you've not been

NOTE Confidence: 0.95483832625

00:52:55.158 --> 00:52:57.438 forgotten and there will be more

NOTE Confidence: 0.95483832625

00:52:57.438 --> 00:52:59.010 information coming very quickly.

NOTE Confidence: 0.98125154

00:53:01.430 --> 00:53:03.656 I think I'd just like to add

NOTE Confidence: 0.98125154

00:53:03.656 --> 00:53:05.130 that even with a third dose,

NOTE Confidence: 0.98125154

00:53:05.130 --> 00:53:06.276 there may be patients out there

NOTE Confidence: 0.98125154

00:53:06.276 --> 00:53:07.539 that they don't have a response

NOTE Confidence: 0.98125154

00:53:07.539 --> 00:53:08.447 to the antibody treatment,

NOTE Confidence: 0.98125154

00:53:08.450 --> 00:53:10.292 and I think we're really fortunate

NOTE Confidence: 0.98125154

00:53:10.292 --> 00:53:12.010 enough to have a backup,

NOTE Confidence: 0.98125154

00:53:12.010 --> 00:53:13.690 which is the monoclonal code

NOTE Confidence: 0.98125154

00:53:13.690 --> 00:53:15.370 antibody therapy that I think

NOTE Confidence: 0.98125154

00:53:15.437 --> 00:53:17.177 Gail's done a really good job.

NOTE Confidence: 0.98125154

00:53:17.180 --> 00:53:18.920 Integrating into the care of patients

NOTE Confidence: 0.98125154

00:53:18.920 --> 00:53:20.470 with cancer and without cancer.

NOTE Confidence: 0.98125154

00:53:20.470 --> 00:53:23.456 And so if there's any concern of COVID

NOTE Confidence: 0.98125154

00:53:23.456 --> 00:53:24.680 when they've been vaccine or not,

NOTE Confidence: 0.98125154

00:53:24.680 --> 00:53:25.904 vaccinate getting tested

NOTE Confidence: 0.98125154

00:53:25.904 --> 00:53:27.536 and if it's positive,

NOTE Confidence: 0.98125154

00:53:27.540 --> 00:53:29.376 calling your provider kind of immediately

NOTE Confidence: 0.98125154

00:53:29.376 --> 00:53:31.190 to get the monoclonal antibodies.

NOTE Confidence: 0.98125154

00:53:31.190 --> 00:53:32.910 I really think reduces hospitalizations

NOTE Confidence: 0.98125154

00:53:32.910 --> 00:53:34.630 and likely saves lives in
NOTE Confidence: 0.98125154

00:53:34.684 --> 00:53:35.779 particularly these vulnerable
NOTE Confidence: 0.98125154

00:53:35.779 --> 00:53:37.969 patients that they may not respond
NOTE Confidence: 0.98125154

00:53:37.969 --> 00:53:39.818 even through the three vaccines.
NOTE Confidence: 0.98125154

00:53:39.820 --> 00:53:41.446 So I think that that's important.
NOTE Confidence: 0.935327657608696

00:53:42.710 --> 00:53:44.595 Any closing words from doctor
NOTE Confidence: 0.935327657608696

00:53:44.595 --> 00:53:46.870 you came slosser others any other
NOTE Confidence: 0.935327657608696

00:53:46.870 --> 00:53:49.138 closing words from all of you eye
NOTE Confidence: 0.935327657608696

00:53:49.138 --> 00:53:51.110 on things we haven't covered?
NOTE Confidence: 0.935327657608696

00:53:51.110 --> 00:53:52.238 I covered a lot.
NOTE Confidence: 0.935327657608696

00:53:52.240 --> 00:53:53.266 I have to tell you there
NOTE Confidence: 0.935327657608696

00:53:53.266 --> 00:53:54.680 were a lot of good questions.
NOTE Confidence: 0.98842346625

00:53:54.730 --> 00:53:56.658 I would just say that that for those
NOTE Confidence: 0.978240424285714

00:53:56.670 --> 00:53:57.986 of you at home who are wondering,
NOTE Confidence: 0.978240424285714

00:53:57.990 --> 00:53:59.750 you know, do I delay care because
NOTE Confidence: 0.978240424285714

00:53:59.750 --> 00:54:00.850 I haven't gotten the booster

NOTE Confidence: 0.98705513

00:54:00.860 --> 00:54:01.880 or this or that.

NOTE Confidence: 0.98705513

00:54:01.880 --> 00:54:02.912 Please know that the hospital

NOTE Confidence: 0.98705513

00:54:02.912 --> 00:54:04.489 is a very safe place to be.

NOTE Confidence: 0.98705513

00:54:04.489 --> 00:54:07.446 Do not delay your care if you

NOTE Confidence: 0.98705513

00:54:07.446 --> 00:54:09.390 have any uncertainty, talk

NOTE Confidence: 0.9837074

00:54:09.400 --> 00:54:11.032 to your care provider.

NOTE Confidence: 0.9837074

00:54:11.032 --> 00:54:12.978 But cancer is. Is a very

NOTE Confidence: 0.982232804545454

00:54:12.990 --> 00:54:14.832 important thing to get treated even

NOTE Confidence: 0.982232804545454

00:54:14.832 --> 00:54:16.730 when there's a COVID virus floating

NOTE Confidence: 0.982232804545454

00:54:16.730 --> 00:54:18.378 around, so do not delay your care

NOTE Confidence: 0.989266624

00:54:18.600 --> 00:54:19.660 and we're here for you.

NOTE Confidence: 0.96166052625

00:54:20.060 --> 00:54:21.072 Thank you, doctor you.

NOTE Confidence: 0.96166052625

00:54:21.072 --> 00:54:22.084 I think doctor Lustberg.

NOTE Confidence: 0.96166052625

00:54:22.090 --> 00:54:24.178 I think you commented earlier in

NOTE Confidence: 0.96166052625

00:54:24.178 --> 00:54:26.986 the the hour about how we saw delays

NOTE Confidence: 0.96166052625

00:54:26.986 --> 00:54:29.270 last year and that we're seeing on.
NOTE Confidence: 0.96166052625

00:54:29.270 --> 00:54:31.692 So please, please, please do your cancer
NOTE Confidence: 0.96166052625

00:54:31.692 --> 00:54:34.029 screenings if your or your surveillance.
NOTE Confidence: 0.96166052625

00:54:34.030 --> 00:54:35.680 Those are important.
NOTE Confidence: 0.96166052625

00:54:35.680 --> 00:54:37.580 And then Mr. Armstrong.
NOTE Confidence: 0.96166052625

00:54:37.580 --> 00:54:39.318 I think we did it. You know,
NOTE Confidence: 0.96166052625

00:54:39.318 --> 00:54:41.270 if it isn't clear enable reach out.
NOTE Confidence: 0.96166052625

00:54:41.270 --> 00:54:42.686 But no, we're not testing for.
NOTE Confidence: 0.96166052625

00:54:42.690 --> 00:54:44.414 Antibodies after the vaccine
NOTE Confidence: 0.96166052625

00:54:44.414 --> 00:54:46.569 to see how we responded.
NOTE Confidence: 0.96166052625

00:54:46.570 --> 00:54:47.810 Once again thank you to
NOTE Confidence: 0.96166052625

00:54:47.810 --> 00:54:49.270 all of you for joining in.
NOTE Confidence: 0.96166052625

00:54:49.270 --> 00:54:51.622 We will keep these as as repeating
NOTE Confidence: 0.96166052625

00:54:51.622 --> 00:54:54.754 sessions as we learn more as hopefully we
NOTE Confidence: 0.96166052625

00:54:54.754 --> 00:54:57.429 understand more about the booster for J&J,
NOTE Confidence: 0.96166052625

00:54:57.430 --> 00:54:59.768 or as we hear more about cancer,

NOTE Confidence: 0.96166052625

00:54:59.770 --> 00:55:01.070 people who care givers and

NOTE Confidence: 0.96166052625

00:55:01.070 --> 00:55:02.370 then they would be eligible.

NOTE Confidence: 0.96166052625

00:55:02.370 --> 00:55:04.800 'cause I sensed a lot of

NOTE Confidence: 0.96166052625

00:55:04.800 --> 00:55:06.015 questions around that.

NOTE Confidence: 0.96166052625

00:55:06.020 --> 00:55:06.800 As always,

NOTE Confidence: 0.96166052625

00:55:06.800 --> 00:55:09.140 please reach out to us as

NOTE Confidence: 0.96166052625

00:55:09.140 --> 00:55:11.000 cancer answers at yale.edu.
