NOTE Confidence: 0.90812093

00:00:00.000 --> 00:00:02.655 Hi, my name is Henry Park and I'm a

NOTE Confidence: 0.90812093

 $00:00:02.655 \longrightarrow 00:00:04.588$ radiation oncologist here at Yale.

NOTE Confidence: 0.90812093

 $00:00:04.590 \longrightarrow 00:00:06.382$ I treat cancers of the lung and

NOTE Confidence: 0.90812093

 $00:00:06.382 \longrightarrow 00:00:08.501$ the head and neck so I chose

NOTE Confidence: 0.90812093

 $00:00:08.501 \longrightarrow 00:00:10.116$ radiation oncology as a specialty,

NOTE Confidence: 0.90812093

 $00:00:10.120 \longrightarrow 00:00:11.575$ mostly because of the relationships

NOTE Confidence: 0.90812093

 $00:00:11.575 \longrightarrow 00:00:12.739$ I have with patients.

NOTE Confidence: 0.90812093

 $00:00:12.740 \longrightarrow 00:00:14.847$ I really enjoy the ability to cure

NOTE Confidence: 0.90812093

 $00:00:14.847 \longrightarrow 00:00:16.780$ many patients cancers and if I'm not

NOTE Confidence: 0.90812093

 $00{:}00{:}16.780 \longrightarrow 00{:}00{:}18.925$ able to cure their cancer then to at

NOTE Confidence: 0.90812093

 $00{:}00{:}18.925 \dashrightarrow 00{:}00{:}20.827$ least relieve their symptoms to improve

NOTE Confidence: 0.90812093

 $00:00:20.827 \longrightarrow 00:00:22.785$ their quality of life and to extend

NOTE Confidence: 0.90812093

 $00:00:22.785 \longrightarrow 00:00:24.670$ their survival as much as possible.

NOTE Confidence: 0.90812093

 $00:00:24.670 \longrightarrow 00:00:26.728$ I think radiation therapy has improved

NOTE Confidence: 0.90812093

 $00{:}00{:}26.728 \dashrightarrow 00{:}00{:}29.027$ substantially in the past ten years in

NOTE Confidence: 0.90812093

 $00:00:29.027 \longrightarrow 00:00:30.773$ terms of its accuracy and precision.

NOTE Confidence: 0.90812093

 $00:00:30.780 \longrightarrow 00:00:32.523$ Both with imaging as well as the

NOTE Confidence: 0.90812093

 $00:00:32.523 \longrightarrow 00:00:34.210$ actual delivery of radiation therapy.

NOTE Confidence: 0.90812093

00:00:34.210 --> 00:00:35.746 We've also learned how to combine

NOTE Confidence: 0.90812093

 $00:00:35.746 \longrightarrow 00:00:37.125$ radiation even better with what's

NOTE Confidence: 0.90812093

 $00{:}00{:}37.125 \dashrightarrow 00{:}00{:}38.680$ called systemic therapy or novel

NOTE Confidence: 0.90812093

 $00{:}00{:}38.680 \dashrightarrow 00{:}00{:}39.924$ drugs that include immunotherapy.

NOTE Confidence: 0.90812093

00:00:39.930 --> 00:00:41.616 So we're I think achieving some

NOTE Confidence: 0.90812093

 $00:00:41.616 \longrightarrow 00:00:43.359$ of the best outcomes that we've

NOTE Confidence: 0.90812093

 $00:00:43.359 \longrightarrow 00:00:45.326$ seen in history when it comes to

NOTE Confidence: 0.90812093

 $00:00:45.326 \longrightarrow 00:00:46.800$ treating some kind of cancers.

NOTE Confidence: 0.90812093

 $00:00:46.800 \longrightarrow 00:00:48.753$ I think patients can help a lot by at

NOTE Confidence: 0.90812093

 $00:00:48.753 \longrightarrow 00:00:50.420$ the initial consultations by bringing

NOTE Confidence: 0.90812093

 $00:00:50.420 \longrightarrow 00:00:52.514$ family and friends to the visit,

NOTE Confidence: 0.90812093

 $00:00:52.520 \longrightarrow 00:00:54.515$ or at least having them listen in.

NOTE Confidence: 0.90812093

 $00{:}00{:}54.520 {\:{\mbox{--}}\!>} 00{:}00{:}56.683$ I think it's very useful to have

NOTE Confidence: 0.90812093

 $00{:}00{:}56.683 \dashrightarrow 00{:}00{:}58.915$ a second set of ears at least

NOTE Confidence: 0.90812093

 $00:00:58.915 \longrightarrow 00:01:00.769$ two to hear what's going on.

NOTE Confidence: 0.90812093

 $00{:}01{:}00.770 \longrightarrow 00{:}01{:}02.822$ I think it's important that patients

NOTE Confidence: 0.90812093

 $00:01:02.822 \longrightarrow 00:01:04.956$ ask clarifying questions or to fill in

NOTE Confidence: 0.90812093

 $00:01:04.956 \longrightarrow 00:01:06.944$ any any missing gaps that we have as

NOTE Confidence: 0.90812093

 $00:01:06.944 \longrightarrow 00:01:09.208$ well so that they really have a full

NOTE Confidence: 0.90812093

 $00:01:09.208 \longrightarrow 00:01:10.850$ understanding of what's what's going on

NOTE Confidence: 0.90812093

 $00{:}01{:}10.850 \dashrightarrow 00{:}01{:}12.990$ and what the risks and benefits are.

NOTE Confidence: 0.90812093

 $00:01:12.990 \longrightarrow 00:01:14.830$ I'd like them to be sure that they

NOTE Confidence: 0.90812093

 $00:01:14.830 \longrightarrow 00:01:16.760$ they are very comfortable in any

NOTE Confidence: 0.90812093

 $00:01:16.760 \longrightarrow 00:01:18.520$ decision they make about treatment.

NOTE Confidence: 0.90812093

00:01:18.520 --> 00:01:20.797 I'd like my patients to know that I pay

NOTE Confidence: 0.90812093

 $00:01:20.797 \longrightarrow 00:01:22.888$ very close attention to the details,

NOTE Confidence: 0.90812093

 $00{:}01{:}22.890 \dashrightarrow 00{:}01{:}25.002$ but also try to keep a big picture

NOTE Confidence: 0.90812093

 $00:01:25.002 \longrightarrow 00:01:27.234$ view on how the cancer and the

NOTE Confidence: 0.90812093

 $00{:}01{:}27.234 \longrightarrow 00{:}01{:}29.000$ treatment of cancer fits into a

NOTE Confidence: 0.91336673

00:01:29.000 --> 00:01:29.870 patients overall life.
