The Smilow Cancer Hospital Care Centers in Guilford and Old Saybrook provide access to expert cancer care and treatment to patients and families along the Connecticut shoreline and surrounding communities.

We recognize that a cancer diagnosis can affect every aspect of life for you and your loved ones; our dedicated physicians and support staff are committed to providing care for every area. In addition to extensive clinical services, our Smilow Cancer Hospital Care Centers offer complementary support services for patients, their family members, and caregivers.

PRACTICE AT A GLANCE

- A patient-centered focus on exceptional cancer care
- 50+ staff members; oncology board certified clinicians
- Medical Oncology: Over 900 patient visits and 700 infusion visits per month
- Radiation Oncology: 500+ radiation patient visits monthly
- A Smilow Surgical Specialty Center, including breast and melanoma surgery
- On site diagnostic imaging, pharmacy, and clinical trials
- Access to supportive care clinicians, including an oncology nurse coordinator, social workers, a dietician, clinical research staff, palliative care, and survivorship planning
- Access to Integrative Medicine services, including massage, Reiki, acupuncture, music therapy, and psychology

Meet Our Radiation Oncologists

OUR CLINICAL SERVICES INCLUDE

ONCOLOGY/HEMATOLOGY: care from compassionate, board certified hematology/oncology physicians providing chemotherapy and infusion treatments, and management of non-cancerous disorders of the blood

RADIATION ONCOLOGY: state-of-the-art radiation services for patients, with personalized treatment planning, including Deep Inspiration Breath Hold (DIBH) therapy for left-sided breast cancer patients

ONCOLOGY NURSES: all nurses are certified by the Oncology Nursing Society

CLINICAL TRIALS: access to the latest clinical trials through Yale Cancer Center, Connecticut’s only National Cancer Institute designated Comprehensive Cancer Center

GENETIC TESTING: by a licensed genetic counselor to look for inherited reasons for development of cancer

LAB SERVICES: available onsite for the convenience of patients receiving treatment at the Care Center

ONCOLOGY PHARMACY: chemotherapy pharmacy staffed by experienced Clinical Pharmacists with certifications in oncology pharmacy
