

Yale Radiation Oncology Welcomes New Doctors

Nadine Housri MD

Dr. Housri is Co-Founder and Chief Medical Officer of theMednet.org, the largest Q&A site for oncologists in the United States. Prior

to coming to Yale, she was a Clinical Assistant Professor at Rutgers Robert Wood Johnson Medical School. A graduate of the University of Miami Miller School of Medicine, she completed her fellowship at Yale School of Medicine and her residency at Rutgers. She is currently a member of the American Society for Radiation Oncology (ASTRO), the ASTRO State Captain Initiative, and the American Society for Clinical Oncology (ASCO).

Dr. Housri's clinical focus is in thoracic oncology and stereotactic radiosurgery. She cares for patients at the Smilow Care Center at Trumbull, located at the Park Avenue Medical Center, Garden Level, 5520 Park Avenue in Trumbull, CT.

For appointments, please call: (203) 200-2000

Henry S. Park MD, MPH

Dr. Park served as Chief Resident in Radiation Oncology at Yale New Haven Hospital and was recently appointed as Assistant Clinical Professor for

the Department of Therapeutic Radiology. He received his medical degree from Yale School of Medicine and completed his internship at Beth Israel Deaconess Medical Center. He returned to Yale for his residency in Radiation Oncology and led the development of a tool known as sequential landmark analysis, which helps to minimize the inherent biases of retrospective analysis.

Dr. Park specializes in radiation therapy for brain and spine cancer, head and neck cancers, lung cancer, prostate cancer, and lymphoma. He sees patients at Smilow Cancer Hospital as well as the Smilow Cancer Hospital Care Center at Waterford, located at Lawrence + Memorial Hospital, 230 Waterford Parkway South, Waterford, CT.

For appointments, please call: (203) 200-2000

Kirtesh Patel MD

Dr. Patel received his medical degree from New York University School of Medicine and completed his internship and residency at Emory

University, where he served as an Assistant Professor in their Department of Radiation Oncology. In 2016, he received a Young Investigator Award from the Connective Tissue Oncology Society. He is currently part of a phase I clinical trial looking at stereotactic radiation surgery for melanoma brain metastasis.

Dr. Patel's clinical area of expertise is in the treatment of brain and spine cancer, head and neck cancers, lung cancer, prostate cancer, and gastrointestinal cancers. He sees patients at the Smilow Cancer Hospital Care Center at Trumbull and also in Hamden at 2080 Whitney Avenue.
