Fast response and assurance in one phone call.

Our 24/7 Y Access line is a single-source center exclusively for physicians. With one call, you can speak to a clinician who is ready to expedite your request for a transfer to Smilow Cancer Hospital at Yale-New Haven.

At the Y Access Line, we:
- Identify an appropriate cancer specialist
- Ensure connection with a receiving attending physician
- Facilitate arrangements for a patient transfer
- Obtain patient evaluations and progress reports

We respect your primary role in the ongoing management of your patient’s care. Our mission is to address the needs of your patient in an efficient manner and to provide ongoing clinical data access and communications regarding his or her condition.

Y Access Line: **888.YNHH.BED**

Our teams of physicians represent every cancer specialty and are recruited from some of the world’s leading cancer institutions. In addition to providing comprehensive, compassionate cancer treatment, they collaborate with Yale Cancer Center’s internationally recognized researchers to translate cutting-edge discoveries into the most advanced cancer care available. This includes the ability to study the genetic mutations of individual tumors to develop targeted treatments, immunotherapies, and prevention strategies to improve outcomes for our patients.

Patients have access to more than 100 clinical trials and benefit from an extensive array of specialty services, including cardiotoxicity and oncodermatology services, supportive services and survivorship care, exercise and nutrition support. In addition, Smilow Cancer Hospital’s Care Centers offer patients convenient medical treatment close to home.

Yale-New Haven Hospital’s cancer services rank among the best in the United States by U.S. News & World Report.

Smilow Cancer Hospital at Yale-New Haven is a member of the National Comprehensive Cancer Network.
