Origami Cranes

A symbol of peace, love, hope and healing during challenging times.

There is an ancient Japanese legend which says that anyone who receives one thousand paper cranes will be granted a wish by a mystical crane. Collectively folding as a group, we extend this wish for all and work towards creating a beautiful installation for our Smilow Community.

Watch this video and follow along to make your own origami crane:  yalecancercenter.org/media-player/origami-crane-instructions/

To contribute to the display at Smilow, please send us your folded cranes.
